Application for a §1915(c) Home and Community-Based Services Waiver

PURPOSE OF THE HCBS WAIVER PROGRAM

The Medicaid Home and Community-Based Services (HCBS) waiver program is authorized in §1915(c) of the Social Security Act. The program permits a state to furnish an array of home and community-based services that assist Medicaid beneficiaries to live in the community and avoid institutionalization. The State has broad discretion to design its waiver program to address the needs of the waivers target population. Waiver services complement and/or supplement the services that are available to participants through the Medicaid State plan and other federal, state and local public programs as well as the supports that families and communities provide.

The Centers for Medicare & Medicaid Services (CMS) recognizes that the design and operational features of a waiver program will vary depending on the specific needs of the target population, the resources available to the state, service delivery system structure, state goals and objectives, and other factors. A State has the latitude to design a waiver program that is cost-effective and employs a variety of service delivery approaches, including participant direction of services.

Request for an Amendment to a §1915(c) Home and Community-Based Services Waiver

1. Request Information

A. The State of Tennessee requests approval for an amendment to the following Medicaid home and community-based services waiver approved under authority of §1915(c) of the Social Security Act.

B. Program Title: Statewide Home and Community Based Services (or “Statewide”) waiver

C. Waiver Number: TN.0128
   Original Base Waiver Number: TN.0128.

D. Amendment Number: TN.0128.R06.07

E. Proposed Effective Date: (mm/dd/yy)
   02/01/24

   Approved Effective Date: 02/01/24
   Approved Effective Date of Waiver being Amended: 01/01/20

2. Purpose(s) of Amendment

Purpose(s) of the Amendment. Describe the purpose(s) of the amendment:
Technical edits and key program changes include the following:

1. The State is revising the data source for performance measure AA.a.i.8 (inappropriate provider claims identified via post-payment review processes that were appropriately and timely remediated by DIDD) in Appendix A: Quality Improvement to reflect DIDD Fiscal Accountability Reviews instead of TennCare Utilization Reviews.

2. Adjustments to Appendix C: Participant Services including:
   a. Deleting the Supported Employment-Individual Employment Supports service and breaking out the following components of Supported Employment-Individual Employment Supports into separate, standalone services: Supported Employment Individual-Discovery, Supported Employment Individual-Exploration, Supported Employment Individual-Job Coaching, and Supported Employment Individual-Job Development, with revisions to each service definition and provider specifications to align employment services across LTSS HCBS programs.
   b. Adding Supported Employment Individual-Benefits Counseling as a new service to align employment services across LTSS HCBS programs.
   c. Revising the Supported Employment-Small Group Employment Supports definition and provider specifications to align this service across LTSS HCBS programs.
   d. Adding references to the TennCare Rule definitions for Individualized Integrated Employment (IIE) and Self-Employment (SE) in the Supported Employment service definitions.
   e. Revising the Support Coordination definition to align Support Coordination visit requirements with those in Employment and Community First CHOICES after the PHE and Appendix K flexibilities end.
   f. Updating service definition limits for Community Participation, Facility-Based Day, and Intermittent Employment and Community Integration Wraparound to indicate that Benefits Counseling is not included in the combined annual billing limits for employment and day services.
   g. Adding Enabling Technology as a distinct benefit and consistent with the currently approved Appendix K to each of the waivers, clarifying that the service limit for Specialized Medical Equipment, Supplies, & Assistive Technology (SMESAT) encompasses both SMESAT as well as Enabling Technology, i.e., a $10,000 limit per 2 waiver years across both services.
   h. Removal of the minimum direct support provider age requirement from provider specifications for residential services, day services, employment services, Behavioral Respite, Individual Transportation, Personal Assistance, and Respite. The State is also deleting this requirement from Appendix C-2.f. Open Enrollment of Providers.
   i. Adding language to the Residential Habilitation and Supported Living service definitions to introduce a new flexible residential service rate option to incentivize provider outcomes that align with the State’s VBP and System Transformation values.

3. Adjustments to Appendix D: Participant-Centered Planning and Service Delivery including:
   a. Removing Support Coordinator visit requirement language in Appendix D-1: Service Plan Development.
   b. Adding language to Appendix D-1: Service Plan Development to include electronic signature as an additional option for the person supported and legal representative, as applicable, to approve the ISP.
   c. Revising language in Appendix D-2 to align Support Coordination visit requirements with those in Employment and Community First CHOICES after the PHE and Appendix K flexibilities end.

4. Adjustments to Appendix I: Financial Accountability including:
   a. Removing “on-site” references in Appendix I-1 to reflect that Fiscal Accountability Reviews may be conducted remotely instead of on-site at the provider agency after the PHE ends.
   b. Revising language in Appendix I-2 where applicable to reflect employment service changes indicated above.
c. Adding a transition payment option to Appendix I-2 incentivizing transition from Supported Employment Small Group to IIE or SE to align this incentive across LTSS HCBS programs.

d. Adding language in Appendix I-2 to introduce the new flexible residential service rate option for Residential Habilitation and Supported Living as mentioned above.

4. The state is updating Appendix J to reflect projected changes in waiver service utilization based on more current experience and expected changes related to this amendment. The state is also adding the VBP Flexible Residential Rate service component under the Residential Habilitation and Supported Living services.

For program year 4, the “Supported Employment-Individual Employment Support” consolidated service category remains but average cost/units are adjusted to reflect use of this service category being limited to months 1-9 of the program year. The four distinct, new employment service categories replacing this consolidated category as mentioned above have been added with average cost/units adjusted to reflect: (1) use of these four new employment service categories being limited to months 10-12 of the program year; and (2) the change from single consolidated service category to four distinct service types.

For program year 5, the “Supported Employment-Individual Employment Support” service category is eliminated and new services replacing this category have been added with average cost/units adjusted to reflect the change from a single consolidated service category to four distinct service types.

3. Nature of the Amendment

A. Component(s) of the Approved Waiver Affected by the Amendment. This amendment affects the following component(s) of the approved waiver. Revisions to the affected subsection(s) of these component(s) are being submitted concurrently (check each that applies):

B. Nature of the Amendment. Indicate the nature of the changes to the waiver that are proposed in the amendment (check each that applies):

- [ ] Modify target group(s)
- [ ] Modify Medicaid eligibility
- [x] Add/delete services
- [x] Revise service specifications
- [x] Revise provider qualifications
- [ ] Increase/decrease number of participants
- [x] Revise cost neutrality demonstration
- [ ] Add participant-direction of services
- [ ] Other
  
  Specify:

Application for a §1915(c) Home and Community-Based Services Waiver

1. Request Information (1 of 3)

A. The State of Tennessee requests approval for a Medicaid home and community-based services (HCBS) waiver under the authority of §1915(c) of the Social Security Act (the Act).

B. Program Title (optional - this title will be used to locate this waiver in the finder):

Statewide Home and Community Based Services (or “Statewide”) waiver

C. Type of Request: amendment

Requested Approval Period: (For new waivers requesting five year approval periods, the waiver must serve individuals who are dually eligible for Medicaid and Medicare.)

- [ ] 3 years  ☑️  5 years

Original Base Waiver Number: TN.0128
Waiver Number: TN.0128.R06.07
Draft ID: TN.014.06.05

D. Type of Waiver (select only one):

Regular Waiver

E. Proposed Effective Date of Waiver being Amended: 01/01/20
   Approved Effective Date of Waiver being Amended: 01/01/20

PRA Disclosure Statement

11/22/2023
The purpose of this application is for states to request a Medicaid Section 1915(c) home and community-based services (HCBS) waiver. Section 1915(c) of the Social Security Act authorizes the Secretary of Health and Human Services to waive certain specific Medicaid statutory requirements so that a state may voluntarily offer HCBS to state-specified target group(s) of Medicaid beneficiaries who need a level of institutional care that is provided under the Medicaid state plan. Under the Privacy Act of 1974 any personally identifying information obtained will be kept private to the extent of the law.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-0449 (Expires: December 31, 2023). The time required to complete this information collection is estimated to average 160 hours per response for a new waiver application and 75 hours per response for a renewal application, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.

1. Request Information (2 of 3)

F. Level(s) of Care. This waiver is requested in order to provide home and community-based waiver services to individuals who, but for the provision of such services, would require the following level(s) of care, the costs of which would be reimbursed under the approved Medicaid state plan (check each that applies):

- **Hospital**
  - Select applicable level of care
  - **Hospital as defined in 42 CFR §440.10**
    - If applicable, specify whether the state additionally limits the waiver to subcategories of the hospital level of care:

- **Inpatient psychiatric facility for individuals age 21 and under as provided in 42 CFR §440.160**

- **Nursing Facility**
  - Select applicable level of care
  - **Nursing Facility as defined in 42 CFR §440.40 and 42 CFR §440.155**
    - If applicable, specify whether the state additionally limits the waiver to subcategories of the nursing facility level of care:

- **Institution for Mental Disease for persons with mental illnesses aged 65 and older as provided in 42 CFR §440.140**

- **Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID) (as defined in 42 CFR §440.150)**
  - If applicable, specify whether the state additionally limits the waiver to subcategories of the ICF/IID level of care:
a. Meet TennCare ICF/IID level of care criteria (TennCare Rule 1200-13-1-.15) and financial eligibility criteria and have a Pre-Admission Evaluation approved by TennCare;
b. Have been assessed and found to:
   i. Have an intellectual disability manifested before eighteen (18) years of age, as specified in Tennessee State law (Tennessee Code Annotated, Title 33-1-101); or,
   ii. Have a developmental disability, which is defined as a condition of substantial developmental delay or specific congenital or acquired conditions with a high probability of resulting in an intellectual disability and be a child five (5) years of age or younger.
c. Are participating in the State’s Money Follows the Person (MFP) program, transitioning from an ICF/IID following a stay of at least ninety (90) days, and but for the availability of medical residential services through the waiver, would require placement in an ICF/IID

1. Request Information (3 of 3)

G. Concurrent Operation with Other Programs. This waiver operates concurrently with another program (or programs) approved under the following authorities
Select one:

- ☑ Not applicable
- ☐ Applicable

Check the applicable authority or authorities:

- Services furnished under the provisions of §1915(a)(1)(a) of the Act and described in Appendix I
- Waiver(s) authorized under §1915(b) of the Act.
  Specify the §1915(b) waiver program and indicate whether a §1915(b) waiver application has been submitted or previously approved:

Specify the §1915(b) authorities under which this program operates (check each that applies):

- ☐ §1915(b)(1) (mandated enrollment to managed care)
- ☐ §1915(b)(2) (central broker)
- ☐ §1915(b)(3) (employ cost savings to furnish additional services)
- ☐ §1915(b)(4) (selective contracting/limit number of providers)
- ☐ A program operated under §1932(a) of the Act.
  Specify the nature of the state plan benefit and indicate whether the state plan amendment has been submitted or previously approved:

- ☐ A program authorized under §1915(i) of the Act.
- ☐ A program authorized under §1915(j) of the Act.
- ☐ A program authorized under §1115 of the Act.
  Specify the program:

H. Dual Eligibility for Medicaid and Medicare.
Check if applicable:

- ☑ This waiver provides services for individuals who are eligible for both Medicare and Medicaid.
2. Brief Waiver Description

Brief Waiver Description. In one page or less, briefly describe the purpose of the waiver, including its goals, objectives, organizational structure (e.g., the roles of state, local and other entities), and service delivery methods.

The Statewide Home and Community Based Services Waiver serves children and adults with intellectual disabilities and children under age six with a developmental disability who qualify for and, absent the provision of services provided under the Statewide Waiver, would require placement in an Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID), and individuals participating in the State’s Money Follows the Person (MFP) program who are transitioning from an Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID) following a stay of at least ninety (90) days and but for the availability of Medical Residential services through the waiver, would require placement in an ICF/IID.

The Statewide Waiver offers a continuum of services that are designed to support each person’s independence and integration into the community, including opportunities for employment and work in competitive integrated settings and engage in community life. A person-centered planning process is used to identify services to be included in each waiver participant’s Individual Service Plan, based on the waiver participant’s individually identified goals and need for specific services to advance toward, achieve or sustain those goals.

3. Components of the Waiver Request

The waiver application consists of the following components. Note: Item 3-E must be completed.

A. Waiver Administration and Operation. Appendix A specifies the administrative and operational structure of this waiver.

B. Participant Access and Eligibility. Appendix B specifies the target group(s) of individuals who are served in this waiver, the number of participants that the state expects to serve during each year that the waiver is in effect, applicable Medicaid eligibility and post-eligibility (if applicable) requirements, and procedures for the evaluation and reevaluation of level of care.

C. Participant Services. Appendix C specifies the home and community-based waiver services that are furnished through the waiver, including applicable limitations on such services.

D. Participant-Centered Service Planning and Delivery. Appendix D specifies the procedures and methods that the state uses to develop, implement and monitor the participant-centered service plan (of care).

E. Participant-Direction of Services. When the state provides for participant direction of services, Appendix E specifies the participant direction opportunities that are offered in the waiver and the supports that are available to participants who direct their services. (Select one):

- ☐ Yes. This waiver provides participant direction opportunities. Appendix E is required.
- ☒ No. This waiver does not provide participant direction opportunities. Appendix E is not required.

F. Participant Rights. Appendix F specifies how the state informs participants of their Medicaid Fair Hearing rights and other procedures to address participant grievances and complaints.

G. Participant Safeguards. Appendix G describes the safeguards that the state has established to assure the health and welfare of waiver participants in specified areas.

H. Quality Improvement Strategy. Appendix H contains the Quality Improvement Strategy for this waiver.

I. Financial Accountability. Appendix I describes the methods by which the state makes payments for waiver services, ensures the integrity of these payments, and complies with applicable federal requirements concerning payments and federal financial participation.

J. Cost-Neutrality Demonstration. Appendix J contains the state's demonstration that the waiver is cost-neutral.

4. Waiver(s) Requested
A. Comparability. The state requests a waiver of the requirements contained in §1902(a)(10)(B) of the Act in order to provide the services specified in Appendix C that are not otherwise available under the approved Medicaid state plan to individuals who: (a) require the level(s) of care specified in Item 1.F and (b) meet the target group criteria specified in Appendix B.

B. Income and Resources for the Medically Needy. Indicate whether the state requests a waiver of §1902(a)(10)(C)(i)(III) of the Act in order to use institutional income and resource rules for the medically needy (select one):

- Not Applicable
- No
- Yes

C. Statewideness. Indicate whether the state requests a waiver of the statewideness requirements in §1902(a)(1) of the Act (select one):

- No
- Yes

If yes, specify the waiver of statewideness that is requested (check each that applies):

- Geographic Limitation. A waiver of statewideness is requested in order to furnish services under this waiver only to individuals who reside in the following geographic areas or political subdivisions of the state. Specify the areas to which this waiver applies and, as applicable, the phase-in schedule of the waiver by geographic area:

- Limited Implementation of Participant-Direction. A waiver of statewideness is requested in order to make participant-direction of services as specified in Appendix E available only to individuals who reside in the following geographic areas or political subdivisions of the state. Participants who reside in these areas may elect to direct their services as provided by the state or receive comparable services through the service delivery methods that are in effect elsewhere in the state. Specify the areas of the state affected by this waiver and, as applicable, the phase-in schedule of the waiver by geographic area:

5. Assurances

In accordance with 42 CFR §441.302, the state provides the following assurances to CMS:

A. Health & Welfare: The state assures that necessary safeguards have been taken to protect the health and welfare of persons receiving services under this waiver. These safeguards include:

1. As specified in Appendix C, adequate standards for all types of providers that provide services under this waiver;

2. Assurance that the standards of any state licensure or certification requirements specified in Appendix C are met for services or for individuals furnishing services that are provided under the waiver. The state assures that these requirements are met on the date that the services are furnished; and,

3. Assurance that all facilities subject to §1616(e) of the Act where home and community-based waiver services are provided comply with the applicable state standards for board and care facilities as specified in Appendix C.

B. Financial Accountability. The state assures financial accountability for funds expended for home and community-based services and maintains and makes available to the Department of Health and Human Services (including the Office of the Inspector General), the Comptroller General, or other designees, appropriate financial records documenting the cost of services provided under the waiver. Methods of financial accountability are specified in Appendix I.

C. Evaluation of Need: The state assures that it provides for an initial evaluation (and periodic reevaluations, at least
annually) of the need for a level of care specified for this waiver, when there is a reasonable indication that an individual might need such services in the near future (one month or less) but for the receipt of home and community-based services under this waiver. The procedures for evaluation and reevaluation of level of care are specified in Appendix B.

D. Choice of Alternatives: The state assures that when an individual is determined to be likely to require the level of care specified for this waiver and is in a target group specified in Appendix B, the individual (or, legal representative, if applicable) is:

1. Informed of any feasible alternatives under the waiver; and,

2. Given the choice of either institutional or home and community-based waiver services. Appendix B specifies the procedures that the state employs to ensure that individuals are informed of feasible alternatives under the waiver and given the choice of institutional or home and community-based waiver services.

E. Average Per Capita Expenditures: The state assures that, for any year that the waiver is in effect, the average per capita expenditures under the waiver will not exceed 100 percent of the average per capita expenditures that would have been made under the Medicaid state plan for the level(s) of care specified for this waiver had the waiver not been granted. Cost-neutrality is demonstrated in Appendix J.

F. Actual Total Expenditures: The state assures that the actual total expenditures for home and community-based waiver and other Medicaid services and its claim for FFP in expenditures for the services provided to individuals under the waiver will not, in any year of the waiver period, exceed 100 percent of the amount that would be incurred in the absence of the waiver by the state’s Medicaid program for these individuals in the institutional setting(s) specified for this waiver.

G. Institutionalization Absent Waiver: The state assures that, absent the waiver, individuals served in the waiver would receive the appropriate type of Medicaid-funded institutional care for the level of care specified for this waiver.

H. Reporting: The state assures that annually it will provide CMS with information concerning the impact of the waiver on the type, amount and cost of services provided under the Medicaid state plan and on the health and welfare of waiver participants. This information will be consistent with a data collection plan designed by CMS.

I. Habilitation Services. The state assures that prevocational, educational, or supported employment services, or a combination of these services, if provided as habilitation services under the waiver are: (1) not otherwise available to the individual through a local educational agency under the Individuals with Disabilities Education Act (IDEA) or the Rehabilitation Act of 1973; and, (2) furnished as part of expanded habilitation services.

J. Services for Individuals with Chronic Mental Illness. The state assures that federal financial participation (FFP) will not be claimed in expenditures for waiver services including, but not limited to, day treatment or partial hospitalization, psychosocial rehabilitation services, and clinic services provided as home and community-based services to individuals with chronic mental illnesses if these individuals, in the absence of a waiver, would be placed in an IMD and are: (1) age 22 to 64; (2) age 65 and older and the state has not included the optional Medicaid benefit cited in 42 CFR §440.140; or (3) age 21 and under and the state has not included the optional Medicaid benefit cited in 42 CFR § 440.160.

6. Additional Requirements

Note: Item 6-I must be completed.

A. Service Plan. In accordance with 42 CFR §441.301(b)(1)(i), a participant-centered service plan (of care) is developed for each participant employing the procedures specified in Appendix D. All waiver services are furnished pursuant to the service plan. The service plan describes: (a) the waiver services that are furnished to the participant, their projected frequency and the type of provider that furnishes each service and (b) the other services (regardless of funding source, including state plan services) and informal supports that complement waiver services in meeting the needs of the participant. The service plan is subject to the approval of the Medicaid agency. Federal financial participation (FFP) is not claimed for waiver services furnished prior to the development of the service plan or for services that are not included in the service plan.

B. Inpatients. In accordance with 42 CFR §441.301(b)(1)(ii), waiver services are not furnished to individuals who are inpatients of a hospital, nursing facility or ICF/IID.

C. Room and Board. In accordance with 42 CFR §441.310(a)(2), FFP is not claimed for the cost of room and board except
when: (a) provided as part of respite services in a facility approved by the state that is not a private residence or (b) claimed as a portion of the rent and food that may be reasonably attributed to an unrelated caregiver who resides in the same household as the participant, as provided in Appendix I.

D. Access to Services. The state does not limit or restrict participant access to waiver services except as provided in Appendix C.

E. Free Choice of Provider. In accordance with 42 CFR §431.151, a participant may select any willing and qualified provider to furnish waiver services included in the service plan unless the state has received approval to limit the number of providers under the provisions of §1915(b) or another provision of the Act.

F. FFP Limitation. In accordance with 42 CFR §433 Subpart D, FFP is not claimed for services when another third-party (e.g., another third party health insurer or other federal or state program) is legally liable and responsible for the provision and payment of the service. FFP also may not be claimed for services that are available without charge, or as free care to the community. Services will not be considered to be without charge, or free care, when (1) the provider establishes a fee schedule for each service available and (2) collects insurance information from all those served (Medicaid, and non-Medicaid), and bills other legally liable third party insurers. Alternatively, if a provider certifies that a particular legally liable third party insurer does not pay for the service(s), the provider may not generate further bills for that insurer for that annual period.

G. Fair Hearing: The state provides the opportunity to request a Fair Hearing under 42 CFR §431 Subpart E, to individuals: (a) who are not given the choice of home and community-based waiver services as an alternative to institutional level of care specified for this waiver; (b) who are denied the service(s) of their choice or the provider(s) of their choice; or (c) whose services are denied, suspended, reduced or terminated. Appendix F specifies the state's procedures to provide individuals the opportunity to request a Fair Hearing, including providing notice of action as required in 42 CFR §431.210.

H. Quality Improvement. The state operates a formal, comprehensive system to ensure that the waiver meets the assurances and other requirements contained in this application. Through an ongoing process of discovery, remediation and improvement, the state assures the health and welfare of participants by monitoring: (a) level of care determinations; (b) individual plans and services delivery; (c) provider qualifications; (d) participant health and welfare; (e) financial oversight and (f) administrative oversight of the waiver. The state further assures that all problems identified through its discovery processes are addressed in an appropriate and timely manner, consistent with the severity and nature of the problem. During the period that the waiver is in effect, the state will implement the Quality Improvement Strategy specified in Appendix H.

I. Public Input. Describe how the state secures public input into the development of the waiver:
This waiver amendment application was posted on the TennCare website for public comment on May 22, 2023 through close of business (4:30 p.m. Central) June 22, 2023. The proposed amendment changes were also sent directly to various advocacy groups with a request to distribute to waiver participants and families.

In addition, the changes were sent to Tennessee Community Organizations (the trade association for HCBS providers), also with a request to share with their members and to ask those providers to share with persons supported and families.

Minimal public input was received, and most of the comments were not related to proposed changes in this amendment. Many of the changes proposed with this amendment were posted for public comment in 2022 with the I/DD Integration renewal/amendments.

