

Welcome to the TENNESSEE

Yellow DOT Program!

The Tennessee **Yellow DOT** Program is designed to supply first responders with an individual's medical information in the event of an emergency.

This information can mean the difference between life and death in the "Golden Hour" immediately following a serious crash.

"The Tennessee Yellow DOT Program can save lives."

COUNT ON THE YELLOW DOT

WHY DO IT?

Medical personnel can make the best decision regarding emergency treatment when they know a crash victim's medical conditions, medications or medical allergies.

This can mean the difference between life and death.

WHO SHOULD DO IT?

- Tennessee has over 1.5 million licensed drivers fifty-five (55) years and older.
- Approximately 7.4% of Tennessee's senior drivers have been involved in some type of fatal or injury crash.
- Anyone can be in a crash or have a medical emergency.
- The **Yellow DOT** Program is a simple way to make sure you are prepared.

When seconds count...
COUNT ON THE

YELLOW DOT

Provides First Responders with
the Information They Need

What You Need

1. Current photo of participant
2. **Yellow DOT** medical information form
3. **Yellow DOT** folder
4. **Yellow DOT** decal

How to use the **Yellow DOT** Program

Have a Photo Taken

Step Two

Place the Photo on Medical Information Form

Place the photograph in the space indicated on the emergency medical information form. The photograph should be a clear, recent photo of just the Yellow DOT participant.

Step Three

Complete Medical Form

Complete the emergency medical form, including the participant's name, emergency contacts, personal physician, medical conditions, recent surgeries and medications.

Step Four

Attach **Yellow DOT** Decal

Place the **Yellow DOT** decal outside on the left side of the rear-facing window. This will alert first responders to look in the glove compartment for your emergency medical information.

Step Five

Place Information in Your Glove Compartment

The final step is to place the medical information form with photo attached in the **Yellow DOT** folder and place folder in your glove compartment where trained first responders will look when they see a **Yellow DOT** on the rear window.