A total of three comments were received, from Home and Community Based Services (HCBS) Providers and an Advocacy Organization.

One comment was received related to the introduction of the Value Based Purchasing (VBP) Flexible Residential Rate for the Residential Habilitation and Supported Living services, with a concern that the new rates were being rushed through and the assumption that it would be a required rate. The State’s response explained that the proposed rates and incentives are not a requirement and are optional for providers based on their initiative to deliver supports in ways that align with TennCare and DIDD’s system transformation values and more information will be shared with providers.

A detailed listing of comments and the State’s responses are available at: Waiver and State Plan Public Notices (tn.gov)

J. Notice to Tribal Governments. The state assures that it has notified in writing all federally-recognized Tribal Governments that maintain a primary office and/or majority population within the State of the State's intent to submit a Medicaid waiver request or renewal request to CMS at least 60 days before the anticipated submission date is provided by Presidential Executive Order 13175 of November 6, 2000. Evidence of the applicable notice is available through the Medicaid Agency.

7. Contact Person(s)

A. The Medicaid agency representative with whom CMS should communicate regarding the waiver is:

| Last Name: | Evans |
| First Name: | Katie |
| Title: | Chief of Long Term Services and Supports |
| Agency: | Division of TennCare |
| Address: | 310 Great Circle Road |
| Address 2: | |
| City: | |

11/22/2023
8. Authorizing Signature

This document, together with the attached revisions to the affected components of the waiver, constitutes the state's request to amend its approved waiver under §1915(c) of the Social Security Act. The state affirms that it will abide by all provisions of the waiver, including the provisions of this amendment when approved by CMS. The state further attests that it will continuously operate the waiver in accordance with the assurances specified in Section V and the additional requirements specified in Section VI of the approved waiver. The state certifies that additional proposed revisions to the waiver request will be submitted by the
Medicaid agency in the form of additional waiver amendments.

Signature: NEHUS SHANNON
State Medicaid Director or Designee

Submission Date: Nov 13, 2023

Note: The Signature and Submission Date fields will be automatically completed when the State Medicaid Director submits the application.

Attachment #1: Transition Plan
Check the box next to any of the following changes from the current approved waiver. Check all boxes that apply.

☐ Replacing an approved waiver with this waiver.
☐ Combining waivers.
☐ Splitting one waiver into two waivers.
☐ Eliminating a service.
☐ Adding or decreasing an individual cost limit pertaining to eligibility.
☐ Adding or decreasing limits to a service or a set of services, as specified in Appendix C.
☒ Reducing the unduplicated count of participants (Factor C).
☐ Adding new, or decreasing, a limitation on the number of participants served at any point in time.
☐ Making any changes that could result in some participants losing eligibility or being transferred to another waiver under 1915(c) or another Medicaid authority.

11/22/2023
Making any changes that could result in reduced services to participants.

Specify the transition plan for the waiver:

Consistent with the special terms and conditions of the State’s approved 1115 demonstration and the June 2015 guidance issued by CMS, Tennessee utilizes tiered standards in its HCBS programs. This waiver is closed to new enrollment, and all new HCBS enrollment is directed into the Employment and Community First CHOICES program. The annual decrease in Factor C reflects the projected number of waiver participants who will leave the waiver each year—due to reasons such as death, moving out of state, transition to another Medicaid LTSS program or service, or no longer wanting or needing waiver services. If a person continues to need and qualify for Medicaid LTSS, DIDD is responsible for coordinating with TennCare and (as applicable) the person’s contracted Managed Care Organization (MCO) to facilitate transition to that program and/or service(s). Factor C will not be reduced lower than actual waiver enrollment in any year. If the actual number of people who remain enrolled in the waiver is higher than projected in any year, TennCare will file an amendment to reflect the actual number of people who remain enrolled in the waiver, and will not require anyone to disenroll based on the projected annual decrease in Factor C.

Attachment #2: Home and Community-Based Settings Waiver Transition Plan
Specify the state’s process to bring this waiver into compliance with federal home and community-based (HCB) settings requirements at 42 CFR 441.301(c)(4)-(5), and associated CMS guidance. Consult with CMS for instructions before completing this item. This field describes the status of a transition process at the point in time of submission. Relevant information in the planning phase will differ from information required to describe attainment of milestones.

To the extent that the state has submitted a statewide HCB settings transition plan to CMS, the description in this field may reference that statewide plan. The narrative in this field must include enough information to demonstrate that this waiver complies with federal HCB settings requirements, including the compliance and transition requirements at 42 CFR 441.301(c)(6), and that this submission is consistent with the portions of the statewide HCB settings transition plan that are germane to this waiver. Quote or summarize germane portions of the statewide HCB settings transition plan as required.

Note that Appendix C-5 describes settings that do not require transition; the settings listed there meet federal HCB setting requirements as of the date of submission. Do not duplicate that information here.

Update this field and Appendix C-5 when submitting a renewal or amendment to this waiver for other purposes. It is not necessary for the state to amend the waiver solely for the purpose of updating this field and Appendix C-5. At the end of the state's HCB settings transition process for this waiver, when all waiver settings meet federal HCB setting requirements, enter “Completed” in this field, and include in Section C-5 the information on all HCB settings in the waiver.

All of the State’s STP milestones are complete. As provided in the final quarterly STP report, the Department of Health determined that rule modifications were not needed. They have posted notification on their website to inform licensure applicants of expectations regarding compliance with the Rule, as follows:

ACLFs that want to serve Medicaid recipients must be compliant with the federal Home and Community Based Services (HCBS) Settings Rule as a requirement of eligibility to become a TennCare provider and receive Medicaid reimbursement. ACLFs not in compliance with the HCBS Settings Rule will not be able to be credentialed to participate as a TennCare provider and receive Medicaid reimbursement until such ACLFs come into compliance with the HCBS Settings Rule.

This document is available at: https://www.tn.gov/content/dam/tn/health/program-areas/hcf/PH-3501-ACLF.pdf

Additional Needed Information (Optional)

Provide additional needed information for the waiver (optional):

Appendix A: Waiver Administration and Operation
1. **State Line of Authority for Waiver Operation.** Specify the state line of authority for the operation of the waiver (*select one*):

- The waiver is operated by the state Medicaid agency. Specify the Medicaid agency division/unit that has line authority for the operation of the waiver program (*select one*):
  - The Medical Assistance Unit.
    Specify the unit name:
    (Do not complete item A-2)
  - Another division/unit within the state Medicaid agency that is separate from the Medical Assistance Unit.
    Specify the division/unit name. This includes administrations/divisions under the umbrella agency that has been identified as the Single State Medicaid Agency.
    (Complete item A-2-a).

- The waiver is operated by a separate agency of the state that is not a division/unit of the Medicaid agency. Specify the division/unit name:
  Department of Intellectual and Developmental Disabilities (DIDD)

In accordance with 42 CFR §431.10, the Medicaid agency exercises administrative discretion in the administration and supervision of the waiver and issues policies, rules and regulations related to the waiver. The interagency agreement or memorandum of understanding that sets forth the authority and arrangements for this policy is available through the Medicaid agency to CMS upon request. (Complete item A-2-b).

**Appendix A: Waiver Administration and Operation**

2. **Oversight of Performance.**

   **a. Medicaid Director Oversight of Performance When the Waiver is Operated by another Division/Unit within the State Medicaid Agency.** When the waiver is operated by another division/administration within the umbrella agency designated as the Single State Medicaid Agency. Specify (a) the functions performed by that division/administration (i.e., the Developmental Disabilities Administration within the Single State Medicaid Agency), (b) the document utilized to outline the roles and responsibilities related to waiver operation, and (c) the methods that are employed by the designated State Medicaid Director (in some instances, the head of umbrella agency) in the oversight of these activities:
   As indicated in section 1 of this appendix, the waiver is not operated by another division/unit within the State Medicaid agency. Thus this section does not need to be completed.

   **b. Medicaid Agency Oversight of Operating Agency Performance.** When the waiver is not operated by the Medicaid agency, specify the functions that are expressly delegated through a memorandum of understanding (MOU) or other written document, and indicate the frequency of review and update for that document. Specify the methods that the Medicaid agency uses to ensure that the operating agency performs its assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify the frequency of Medicaid agency assessment of operating agency performance:
The Statewide Waiver is operated by the Department of Intellectual and Developmental Disabilities (DIDD) through an interagency agreement with the Division of TennCare, Department of Finance and Administration. The Tennessee Department of Finance and Administration is designated as the Single State Medicaid Agency for the State of Tennessee. The Division of TennCare is the state’s medical assistance unit and is located within the Department of Finance and Administration. The TennCare Director, who serves as a Deputy to the Commissioner of the Department of Finance and Administration, is the State Medicaid Director and exercises legal authority in the administration and supervision of the Medicaid State Plan and the TennCare 1115 Demonstration Waiver, and issues policies, rules and regulations on program matters. TennCare is accountable for oversight of this waiver program and retains the responsibility for approval of policies and promulgation of rules governing this waiver.

DIDD is responsible for the operational management of the waiver on a day-to-day basis and is accountable to the State Medicaid agency which ensures that the waiver operates in accordance with federal waiver assurances. Responsibility is delegated to DIDD and monitored by TennCare for level of care reevaluations, development of the ISP, prior authorization of waiver services, enrollment of qualified providers, and certain quality assurance activities. TennCare exercises administrative authority and supervision of these functions through the interagency agreement which is reviewed on an annual basis to ensure that it accurately reflects expectations and incorporates any program changes implemented as a result of recent waiver amendments or changes in state or federal requirements. TennCare promulgates state waiver rules and approves all documents pertaining to daily operational management of the waiver prior to their issuance and implementation, including (but not limited to): all DIDD policies and procedures, Provider Manual revisions, provider rate changes, and mass communications to providers and persons supported.

In addition to ongoing informal communication processes, monthly meetings between TennCare and DIDD ensure adequate TennCare oversight. Monthly meetings include:

• The Interagency Executive and Senior Leadership Meeting: Executive and Senior leadership of TennCare and DIDD meet on at least a monthly basis to discuss issues pertaining to operation and oversight of this (and other) HCBS waiver program(s) for individuals with intellectual disabilities.

• The Policy Meeting: TennCare and DIDD staff review DIDD policies and stakeholder memorandums under development, including the status of those under review at TennCare; Provider Manual revisions; changes in TennCare rules and policy; and the status of waiver applications or amendments, as applicable. This forum is also used as a mechanism for DIDD to obtain TennCare policy interpretations and for TennCare to assign responsibility for CMS deliverables.

• The Statewide Continuous Quality Improvement Meeting: DIDD and TennCare LTSS Quality and Administration staff review identified data and reporting issues, as well as findings resulting from DIDD and TennCare Quality Assurance activities (e.g., targeted Reviews, utilization reviews, fiscal audits) and discuss appropriate corrective actions.

• The Abuse Registry Review Committee Meeting: A TennCare representative serves on the Abuse Registry Review Committee and participates in the review of substantiated allegations of abuse, neglect, and exploitation. The committee decides when individuals will be referred for placement on the Tennessee Department of Health Abuse Registry.

• The Statewide and Regional Planning and Policy Council Meetings: DIDD and TennCare staff participate in meetings with stakeholders including persons supported and their family members, a variety of provider representatives enrolled as waiver service providers (e.g., clinical service providers, residential/day providers and/or support coordination providers), representatives from persons supported and provider advocacy organizations, and other stakeholders. Planning and Policy Council members are routinely advised of expected changes in policy, provider requirements, and provider reimbursement; waiver application and amendment status; HCBS program expenditures and the state's budget situation; and other issues impacting service delivery and program operations. The Council makes recommendations to the State regarding program and policy improvements.

Appendix A: Waiver Administration and Operation
3. Use of Contracted Entities. Specify whether contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable) (select one):

- Yes. Contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or operating agency (if applicable).
  Specify the types of contracted entities and briefly describe the functions that they perform. Complete Items A-5 and A-6:

- No. Contracted entities do not perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable).

Appendix A: Waiver Administration and Operation

4. Role of Local/Regional Non-State Entities. Indicate whether local or regional non-state entities perform waiver operational and administrative functions and, if so, specify the type of entity (Select One):

- Not applicable
- Applicable - Local/regional non-state agencies perform waiver operational and administrative functions.
  Check each that applies:

  - Local/Regional non-state public agencies perform waiver operational and administrative functions at the local or regional level. There is an interagency agreement or memorandum of understanding between the State and these agencies that sets forth responsibilities and performance requirements for these agencies that is available through the Medicaid agency.

  Specify the nature of these agencies and complete items A-5 and A-6:

  - Local/Regional non-governmental non-state entities conduct waiver operational and administrative functions at the local or regional level. There is a contract between the Medicaid agency and/or the operating agency (when authorized by the Medicaid agency) and each local/regional non-state entity that sets forth the responsibilities and performance requirements of the local/regional entity. The contract(s) under which private entities conduct waiver operational functions are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

  Specify the nature of these entities and complete items A-5 and A-6:

Appendix A: Waiver Administration and Operation

5. Responsibility for Assessment of Performance of Contracted and/or Local/Regional Non-State Entities. Specify the state agency or agencies responsible for assessing the performance of contracted and/or local/regional non-state entities in conducting waiver operational and administrative functions:
6. Assessment Methods and Frequency. Describe the methods that are used to assess the performance of contracted and/or local/regional non-state entities to ensure that they perform assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify how frequently the performance of contracted and/or local/regional non-state entities is assessed:

Appendix A: Waiver Administration and Operation

7. Distribution of Waiver Operational and Administrative Functions. In the following table, specify the entity or entities that have responsibility for conducting each of the waiver operational and administrative functions listed (check each that applies):

In accordance with 42 CFR §431.10, when the Medicaid agency does not directly conduct a function, it supervises the performance of the function and establishes and/or approves policies that affect the function. All functions not performed directly by the Medicaid agency must be delegated in writing and monitored by the Medicaid Agency. Note: More than one box may be checked per item. Ensure that Medicaid is checked when the Single State Medicaid Agency (1) conducts the function directly; (2) supervises the delegated function; and/or (3) establishes and/or approves policies related to the function.

Appendix A: Waiver Administration and Operation

Quality Improvement: Administrative Authority of the Single State Medicaid Agency

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Administrative Authority

The Medicaid Agency retains ultimate administrative authority and responsibility for the operation of the waiver program by exercising oversight of the performance of waiver functions by other state and local/regional non-state agencies (if appropriate) and contracted entities.

i. Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance, complete
the following. Performance measures for administrative authority should not duplicate measures found in other appendices of the waiver application. As necessary and applicable, performance measures should focus on:

- Uniformity of development/execution of provider agreements throughout all geographic areas covered by the waiver
- Equitable distribution of waiver openings in all geographic areas covered by the waiver
- Compliance with HCB settings requirements and other new regulatory components (for waiver actions submitted on or after March 17, 2014)

Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:
a.i.3. Number and percentage of individual findings regarding provider (including staff) qualifications that were appropriately and timely remediated by DIDD. [Interagency Contract section A.1.n & A.2.a.(2)] Percentage = number of provider qualification issues appropriately and timely remediated / total number of provider qualification issues identified.

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

---

b. Methods for Remediation/Fixing Individual Problems

i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.
Performance Measure a.i.1: The TennCare Interagency Agreement specifies that DIDD may not implement policy prior to TennCare approval. TennCare policy reviews will be documented in the TennCare Policy Review Log as well as in DIDD Monthly Quality Management and Discovery Reports. Each DIDD policy distributed notes the date of TennCare approval within the document. TennCare will monitor compliance with this sub-assurance through analysis of monthly data reports, information presented during monthly TennCare/ DIDD meetings, and other quality assurance activities (e.g., survey follow-along or follow-behind, audits) conducted as determined appropriate. Upon discovery of a policy that was not prior-approved, TennCare will provide written notification to DIDD that the policy must be submitted to TennCare for approval and will not be effective until such approval is obtained. TennCare will perform a review of the new or revised policy, and will advise DIDD if additional revisions are needed as a result of TennCare review. Approval will be granted when TennCare-requested final edits have been made. The effective date of an approved new or revised policy will be a date after TennCare approval is obtained, unless TennCare determines it appropriate to approve the policy for a retroactive date. Failure to obtain policy prior-approval will be brought to the attention of the DIDD Commissioner, the DIDD Assistant Commissioner of Policy and Innovation, and other DIDD staff, as applicable. TennCare may assess monetary sanctions against DIDD, require additional DIDD staff training, conduct additional monitoring and/or require the submission of additional data to ensure 100% compliance with this sub-assurance.

Performance Measure a.i.2. through a.i.8.: Issues requiring individual remediation will be discovered primarily through analysis of DIDD performance measure discovery data files and DIDD Quality Management Reports. TennCare will hold DIDD accountable for timely remediation of all individual issues identified. TennCare routinely monitors DIDD monthly remediation reports to determine if acceptable remedial activities have been completed. DIDD is notified monthly of any remediation determined unacceptable and is required to provide additional information and/or complete additional remediation activities until TennCare can determine that the issue has been resolved. DIDD is required to remediate all individual issues identified within a targeted time-frame of 30 calendar days. Remediation Reports contain data indicating the number of compliance issues for which remediation was completed within 30 calendar days.

Individual Remediation Data Aggregation: DIDD has developed a data flow document which identifies data collection, reporting, and aggregation tasks that must be completed to generate the required reports for submission to TennCare. For each task, dates are specified. Responsible DIDD staff and back-up staff are identified for each task. Designated DIDD Central Office staff compile the data collected and entered by regional and central office staff into DIDD databases to create data files that are posted for TennCare analysis and aggregation. In addition, DIDD generates a Quality Management Report using the data collected and reported. The Quality Management Report is submitted to TennCare each month and information contained therein is reviewed during monthly State Quality Management Committee Meetings.

### ii. Remediation Data Aggregation

**Remediation-related Data Aggregation and Analysis (including trend identification)**

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Administrative Authority that are currently non-operational.

☐ No
☐ Yes

Please provide a detailed strategy for assuring Administrative Authority, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix B: Participant Access and Eligibility

B-1: Specification of the Waiver Target Group(s)

a. Target Group(s). Under the waiver of Section 1902(a)(10)(B) of the Act, the state limits waiver services to one or more groups or subgroups of individuals. Please see the instruction manual for specifics regarding age limits. In accordance with 42 CFR §441.301(b)(6), select one or more waiver target groups, check each of the subgroups in the selected target group(s) that may receive services under the waiver, and specify the minimum and maximum (if any) age of individuals served in each subgroup:

<table>
<thead>
<tr>
<th>Target Group</th>
<th>Included</th>

b. Additional Criteria. The state further specifies its target group(s) as follows:
Consistent with the special terms and conditions of the State’s approved 1115 demonstration and the June 2015 guidance issued by CMS, Tennessee utilizes tiered standards in its HCBS programs, working to ensure minimum compliance across settings in its Section 1915(c) waivers while closing all new enrollment into these waivers and directing all new HCBS enrollment into the Employment and Community First CHOICES program. The Tennessee Statewide Waiver remains available to Tennessee residents in the target population who:

a. Meet TennCare ICF/IID level of care criteria (TennCare Rule 1200-13-1-.15) and financial eligibility criteria and have a Pre-Admission Evaluation approved by TennCare;

b. Have been assessed and found to:
   i. Have an intellectual disability manifested before eighteen (18) years of age, as specified in Tennessee State law (Tennessee Code Annotated, Title 33-1-101); or,
   ii. Have a developmental disability, which is defined as a condition of substantial developmental delay or specific congenital or acquired conditions with a high probability of resulting an intellectual disability and be a child five (5) years of age or younger.

c. Were enrolled in the waiver prior to July 1, 2017; or

d. Are participating in the State’s MFP program, transitioning from an ICF/IID following a stay of at least ninety (90) days, and but for the availability of Medical Residential services through the waiver, would require placement in an ICF/IID.

c. Transition of Individuals Affected by Maximum Age Limitation. When there is a maximum age limit that applies to individuals who may be served in the waiver, describe the transition planning procedures that are undertaken on behalf of participants affected by the age limit (select one):

- Not applicable. There is no maximum age limit
- The following transition planning procedures are employed for participants who will reach the waiver's maximum age limit.

Specify:

- It is often difficult to diagnose children under the age of 5 as having an intellectual disability as defined in Tennessee Code Annotated, Title 33-1-101.

Children who enter the waiver between the ages of 0-5 with a diagnosis of developmental disability, are evaluated before age 6 to determine if they have a condition of mental retardation as defined in Tennessee Code Annotated, Title 33-1-101. Upon attaining age six (6) years, if a child in the Statewide waiver is found to no longer meet level of care, the Medicaid agency will ensure the continuation of EPSDT services for children who remain Medicaid eligible, and for both Medicaid-eligible and non-Medicaid-eligible children, help identify, through other community resources, other types of assistance that can help address the child and family's ongoing support needs.

Appendix B: Participant Access and Eligibility

B-2: Individual Cost Limit (1 of 2)

a. Individual Cost Limit. The following individual cost limit applies when determining whether to deny home and community-based services or entrance to the waiver to an otherwise eligible individual (select one). Please note that a state may have only ONE individual cost limit for the purposes of determining eligibility for the waiver:

- No Cost Limit. The state does not apply an individual cost limit. Do not complete Item B-2-b or item B-2-c.

- Cost Limit in Excess of Institutional Costs. The state refuses entrance to the waiver to any otherwise eligible individual when the state reasonably expects that the cost of the home and community-based services furnished to that individual would exceed the cost of a level of care specified for the waiver up to an amount specified by the state. Complete Items B-2-b and B-2-c.

  The limit specified by the state is (select one)

- A level higher than 100% of the institutional average.
Specify the percentage: 

- Other  

  Specify:

**Institutional Cost Limit.** Pursuant to 42 CFR 441.301(a)(3), the state refuses entrance to the waiver to any otherwise eligible individual when the state reasonably expects that the cost of the home and community-based services furnished to that individual would exceed 100% of the cost of the level of care specified for the waiver. Complete Items B-2-b and B-2-c.

**Cost Limit Lower Than Institutional Costs.** The state refuses entrance to the waiver to any otherwise qualified individual when the state reasonably expects that the cost of home and community-based services furnished to that individual would exceed the following amount specified by the state that is less than the cost of a level of care specified for the waiver.

Specify the basis of the limit, including evidence that the limit is sufficient to assure the health and welfare of waiver participants. Complete Items B-2-b and B-2-c.

The cost limit specified by the state is (select one):

- The following dollar amount:

  Specify dollar amount: 

  The dollar amount (select one)

  - Is adjusted each year that the waiver is in effect by applying the following formula:

    Specify the formula:

  - May be adjusted during the period the waiver is in effect. The state will submit a waiver amendment to CMS to adjust the dollar amount.

- The following percentage that is less than 100% of the institutional average:

  Specify percent: 

- Other:

  Specify:
b. Method of Implementation of the Individual Cost Limit. When an individual cost limit is specified in Item B-2-a, specify the procedures that are followed to determine in advance of waiver entrance that the individual's health and welfare can be assured within the cost limit:

Consistent with the special terms and conditions of the State’s approved 1115 demonstration and the June 2015 guidance issued by CMS, Tennessee utilizes tiered standards in its HCBS programs, working to ensure minimum compliance across settings in its Section 1915(c) waivers while closing all new enrollment into these waivers and directing all new HCBS enrollment into the Employment and Community First CHOICES program. For persons currently enrolled in the Statewide Waiver program, prior to entrance into the Statewide Waiver Program, an individualized assessment of need was conducted by the DIDD intake staff. The purpose of this assessment was to identify the service needs and to project the total cost for the services in order to determine whether the person’s needs could be satisfactorily met in a manner that assures the individual's health and welfare.

c. Participant Safeguards. When the state specifies an individual cost limit in Item B-2-a and there is a change in the participant's condition or circumstances post-entrance to the waiver that requires the provision of services in an amount that exceeds the cost limit in order to assure the participant's health and welfare, the state has established the following safeguards to avoid an adverse impact on the participant (check each that applies):

- The participant is referred to another waiver that can accommodate the individual's needs.
- Additional services in excess of the individual cost limit may be authorized.

Specify the procedures for authorizing additional services, including the amount that may be authorized:

- Other safeguard(s)

Specify:
Should a change in the participant's condition or circumstances post-entrance to the waiver require the provision of services in an amount that exceeds the cost limit in order to assure the participant's health and welfare, TennCare and DIDD will first work with the Independent Support Coordinator and with the participant’s MCO to determine whether additional services and supports needs can be met through covered or cost-effective alternative services available through the managed care program, or through the use of assistive technology, allowing the person to continue participation in the waiver program. If, following such coordination efforts, it is determined that the participant’s health and welfare cannot be assured in the waiver, TennCare and DIDD will work with the individual to facilitate transition to another more appropriate LTSS program or service. This includes the Managed Long Term Services and Supports Program, Employment and Community First CHOICES. Notice of disenrollment, including the right to fair hearing, would be issued. The applicant would have 30 days to request a fair hearing from TennCare. Fair hearings regarding disenrollment from an HCBS waiver are conducted in accordance with the Uniform Administrative Procedures Act. However, a person enrolled in this waiver shall not be dis-enrolled if the sole reason the individual cost limit would be exceeded is a change in the reimbursement methodology for employment and day services implemented under the terms of the completed Statewide Transition Plan for this waiver in order to achieve compliance with the federal HCBS Settings Rule. Persons supported shall be permitted to exceed the cost limit in order to continue receiving the same type and amount of services before the reimbursement change went into effect. In addition, to ensure compliance with the Rule, a person may be permitted to exceed the individual cost limit when additional Supported Employment-Individual Supports are requested and utilized. A waiver participant shall not be disenrolled or required to experience a reduction in the amount of services currently being provided as a result of State increases in the rate of payment for such services, including rate increases targeted to increase wages for direct support professionals in order to help providers recruit and retain staff. If an increase in the rate of payment for service(s) would result in a person’s cost limit being exceeded, the person shall not be required to reduce the amount of previously authorized services. The State may establish a methodology that would disregard some or all such rate increases in the application of the individual cost limit. Except as provided in that methodology, all new or additional services will be subject to the individual cost limit as specified in this waiver.

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (1 of 4)

a. Unduplicated Number of Participants. The following table specifies the maximum number of unduplicated participants who are served in each year that the waiver is in effect. The state will submit a waiver amendment to CMS to modify the number of participants specified for any year(s), including when a modification is necessary due to legislative appropriation or another reason. The number of unduplicated participants specified in this table is basis for the cost-neutrality calculations in Appendix J:

<table>
<thead>
<tr>
<th>Waiver Year</th>
<th>Unduplicated Number of Participants</th>
</tr>
</thead>
<tbody>
<tr>
<td>Year 1</td>
<td>4648</td>
</tr>
<tr>
<td>Year 2</td>
<td>4508</td>
</tr>
<tr>
<td>Year 3</td>
<td>4373</td>
</tr>
<tr>
<td>Year 4</td>
<td>4308</td>
</tr>
<tr>
<td>Year 5</td>
<td>4243</td>
</tr>
</tbody>
</table>

b. Limitation on the Number of Participants Served at Any Point in Time. Consistent with the unduplicated number of participants specified in Item B-3-a, the state may limit to a lesser number the number of participants who will be served at any point in time during a waiver year. Indicate whether the state limits the number of participants in this way: (select one) :

- ☒ The state does not limit the number of participants that it serves at any point in time during a waiver year.
- ☐ The state limits the number of participants that it serves at any point in time during a waiver year.
The limit that applies to each year of the waiver period is specified in the following table:

<table>
<thead>
<tr>
<th>Waiver Year</th>
<th>Maximum Number of Participants Served At Any Point During the Year</th>
</tr>
</thead>
<tbody>
<tr>
<td>Year 1</td>
<td></td>
</tr>
<tr>
<td>Year 2</td>
<td></td>
</tr>
<tr>
<td>Year 3</td>
<td></td>
</tr>
<tr>
<td>Year 4</td>
<td></td>
</tr>
<tr>
<td>Year 5</td>
<td></td>
</tr>
</tbody>
</table>

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

c. Reserved Waiver Capacity. The state may reserve a portion of the participant capacity of the waiver for specified purposes (e.g., provide for the community transition of institutionalized persons or furnish waiver services to individuals experiencing a crisis) subject to CMS review and approval. The State (select one):

- Not applicable. The state does not reserve capacity.
- The state reserves capacity for the following purpose(s).

Purpose(s) the state reserves capacity for:

<table>
<thead>
<tr>
<th>Purposes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Money Follows the Person (MFP) ICF/IID to Waiver Transitions</td>
</tr>
<tr>
<td>Children age 18-20 requiring residential services</td>
</tr>
<tr>
<td>Waiver participants transitioned to the CAC Waiver upon implementation of an individual cost neutrality cap in the Statewide Waiver, in accordance with the State’s approved transition plan.</td>
</tr>
</tbody>
</table>

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

Purpose (provide a title or short description to use for lookup):

Money Follows the Person (MFP) ICF/IID to Waiver Transitions

Purpose (describe):

A key objective of the reinstated MFP program is to transfer individuals from Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICFs/IID) to Home and Community Based Services (HCBS) during the demonstration. In order to accommodate this objective, this amendment will propose expansion of eligibility for enrollment into the Statewide Waiver to include individuals participating in the MFP program who are transitioning from an ICF/IID following a stay of at least ninety (90) days, and but for the availability of Medical Residential services through the waiver, would require placement in an ICF/IID.

Describe how the amount of reserved capacity was determined:
The amount of reserve capacity was determined by the State’s approved MFP budget.

The capacity that the State reserves in each waiver year is specified in the following table:

<table>
<thead>
<tr>
<th>Waiver Year</th>
<th>Capacity Reserved</th>
</tr>
</thead>
<tbody>
<tr>
<td>Year 1</td>
<td>0</td>
</tr>
<tr>
<td>Year 2</td>
<td>0</td>
</tr>
<tr>
<td>Year 3</td>
<td>0</td>
</tr>
<tr>
<td>Year 4</td>
<td>65</td>
</tr>
<tr>
<td>Year 5</td>
<td>130</td>
</tr>
</tbody>
</table>

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

**Purpose** (provide a title or short description to use for lookup):

Children age 18-20 requiring residential services

**Purpose** (describe):

Reserve capacity is held for up to 62 children with ID aging out of state custody and other children with ID ages 18 through 20 requiring residential services but not currently eligible for residential supports in Groups 5 and 6 of the new Employment and Community First CHOICES program. These children may be enrolled into the Statewide Waiver as determined appropriate by TennCare and DIDD, pending modifications to the 1115 demonstration.

**Describe how the amount of reserved capacity was determined:**

The amount of reserve capacity for this purpose is based on the projected number of children with ID aging out of state custody and other children with ID ages 18 through 20 who may require residential services, and the availability of funding to support such services based on FY 2017 appropriations.

The capacity that the State reserves in each waiver year is specified in the following table:

<table>
<thead>
<tr>
<th>Waiver Year</th>
<th>Capacity Reserved</th>
</tr>
</thead>
<tbody>
<tr>
<td>Year 1</td>
<td></td>
</tr>
<tr>
<td>Year 2</td>
<td>62</td>
</tr>
<tr>
<td>Year 3</td>
<td></td>
</tr>
<tr>
<td>Year 4</td>
<td></td>
</tr>
<tr>
<td>Year 5</td>
<td></td>
</tr>
</tbody>
</table>
Waiver participants transitioned to the CAC Waiver upon implementation of an individual cost neutrality cap in the Statewide Waiver, in accordance with the State’s approved transition plan.

**Purpose (describe):**

Per CMS guidance, year 1 (2015) of this waiver will reserve the exact number of waiver participants that were transitioned to the CAC Waiver.

**Describe how the amount of reserved capacity was determined:**

The amount of reserved capacity was determined by the exact number of waiver participants that were transitioned from the Statewide Waiver to the CAC Waiver.

**The capacity that the State reserves in each waiver year is specified in the following table:**

<table>
<thead>
<tr>
<th>Waiver Year</th>
<th>Capacity Reserved</th>
</tr>
</thead>
<tbody>
<tr>
<td>Year 1</td>
<td>1538</td>
</tr>
<tr>
<td>Year 2</td>
<td>0</td>
</tr>
<tr>
<td>Year 3</td>
<td>0</td>
</tr>
<tr>
<td>Year 4</td>
<td>0</td>
</tr>
<tr>
<td>Year 5</td>
<td>0</td>
</tr>
</tbody>
</table>

**Appendix B: Participant Access and Eligibility**

**B-3: Number of Individuals Served (3 of 4)**

d. **Scheduled Phase-In or Phase-Out.** Within a waiver year, the state may make the number of participants who are served subject to a phase-in or phase-out schedule (select one):

- The waiver is not subject to a phase-in or a phase-out schedule.
- The waiver is subject to a phase-in or phase-out schedule that is included in Attachment #1 to Appendix B-3. This schedule constitutes an intra-year limitation on the number of participants who are served in the waiver.

e. **Allocation of Waiver Capacity.**

**Select one:**

- Waiver capacity is allocated/managed on a statewide basis.
- Waiver capacity is allocated to local/regional non-state entities.

Specify: (a) the entities to which waiver capacity is allocated; (b) the methodology that is used to allocate capacity and how often the methodology is reevaluated; and, (c) policies for the reallocation of unused capacity among local/regional non-state entities:

f. **Selection of Entrants to the Waiver.** Specify the policies that apply to the selection of individuals for entrance to the waiver:
Consistent with the special terms and conditions of the State’s approved 1115 demonstration and the June 2015 guidance issued by CMS, Tennessee utilizes tiered standards in its HCBS programs, working to ensure minimum compliance across settings in its Section 1915(c) waivers while closing all new enrollment into these waivers and directing all new HCBS enrollment into the Employment and Community First CHOICES program. The Tennessee Statewide Waiver remains available to Tennessee residents in the target population already enrolled in the waiver as of 7/1/16 who:
1. Meet Medicaid financial eligibility criteria in one of the specified eligibility groups;
2. Need the level of care provided in an Intermediate Care Facility for individuals with Intellectual Disabilities (ICF/IID) as evidenced by TennCare approval of a Pre-Admission Evaluation (PAE);
3. Meet all applicable requirements set forth in TennCare Rule Chapter 1200-13-1-.25, including a determination by DIDD that the individual’s medical, behavioral and specialized services and support needs can be safely met through the Waiver, based on a pre-enrollment assessment, and a place of residence with an environment that is adequate to reasonably ensure the person’s health, safety and welfare.
4. Are participating in the State’s MFP program and transitioning from an ICF/IID following a stay of at least ninety (90) days and but for the availability of Medical Residential services through the waiver, would require placement in an ICF/IID.

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served - Attachment #1 (4 of 4)

Appendix B: Participant Access and Eligibility

B-4: Eligibility Groups Served in the Waiver

a. 1. State Classification. The state is a (select one):
   - §1634 State
   - SSI Criteria State
   - 209(b) State

2. Miller Trust State.
   Indicate whether the state is a Miller Trust State (select one):
   - No
   - Yes

b. Medicaid Eligibility Groups Served in the Waiver. Individuals who receive services under this waiver are eligible under the following eligibility groups contained in the state plan. The state applies all applicable federal financial participation limits under the plan. Check all that apply:

   Eligibility Groups Served in the Waiver (excluding the special home and community-based waiver group under 42 CFR §435.217)

   - [ ] Low income families with children as provided in §1931 of the Act
   - [x] SSI recipients
   - [ ] Aged, blind or disabled in 209(b) states who are eligible under 42 CFR §435.121
   - [ ] Optional state supplement recipients
   - [ ] Optional categorically needy aged and/or disabled individuals who have income at:

       Select one:
       - [ ] 100% of the Federal poverty level (FPL)
       - [ ] % of FPL, which is lower than 100% of FPL.

       Specify percentage:

   - [ ] Working individuals with disabilities who buy into Medicaid (BBA working disabled group as provided in
Working individuals with disabilities who buy into Medicaid (TWWIIA Basic Coverage Group as provided in §1902(a)(10)(A)(ii)(XII) of the Act)

Working individuals with disabilities who buy into Medicaid (TWWIIA Medical Improvement Coverage Group as provided in §1902(a)(10)(A)(ii)(XVI) of the Act)

Disabled individuals age 18 or younger who would require an institutional level of care (TEFRA 134 eligibility group as provided in §1902(e)(3) of the Act)

Medically needy in 209(b) States (42 CFR §435.330)

Medically needy in 1634 States and SSI Criteria States (42 CFR §435.320, §435.322 and §435.324)

Other specified groups (include only statutory/regulatory reference to reflect the additional groups in the state plan that may receive services under this waiver)

Specify:

<table>
<thead>
<tr>
<th>Special home and community-based waiver group under 42 CFR §435.217</th>
<th>Note: When the special home and community-based waiver group under 42 CFR §435.217 is included, Appendix B-5 must be completed</th>
</tr>
</thead>
<tbody>
<tr>
<td>No. The state does not furnish waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217.</td>
<td>Appendix B-5 is not submitted.</td>
</tr>
<tr>
<td>Yes. The state furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217.</td>
<td>Select one and complete Appendix B-5.</td>
</tr>
</tbody>
</table>

Only the following groups of individuals in the special home and community-based waiver group under 42 CFR §435.217

Check each that applies:

- A special income level equal to:
  - ☒ 300% of the SSI Federal Benefit Rate (FBR)
  - ☐ A percentage of FBR, which is lower than 300% (42 CFR §435.236)

  Specify percentage: __________

  - ☐ A dollar amount which is lower than 300%.

  Specify dollar amount: __________

- Aged, blind and disabled individuals who meet requirements that are more restrictive than the SSI program (42 CFR §435.121)

- Medically needy without spend down in states which also provide Medicaid to recipients of SSI (42 CFR §435.320, §435.322 and §435.324)

- Medically needy without spend down in 209(b) States (42 CFR §435.330)

- Aged and disabled individuals who have income at:

  Select one:
100% of FPL

☐ % of FPL, which is lower than 100%.

Specify percentage amount: 

☐ Other specified groups (include only statutory/regulatory reference to reflect the additional groups in the state plan that may receive services under this waiver)

Specify:

Appendix B: Participant Access and Eligibility
B-5: Post-Eligibility Treatment of Income (1 of 7)

In accordance with 42 CFR §441.303(e), Appendix B-5 must be completed when the state furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217, as indicated in Appendix B-4. Post-eligibility applies only to the 42 CFR §435.217 group.

a. Use of Spousal Impoverishment Rules. Indicate whether spousal impoverishment rules are used to determine eligibility for the special home and community-based waiver group under 42 CFR §435.217:

Note: For the period beginning January 1, 2014 and extending through September 30, 2019 (or other date as required by law), the following instructions are mandatory. The following box should be checked for all waivers that furnish waiver services to the 42 CFR §435.217 group effective at any point during this time period.

☒ Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group. In the case of a participant with a community spouse, the state uses spousal post-eligibility rules under §1924 of the Act.

Complete Items B-5-e (if the selection for B-4-a-i is SSI State or §1634) or B-5-f (if the selection for B-4-a-i is 209b State) and Item B-5-g unless the state indicates that it also uses spousal post-eligibility rules for the time periods before January 1, 2014 or after September 30, 2019 (or other date as required by law).

Note: The following selections apply for the time periods before January 1, 2014 or after September 30, 2019 (or other date as required by law) (select one).

☐ Spousal impoverishment rules under §1924 of the Act are not used to determine eligibility of individuals with a community spouse for the special home and community-based waiver group. The state uses regular post-eligibility rules for individuals with a community spouse.

In the case of a participant with a community spouse, the state elects to (select one):

☒ Use spousal post-eligibility rules under §1924 of the Act.
(Complete Item B-5-b (SSI State) and Item B-5-d)

☒ Use regular post-eligibility rules under 42 CFR §435.726 (SSI State) or under §435.735 (209b State)
(Complete Item B-5-b (SSI State). Do not complete Item B-5-d)

☒ Spousal impoverishment rules under §1924 of the Act are not used to determine eligibility of individuals with a community spouse for the special home and community-based waiver group. The state uses regular post-eligibility rules for individuals with a community spouse.
(Complete Item B-5-b (SSI State). Do not complete Item B-5-d)

Appendix B: Participant Access and Eligibility
B-5: Post-Eligibility Treatment of Income (2 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

b. Regular Post-Eligibility Treatment of Income: SSI State.
The state uses the post-eligibility rules at 42 CFR 435.726 for individuals who do not have a spouse or have a spouse who is not a community spouse as specified in §1924 of the Act. Payment for home and community-based waiver services is reduced by the amount remaining after deducting the following allowances and expenses from the waiver participant's income:

i. Allowance for the needs of the waiver participant (select one):

  - The following standard included under the state plan

    Select one:

    - SSI standard
    - Optional state supplement standard
    - Medically needy income standard
    - The special income level for institutionalized persons

    (select one):

    - 300% of the SSI Federal Benefit Rate (FBR)
    - A percentage of the FBR, which is less than 300%.

      Specify the percentage: ___________

    - A dollar amount which is less than 300%.

      Specify dollar amount: ___________

    - A percentage of the Federal poverty level

      Specify percentage: ___________

    - Other standard included under the state Plan

      Specify:

      ___________

  - The following dollar amount

    Specify dollar amount: ___________ If this amount changes, this item will be revised.

  - The following formula is used to determine the needs allowance:

    Specify:

    ___________

ii. Allowance for the spouse only (select one):

  - Not Applicable
The state provides an allowance for a spouse who does not meet the definition of a community spouse in §1924 of the Act. Describe the circumstances under which this allowance is provided:

Specify:

Specify the amount of the allowance (select one):

- SSI standard
- Optional state supplement standard
- Medically needy income standard
- The following dollar amount:

  Specify dollar amount: [ ] If this amount changes, this item will be revised.

- The amount is determined using the following formula:

  Specify:

iii. Allowance for the family (select one):

- Not Applicable (see instructions)
- AFDC need standard
- Medically needy income standard
- The following dollar amount:

  Specify dollar amount: [ ] The amount specified cannot exceed the higher of the need standard for a family of the same size used to determine eligibility under the state's approved AFDC plan or the medically needy income standard established under 42 CFR §435.811 for a family of the same size. If this amount changes, this item will be revised.

- The amount is determined using the following formula:

  Specify:

- Other

  Specify:

iv. Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 §CFR 435.726:

  a. Health insurance premiums, deductibles and co-insurance charges
  b. Necessary medical or remedial care expenses recognized under state law but not covered under the state's
Medicaid plan, subject to reasonable limits that the state may establish on the amounts of these expenses.

Select one:

- **Not Applicable (see instructions)** Note: If the state protects the maximum amount for the waiver participant, not applicable must be selected.
- The state does not establish reasonable limits.
- The state establishes the following reasonable limits

Specify:

Deductions for any other medical services recognized under State law but not covered by Medicaid will be provided per contract of the provider’s usual and customary charges, billed charges, or 80% of the Medicare fee schedule. Deductions will be allowed only for services that are determined by the state to be medically necessary for the particular individual on whose behalf the services are being requested.

Appendix B: Participant Access and Eligibility

**B-5: Post-Eligibility Treatment of Income (3 of 7)**

*Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.*

c. **Regular Post-Eligibility Treatment of Income: 209(B) State.**

Answers provided in Appendix B-4 indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

**B-5: Post-Eligibility Treatment of Income (4 of 7)**

*Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.*

d. **Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules**

The state uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care if it determines the individual's eligibility under §1924 of the Act. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the state Medicaid Plan. The state must also protect amounts for incurred expenses for medical or remedial care (as specified below).

i. **Allowance for the personal needs of the waiver participant**

(select one):

- SSI standard
- Optional state supplement standard
- Medically needy income standard
- The special income level for institutionalized persons
- A percentage of the Federal poverty level

Specify percentage: [ ]

- The following dollar amount:

Specify dollar amount: [ ] If this amount changes, this item will be revised

- The following formula is used to determine the needs allowance:
Specify formula:

Other

Specify:

200% of the SSI-FBR

ii. If the allowance for the personal needs of a waiver participant with a community spouse is different from the amount used for the individual's maintenance allowance under 42 CFR §435.726 or 42 CFR §435.735, explain why this amount is reasonable to meet the individual's maintenance needs in the community.

Select one:

- Allowance is the same
- Allowance is different.

Explanation of difference:

iii. Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 CFR §435.726:

a. Health insurance premiums, deductibles and co-insurance charges

b. Necessary medical or remedial care expenses recognized under state law but not covered under the state's Medicaid plan, subject to reasonable limits that the state may establish on the amounts of these expenses.

Select one:

- Not Applicable (see instructions) Note: If the state protects the maximum amount for the waiver participant, not applicable must be selected.
- The state does not establish reasonable limits.
- The state uses the same reasonable limits as are used for regular (non-spousal) post-eligibility.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (5 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

Answers provided in Appendix B-5-a indicate the selections in B-5-b also apply to B-5-e.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (6 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (7 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

*Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules - 2014 through 2018.*

The state uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the state Medicaid Plan. The state must also protect amounts for incurred expenses for medical or remedial care (as specified below).

Answers provided in Appendix B-5-a indicate the selections in B-5-d also apply to B-5-g.

Appendix B: Participant Access and Eligibility

B-6: Evaluation/Reevaluation of Level of Care

As specified in 42 CFR §441.302(c), the state provides for an evaluation (and periodic reevaluations) of the need for the level(s) of care specified for this waiver, when there is a reasonable indication that an individual may need such services in the near future (one month or less), but for the availability of home and community-based waiver services.

**a. Reasonable Indication of Need for Services.** In order for an individual to be determined to need waiver services, an individual must require: (a) the provision of at least one waiver service, as documented in the service plan, and (b) the provision of waiver services at least monthly or, if the need for services is less than monthly, the participant requires regular monthly monitoring which must be documented in the service plan. Specify the state’s policies concerning the reasonable indication of the need for services:

i. **Minimum number of services.**

   The minimum number of waiver services (one or more) that an individual must require in order to be determined to need waiver services is: 2

ii. **Frequency of services.** The state requires (select one):

   - [ ] The provision of waiver services at least monthly
   - [x] Monthly monitoring of the individual when services are furnished on a less than monthly basis

   *If the state also requires a minimum frequency for the provision of waiver services other than monthly (e.g., quarterly), specify the frequency:*

   In order to be eligible for this waiver, the person must require a program of specialized services and but for the provision of those services, require the level of care provided in an ICF/IID. Accordingly, a person must need at least one waiver service in addition to independent support coordination on an ongoing basis—at a minimum, quarterly.

**b. Responsibility for Performing Evaluations and Reevaluations.** Level of care evaluations and reevaluations are performed (select one):

   - [ ] Directly by the Medicaid agency
   - [ ] By the operating agency specified in Appendix A
   - [ ] By a government agency under contract with the Medicaid agency.

   *Specify the entity:*
c. Qualifications of Individuals Performing Initial Evaluation: Per 42 CFR §441.303(c)(1), specify the educational/professional qualifications of individuals who perform the initial evaluation of level of care for waiver applicants:

Physician (M.D. or D.O.) or Registered Nurse, licensed in the State of Tennessee

d. Level of Care Criteria. Fully specify the level of care criteria that are used to evaluate and reevaluate whether an individual needs services through the waiver and that serve as the basis of the state's level of care instrument/tool. Specify the level of care instrument/tool that is employed. State laws, regulations, and policies concerning level of care criteria and the level of care instrument/tool are available to CMS upon request through the Medicaid agency or the operating agency (if applicable), including the instrument/tool utilized.

Level of Care Criteria for Reevaluation: There are four level of care requirements that must be met for continued enrollment in the waiver during the reevaluation process. The person supported must:

1. Need the level of care being provided and would, but for the provision of waiver services, otherwise be institutionalized in an ICF/IID.
2. Require services to enhance functional ability or to prevent or delay the deterioration or loss of functional ability.
3. Have a significant deficit in impairment in adaptive functioning involving communication, comprehension, behavior, or activities of daily living (i.e., toileting, bathing, eating, dressing/grooming, transfer, or mobility); and
4. Require a program of specialized supports and services provided under supervision of a Qualified Intellectual Disability Professional (QIDP).

e. Level of Care Instrument(s). Per 42 CFR §441.303(c)(2), indicate whether the instrument/tool used to evaluate level of care for the waiver differs from the instrument/tool used to evaluate institutional level of care (select one):

   - The same instrument is used in determining the level of care for the waiver and for institutional care under the state Plan.
   - A different instrument is used to determine the level of care for the waiver than for institutional care under the state plan.

   Describe how and why this instrument differs from the form used to evaluate institutional level of care and explain how the outcome of the determination is reliable, valid, and fully comparable.

f. Process for Level of Care Evaluation/Reevaluation: Per 42 CFR §441.303(c)(1), describe the process for evaluating waiver applicants for their need for the level of care under the waiver. If the reevaluation process differs from the evaluation process, describe the differences:

DIDD is responsible for completing annual reevaluations. A physician, a registered nurse, or a Qualified Intellectual Disabilities Professional must attest that the participant meets the four requirements for reevaluation described in (d.) above.

g. Reevaluation Schedule. Per 42 CFR §441.303(c)(4), reevaluations of the level of care required by a participant are conducted no less frequently than annually according to the following schedule (select one):

   - Every three months
   - Every six months
Every twelve months

Other schedule

Specify the other schedule:

h. Qualifications of Individuals Who Perform Reevaluations. Specify the qualifications of individuals who perform reevaluations (select one):

- The qualifications of individuals who perform reevaluations are the same as individuals who perform initial evaluations.

- The qualifications are different.

Specify the qualifications:

Qualifications of professionals who conduct annual reevaluations are:

- Physician, either a D.O. or M.D.;

- Registered Nurse licensed in the State of Tennessee; or

- Qualified Intellectual Disabilities Professional (QIDP), as defined in 42 CFR 483.430(a)

i. Procedures to Ensure Timely Reevaluations. Per 42 CFR §441.303(c)(4), specify the procedures that the state employs to ensure timely reevaluations of level of care (specify):

Each DIDD regional office tracks and monitors annual level of care reevaluations due dates through the DIDD Client Information Tracking System on a monthly basis to ensure timely receipt.

j. Maintenance of Evaluation/Reevaluation Records. Per 42 CFR §441.303(c)(3), the state assures that written and/or electronically retrievable documentation of all evaluations and reevaluations are maintained for a minimum period of 3 years as required in 45 CFR §92.42. Specify the location(s) where records of evaluations and reevaluations of level of care are maintained:

Annual Level of Care Reevaluations: Annual Level of Care Reevaluations are conducted by DIDD, which maintains all applicable written and electronic documentation for a minimum of 3 years.

Appendix B: Evaluation/Reevaluation of Level of Care

Quality Improvement: Level of Care

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Level of Care Assurance/Sub-assurances

The state demonstrates that it implements the processes and instrument(s) specified in its approved waiver for evaluating/reevaluating an applicant’s/waiver participant’s level of care consistent with level of care provided in a hospital, NF or ICF/IID.

i. Sub-Assurances:

a. Sub-assurance: An evaluation for LOC is provided to all applicants for whom there is reasonable indication that services may be needed in the future.
Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

b. Sub-assurance: The levels of care of enrolled participants are reevaluated at least annually or as specified in the approved waiver.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

c. Sub-assurance: The processes and instruments described in the approved waiver are applied appropriately and according to the approved description to determine participant level of care.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

a.i.c.6. Number and percentage of LOC reevaluations made for which LOC criteria were accurately and appropriately applied. Percentage = number of LOC reevaluations made for which LOC criteria were accurately and appropriately applied / total number of waiver participants in the sample.

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

Performance Measure a.i.c.6.: A representative sample of waiver participants will be generated at the end of the waiver year. The sample will be divided as evenly as possible to collect data during the following twelve (12) months. For each waiver participant included in the sample, Individual Record Reviews will be conducted by designated DIDD Regional Office staff to obtain the information needed to determine compliance with this performance measure.

b. Methods for Remediation/Fixing Individual Problems

i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

For performance Measure a.i.c.6, remediation options include the following: A current annual reevaluation was located after survey and placed in the appropriate record; A reevaluation form was completed after survey with criteria met as part of remediation; a reevaluation was completed after survey as part of remediation and criteria were not met and therefore involuntary disenrollment procedures were initiated. Regional Office staff will monitor remediation actions until able to verify that the issue has been resolved satisfactorily. Remediation actions and timeframes are reported to TennCare monthly. TennCare notifies DIDD of any remediation determined unacceptable and requires DIDD to provide additional information and/or take additional remedial action until remediation can be determined appropriately completed. Support Coordination (ISC) and other provider agencies, as applicable, will be held accountable for taking appropriate personnel actions within 30 calendar days to address employee job performance, including, but not limited to training and retraining, verbal or written warning, suspension or termination. Other contracted providers will be held accountable, as appropriate, for resolution of issues involving PCSP implementation. Remediation actions are expected to be completed within a targeted time frame of 30 calendar days. DIDD has developed a data flow document which identifies data collection, reporting, and aggregation tasks that must be completed to generate the required reports for submission to TennCare. For each task, due dates are specified. Responsible DIDD staff and back-up staff are identified for each task. Designated DIDD Central Office staff compile the data collected and entered by regional and central office staff into DIDD databases to create data files that are posted for TennCare analysis and aggregation. In addition, DIDD generates a Quality Management Report using the data collected and reported. The Quality Management Report is submitted to TennCare each month and information contained therein is reviewed during monthly State Quality Management Committee Meetings.

ii. Remediation Data Aggregation

c. Timelines
When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Level of Care that are currently non-operational.

☐ No
☐ Yes

Please provide a detailed strategy for assuring Level of Care, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix B: Participant Access and Eligibility

B-7: Freedom of Choice

**Freedom of Choice.** As provided in 42 CFR §441.302(d), when an individual is determined to be likely to require a level of care for this waiver, the individual or his or her legal representative is:

i. informed of any feasible alternatives under the waiver; and
ii. given the choice of either institutional or home and community-based services.

**a. Procedures.** Specify the state's procedures for informing eligible individuals (or their legal representatives) of the feasible alternatives available under the waiver and allowing these individuals to choose either institutional or waiver services. Identify the form(s) that are employed to document freedom of choice. The form or forms are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).
FREEDOM OF CHOICE

Consistent with the special terms and conditions of the State’s approved 1115 demonstration and the June 2015 guidance issued by CMS, Tennessee utilizes tiered standards in its HCBS programs, working to ensure minimum compliance across settings in its Section 1915(c) waivers while closing all new enrollment into these waivers and directing all new HCBS enrollment into the Employment and Community First CHOICES program.

For persons already enrolled in the Tennessee Statewide Waiver, the process for ensuring Freedom of Choice was as follows:

1. When an individual was determined to qualify in the target group specified for the Statewide waiver, and to meet all other applicable requirements for enrollment into the Statewide waiver, including ICF/IID level of care, and the waiver capacity had not reached the specified cap of unduplicated participants for the calendar year, the individual or his or her legal representative were:
   a. informed of any feasible alternatives under the waiver; and
   b. given the choice of either institutional or Home and Community-Based services.

PROCESS:

The following describes the agency’s previous procedure(s) for informing eligible individuals of the feasible alternatives available under the waiver and allowing these individuals to choose either institutional or waiver services:

When an individual was determined to require the level of care provided by an ICF/IID, DIDD informed the individual or the individual’s legal representative of any feasible alternatives available under the waiver program, including a description of the waiver services and names and addresses of available qualified providers, and offered the choice of either institutional or waiver services.

Notice to the individual contained a simple explanation of the waiver and waiver services; a statement that participation in the Waiver is voluntary; and notification of the opportunity to apply for enrollment in the Waiver and an explanation of the procedures for enrollment. The Freedom of Choice form was explained and the signature of the person to receive waiver services or the legal representative was obtained on the Freedom of Choice form, which was completed prior to admission into the waiver program.

In addition to freedom of choice of institutional or HCBS alternatives, individuals electing to participate in the Statewide Waiver are supported to exercise informed choice regarding services and supports they receive, providers of such services, and the setting in which services and supports are received and which are integrated in, and support full access to the greater community, including opportunities to seek employment and work in competitive integrated settings, engage in community life, control personal resources, and receive services in the community to the same degree of access as individuals not receiving Medicaid HCBS.

b. Maintenance of Forms. Per 45 CFR §92.42, written copies or electronically retrievable facsimiles of Freedom of Choice forms are maintained for a minimum of three years. Specify the locations where copies of these forms are maintained.

Copies of freedom of choice documentation are maintained in the following location(s):

The Freedom of Choice documentation are maintained by contracted Support Coordination Agencies.

Appendix B: Participant Access and Eligibility

B-8: Access to Services by Limited English Proficiency Persons

Access to Services by Limited English Proficient Persons. Specify the methods that the state uses to provide meaningful access to the waiver by Limited English Proficient persons in accordance with the Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 - August 8, 2003):
For Individuals with Limited English Proficiency (LEP)

The Division of TennCare and the Department of Intellectual and Developmental Disabilities (DIDD) provide a number of options to assist individuals with Limited English Proficiency (LEP) as they navigate the application process for TennCare eligibility.

The Division of TennCare provides eligibility applications and mails notices in English and Spanish. An insert in each TennCare mailing provides information in each of the following languages and a toll-free phone number that individuals may call for translation assistance: Arabic, Kurdish-Bandinani, Kurdish-Sorani, Bosnian, and Vietnamese. Translation services are provided by the TennCare Advocacy Program, a program of Health Assist Tennessee. In addition to translation services, the TennCare Advocacy Program also assists TennCare enrollees and applicants with TennCare questions or problems, and can direct enrollees and applicants to other local community resources for translation and other assistance. DIDD also provides translation services as needed.

All notices contain the numbers of the TennCare Solutions Unit, the TennCare Advocacy Program and a TTY/TDD line.

The Division of TennCare provides a list of accommodations that are made available to the TennCare population. These accommodations include:

- Accepting online applications;
- Accepting applications submitted through the U.S. Mail;
- Allowing the applicant to designate a third party to represent him/her during the eligibility process;
- Conducting any interview or discussion that might be needed to gather additional information over the phone or outside of normal working hours;
- When needed, providing in-home assistance in completing the application process.

Appendix C: Participant Services
C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type: Statutory Service
Service: Residential Habilitation
Alternate Service Title (if any):

HCBS Taxonomy:

Category 1: Sub-Category 1:

Category 2: Sub-Category 2:

Category 3: Sub-Category 3:

Service Definition (Scope):
Category 4: Sub-Category 4:
Residential Habilitation shall mean a type of residential service selected by the person supported, offering individualized services and supports that enable the person supported to acquire, retain, or improve skills necessary to reside in a community-based setting and which supports each resident’s independence and full integration into the community, and ensures each resident’s choice and rights. Residential Habilitation services shall be provided in a dwelling which may be rented, leased, or owned by the Residential Habilitation provider, and shall comport fully with standards applicable to HCBS settings delivered under Section 1915(c) of the Social Security Act, including those requirements applicable to provider-owned or controlled homes, except as supported by the individual’s specific assessed need and set forth in the person-centered ISP.

All individual goals and objectives, along with needed supports shall be established through the person-centered planning process and documented in the person-centered ISP and shall include opportunities to seek employment and work in competitive integrated settings, engage in community life, and control personal resources, as applicable based on the needs and preferences of the person supported. Supports may include direct assistance as needed with, participating in, and learning how to complete independently activities of daily living (e.g., bathing, dressing, personal hygiene, eating, meal preparation, household chores) essential to the health and safety of the person supported, budget management (which shall include supporting the individual in managing his/her personal funds, as appropriate), attending appointments, and interpersonal and social skills building to enable the person supported to live in a home in the community. Supports shall be provided in a manner which ensures an individual’s rights of privacy, dignity, respect and freedom from coercion and restraint; and which optimizes individual initiative, autonomy, and independence in making life choices. Residential Habilitation may include medication administration as permitted under Tennessee’s Nurse Practice Act and performance of other non-complex health maintenance tasks, as permitted by State law. The Residential Habilitation provider shall oversee the person’s health care needs.

The Residential Habilitation dwelling shall be licensed by the State of Tennessee.

A Residential Habilitation home shall have no more than 4 residents with the exception that homes which were already providing services to more than 4 residents prior to July 1, 2000, may continue to do so. Individuals receiving Residential Habilitation services may choose to receive services in a shared living arrangement with other persons who need differing levels of support, differing types of waiver services, or who participate in different HCBS programs, as permitted pursuant to state licensure law and regulation, as long as there is a willing, qualified provider who can safely meet the needs of each resident in the home. The Residential Habilitation provider shall be responsible for providing an appropriate level of services and supports for up to 24 hours per day during the hours the person supported is not receiving Day Services or is not at school or work, based on the person’s support needs. Persons supported should receive the amount of support they need while also, consistent with the federal HCBS Settings Rule, have freedom in choosing to spend time alone or engage in activities without paid staff present, unless there are specific safety concerns that cannot be mitigated to a tolerable level of risk. Providers are responsible for providing an appropriate level of supports, including enabling technology, paid staff, and natural supports, as applicable, to ensure each person’s health and safety, while maximizing personal choice and independence, and not restricting individual rights and freedoms, except as minimally necessary and in accordance with the federal Rule.

A person supported who is receiving Residential Habilitation shall not be eligible to receive Personal Assistance or Respite (which would duplicate services that are the responsibility of the Residential Habilitation provider).

With the exception of transportation to and from medical services covered through the Medicaid State Plan/TennCare Program, and in accordance with TennCare protocol, transportation shall be a component of Residential Habilitation and shall be included in the reimbursement rate for such.

Reimbursement for Residential Habilitation shall not be made for room and board or for the cost of maintenance of the dwelling. Reimbursement for Residential Habilitation shall not include payment for Residential Habilitation provided by the spouse of a person supported. The Residential Habilitation provider and provider staff shall not be the parent or custodial grandparent of a person supported under age 18 years, whether the relationship is by blood, by marriage, or by adoption; and reimbursement shall not include payment for Residential Habilitation provided by such individuals. Reimbursement for Residential Habilitation shall not include payment made for services provided by an individual who has been appointed as the conservator of the person supported, unless so permitted in the Order for Conservatorship.

This service shall not be provided in inpatient hospitals, nursing facilities, and Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICFs/IID). Residential Habilitation shall not be provided in a home where a person supported lives with family members unless such family members are also persons supported. Family member shall be interpreted to mean the mother, father, grandmother, grandfather, sister, brother, son, daughter, or spouse, whether the relationship is by blood, by marriage, or by adoption.

Residential Habilitation may be provided out-of-state under the following circumstances:

a. Out-of-state services shall be limited to a maximum of 14 days per person supported per waiver program year.
b. The waiver service provider agency must be able to assure the health and safety of the person supported during the period when services will be provided out-of-state and must be willing to assume the additional risk and liability of provision of services out-of-state (i.e., provision of out-of-state services is at the discretion of the service provider).

c. During the period when out-of-state services are being provided, the waiver service provider agency must maintain an adequate amount of staffing (including services of a nurse if applicable) to meet the needs of the person supported and must ensure that staff meet waiver provider qualifications.

d. The waiver service provider agency shall not receive any additional reimbursement for provision of services out-of-state. The costs of travel, lodging, food, and other expenses incurred by staff during the provision of out-of-state services shall not be reimbursed through the waiver. The costs of travel, lodging, food, and other expenses incurred by the person supported while receiving out-of-state services shall be the responsibility of the person supported and shall not be reimbursed through the waiver.

The Residential Special Needs Adjustment – Homebound (RSNA-HB) is a supplementary per diem payment that may be approved in limited circumstances as specified herein for Residential Habilitation services that are provided in the individual’s residence when the individual is determined by TennCare and DIDD to meet the definition of ‘homebound’ and as a result, is unable (not unwilling) to participate in any employment or day service and must remain at their residence for the full 24 hours of a particular day, except leaving the home for medical treatment or medical appointments, and requires paid support in the residence during that time. ‘Homebound’ is defined as being unable (not unwilling) to leave your home except for medical treatment or medical appointments and unable to participate in any employment or day service for at least 2 hours per day (the 2 hours may or may not be consecutive) for a sustained period of time which is at least 5 days in a 14 day billing period.

RSNA-HB can only be authorized and paid in limited exceptional circumstances when engaging in integrated community participation and/or integrated community employment outside the home is not possible for the individual due to:

1. Needs related to end of life. End-of-life issues relate to someone's death and the time just before it, when it is known that they are likely to die soon from a terminal illness or similar condition. The person is receiving support and medical care given during the time surrounding death.

2. Needs related to a sustained behavioral crisis, involving behaviors not otherwise typical for the individual. These behaviors are not considered safe and/or would be sufficiently disruptive if displayed in the community and/or at a place of employment so as to cause issues that would interfere with successful participation in the community and or in community employment.

3. Needs related to recovery after a period of hospitalization, recovery due to being admitted to hospital ICU, emergency illness, surgical complication or accident.

4. Significantly health compromised - A chronic health issue, supported by current medical records that restricts the person from leaving their home under certain pre-determined circumstances, including environmental issues i.e. extreme heat or cold, high pollen, air quality, exposure (geographically) to high incidences of communicable disease etc., that would further compromise the individual’s health and physical well-being.

RSNA-HB payments are intended to be as time-limited as possible, with a goal of supporting the individual to engage in employment or other integrated community activities and must be reviewed and reauthorized, as appropriate, at a minimum, every 90 days, and not on a continuous basis, except in exceptional circumstances as approved by TennCare and DIDD (e.g., end of life). All individual goals and objectives, and specific needed supports, related to authorization of the RSNA-HB, and to supporting the individual’s ability to participate in employment and other integrated community activities shall be established through the person-centered planning process and documented in the person-centered ISP.

The RSNA-HB can only be authorized and paid for services provided on the same day that Residential Habilitation services are also authorized and provided.

To support the introduction of TennCare and DIDD Value-Based Purchasing (VBP) initiatives, a flexible residential service rate option is available to incentivize provider outcomes that align with system transformation values, such as person-centered practices, independence, community integration, dignity of choice, competitive integrated employment, enabling technology, and workforce development.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
A person authorized to receive the RSNA-HB payment may receive therapy services such as PT, OT, Speech, Language and Hearing, and Behavior Services on the same day the RSNA-HB payment is made when appropriate based on the individualized needs and goals of the person supported. A person authorized to receive the RSNA-HB payment may receive Nursing Services only on an intermittent basis and limited to no more than one hour of the six-hour period to perform specific skilled nursing tasks that cannot be performed by or delegated to the staff providing the residential service for which the RSNA-HB is authorized. If a person receives continuous nursing, the RNSA-HB payment shall not be paid.

The RSNA-HB does not replace any of the existing residential special needs adjustments. It can be authorized in addition to another residential special needs adjustment that is authorized for a different, non-duplicative purpose on same day. The RSNA-HB payment shall not be provided on any day that the person supported receives any Employment or Day Services, services under a 504 Plan or Individual Education Program (IEP), is being homeschooled, or any combination thereof or as a substitute for education services which are available pursuant to IDEA, but which the person or his representative has elected to forego. It may not be self-directed.

| Statutory Service |

Service:
| Respite |

Alternate Service Title (if any):

HCBS Taxonomy:

<table>
<thead>
<tr>
<th>Category 1:</th>
<th>Sub-Category 1:</th>
</tr>
</thead>
</table>
Respite shall mean services provided to a person supported when unpaid caregivers are absent or need relief from routine caregiving responsibilities. Respite may be provided in the person's place of residence, in a Family Model Residential Support home, in a Medicaid-certified ICF/IID, in a home operated by a licensed residential provider, in a licensed respite care facility, or in the home of an approved respite provider. The Respite provider may also accompany the person on short outings for exercise, recreation, shopping or other purposes while providing respite care.

Reimbursement for Respite shall not include payment for Respite provided by the spouse of a person supported or family member or relative (whether by birth or marriage) who resides with the person supported in the home. The Respite provider and provider staff shall not be the parent or custodial grandparent of a person supported under age 18 years, whether the relationship is by blood, by marriage, or by adoption; and reimbursement shall not include payment for Respite provided by such individuals. Reimbursement for Respite shall not include payment for Respite provided by any individual who has been appointed as the conservator for the person supported unless so permitted in the Order for Conservatorship. Family members who provide Respite must meet the same standards as providers who are unrelated to the person supported, including implementing services as specified in the individual support plan (ISP).

When less than 8 hours of respite services is needed in a day, the unit of reimbursement shall be per 15 minutes. When 8 hours or more of respite services are needed in a day, the unit of reimbursement shall be per day.

Level 1 per day reimbursement shall be for persons requiring at least 8 hours, but less than 16 hours of respite services in a day. Level 2 per day reimbursement shall be for persons requiring at least 16 and up to 24 hours of respite services in a day, but no awake overnight direct support staff. Level 3 per day reimbursement shall be for persons requiring 24 hour respite services, including awake overnight direct support staff.

Respite shall be limited to a maximum of 30 days per person supported per waiver program year (i.e. calendar year). Family members are required to implement services as specified in the ISP. Reimbursement to family members shall be limited to forty hours per week per family member for self-directed services as well as those delivered by contracted provider agencies. The person’s Circle of Support shall ensure that paid services do not supplant natural supports that would otherwise be provided at no cost to the Medicaid program.

A person receiving respite for a period less than 24 hours per day may also receive Supported Employment (Individual Employment Supports and Small Group), and Day Services (Community Participation Supports, Intermittent Employment and Community Participation Wraparound, Facility-Based Day Supports and Non-Residential Homebound Support Services) on the same day that respite is provided, provided that respite shall not be provided or reimbursed at the same time as any employment or day service. Reimbursement for respite is based on the actual time spent providing respite (unduplicated with any other service, including employment and day).

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Respite shall be limited to a maximum of 30 days per person supported per calendar year.

Support Coordination

HCBS Taxonomy:

Category 1: 

Sub-Category 1:

Category 2: 

Sub-Category 2:
Service Definition (Scope):
Category 3: Sub-Category 3:

Category 4: Sub-Category 4:
Support Coordination shall mean the assessment, planning, implementation, coordination, and monitoring of services and supports that assist individuals with intellectual and developmental disabilities to develop personal relationships, participate in their community, increase control over their own lives, and develop the skills and abilities needed to achieve these goals, person supported as specified in person supported the individual’s person-centered Individual Support Plan (ISP). Support Coordination shall be provided in a manner that comports fully with standards applicable to person-centered planning for services delivered under Section 1915(c) of the Social Security Act.

Specific tasks performed by the Support Coordination provider shall include, but are not limited to general education about the waiver program, including individual rights and responsibilities; providing necessary information and support to the individual to support his/her direction of the person-centered planning process to the maximum extent desired and possible; initial and ongoing assessment of the individual’s strengths and needs; identification of what is important to the individual, including preferences for the delivery of services and supports; actual development, ongoing evaluation, and updates to the ISP as needed or upon request of the individual; coordination with the individual’s health care providers and MCO(s), as applicable, to ensure timely access to and receipt of needed physical and behavioral health services; supporting the individual’s informed choice regarding services and supports they receive, providers who offer such services, and the setting in which services and supports are received which shall be integrated in, and support full access to the greater community, including opportunities to seek employment and work in competitive integrated settings, engage in community life, control personal resources, and receive services in the community to the same degree of access as individuals not receiving Medicaid HCBS; specific documentation of any modifications to HCBS settings requirements based on the needs of the individual and in accordance with processes prescribed in federal and state regulation and protocol; and monitoring implementation of the ISP and initiating updates as needed and addressing concerns which may include reporting to management level staff within the provider agency; or reporting to DIDD when resolution is not achieved and the ISP is not being implemented. The ISC will provide the individual with information about self-advocacy groups and self-determination opportunities and assist in securing needed transportation supports for these opportunities when specified in the ISP or upon request of the individual.

Ongoing monitoring by ISCs is accomplished through a stratified approach, based on the person’s assessed level of support need, as follows: At minimum, one monthly in-person or telephone contact is required. At least once every three months, for level of need 1, 2, or 3 residential services (Supported Living, Residential Habilitation, and Family Model Residential), a visit must occur in the person’s home; and for level of need 1, 2, or 3 day or employment services or services not based on level of need, a visit should be coordinated with the person or the person’s family to occur every third month in the person’s home or in alternate locations as chosen by the person or the person’s family. Based on the person’s or family’s preference as applicable, the home visit may be conducted through videoconference no more frequently than once every six months. Generally, face-to-face visits should be coordinated with the person supported (and their family, as applicable) to occur in the person’s residence. However, for persons not receiving residential services, if requested by the person (or their family, as applicable), visits can be scheduled at alternative locations that are convenient for the person and their family, unless there are specific concerns regarding the person’s health and safety which would warrant that the visit is conducted in the home as documented in the person-centered plan.

A person assessed to have level of need 4, 5, or 6 for purposes of reimbursement requires at least one face-to-face contact per calendar month. Based on the person’s preference, the required monthly contact may be conducted with the person through videoconference no more frequently than every other month. At least once every three months, for level of need 4, 5, or 6 residential services (Supported Living, Residential Habilitation, Medical Residential, and Family Model Residential), a visit must occur in the person’s home; or if only receiving a day or employment service at level of need 4, 5, or 6, a visit should be coordinated with the person or the person’s family to occur either in the person’s home or in alternate locations as chosen by the person or the person’s family. Generally, face-to-face visits should be coordinated with the person supported (and their family, as applicable) to occur in the person’s residence. However, for persons not receiving residential services, if requested by the person (or their family, as applicable), visits can be scheduled at alternative locations that are convenient for the person and their family, unless there are specific concerns regarding the person’s health and safety which would warrant that the visit is conducted in the home as documented in the person-centered plan.

The level of need for reimbursement of residential services is the overriding determinant of the type and frequency of contacts. The level of need or employment and day services will determine type and frequency of contacts only if the person receives no residential services.

Each contact, whether in person or by phone, requires the ISC to complete and document a Monthly Status Review of the ISP for that person per service received across service settings. Face-to-face and/or telephone contacts shall be conducted more frequently when appropriate based on the person’s needs and/or request, or based on a significant change in needs or circumstances. Information is gathered using
standardized processes and tools. The ISC may, if preferred by the person and/or legal guardian, if applicable, and documented in the ISP, complete some of the minimally required visits using telehealth-specifically online videoconferencing using a tablet or other smart mobile device. If virtual technology is not available to the person, then a telephone contact may be acceptable to allow flexibility per the family’s request. All of the following, at a minimum, shall require in-person face-to-face visits, absent extenuating circumstances such when an in-person meeting may negatively impact the person or coordinator’s health or safety:

(1) Annual re-assessment or planning meeting for purposes of updating the ISP;
(2) When there is a significant change in condition defined as:
   a. Change in community placement to a residential setting (i.e., Supported Living, Medical Residential) or a change between residential settings;
   b. Loss or change in primary caregiver or loss of essential social supports for a person not receiving residential services;
   c. Significant change in physical or behavioral health and/or functional status, including but not limited to hospital (acute or psychiatric) admission for purposes of ensuring appropriate supports are available upon discharge; following any hospital discharge (to ensure the person’s needs are being met, ensure co-continuity of care, and avoid potential readmission; following any out-of-home placement related to behavior support needs; or
   d. Repeated instances of reportable events; or
   e. Any other event that significantly increases the perceived risk to a person.; and
(3) At any time based on the member’s preference for in-person meetings.

The Support Coordination provider shall initiate and oversee at least annual reassessment of the individual’s level of care eligibility, and initial and at least annual assessment of the individual’s experience to confirm that the setting in which the individual is receiving services and supports comports fully with standards applicable to HCBS settings delivered under Section 1915(c) of the Social Security Act, including those requirements applicable to provider-owned or controlled homes, except as supported by the individual’s specific assessed need and set forth in the person-centered ISP.

Nursing Services shall mean skilled nursing tasks that must be performed by a registered or licensed nurse pursuant to Tennessee’s Nurse Practice Act and that are directly provided to the person supported in accordance with a person-centered ISP. Nursing Services shall be ordered by the physician, physician assistant, or nurse practitioner of the person supported, who shall document the medical necessity of the services and specify the nature and frequency of the skilled nursing tasks to be performed. Nursing Services shall be provided face to face with the person supported by a licensed registered nurse or licensed practical nurse under the supervision of a registered nurse. Nursing Services shall also include the provision of services to teach and train the person supported and their family or other paid or unpaid caregivers how to manage the treatment regimen, and the provision of evaluation and training, specific to an individual person supported, by a registered nurse, for purposes of delegation of non-complex health maintenance tasks to unlicensed direct support staff, as determined appropriate by the delegating nurse, and as permitted by State law and contingent upon the registered nurse’s evaluation of each individual’s condition and also upon the registered nurse’s evaluation of the competency of each unlicensed direct support staff. Evaluation, teaching and training required for delegation is considered part of the established rate; it is not billed separately.

The nurse shall also be responsible for the provision of non-skilled services including eating, toileting, grooming, and other activities of daily living, needed by the person supported during the period that Nursing Services are authorized and provided, unless such assistance cannot be safely provided by the nurse while also attending to the skilled nursing needs of the person supported (which must be documented in writing and approved pursuant to protocol). However, the amount of Nursing Services authorized and provided shall depend only on the skilled nursing needs of the person supported. Additional Nursing Services shall not be authorized only for purposes of providing unskilled needs.

A single nurse may provide services to more than one individual receiving services in the same setting, provided each person’s needs can be safely and appropriately met. When Nursing Services are provided as a shared service for 2 or more individuals residing in the same home (regardless of funding source), the total number of units of shared Nursing Services shall be apportioned based on the total units of nursing services prescribed for each person supported, and the apportioned amount shall be specified in the ISP for each person supported, as applicable. Only one unit of service will be billed for each unit of service provided, regardless of the number of persons supported. Documentation of service delivery must be kept for each person supported and shall reflect the total number of shared units of service provided, and the specific nursing tasks performed for that individual.

Nursing assessment and/or nursing oversight shall not be a separate billable service under this definition.

Nursing Services shall consist of 2 categories of services and reimbursement:

a. RN services: RN services shall mean skilled nursing services, as specified above, which are provided by a registered nurse. This includes those services which require the skills of a registered nurse and which are required by Tennessee’s Nurse Practice Act to be performed by a registered nurse.

b. LPN services: LPN services shall mean skilled nursing services, as specified above, which are provided by a licensed practical nurse working under the supervision of a registered nurse and which are permitted by Tennessee’s Nurse Practice Act to be performed by a licensed practical nurse working under the supervision of a registered nurse.

This service shall be provided in home and community settings, as specified in the ISP, excluding schools, inpatient hospitals, nursing facilities, and Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICFs/IID).

A person supported who is receiving Medical Residential Services shall not be eligible to receive Nursing Services. Nursing Services shall not be billed when provided during the same time period as other therapies unless there is documentation in the individual’s record of medical justification for the two services to be provided concurrently. Nursing Services are not intended to replace either intermittent home health skilled nursing visits or private duty nursing services available through the Medicaid State Plan/TennCare program or services available under the Rehabilitation Act of 1973 or Individuals with Disabilities Education Act. To the extent that such services are covered in the Medicaid State Plan/TennCare Program, all applicable Medicaid State Plan/TennCare Program services shall be exhausted prior to using the waiver service. Nursing Services shall not be covered for children under age 21 years (since it would duplicate TennCare/epsdt benefits).

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Nursing Services shall be limited to a maximum of 48 units (12 hours) per day per waiver participant.

Service Type: Extended State Plan Service
Service Name: Nursing Services

Provider Category:
Agency

Provider Type:
Waiver Service Agency

Provider Qualifications
License (specify):

Waiver service agency - Must be licensed by the Department of Health (TDH Rule 1200-8-34) and ensure that employed nurses are licensed to practice in the state of Tennessee (TDH 1370-1 Rules 1000-1 & 1000-2)

Certificate (specify):

N/A

Other Standard (specify):
An LPN must work under the supervision of a licensed RN.

The provider must meet the general requirements for all waiver service providers:

1. All providers shall be at least 18 years of age.

2. Staff who have direct contact with or direct responsibility for the service recipient shall be able to effectively read, write, and communicate verbally in English and shall be able to read and understand instructions, perform record-keeping, and write reports.

3. Any waiver service provider who is responsible for transporting a service recipient shall ensure that the driver has a valid drivers license and automobile liability insurance.

4. Staff who have direct contact with or direct responsibility for the service recipient shall pass a criminal background check performed in accordance with a process approved by the Department of Intellectual and Developmental Disabilities (DIDD).

5. Staff who have direct contact with or direct responsibility for the service recipient shall not be listed in the Tennessee Department of Health Abuse Registry or the Tennessee Sexual Offender Registry.

6. Waiver service providers shall not have been excluded from participation in the Medicare or Medicaid programs.

7. All providers must comply with TennCare-approved policies, procedures, and rules for waiver service providers, including quality monitoring requirements.

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Extended State Plan Service

Service Title:

Nutrition Services
Nutrition Services shall mean assessment of nutritional needs, nutritional counseling, and education of the person supported and of caregivers responsible for food purchase, food preparation, or assisting the person supported to eat. Nutrition Services must be provided in accordance with therapeutic goals and objectives specified in an ISP that is specific for the individual receiving services and developed by a dietitian or nutritionist. A dietitian or nutritionist who provides Nutrition Services must provide services within the scope of licensure and must be licensed as required by the State of Tennessee. Nutrition Services are intended to promote healthy eating practices and to enable the person supported and direct support professionals to follow special diets ordered by a physician, physician assistant, or nurse practitioner.

Nutrition Services must be provided face to face with the person supported except for training caregivers responsible for food purchase or food preparation on the specific needs of the person supported, or assisting the person supported to eat and except for that portion of the assessment involving development of the ISP. To the greatest extent possible, it is expected that the person supported is engaged in these activities as learning opportunities.

Nutrition Services shall not be billed when provided during the same time period as Physical Therapy, Occupational Therapy, Speech, Language, and Hearing Services, Orientation and Mobility Services for Impaired Vision, or Behavior Services, unless there is documentation in the individual’s record of medical justification for the two services to be provided concurrently.

The unit of reimbursement for a Nutrition Services assessment with plan development shall be per day. The unit of reimbursement for other Nutrition Services shall be per day.

Reimbursement for a Nutrition Services assessment visit, which includes the Nutritional Services plan development resulting from such an assessment, shall be limited to one assessment visit per waiver participant (person supported) per waiver program year (calendar year). Nutrition Services other than the assessment (e.g., person supported-specific training of caregivers; monitoring dietary compliance and food preparation) shall be limited to a maximum of one visit per day.

Nutrition Services (including Nutrition Services assessments and other non-assessment services) shall be limited to a maximum of six (6) visits per waiver participant (person supported) per waiver program year (calendar year), of which no more than one (1) visit per waiver program year (calendar year) may be an assessment. A Nutrition Services assessment cannot be billed on the same day with other Nutrition Services. Reimbursement shall not be made for telephone consultations. A provider shall not receive reimbursement for Nutrition Services unless provided by a licensed dietitian or nutritionist.

Nutrition Services are not intended to replace services available through the Medicaid State Plan/TennCare program.
Nutrition Services shall be limited to a maximum of six (6) visits per waiver participant per waiver program year (i.e. calendar year), of which no more than one (1) visit per waiver program year (i.e. calendar year) may be a Nutrition Services assessment.

Nutrition Services other than the assessment (e.g., service recipient-specific training of caregivers; monitoring dietary compliance and food preparation) shall be further limited to a maximum of one visit per day.

Service Type:

Extended State Plan Service

Service Title:

Occupational Therapy

HCBS Taxonomy:
Occupational Therapy shall mean medically necessary diagnostic, therapeutic, and corrective services which are within the scope of state licensure and which are provided to assess and treat functional limitations involving performance of activities of daily living; and the initial training of provider staff on the appropriate implementation of the therapy plan of care. Occupational Therapy services provided to improve or maintain current functional abilities as well as prevent or minimize deterioration of chronic conditions leading to a further loss of function are also included within this definition. Services must be provided by a licensed occupational therapist or by a licensed occupational therapist assistant working under the supervision of a licensed occupational therapist. Occupational Therapy must be ordered by a physician, physician assistant, or nurse practitioner and must be provided face to face with the person supported except for that portion of the assessment involving development of the therapy plan of care. Occupational Therapy therapeutic and corrective services shall not be ordered concurrently with Occupational Therapy assessments (i.e., assess and treat orders are not accepted).

Occupational Therapy shall be provided in accordance with a treatment plan developed by a licensed occupational therapist based on a comprehensive assessment of the needs of the person supported and shall include specific functional and measurable therapeutic goals and objectives. The goals and objectives shall be related to provision of Occupational Therapy to prevent or minimize deterioration involving a chronic condition which would result in further loss of function. Continuing approval of Occupational Therapy services shall require documentation of reassessment of the condition of the person supported and continuing progress of the person supported toward meeting the goals and objectives.

Occupational Therapy shall not be billed when provided during the same time period as Physical Therapy; Speech, Hearing, and Language Services; Nutrition Services, Orientation and Mobility Services for Impaired Vision, or Behavior Services, unless there is documentation in the person supported has a record of medical justification for the two services to be provided concurrently. Occupational Therapy is not intended to replace services that would normally be provided by direct care staff.

Occupational Therapy services are not intended to replace services available through the Medicaid State Plan/TennCare Program or services available under the Rehabilitation Act of 1973 or Individuals with Disabilities Education Act. To the extent that such services are covered in the Medicaid State Plan/TennCare Program, all applicable Medicaid State Plan/TennCare Program services shall be exhausted prior to using the waiver service. Occupational Therapy shall not be covered for children under age 21 years (since it would duplicate TennCare/EPSDT benefits).

The unit of reimbursement for an Occupational Therapy assessment with plan development shall be per day. The unit of reimbursement for other Occupational Therapy services shall be per 15 minutes.

Reimbursement for an Occupational Therapy assessment with development of an Occupational Therapy plan based on such an assessment shall be limited to a maximum of one assessment with plan development per month with a maximum of 3 assessments per calendar year per person supported per provider. Occupational Therapy services other than such assessments (e.g., person supported-specific training of caregivers; provision of therapeutic services; monitoring progress) shall be limited to a maximum of 1.5 hours per person supported per day. Occupational Therapy assessments shall not be billed on the same day with other Occupational Therapy services. Reimbursement shall not be made for telephone consultations. A provider shall not receive reimbursement for Occupational Therapy unless provided by a licensed occupational therapist or by a licensed occupational therapist assistant working under the supervision of a licensed occupational therapist.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
Reimbursement limits:
* 1 assessment with plan development per month;
* 3 assessments per year per provider; and
* 1.5 hours per day for services other than assessments.

Physical Therapy

HCBS Taxonomy:

Category 1: Sub-Category 1:

Category 2: Sub-Category 2:

Category 3: Sub-Category 3:

Service Definition (Scope):
Category 4: Sub-Category 4:
Physical therapy shall mean medically necessary diagnostic, therapeutic, and corrective services which are within the scope of state licensure and which are provided to assess and treat functional limitations related to ambulation and mobility; and the initial training of provider staff on the appropriate implementation of the therapy plan of care. Physical Therapy services provided to improve or maintain current functional abilities as well as prevent or minimize deterioration of chronic conditions leading to a further loss of function are also included within this definition. Services must be provided by a licensed physical therapist or by a licensed physical therapist assistant working under the supervision of a licensed physical therapist. Physical Therapy must be ordered by a physician, physician assistant, or nurse practitioner and must be provided face to face with the person supported except for that portion of the assessment involving development of the therapy plan of care.

Physical Therapy therapeutic and corrective services shall not be ordered concurrently with Physical Therapy assessments (i.e., assess and treat orders are not accepted).

Physical Therapy shall be provided in accordance with a treatment plan developed by a licensed physical therapist based on a comprehensive assessment of the needs of the person supported and shall include specific functional and measurable therapeutic goals and objectives. The goals and objectives shall be related to provision of Physical Therapy to prevent or minimize deterioration involving a chronic condition which would result in further loss of function. Continuing approval of Physical Therapy services shall require documentation of reassessment of the condition of the person supported and continuing progress of the person supported toward meeting the goals and objectives.

Physical Therapy shall not be billed when provided during the same time period as Occupational Therapy; Speech, Language, and Hearing Services; Nutrition Services, Orientation and Mobility Services for Impaired Vision; or Behavior Services, unless there is documentation in the individual’s record of medical justification for the two services to be provided concurrently. Physical Therapy is not intended to replace services that would normally be provided by direct care staff.

Physical Therapy services are not intended to replace services available through the Medicaid State Plan/TennCare Program or services available under the Rehabilitation Act of 1973 or Individuals with Disabilities Education Act. To the extent that such services are covered in the Medicaid State Plan/TennCare Program, all applicable Medicaid State Plan/TennCare Program services shall be exhausted prior to using the waiver service. Physical Therapy shall not be covered for children under age 21 years (since it would duplicate TennCare/EPSDT benefits). The unit of reimbursement for a Physical Therapy assessment with plan development shall be per day. The unit of reimbursement for other Physical Therapy services shall be per 15 minutes.

Reimbursement for a Physical Therapy assessment with development of a Physical Therapy plan based on such an assessment shall be limited to a maximum of one assessment with plan development per month with a maximum of 3 assessments per calendar year per person supported per provider. Physical Therapy services other than such assessments (e.g., person supported-specific training of caregivers; provision of therapeutic services; monitoring progress) shall be limited to a maximum of 1.5 hours per person supported per day. Physical Therapy assessments shall not be billed on the same day with other Physical Therapy services. Reimbursement shall not be made for telephone consultations. A provider shall not receive reimbursement for Physical Therapy unless provided by a licensed physical therapist or by a licensed physical therapist assistant working under the supervision of a licensed physical therapist.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Reimbursement limits:
* 1 assessment with plan development per month;
* 3 assessments per year per provider; and
* 1.5 hours per day for services other than assessments.

Service Delivery Method (check each that applies):
- Participant-directed as specified in Appendix E

</tbody>
</table>
Specialized Medical Equipment and Supplies and Assistive Technology shall only mean the following:

a. An assistive device or adaptive aid or control designed for individuals with special functional needs which:
   (1) Increases the ability to perform activities of daily living (e.g., adaptive eating utensils and dishware; an adaptive toothbrush); or
   (2) Increases the ability to communicate with others (e.g., a hearing aid; an augmentative alternative communication device or system; an adaptive phone for individual with visual or hearing impairments); or
   (3) Increases the ability to perceive or control the environment within the home (e.g., a smoke alarm with a vibrating pad or flashing light); and

b. A gait trainer; and

c. A sidelyer or similar positioning device; positioning wedges or rolls or similar positioning items; and

d. Supplies necessary for the proper functioning of specialized medical equipment or assistive technology covered within the scope of this waiver definition; and

e. Repair of specialized medical equipment or assistive technology devices covered within the scope of this waiver definition when the repair is not covered by warranty and when it is substantially less expensive to repair the equipment or device than replace it.

Specialized Medical Equipment, Supplies, and Assistive technology shall be medically necessary and shall be recommended by a qualified health care professional (e.g., physician, occupational therapist, physical therapist).

The following items are excluded from coverage:

a. Items not of direct medical or remedial benefit to the person supported;

b. Items covered by the Medicaid State Plan/TennCare Program;

c. Hearing aids and augmentative alternative communication systems for children under age 21 years;

d. Eyeglasses, frames, and lenses;

e. Elevators, stairway lifts, stair glides, platform lifts, stair-climbing devices, electric powered recliners, elevating seats, and lift chairs;

f. Sensory processing/sensory integration equipment or other items used in sensory integration therapy (e.g., ankle weights, weighted vests or blankets, sensory/therapy balls, swings, vibrators, floor mats, balance boards, brushes, trampolines);

g. Carpets, rugs, flooring, floor pads and mats; curtains, drapes, and window treatments; furniture, lamps, and lighting;

h. Beds, mattresses, bedding, and overbed tables;

i. Air conditioning systems or units, heating systems or units; water purifiers, air purifiers, vaporizers, dehumidifiers, and humidifiers;

j. Electrical generators, electrical service, or emergency electrical backup systems;

k. Adaptive devices for use with items specifically excluded by this waiver definition;

l. Recreational or exercise equipment and adaptive devices for such; adaptive tricycles;

m. Toys, toy equipment, and adaptive devices for toys (e.g., flash switches);

n. Radios, televisions, or related electronic audiovisual equipment (e.g., DVD players); telephone, television, or internet service; and equipment or items for education, training, or entertainment purposes;

o. Personal computers; printers, monitors, scanners, and other computer-related hardware and software (excluding equipment designed specifically and primarily to be used as an augmentative alternative communication systems for adults);

p. Orthotics;

q. Stethoscopes or blood pressure cuffs;

r. Clothing;

s. Diapers and other incontinence supplies;

t. Food, food supplements, food substitutes (including formulas), and thickening agents;

u. Prescription and over-the-counter medications; vitamins, minerals, and nutritional supplements;

v. Swimming pools, hot tubs, whirlpools and whirlpool equipment, and health club memberships;

w. Lifting and tracking systems for transfer of persons supported;

x. Supplies other than those supplies specifically required for the proper functioning of specialized medical equipment or assistive technology devices that are covered within the scope of this definition;

y. Duplicate items of specialized medical equipment or assistive technology, excluding adaptive eating utensils and dishware, to provide the person supported with a backup or spare;

z. Repair of equipment covered by warranty;

aa. Physical modification of the interior or exterior of a place of residence; and

bb. Physical modification of a motor vehicle or motor vehicle parts and services, including adaptive devices to facilitate driving.

Specialized Medical Equipment, Supplies and Assistive Technology is not intended to replace services available
through the Medicaid State Plan/TennCare Program or services available under the Rehabilitation Act of 1973 or
Individuals with Disabilities Education Act. To the extent that such services are covered, all applicable Medicaid
State Plan/TennCare Program services shall be exhausted prior to using the waiver service.

Reimbursement shall be subject to approval of an itemized competitive bid as required in accordance with the
Department’s policy on submission of bids. If the requirement for an itemized competitive bid is applicable,
documentation of an approved bid must be submitted with the request for the Specialized Medical Equipment,
Supplies, and Assistive Technology or the request will be denied.

Specialized Medical Equipment, Supplies and Assistive Technology shall be limited to a maximum of $10,000 per
person supported per 2 waiver program years (calendar years).

The purchase price for waiver-reimbursed Specialized Medical Equipment, Supplies and Assistive Technology shall
be considered to include the cost of the item as well as basic training on operation and maintenance of the item.

All medically necessary services that are included within the categories of mandatory and optional services listed in
section 1905(a) shall be covered under the federal EPSDT program for children under age 21. Items and services
beyond the scope of EPSDT but included in the approved definition for Specialized Medical Equipment and
Supplies and Assistive Technology may be covered for children under age 21 enrolled in the waiver based on
medical necessity.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

The service limit for Specialized Medical Equipment, Supplies, and Assistive Technology encompasses both
SMESAT as well as Enabling Technology, i.e., a $10,000 limit per 2 waiver years across both services.

Service Type:
Extended State Plan Service

Service Title:
Speech, Language, and Hearing Services

HCBS Taxonomy:

Category 1:                      Sub-Category 1:

Category 2:                      Sub-Category 2:

Category 3:                      Sub-Category 3:

Service Definition (Scope):
Category 4:                      Sub-Category 4:
Speech, Language, and Hearing Services shall mean medically necessary diagnostic, therapeutic, and corrective services which are within the scope of state licensure which are provided to assess and treat functional limitations involving speech, language, or chewing/swallowing and the initial training of provider staff on the appropriate implementation of the therapy plan of care. Speech, Language, and Hearing Services provided to improve or maintain current functional abilities as well as prevent or minimize deterioration of chronic conditions leading to a further loss of function are also included within this definition.

Services must be provided by a licensed speech language pathologist or by a licensed audiologist. Speech, Language, and Hearing Services must be ordered by a physician, physician assistant, or nurse practitioner and must be provided face to face with the person supported except for that portion of the assessment involving development of the therapy plan of care. Speech, Language, and Hearing therapeutic and corrective services shall not be ordered concurrently with Speech, Language, and Hearing assessments (i.e., assess and treat orders are not accepted).

Speech, Language, and Hearing Services shall be provided in accordance with a treatment plan developed by a licensed speech language pathologist or a licensed audiologist based on a comprehensive assessment of the needs of the person supported, and shall include specific functional and measurable therapeutic goals and objectives. The goals and objectives shall be related to provision of Speech, Language, and Hearing Services to prevent or minimize deterioration involving a chronic condition which would result in further loss of function. Continuing approval of Speech, Language, and Hearing Services shall require documentation of reassessment of the person’s condition and continuing progress of the person supported toward meeting the goals and objectives.

Speech, Language, and Hearing Services shall not be billed when provided during the same time period as Physical Therapy, Occupational Therapy, Nutrition Services, Orientation and Mobility Services for Impaired Vision, or Behavior Services, unless there is documentation in the person’s record of medical justification for the two services to be provided concurrently.

Speech, Language, and Hearing Services are not intended to replace services that would normally be provided by direct care staff or to replace services available through the Medicaid State Plan/TennCare Program. To the extent that such services are covered in the Medicaid State Plan/TennCare Program, all applicable Medicaid State Plan/TennCare Program services shall be exhausted prior to using the waiver service. Speech, Language, and Hearing Services shall not be covered for children under age 21 years (since it would duplicate TennCare/EPsDT benefits).

The unit of reimbursement for a Speech, Language, and Hearing Services assessment with plan development shall be per day. The unit of reimbursement for other Speech, Language, and Hearing Services shall be per 15 minutes.

Reimbursement for a Speech, Language, and Hearing Services assessment with development of a Speech, Language, and Hearing Services plan based on such an assessment shall be limited to a maximum of one assessment with plan development per month with a maximum of 3 assessments per calendar year per person supported per provider. Speech, Language, and Hearing Services other than such assessments (e.g., person supported-specific training of caregivers; provision of therapeutic services; monitoring progress) shall be limited to a maximum of 1.5 hours per person supported per day. Speech, Language, and Hearing Services assessments shall not be billed on the same day with other Speech, Language, and Hearing Services. Reimbursement shall not be made for telephone consultations. A provider shall not receive reimbursement for Speech, Language, and Hearing Services unless provided by a licensed speech language pathologist or by a licensed audiologist.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Reimbursement limits:
* 1 assessment with plan development per month;
* 3 assessments per year per provider;
* 1.5 hours per day for services other than assessment.

Service Delivery Method (check each that applies):

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Adult Dental Services

HCBS Taxonomy:

Category 1:  Sub-Category 1:
Service Definition (Scope):

Dental Services preventive dental services, fillings, root canals, extractions, periodontics, the provision of dentures, and other dental treatments to relieve pain and infection) which have dental procedure codes listed in the current TennCare Maximum Reimbursement Rate Schedule for Dental Services that is used specifically for HCBS waiver dental services; and

b. Intravenous sedation or other anesthesia services provided in the dentist’s office by, and billed by, the dentist or by a nurse anesthetist or anesthesiologist who meets the waiver provider qualifications. Orthodontic services are excluded from coverage.

Dental Services are not intended to replace services available through the Medicaid State Plan/TennCare program. All Dental Services for children enrolled in the waiver are provided through the TennCare EPSDT program. Dental Services shall not be covered for children under age 21 years (since it would duplicate TennCare/EPSDT benefits). Dental residents in training may provide Dental Services if they work under the direct supervision of a licensed dentist who is physically present when such services are being provided and if the licensed dentist materially participates in the provision of the Dental Services.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Adult Dental Services shall be limited to a maximum of $5,000 per service recipient per waiver program year (i.e. calendar year), and a maximum of $7,500 per service recipient across three (3) consecutive waiver program years (i.e. calendar years).

Service Delivery Method (check each that applies):

☐ Participant-directed as specified in Appendix E

Service Type:
Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:
Behavior Services

HCBS Taxonomy:

Category 1: Sub-Category 1:

Category 2: Sub-Category 2:

Category 3: Sub-Category 3:

Service Definition (Scope):
Category 4: Sub-Category 4:
Behavior Services shall mean:
a. Services to assess and ameliorate person supported behavior that jeopardizes the health and safety of the person supported, that endangers others, or that prevents the person supported from being able to successfully participate in community activities; and
b. Development, monitoring, and revision of behavior intervention strategies, including development of a Behavior Support Plan and staff instructions for caregivers who are responsible for implementing prevention and intervention strategies; and
c. The initial training of caregivers on the appropriate implementation of behavior intervention strategies, including the Behavior Support Plan (BSP) and staff instructions.

The BSP shall be developed through the person-centered planning process in collaboration with the person receiving the services, family members, the conservator if applicable and others selected by the person who will be supporting the person receiving the services, and responsible for implementing the BSP. Therapeutic goals and objectives shall be required for persons supported receiving Behavior Services.

Behavior Services shall not be billed when provided during the same time period as Physical Therapy, Occupational Therapy, Nutrition Services, Orientation and Mobility Services for Impaired Vision, or Speech, Language, and Hearing Services, unless there is documentation in the person’s record of medical justification for the two services to be provided concurrently.

Behavior Services shall be provided by a Behavior Analyst face to face with the person supported except for:
(a) Completion of the Behavior Assessment Report; and
(b) Person supported-specific training of staff, except in instances when the Behavior Analyst can demonstrate appropriate interventions in real time; and
(c) Presentation of behavior information of the person supported at human rights committee meetings, behavior support committee meetings, and planning meetings related to the person supported. Reimbursement for presentation of behavior information related to the person supported at meetings shall be limited to a maximum of 5 hours per person supported per calendar year per provider.

Behavior assessments, behavior plan development, and presentations at meetings shall not be performed by Behavior Specialists. Behavior specialists are responsible for providing training, data collection and plan implementation but only behavior analysts can conduct a behavior assessment and develop the behavior support plan. Reimbursement for behavior assessments shall be limited to a maximum of 8 hours per assessment (32 qtr hour units per calendar year) with a maximum of 2 assessments per calendar year.

Reimbursement for behavior plan development resulting from such a behavior assessment and the training of staff on the plan during the first 30 calendar days following its approval for use shall be limited to a maximum of 6 hours (24 qtr hour units per calendar year). Reimbursement shall not be made for travel time to meetings and for telephone consultations, but may be made for consultations with treating the physician or psychiatrist during an office visit when the person supported is present.

Reimbursement for presentation of person supported behavior information at human rights committee meetings, behavior support committee meetings, and person supported planning meetings shall be limited to 5 hours per provider (20 qtr hour units per calendar year).

Behavior Services are not intended to replace services that would normally be provided by direct care staff or to replace services available through the Medicaid State Plan/TennCare Program, including psychological evaluations and psychiatric diagnostic interview examinations.

Behavior Services shall not be covered for children under age 21 years (since it would duplicate TennCare/EPSDT benefits).

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

The provider must meet the general requirements for all waiver service providers:

1. All providers shall be at least 18 years of age.

2. Staff who have direct contact with or direct responsibility for the service recipient shall be able to effectively read, write, and communicate verbally in English and shall be able to read and understand instructions, perform record-keeping, and write reports.

3. Any waiver service provider who is responsible for transporting a service recipient shall ensure that the driver has a valid drivers license and automobile liability insurance.

4. Staff who have direct contact with or direct responsibility for the service recipient shall pass a criminal background check performed in accordance with a process approved by the Department of Intellectual and Developmental Disabilities (DIDD).

5. Staff who have direct contact with or direct responsibility for the service recipient shall not be listed in the Tennessee Department of Health Abuse Registry or the Tennessee Sexual Offender Registry.

6. Waiver service providers shall not have been excluded from participation in the Medicare or Medicaid programs.

7. All providers must comply with TennCare-approved policies, procedures, and rules for waiver service providers, including quality monitoring requirements.

Behavioral Respite Services shall mean short-term behavior-oriented services for a person supported who is experiencing a behavioral crisis that requires removal from the current residential setting in order to assist in resolving the behavioral crisis. Behavioral Respite Services providers shall also help to plan, coordinate, and prepare for the individual’s transition back to his/her residential setting. Behavioral Respite Services shall be provided in a setting staffed by individuals who have received training in the management of behavioral issues. Direct support staff must have received training in the prevention and management of crisis behavior. Behavioral Respite Services may be provided in a Medicaid-certified ICF/IID, in a licensed respite care facility, or in a home operated by a licensed residential provider. Behavioral Respite Services shall not be provided in a home where a person supported lives with family members unless such family members are also persons supported receiving Behavioral Respite Services. Family member shall be interpreted to mean the mother, father, grandmother, grandfather, sister, brother, son, daughter, or spouse, whether the relationship is by blood, by marriage, or by adoption.

The Behavioral Respite Services provider shall be responsible for providing an appropriate level of services and supports 24 hours per day during the hours the person supported is not at school, including behavioral supervision and intervention for aggressive or inappropriate behavior that jeopardizes the health and safety of the person supported or others. The Behavioral Respite Services provider shall oversee health care needs of the person supported. Behavioral Respite Services providers shall be responsible for the cost of any Day Services needed while the person supported is receiving Behavioral Respite Services.

Reimbursement for Behavioral Respite Services shall not include payment for Behavioral Respite Services provided by the spouse of a person supported. The Behavioral Respite Services provider and provider staff shall not be the parent or custodial grandparent of a person supported under age 18 years, whether the relationship is by blood, by marriage, or by adoption; and reimbursement shall not include payment for Behavioral Respite Services provided by such individuals.

With the exception of transportation to and from medical services covered through the Medicaid State Plan/TennCare Program and in accordance with TennCare protocol, transportation shall be a component of Behavioral Respite Services and shall be included in the reimbursement rate for such.

A person supported who is receiving Behavioral Respite Services shall not be eligible to receive Personal Assistance, Respite, or Day Services (which would duplicate services that are the responsibility of the Behavioral Respite Services provider).

Restraints shall not be used unless used in accordance with the Department’s policy on use of restraints.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Behavioral Respite Services shall be limited to a maximum of 60 days per person supported per waiver (i.e., calendar) year.

Community Participation Supports are services which coordinate and/or provide supports for valued and active participation in integrated community opportunities that build on the person’s interests, preferences, gifts, and strengths while reflecting the person’s goals with regard to community involvement and membership. This service involves participation in one or more integrated community settings, in activities that involve persons without disabilities who are not paid or unpaid caregivers. Community Participation Supports are designed to promote maximum participation in integrated community life while facilitating meaningful relationships, friendships and social networks with persons without disabilities who share similar interests and goals for community involvement and participation.

Community Participation Supports enable the person to increase or maintain his/her capacity for independent participation in community life and to develop age-appropriate social roles valued by the community by learning, practicing and applying skills necessary for full inclusion in the person’s community, including skills in arranging and using public transportation for individuals aged 16 or older.

Community Participation Supports provide assistance for active and positive participation in a broad range of integrated community settings that allow the person to engage with people who do not have disabilities who are not paid or unpaid caregivers. The service is expected to result in the person developing and sustaining a range of valued, age-appropriate social roles and relationships; building natural supports; increasing independence; and experiencing meaningful community integration and inclusion. Activities are expected to increase the individual’s opportunity to build connections within his/her local community and include (but are not limited to) the following:

1. Supports to participate in age-appropriate community activities, groups, associations or clubs to develop social networks with community organizations and clubs to;
2. Supports to participate in community opportunities related to the development of hobbies or leisure/cultural interests or to promote personal health and wellness (e.g. yoga class, walking group, etc.);
3. Supports to participate in formal/informal associations or community/neighborhood groups;
4. Supports to participate in volunteer opportunities;
5. Supports to participate in opportunities focused on training and education for self-determination and self-advocacy;
6. Supports for learning to navigate the local community, including learning to use public transportation and/or private transportation available in the local area;
7. Supports to maintain relationships with members of the broader community (e.g. neighbors, co-workers and other community members who do not have disabilities and who are not paid or unpaid caregivers) through natural opportunities and invitations that may occur.

This service includes a combination of training and supports as needed by the individual. The Community Participation Supports provider shall be responsible for any personal assistance needs during the hours that Community Participation Supports are provided; however, the personal assistance services may not comprise the entirety of the Community Participation Supports.

This service shall be provided in a variety of integrated community settings that offer opportunities for the person to achieve his or her personally identified goals for community integration, involvement, exploration and for developing and sustaining a network of positive natural supports. All settings where Community Participation Supports are provided must be non-disability specific and meet all federal standards for HCBS settings. This service is provided separate and apart from the person’s place of residence. This service does not take place in licensed facilities, sheltered workshops or any type of facility owned, leased or operated by a provider of this service.

An individual’s person-centered support plan may include more than one non-residential habilitation service (Supported Employment-Individual Employment Supports; Supported Employment-Small Group Employment Supports; Community Participation Supports; Intermittent Employment and Community Integration Wrap-Around Supports; Facility-Based Day Supports); however, they may not be billed for during the same period of time (e.g., the same 15 minute or hour unit of time).

Transportation during the provision of these services is included in the rates paid for these services. Transportation of a participant to and from these services is included in the rates paid for these services when such transportation is needed by a participant.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
1. Non-residential habilitation services (Supported Employment-Individual Employment Supports (except as noted below); Supported Employment-Small Group Employment Supports; Community Participation Supports; Intermittent Employment and Community Integration Wrap-Around Supports; Facility-Based Day Supports) and either the Residential Special Needs Adjustment-Homebound or the Non-Residential Homebound Support Service, when combined, may involve no more than 5,832 quarter hour units/year and no more than 240 quarter hour units in a fourteen day billing period. The Residential Special Needs Adjustment-Homebound and the Non-Residential Homebound Support Service are paid on a per diem basis and each day shall be considered as 24 quarter hour units for the purposes of including this service in the annual and billing period limits. Under Supported Employment-Individual Employment Supports, authorizations of Benefits Counseling, Exploration, Discovery, and Job Development are not included in these limits.

2. Community Participation and Supports shall not be provided during the same time period that the person is receiving Personal Assistance Services, Respite Services, or services under a 504 Plan or Individual Education Program (IEP), is being homeschooled, or any combination thereof, or as a substitute for education services which are available pursuant to the Individual with Disabilities Education Act (IDEA), but which the person or his/her legal representative has elected to forego. Except for students who have graduated prior to May of 2014, Day Services for school aged persons (i.e., under the age of 22) are limited to regular school break periods.

This service is available beginning January 1, 2020.

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:
Enabling Technology

HCBS Taxonomy:

Category 1:  
Sub-Category 1:

Category 2:  
Sub-Category 2:
Enabling Technology is equipment and/or methodologies that, alone or in combination with associated technologies, provides the means to support the individual’s increased independence in their homes, communities, and workplaces. The service covers purchases, leasing, shipping costs, and as necessary, repair of equipment required by the person to increase, maintain or improve his/her functional capacity to perform daily tasks that would not be possible otherwise. All items must meet applicable standards of manufacture, design and installation. Enabling Technology includes remote support technology systems in which remote support staff and/or coaches and/or natural supports can interact, coordinate supports, or actively respond to needs in person when needed. Remote support systems are real time support systems which often include two-way communication. Enabling technology is an available support option for all aspects and places of participants’ lives.

- These systems use wireless technology, and/or phone lines, to link an individual’s home to a person off-site to provide up to 24/7 support.
- These systems include the use of remote sensor technology to send “real time” data remote staff or family who are immediately available to assess the situation and provide assistance according to a Person-Centered Support Plan (PCSP).

Examples of enabling technologies typically used in peoples’ homes include:

- Motion sensors
- Smoke and carbon monoxide alarms
- Bed and/or chair sensors
- Live or on demand audio and/or video technologies
- Pressure sensors
- Stove guards
- Live web-based remote supports
- Automated medication dispenser systems
- Mobile software applications using digital pictures, audio and video to guide, teach, or remind
- GPS guidance devices
- Wearable and virtual technologies
- Software to operate devices for environmental control or to communicate with other smart devices, paid or natural supports at home, at work, or any other place of personal import.

EMPLOYMENT & DAY SUPPORTS

Mobile Technologies to teach safe travel skills and guide people during community travel to work or other places important in their lives, by walking or using public transportation.

Enabling technology options include:

- Mobile software applications using digital pictures, audio and video to guide, teach, or remind
- GPS guidance devices
- Wearable and virtual technologies
- Software to support communication with people along participants’ routes or destinations.

PRE-EMPLOYMENT: EXPLORATION

Digital Career Exploration

Self-directed or guided exploration of jobs and job tasks via a computer environment or a smart device’s software application using digital pictures, audio and video to enable participants and job developers to identify jobs that match the individual’s job interests.

Digital tools for interest/skill exploration, member background information, scenario activities to identify skill set, learning styles, support needs. Virtual Reality

Jobseekers can experience first-hand the pros and cons of various occupations by seeing, hearing and feeling what they are actually like.

PRE-EMPLOYMENT: DISCOVERY/JOB DEVELOPMENT

Online tools for job hunting such as job boards; job interview tasks & tips, conditions for success, job/skill evaluations, scenario activities.

REMOTE COACHING

Job Coaching includes supports provided to the person and their supervisor or co-workers, either remotely (via technology) or face-to-face.

A device that otherwise meets the requirement for two-way communication.

Individual interaction with the staff person may be scheduled, on-demand, or in response to an alert from a device in
the remote support equipment system.

Mobile technologies, video modeling, task prompting software applications, GPS-based applications; wearable technologies; virtual, augmented, mixed reality systems.

FADING
A mobile technology that offers long-term support on the job, in lieu of paid support, that may encompass job tasks, social behavior, or communication.
The use of enabling and/or mobile technologies to support fading may cover a wide array of person-centered needs that include attendance, punctuality, self-managing breaks, interpersonal skills, appearance, communication, sequencing job tasks, etc.

The cost of connectivity by telephone and internet is not included with the Enabling Technology service.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

The service limit for Enabling Technology encompasses both Specialized Medical Equipment, Supplies, and Assistive Technology as well as Enabling Technology, i.e., a $10,000 limit per 2 waiver years across both services.

Service Delivery Method (check each that applies):

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Environmental Accessibility Modifications

HCBS Taxonomy:

Category 1: Sub-Category 1:

Category 2: Sub-Category 2:

Category 3: Sub-Category 3:

Category 4: Sub-Category 4:

Service Definition (Scope):
Environmental Accessibility Modifications shall only mean the following modifications to the place of residence of the person supported:

a. Physical modifications to the interior of a place of residence to increase the mobility and accessibility within the residence of the person supported;

b. Physical modifications to an existing exterior doorway of place of residence to increase the mobility and accessibility for entrance into and exit from the residence of the person supported;

c. A wheelchair ramp and modifications directly related to, and specifically required for, the construction or installation of the ramp; or as an alternative to a wheelchair ramp, a platform lift (to lift wheelchairs) and modifications directly related to, and specifically required for, the installation of a platform lift for one entrance into the residence;

d. Hand rails for exterior stairs or steps to increase the mobility and accessibility of the person supported for entrance into and exit from the residence; or

e. Replacement of glass window panes with a shatterproof or break-resistant material when medically necessary based on a history of destructive behavior by the person supported.

The following are specifically excluded from coverage:

a. Any adaptation or modification of the home which is of general utility and is not of direct medical or remedial benefit to the person supported;

b. Any adaptation or modification which is considered to be general maintenance of the residence;

c. Any physical modification to the exterior of the place of residence or lot of the person supported (e.g., driveways, sidewalks, fences, decks, patios, porches) that is not explicitly listed above as being covered;

d. Any physical modification to garage doors for entry of vehicles;

e. Any item that would be covered by the Medicaid State Plan/TennCare Program;

f. Construction of an additional room or modification of an existing room which increases the total square footage of the residence;

g. Construction of a new room within existing floor space (e.g., construction of an additional bathroom), including construction of new interior walls to subdivide existing rooms;

h. A second or additional wheelchair ramp when there is a functional wheelchair ramp for one entrance into the residence of the person supported;

i. A wheelchair ramp when there is a functional platform lift (to lift wheelchairs) for one entrance into the residence of the person supported; or a platform lift for entrance into the residence when there is a functional wheelchair ramp for one entrance into the residence;

j. Platform lifts for use inside the place of residence of the person supported;

k. Stairway lifts, stair glides, or elevators or the installation, repair, or replacement of stairway lifts, stair glides, or elevators;

l. Repair or replacement of roofing or siding;

m. Installation, repair, replacement, or painting of ceiling, walls, or floors or installation, repair, or replacement of carpet or other flooring except:
   (1) When the need for such is directly related to and necessitated by another approved environmental accessibility modification (e.g., flooring or carpet repair when a doorway is widened); and
   (2) When the cost of such is included in the cost of the other approved environmental accessibility modification;

n. Rugs and floor mats;

o. Furniture, lamps, beds, mattresses, bedding, and over bed tables;

p. Water purifiers, air purifiers, vaporizers, dehumidifiers, and humidifiers;

q. Air conditioning or heating systems or units or the installation, repair, or replacement of air conditioning or heating systems or units;

r. Electrical generators; emergency electrical backup systems; batteries, or battery chargers;

s. Installation, repair, or replacement of electrical units or systems, except for the installation or replacement of electrical outlets which will be used for medical equipment;

t. Lights or lighting systems or the installation, repair, or replacement of lights or lighting systems; except for the installation or replacement of lights when the need for such is directly related to and necessary in order to complete another approved environmental accessibility modification;

u. Construction of additional exterior doorways or windows;

v. Any item that meets the waiver service definition of Specialized Medical Equipment, Supplies, and Assistive Technology;

w. Sprinklers and sprinkler systems; and

x. Costs for removing an Environmental Accessibility Modification in order to convert or otherwise restore the place of residence to its pre-existing condition (i.e., the condition before the modification was made).

Environmental Accessibility Modifications shall be recommended by a qualified health care professional (e.g.,
physician, occupational therapist, physical therapist).

To facilitate community transition of a Medicaid eligible person residing in an Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID) or other institutional setting who has been determined to qualify for HCBS waiver services upon discharge, Environmental Accessibility Modifications may be made to the place of residence of the persons supported during the last 180 consecutive days of the person’s institutional stay prior to being discharged and enrolled in the waiver. In such cases, the Environmental Accessibility Modification will not be considered complete until the date the person leaves the ICF/IID or other institutional setting and is enrolled in the waiver, and such date shall be the date of service for billing purposes.

Environmental Accessibility Modifications shall be available only for newly enrolled waiver participants, including (but not limited to) persons transitioning to the community from an institutional setting, and existing waiver participants who have recently experienced a significant loss of mobility function.

Environmental Accessibility Modifications shall be limited to a maximum of $15,000 per person supported per three (3) consecutive waiver program years (calendar years).

Reimbursement shall be subject to approval of an itemized competitive bid as required in accordance with the Department’s policy on submission of bids. If the requirement for an itemized competitive bid is applicable, documentation of an approved bid must be submitted with the request for an Environmental Accessibility Modification or the request will be denied.

If the person supported does not own the place of residence, there must be written approval from the landlord for the Environmental Accessibility Modification to be approved. Such written approval must acknowledge that the person supported will not be responsible for the costs of removing an Environmental Accessibility Modification in order to convert or otherwise restore the place of residence to its pre-existing condition.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Environmental Accessibility Modifications shall be limited to a maximum of $15,000 per service recipient per three (3) consecutive waiver program years (i.e. calendar years).

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Facility-Based Day Supports

HCBS Taxonomy:
Services and supports that occur in a facility-based setting and which help a person to acquire, retain and improve skills in the area of self-care, sensory/motor development, socialization, daily living skills, and communication, in order to pursue and achieve his or her personal community employment and/or community participation goals. Facility-Based Day Supports are expected to provide a springboard for participants to access the local community, and to discover and pursue their interests and goals related to community employment, community participation/involvement and building/maintaining relationships with members of the wider community who do not have disabilities and/or do not receive Medicaid HCBS. All participants in Facility-Based Day Supports must be encouraged and supported to explore and pursue possibilities for integrated community employment and opportunities to engage in community life and develop/maintain relationships with others in their communities who do not have disabilities or receive Medicaid HCBS, based on their individualized preferences and needs, and as reflected in the person-centered ISP.

Facility-Based Day Supports may be provided only when selected by a person supported who needs time-limited pre-vocational training, when such training is not available on the job site, and to persons who, through their person-centered planning process choose to participate in a facility based program in order to focus on the development of individualized and specific skills that will support them in pursuing and achieving employment and/or community living goals. Facility-Based Day Supports must allow for opportunities for all persons supported to be engaged in the broader community when appropriate and be specified in the person-centered ISP. Opportunities to transition into more integrated settings, including competitive integrated employment, will be evaluated on at least a semi-annual basis.

All day services shall occur in the most integrated setting where an individual’s needs can be effectively met. The most integrated setting is the setting that enables an individual to interact with persons without disabilities (not including paid staff) to the greatest extent possible. Facility-Based Day Supports must allow for, and actively facilitate whenever possible, opportunities for all persons supported to transition into more integrated employment and/or day service model, including Supported Employment and Community Participation Supports. To ensure this is occurring, continued need for Facility-Based Day Supports will be evaluated on at least a semi-annual basis.

Further, before authorization Facility-Based Day Supports for the purposes of time-limited pre-vocational training, consideration should be given as to whether such training could occur in an integrated, community-based setting(s) where learning is likely to be more directly transferable to, and applicable for, participation in competitive integrated employment.

An individual’s person-centered support plan may include more than one non-residential habilitation service (Supported Employment-Individual Employment Supports; Supported Employment-Small Group Employment Supports; Community Participation Supports; Intermittent Employment and Community Integration Wrap-Around Supports; Facility-Based Day Supports); however, they may not be billed for during the same period of time (e.g., the same 15 minute or hour unit of time).

Transportation during the provision of these services is included in the rates paid for these services. Transportation of a participant to and from these services is included in the rates paid for these services when such transportation is needed by a participant.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
• Non-residential habilitation services (Supported Employment-Individual Employment Supports (except as noted below); Supported Employment-Small Group Employment Supports; Community Participation Supports; Intermittent Employment and Community Integration Wrap-Around Supports; Facility-Based Day Supports) and either the Residential Special Needs Adjustment-Homebound or the Non-Residential Homebound Support Service, when combined, may involve no more than 5,832 quarter hour units/year and no more than 240 quarter hour units in a fourteen day billing period. The Residential Special Needs Adjustment-Homebound and the Non-Residential Homebound Support Service are paid on a per diem basis and each day shall be considered as 24 quarter hour units for the purposes of including this service in the annual and billing period limits. Under Supported Employment-Individual Employment Supports, authorizations of Benefits Counseling, Exploration, Discovery, and Job Development are not included in these limits.

• Facility-Based Day Supports may only be authorized for up to six (6) months at one time. Before any and every reauthorization, a review must occur to determine whether the facility remains the most integrated setting where the person’s goals and needs can be effectively met, whether there are opportunities for the person to transition into more integrated settings and services, including supported employment and community participation, and whether – if time-limited prevocational services are being provided – there are opportunities to provide these services in an integrated, community-based setting(s) where learning is likely to be more directly transferable to, and applicable for, participation in competitive integrated employment, including supported employment.

• Facility-Based Day Supports shall not be provided during the same time period that the person is receiving Personal Assistance Services, Respite Services, or services under a 504 Plan or Individual Education Program (IEP), is being homeschooled, or any combination thereof, or as a substitute for education services which are available pursuant to the Individual with Disabilities Education Act (IDEA), but which the person or his/her legal representative has elected to forego. Except for students who have graduated prior to May of 2014, Day Services for school aged persons (i.e., under the age of 22) are limited to regular school break periods.

• Facility-Based Day Supports may not be provided on the same date as the Intermittent Employment and Community Integration Wrap-Around Support service.

• Facility-Based Day Supports shall not be provided in inpatient hospitals, nursing facilities, and Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICFs/IID).

• Facility-Based Day Supports exclude services available to an individual under a program funded under section 110 of the Rehabilitation Act of 1973 or the IDEA (20 U.S.C. 1401 et seq.).

• Paid work done as part of Facility-Based Day Supports must be compensated consistent with applicable state and federal labor laws and must provide the opportunity for participants to earn wage increases over time.

• Facility-Based Day Supports does not include vocational services or the provision of employment opportunities solely intended to provide long-term employment and earned income to participants.

This service is available beginning January 1, 2020.

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.
Service Title:
Family Model Residential Support

HCBS Taxonomy:

Category 1:  
Sub-Category 1:  

Category 2:  
Sub-Category 2:  

Category 3:  
Sub-Category 3:  

Service Definition (Scope):
Category 4:  
Sub-Category 4:  

11/22/2023
Family Model Residential Support shall mean a type of residential service selected by the person supported, where he or she lives in the home of a trained caregiver who is a non-family member in an “adult foster care” arrangement. A family member(s) of the persons supported shall not be reimbursed to provide Family Model Residential Support services. Family member shall be interpreted to mean the mother, father, grandmother, grandfather, sister, brother, son, daughter, or spouse, whether the relationship is by blood, by marriage, or by adoption.

In this type of shared living arrangement, the caregiver allows the individual(s) to move into his or her existing home in order to integrate the individual into the shared experiences of a home and family, supports each resident’s independence and full integration into the community, ensures each resident’s choice and rights, and supports each resident in a manner that comports fully with standards applicable to HCBS settings delivered under Section 1915(c) of the Social Security Act, including those requirements applicable to provider-owned or controlled homes, except as supported by the individual’s specific assessed need and set forth in the person-centered ISP.

All individual goals and objectives, along with needed supports shall be established through the person-centered planning process and documented in the person-centered ISP and shall include opportunities to seek employment and work in competitive integrated settings, engage in community life, and control personal resources, as applicable based on the needs and preferences of the individual. Family Model Residential Support includes individualized services and supports that enable the person supported to acquire, retain, or improve skills necessary to reside successfully in a community-based setting, living in a family environment in the home of trained caregivers other than the family of origin. Supports may include direct assistance as needed with, participating in, and learning how to complete independently activities of daily living (e.g., bathing, dressing, personal hygiene, eating, meal preparation excluding cost of food), household chores essential to the health and safety of the person supported, budget management (which shall include supporting the individual in managing his/her personal funds, as appropriate), attending appointments, and interpersonal and social skills building to enable the person supported to live in a home in the community. Supports shall be provided in a manner which ensures an individual’s rights of privacy, dignity, respect and freedom from coercion and restraint; and which optimizes individual initiative, autonomy, and independence in making life choices.

Family Model Residential Supports may include medication administration as permitted under Tennessee’s Nurse Practice Act and performance of other non-complex health maintenance tasks, as permitted by State law. The Family Model Residential Support caregiver shall oversee the health care needs of the person supported.

The Family Model Residential Support provider agency shall not find, purchase, or lease a residence in which the Family Model Residential Supports will be provided. Family Model Residential Support caregivers shall be recruited, screened, contracted, and trained prior to providing services, and monitored by the Family Model Residential Support provider agency to ensure compliance with licensing and program requirements. The Family Model Residential Support provider agency shall facilitate matching of persons supported and caregivers but shall not determine whether a caregiver chooses to participate in the program, whether a caregiver will bring a particular person supported into his or her home, or how the day-to-day activities of the home and provision of services and supports will occur. Visits, both announced and unannounced, and phone calls to the home must occur on a regular basis in order for the provider agency to ensure compliance with program requirements and the general health and safety of the person supported, but should not be so prescriptive as to instruct the provider about particular tasks to perform or ways to fulfill or not fulfill duties. Family Model Support caregivers are responsible for abiding by the quality assurance standards, outlined in the DIDD Provider Manual, which are monitored and enforced by DIDD.

A Family Model Residential Support home shall have no more than 3 residents who receive services and supports. Family Model Residential Support caregiver shall oversee the health care needs of the person supported.

The Family Model Residential Support provider agency shall be responsible for providing an appropriate level of services and supports for up to 24 hours per day during the hours the person supported is not receiving Day Services or is not at school or work, based on the person’s support needs. Persons supported should receive the amount of support they need while also, consistent with the federal HCBS Settings Rule, have freedom in choosing to spend time alone or engage in activities without paid staff present, unless there are specific safety concerns that cannot be mitigated to a tolerable level of risk. Providers are responsible for providing an appropriate level of supports, including enabling technology, paid staff, and natural supports, as applicable, to ensure each person’s health and safety, while maximizing personal choice and independence, and not restricting individual rights and freedoms, except as minimally necessary and in accordance with the federal Rule.

With the exception of transportation to and from medical services covered through the Medicaid State Plan/TennCare Program and in accordance with TennCare protocol, transportation shall be a component of Family Model Residential Support and shall be included in the reimbursement rate for such.

Family Model Residential Support shall not be provided in inpatient hospitals, nursing facilities, and Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICFs/IID).

Reimbursement for Family Model Residential Support shall not include payment for Family Model Residential Support provided by the spouse of a person supported. The Family Model Residential Support provider and
Specify applicable (if any) limits on the amount, frequency, or duration of this service:

RSNA-HB payments are intended to be as time-limited as possible, with a goal of supporting the individual to engage in employment or other integrated community activities and must be reviewed and reauthorized, as appropriate, at a minimum, every 90 days, and not on a continuous basis, except in exceptional circumstances as approved by TennCare and DIDD (e.g., end of life). All individual goals and objectives, and specific needed supports, related to authorization of the RSNA-HB, and to supporting the individual’s ability to participate in employment and other integrated community activities shall be established through the person-centered planning process and documented in the person-centered ISP.

The RSNA-HB can only be authorized and paid for services provided on the same day that Family Model Residential Support service is also authorized and provided.

1. Needs related to end of life. End-of-life issues relate to someone's death and the time just before it, when it is known that they are likely to die soon from a terminal illness or similar condition. The person is receiving support and medical care given during the time surrounding death.

2. Needs related to a sustained behavioral crisis, involving behaviors not otherwise typical for the individual. These behaviors are not considered safe and/or would be sufficiently disruptive if displayed in the community and/or at a place of employment so as to cause issues that would interfere with successful participation in the community and/or integrated community employment.

3. Needs related to recovery after a period of hospitalization, recovery due to being admitted to hospital ICU, emergency illness, surgical complication or accident.

4. Significantly health compromised - A chronic health issue, supported by current medical records that restricts the person from leaving their home under certain pre-determined circumstances, including environmental issues i.e. extreme heat or cold, high pollen, air quality, exposure (geographically) to high incidences of communicable disease etc., that would further compromise the individual’s health and physical well-being.

Family Model Residential Support may be provided out-of-state under the following circumstances:

a. Out-of-state services shall be limited to a maximum of 14 days per person supported per calendar year.

b. The waiver service provider agency must be able to assure the health and safety of the person supported during the period when services will be provided out-of-state and must be willing to assume the additional risk and liability of provision of services out-of-state (i.e., provision of out-of-state services is at the discretion of the service provider).

c. During the period when out-of-state services are being provided, the waiver service provider agency must maintain an adequate amount of staffing (including services of a nurse if applicable) to meet the needs of the person supported and must ensure that staff meet waiver provider qualifications.

d. The waiver service provider agency shall not receive any additional reimbursement for provision of services out-of-state. The costs of travel, lodging, food, and other expenses incurred by staff during the provision of out-of-state services shall not be reimbursed through the waiver. The costs of travel, lodging, food, and other expenses incurred by the person supported while receiving out-of-state services shall be the responsibility of the person supported and shall not be reimbursed through the waiver.

The Residential Special Needs Adjustment – Homebound (RSNA-HB) is a supplementary per diem payment that may be approved in limited circumstances as specified herein for Family Model Residential Support service that are provided in the individual’s residence when the individual is determined by TennCare and DIDD to meet the definition of “homebound” and as a result, is unable (not unwilling) to participate in any employment or day service and must remain at their residence for the full 24 hours of a particular day, except leaving the home for medical treatment or medical appointments, and requires paid support in the residence during that time. “Homebound” is defined as being unable (not unwilling) to leave your home except for medical treatment or medical appointments and unable to participate in any employment or day service for at least 2 hours per day (the 2 hours may or may not be consecutive) for a sustained period of time which is at least 5 days in a 14 day billing period.

RSNA-HB can only be authorized and paid in limited exceptional circumstances when engaging in integrated community participation and/or integrated community employment outside the home is not possible for the individual due to:

1. Needs related to end of life. End-of-life issues relate to someone's death and the time just before it, when it is known that they are likely to die soon from a terminal illness or similar condition. The person is receiving support and medical care given during the time surrounding death.

2. Needs related to a sustained behavioral crisis, involving behaviors not otherwise typical for the individual. These behaviors are not considered safe and/or would be sufficiently disruptive if displayed in the community and/or at a place of employment so as to cause issues that would interfere with successful participation in the community and/or integrated community employment.

3. Needs related to recovery after a period of hospitalization, recovery due to being admitted to hospital ICU, emergency illness, surgical complication or accident.

4. Significantly health compromised - A chronic health issue, supported by current medical records that restricts the person from leaving their home under certain pre-determined circumstances, including environmental issues i.e. extreme heat or cold, high pollen, air quality, exposure (geographically) to high incidences of communicable disease etc., that would further compromise the individual’s health and physical well-being.

The Residential Special Needs Adjustment – Homebound (RSNA-HB) is a supplementary per diem payment that may be approved in limited circumstances as specified herein for Family Model Residential Support service that are provided in the individual’s residence when the individual is determined by TennCare and DIDD to meet the definition of “homebound” and as a result, is unable (not unwilling) to participate in any employment or day service and must remain at their residence for the full 24 hours of a particular day, except leaving the home for medical treatment or medical appointments, and requires paid support in the residence during that time. “Homebound” is defined as being unable (not unwilling) to leave your home except for medical treatment or medical appointments and unable to participate in any employment or day service for at least 2 hours per day (the 2 hours may or may not be consecutive) for a sustained period of time which is at least 5 days in a 14 day billing period.

RSNA-HB can only be authorized and paid in limited exceptional circumstances when engaging in integrated community participation and/or integrated community employment outside the home is not possible for the individual due to:

1. Needs related to end of life. End-of-life issues relate to someone's death and the time just before it, when it is known that they are likely to die soon from a terminal illness or similar condition. The person is receiving support and medical care given during the time surrounding death.

2. Needs related to a sustained behavioral crisis, involving behaviors not otherwise typical for the individual. These behaviors are not considered safe and/or would be sufficiently disruptive if displayed in the community and/or at a place of employment so as to cause issues that would interfere with successful participation in the community and/or integrated community employment.

3. Needs related to recovery after a period of hospitalization, recovery due to being admitted to hospital ICU, emergency illness, surgical complication or accident.

4. Significantly health compromised - A chronic health issue, supported by current medical records that restricts the person from leaving their home under certain pre-determined circumstances, including environmental issues i.e. extreme heat or cold, high pollen, air quality, exposure (geographically) to high incidences of communicable disease etc., that would further compromise the individual’s health and physical well-being.

RSNA-HB payments are intended to be as time-limited as possible, with a goal of supporting the individual to engage in employment or other integrated community activities and must be reviewed and reauthorized, as appropriate, at a minimum, every 90 days, and not on a continuous basis, except in exceptional circumstances as approved by TennCare and DIDD (e.g., end of life). All individual goals and objectives, and specific needed supports, related to authorization of the RSNA-HB, and to supporting the individual’s ability to participate in employment and other integrated community activities shall be established through the person-centered planning process and documented in the person-centered ISP.

The RSNA-HB can only be authorized and paid for services provided on the same day that Family Model Residential Support service is also authorized and provided.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
A person authorized to receive the RSNA-HB payment may receive therapy services such as PT, OT, Speech, Language and Hearing, and Behavior Services on the same day the RSNA-HB payment is made when appropriate based on the individualized needs and goals of the person supported. A person authorized to receive the RSNA-HB payment may receive Nursing Services only on an intermittent basis and limited to no more than one hour of the six-hour period to perform specific skilled nursing tasks that cannot be performed by or delegated to the staff providing the residential service for which the RSNA-HB is authorized. If a person receives continuous nursing, the RNSA-HB payment shall not be paid.

The RSNA-HB does not replace any of the existing residential special needs adjustments. It can be authorized in addition to another residential special needs adjustment that is authorized for a different, non-duplicative purpose on same day. The RSNA-HB payment shall not be provided on any day that the person supported receives any Employment or Day Services, services under a 504 Plan or Individual Education Program (IEP), is being homeschooled, or any combination thereof or as a substitute for education services which are available pursuant to IDEA, but which the person or his representative has elected to forego. It may not be self-directed.

The RNSA-HB payment will become available in qualifying circumstances beginning April 1, 2019 or a subsequent date by which IT changes necessary to implement this waiver amendment are complete.

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

**Service Title:**

Individual Transportation Services

**HCBS Taxonomy:**

<table>
<thead>
<tr>
<th>Category 1:</th>
<th>Sub-Category 1:</th>
</tr>
</thead>
</table>
Individual Transportation Services shall mean non-emergency transport of a person supported to and from approved activities specified in the ISP. Whenever possible, immediate family members, friends who are involved in providing supports and community agencies who can provide this service without charge should be utilized. The following transportation services are excluded from coverage:

a. Transportation to and from medical services covered by the Medicaid State Plan/TennCare Program; and
b. Transportation of school aged children to and from school; and
c. Transportation to and from supported or competitive employment; and
d. Transportation that is the responsibility of the provider of a residential service (e.g., Residential Habilitation, Medical Residential Services, Family Model Residential Support, or Supported Living) or that is the responsibility of the provider of Day Services or Behavioral Respite Services, since it would duplicate services that are the responsibility of such providers.

Individual Transportation Services shall not be provided by the spouse of a person supported and shall not be provided by the parent or custodial grandparent of a person supported under age 18 years, whether the relationship is by blood, by marriage, or by adoption, and reimbursement shall not be provided for Individual Transportation Services provided by such individuals.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Limited to 31 days/month maximum.

These supports are expressly designed to support waiver participants in engaging in integrated community participation and integrated community employment when sustained, all-day participation in these opportunities outside the home is not possible for the individual due to intermittent needs related to personal care (where this care requires certain environments and/or equipment to perform, which is not otherwise available to the individual in any integrated community setting), personal assistance with preparing and eating a meal, and/or regaining stamina (physical and mental readiness and/or motivation for integrated community participation and/or employment occurring later on the same day). This service is also expressly designed to avoid the need for people to attend a facility-based day service setting in order to have these intermittent needs met, and to enable people with these needs to use their home as the base from which they routinely access their neighborhood and broader community.

On each day this service is delivered, the service includes supports and supervision that are appropriate and necessary to enable a waiver participant, who has engaged in integrated employment and/or community participation earlier in the day, to engage in additional integrated employment and/or community participation later in the day. The focus of the supports is facilitating the development of skills for activities of daily living and community living, including enabling the person to attain or maintain his/her maximum potential for engagement in integrated employment and community participation.

This service may be delivered by the waiver participant’s residential provider or by the waiver participant’s chosen provider of other non-residential habilitation services occurring on the same day (or one of these providers if more than one is providing services to the waiver participant in a given day) in order to ensure seamless continuity of supports for a waiver participant being supported with community participation and/or integrated employment.

An individual’s person-centered support plan may include more than one non-residential habilitation service (Supported Employment-Individual Employment Supports; Supported Employment-Small Group Employment Supports; Community Participation Supports; Intermittent Employment and Community Integration Wrap-Around Supports; Facility-Based Day Supports); however, they may not be billed for during the same period of time (e.g., the same 15 minute or hour unit of time).

Transportation during the provision of these services is included in the rates paid for these services. Transportation of a participant to and from these services is included in the rates paid for these services when such transportation is needed by a participant.
Specify applicable (if any) limits on the amount, frequency, or duration of this service:

- Non-residential habilitation services (Supported Employment-Individual Employment Supports (except as noted below); Supported Employment-Small Group Employment Supports; Community Participation Supports; Intermittent Employment and Community Integration Wrap-Around Supports; Facility-Based Day Supports) and either the Residential Special Needs Adjustment-Homebound or the Non-Residential Homebound Support Service, when combined, may involve no more than 5,832 quarter hour units/year and no more than 240 quarter hour units in a fourteen day billing period. The Residential Special Needs Adjustment-Homebound and the Non-Residential Homebound Support Service are paid on a per diem basis and each day shall be considered as 24 quarter hour units for the purposes of including this service in the annual and billing period limits. Under Supported Employment-Individual Employment Supports, authorizations of Benefits Counseling, Exploration, Discovery, and Job Development are not included in these limits.

- In authorizing Intermittent Employment and Community Integration Wrap-Around Supports, units authorized shall be counted for the purposes of implementing the overall annual and billing period limit in (1.) above but Intermittent Employment and Community Integration Wrap-Around Supports shall be limited to no more than 160 quarter hour units in a 14 day billing period and no more than 3,888 quarter hour units/year limit. A waiver participant may receive this service up to four (4) hours on same day that at least two (2) hours of Supported Employment (Individual and/or Small Group) and/or Community Participation Supports are also provided (or the waiver participants spends at least two (2) hours working in the community and/or participating in the community without staff support because the staff support is not necessary). The two (2) hours of Supported Employment (Individual and/or Small Group) and/or Community Participation Supports (or the two hours the waiver participant spends working in the community and/or participating in the community without staff support because the staff support is not necessary) may or may not be consecutive hours. On a given day, home-based supports that are needed in excess of four (4) hours are considered to be the responsibility of the residential provider. In the case of a waiver participant that lives with the family, this is considered to be the responsibility of the family or covered by Personal Assistance authorization. Further, the amount of units authorized shall in all cases be limited based on documented needs of the individual and shall not be authorized for the purposes of supplementing other non-residential habilitation services up to the maximum hours of service allowable if there is not a documented need for this amount of service. These supports are designed to address intermittent needs which will vary by individual waiver participant.

- Intermittent Employment and Community Integration Wrap-Around Supports shall not be provided during the same time period that the person is receiving Personal Assistance Services, Respite Services, or services under a 504 Plan or Individual Education Program (IEP), is being homeschooled, or any combination thereof, or as a substitute for education services which are available pursuant to the Individual with Disabilities Education Act (IDEA), but which the person or his/her legal representative has elected to forego. Except for students who have graduated prior to May of 2014, Day Services for school aged persons (i.e., under the age of 22) are limited to regular school break periods.

- The Intermittent Employment and Community Integration Wrap-Around Support service may not be provided on the same date as Facility-Based Day Supports.

This service is available beginning January 1, 2020.

Service Type:

[Other Service]

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Medical Residential Services

HCBS Taxonomy:

<table>
<thead>
<tr>
<th>Category 1:</th>
<th>Sub-Category 1:</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th>Category 2:</th>
<th>Sub-Category 2:</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th>Category 3:</th>
<th>Sub-Category 3:</th>
</tr>
</thead>
</table>

Service Definition (Scope):

<table>
<thead>
<tr>
<th>Category 4:</th>
<th>Sub-Category 4:</th>
</tr>
</thead>
</table>
Medical Residential Services shall mean a type of residential service selected by the person supported, encompassing the provision of direct skilled nursing services and habilitative services and supports that enable a person supported to acquire, retain, or improve skills necessary to reside in a community-based setting, and which supports each resident’s independence and full integration into the community, ensures each resident’s choice and rights. and comports fully with standards applicable to HCBS settings delivered under Section 1915(c) of the Social Security Act, including those requirements applicable to provider-owned or controlled homes, except as supported by the individual’s specific assessed need and set forth in the person-centered ISP.

All individual goals and objectives, along with needed supports shall be established through the person-centered planning process and documented in the person-centered ISP and shall include opportunities to seek employment and work in competitive integrated settings, engage in community life, and control personal resources, as applicable based on the needs and preferences of the individual.

Medical Residential Services must be medically necessary and provided in accordance with the person-centered ISP. The person supported who receives Medical Residential Services must have a medical diagnosis and treatment needs that would justify the provision of direct skilled nursing services that must be provided directly by a registered nurse or a licensed practical nurse, and such services must be needed on a daily basis and at a level which cannot for practical purposes be provided through two or fewer daily skilled nursing visits and which cannot be more cost-effectively provided through a combination of waiver services and other available services. There must be an order by a physician, physician assistant, or nurse practitioner for one or more specifically identified skilled nursing services, excluding nursing assessment or oversight, that must be provided directly by a registered nurse or by a licensed practical nurse in accordance with the Tennessee Nurse Practice Act.

The Medical Residential Services provider may elect to have the Nurse also be responsible for the provision of non-skilled services including eating, toileting, grooming, and other activities of daily living, needed by the individual during the period that Medical Residential Services are authorized and provided, unless such assistance cannot be safely provided by the nurse while also attending to the individual’s skilled nursing needs. However, the need for Medical Residential services shall depend only on the skilled nursing needs of the individual. Medical Residential services shall be provided in an appropriately licensed Residential Habilitation or Supported Living home.

The Medical Residential Services provider shall be responsible for providing an appropriate level of services and supports, including skilled nursing services, up to 24 hours per day 7 days a week when the person supported is not at school or participating in individualized integrated employment, based on the individualized needs of each resident; however, a nurse is not required to be present in the home during those time periods when skilled nursing services are not medically necessary. One nurse can provide services to more than one person supported in the home during the same time period if it is medically appropriate to do so.

The Medical Residential Services provider shall be responsible for the cost of all Day Services other than Supported Employment - Individual Employment Support (including Community Participation Supports, Facility-Based Day Support Services, Supported Employment- Small Group, and Intermittent Employment and Community Participation Wraparound supports) needed by the person supported and any skilled nursing services needed while receiving Day Services. In order to promote and incentivize participation in individualized integrated employment, a person receiving Medical Residential Services may also receive the Supported Employment-Individual Employment Support, and the provider shall not be responsible for the cost of this service.

Supports may include direct assistance as needed with, participating in, and learning how to complete independently activities of daily living (e.g., bathing, dressing, personal hygiene, eating, meal preparation excluding cost of food), household chores essential to the health and safety of the person supported, budget management (which shall include supporting the individual in managing his/her personal funds, as appropriate), attending appointments, and interpersonal and social skills building to enable the person supported to live in a home in the community. Supports shall be provided in a manner which ensures an individual’s rights of privacy, dignity, respect and freedom from coercion and restraint; and which optimizes individual initiative, autonomy, and independence in making life choices.

Medical Residential Services may include medication administration as permitted under Tennessee’s Nurse Practice Act and performance of other non-complex health maintenance tasks, as permitted by State law. The Medical Residential provider shall oversee the health care needs of the person supported.

A Medical Residential Services home shall have no more than 4 residents with the exception of those homes which were licensed as a Residential Habilitation Facility prior to July 1, 2000. Individuals receiving Medical Residential services may choose to receive services in a shared living arrangement with other persons who need differing levels of support, differing types of waiver services, or who participate in different HCBS programs, as permitted in state licensure law and regulation, as long as there is a willing, qualified provider who can safely meet the needs of each resident in the home.

Medical Residential Services shall not be provided in schools or in institutional settings (e.g., inpatient hospitals,
nursing facilities, and Intermediate Care Facilities for Individuals with Intellectual Disabilities). Medical Residential Services shall not be provided in a home where a person supported lives with family members unless such family members are also HCBS persons supported. Family member shall be interpreted to mean the mother, father, grandmother, grandfather, sister, brother, son, daughter, or spouse, whether the relationship is by blood, by marriage, or by adoption.

Since the Medical Residential Services provider is responsible for providing direct support and other services up to 24 hours per day 7 days per week when the person supported is not at school or participating in individualized integrated employment, based on a person’s support needs, a person supported who is receiving Medical Residential Services shall not be eligible to receive Personal Assistance, Community Participation Supports, Facility-Based Day Support Services, Supported Employment- Small Group, Intermittent Employment and Community Participation Wraparound supports, or Respite. Persons supported should receive the amount of support they need while also, consistent with the federal HCBS Settings Rule, have freedom in choosing to spend time alone or engage in activities without paid staff present, unless there are specific safety concerns that cannot be mitigated to a tolerable level of risk. Providers are responsible for providing an appropriate level of supports, including enabling technology, paid staff, and natural supports, as applicable, to ensure each person’s health and safety, while maximizing personal choice and independence, and not restricting individual rights and freedoms, except as minimally necessary and in accordance with the federal Rule.

Medical Residential Services are not intended to replace services available through the Medicaid State Plan/TennCare Program.

With the exception of transportation to and from medical services covered through the Medicaid State Plan/TennCare Program and in accordance with TennCare protocol, transportation shall be a component of Medical Residential Services and shall be included in the reimbursement rate for such.

Reimbursement for Medical Residential Services shall not be made for room and board or for the cost of maintenance of the dwelling if the home is rented, leased, or owned by the provider. If the home is rented, leased, or owned by the person supported, reimbursement shall not be made for room and board with the exception of a reasonable portion that is attributed to a live-in caregiver who is unrelated to the person supported and who provides services to the person supported in the place of residence of the person supported. If a person supported owns or leases the place of residence, residential expenses (e.g., phone, cable TV, food, rent) shall be apportioned between the person supported, other residents in the home, and (as applicable) live-in or other caregivers.

Reimbursement for Medical Residential Services shall not include payment made for services provided by an individual who has been appointed as the conservator of the person supported, unless so permitted in the Order for Conservatorship. Reimbursement for Medical Residential Services shall not include payment for Medical Residential Services provided by the spouse of a person supported. The Medical Residential Services provider and provider staff shall not be the parent or custodial grandparent of a person supported under age 18 years, whether the relationship is by blood, by marriage, or by adoption; and reimbursement shall not include payment for Medical Residential Services provided by such individuals.

Medical Residential Services may be provided out-of-state under the following circumstances:

a. Out-of-state services shall be limited to a maximum of 14 days per person supported per calendar year.

b. The waiver service provider agency must be able to assure the health and safety of the person supported during the period when services will be provided out-of-state and must be willing to assume the additional risk and liability of provision of services out-of-state (i.e., provision of out-of-state services is at the discretion of the service provider).

c. During the period when out-of-state services are being provided, the waiver service provider agency must maintain an adequate amount of staffing (including services of a nurse if applicable) to meet the needs of the person supported and must ensure that staff meet waiver provider qualifications.

d. The waiver service provider agency shall not receive any additional reimbursement for provision of services out-of-state. The costs of travel, lodging, food, and other expenses incurred by staff during the provision of out-of-state services shall not be reimbursed through the waiver. The costs of travel, lodging, food, and other expenses incurred by the person supported while receiving out-of-state services shall be the responsibility of the person supported and shall not be reimbursed through the waiver.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

A person receiving Medical Residential Services shall not be eligible to receive the Residential Special Needs Adjustment - Homebound.

**Service Type:**

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

**Service Title:**

Non-Residential Homebound Support Services

**HCBS Taxonomy:**

<table>
<thead>
<tr>
<th>Category 1:</th>
<th>Sub-Category 1:</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th>Category 2:</th>
<th>Sub-Category 2:</th>
</tr>
</thead>
</table>
Non-Residential Homebound Support Services shall mean a type of service offering individualized services and supports that enable the person to avoid institutionalization and live in the community in a non-residential setting of their choice, typically the family home or the individual’s own home. Non-Residential Homebound Support Services shall be delivered in a manner that aligns with the individual’s specific assessed need as set forth in the person-centered ISP.

Non-Residential Homebound Support Services is a per diem service that is provided in the individual’s residence when the individual is determined to be homebound on a particular day and unable to leave their home. ‘Homebound’ is defined as being unable to leave your home for at least 2 hours per day for a sustained period of time which is at least 5 days in a 14 day billing period. (The 2 hours may or may not be consecutive). The Non-Residential Homebound Support Services per diem may be authorized to support waiver participants when they meet the definition of ‘homebound’ and therefore are unable to participate in an employment or day service and need to remain at their residence for the full twenty-four hours of the day, except leaving the home for medical treatment or medical appointments.

The intent of the Non-Residential Homebound Support Service is that it be authorized on an as needed basis, not on a continuous basis unless justified (e.g. end-of-life circumstances or serious prolonged illness). The service is authorized on a per diem basis and can be authorized in addition to personal assistance quarterly units; however the two services shall not be provided or reimbursed at the same time. Non-Residential Homebound Support Services shall not be provided or paid on any day when any other employment or day service is provided. Non-Residential Homebound Support Services shall not be provided at the same time as any other Waiver services, provided that therapy services (Physical Therapy, Occupational Therapy, Speech, Language and Hearing) and Behavior Services may be provided while a person is receiving Non-Residential Homebound Support Services when appropriate based on the individualized needs and goals of the person supported. Nursing Services may be provided at the time as the Non-Residential Homebound Support Service only on an intermittent basis, and limited to no more than one hour to perform specific skilled nursing tasks that cannot be performed by or delegated to the staff providing the Non-Residential Homebound Support Service. When Nursing Services are provided for a longer period, the nurse shall also be responsible for the provision of non-skilled services including eating, toileting, grooming, and other activities of daily living, needed by the person supported during the period that Nursing Services are authorized and provided. The Non-Residential Homebound Support Service per diem is to be used only on days, beyond the first four (4) days in any 14-day billing period that the individual is considered ‘homebound’, when the person cannot go out of their house for the entire twenty-four hour period due to their circumstances, except leaving the home for medical treatment or medical appointments.

For an individual to be eligible for the Non-Residential Homebound Support Service, the person is unable to leave his/her home for at least 2 hours per day (hours may or may not be consecutive) for a sustained period of time which is at least 5 days in a 14 day billing period, due to one or more of the following criteria:

1. Engaging in integrated community participation and/or integrated community employment outside the home is not possible for the individual due to needs related to end of life. End-of-life issues relate to someone’s death and the time just before it, when it is known that they are likely to die soon from a terminal illness or similar condition. The person is receiving support and medical care given during the time surrounding death.

2. Engaging in integrated community participation and/or integrated community employment outside the home is not possible for the individual due to needs related to a sustained behavioral crisis, involving behaviors not otherwise typical for the individual. These behaviors are not considered safe and/or would be sufficiently disruptive if displayed in the community and/or at a place of employment so as to cause issues that would interfere with successful participation in the community and or in community employment.

3. Engaging in integrated community participation and/or integrated community employment outside the home is not possible for the individual due to needs related to recovery after a period of hospitalization (e.g. discharge after surgery), recovery due to being admitted to hospital ICU, emergency illness, surgical complication or accident.

4. Significantly health compromised - A chronic health issue, supported by current medical records that restricts the person from leaving their home under certain pre-determined circumstances, including environmental issues i.e. extreme heat or cold, high pollen, air quality, exposure (geographically) to high incidences of communicable disease etc., that would further compromise the individual’s health and physical well-being.

Non-Residential Homebound Support Service is only used in the above exceptional circumstances and is to be used only as needed and only on days when the above criteria are applicable. Authorizations for Non-Residential Homebound Support Service are to be reviewed and reauthorized, as appropriate, every 90 days.
All individual goals and objectives, and specific needed supports, related to authorization of the Non-Residential Homebound Support Service shall be established through the person-centered planning process and documented in the person-centered ISP. Supports may include direct assistance as needed with activities of daily living (e.g., bathing, dressing, personal hygiene, feeding/assistance with eating, meal preparation excluding cost of food, toileting and incontinence care, assistance with transfer and mobility), and household chores essential to the health and safety of the person supported (e.g., washing dishes; personal laundry; general housecleaning in areas of the residence used by the person supported). Supports shall be provided in a manner which ensures an individual’s rights of privacy, dignity, respect and freedom from coercion and restraint; and which optimizes individual initiative, autonomy, and independence in making life choices.

The Non-Residential Homebound Support Service may include medication administration as permitted under Tennessee’s Nurse Practice Act and performance of other non-complex health maintenance tasks, as permitted by State law. The Non-Residential Homebound Support Service per diem requires a minimum of six (6) hours of service to be delivered on the day for which it is billed. The six (6) hours of service may be provided during the day or night, as specified in the person-centered ISP.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

A person supported who is receiving a residential service (i.e., Supported Living, Residential Habilitation, Medical Residential Services, or Family Model Residential Support) shall not be eligible to receive the Non-Residential Homebound Support Service. A person receiving Semi-Independent Living Services shall not be eligible to receive the Non-Residential Homebound Support Service.

The Non-Residential Homebound Support Service shall not be provided during the same time period that the person supported is receiving, Personal Assistance, other Day Services, Respite Services, services under a 504 Plan or Individual Education Program (IEP), is being homeschooled, or any combination thereof or as a substitute for education services which are available pursuant to IDEA, but which the person or his representative has elected to forego.

This service shall not be provided in inpatient hospitals, nursing facilities, and Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICFs/IID). The Non-Residential Homebound Support Service shall not be provided in a licensed facility (e.g., a group home, boarding home, or assisted living home).

The Non-Residential Homebound Support Service shall be limited to a maximum of 10 days in a 14 day billing period. The Non-Residential Homebound Support Service shall be limited to a maximum of 10 days in a 14 day billing cycle.

The service cannot be billed until the homebound requirement is met—unable to participate in any employment or day service OR to leave the home except for medical treatment or medical appointments and for at no more than 2 hours a day for at least 5 days in the billing period.

The service cannot be billed on any day when any other employment or day service is provided.

Each day will be treated as twenty-four (24) quarter hour units for the purposes of including this service in the two-hundred forty (240) quarter-hour units cap on combined employment and day services in each 14-day billing period. The Non-Residential Homebound Support Service shall be limited to a maximum of 243 days per person per calendar year. Each day will be treated as twenty-four (24) quarter hour units for the purposes of including this service in the five-thousand eight-hundred thirty-two (5,832) quarter-hour units cap on combined employment and day services per year.

The Non-Residential Homebound Support Service may not be self-directed.

This service is available beginning January 1, 2020.

</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Orientation and Mobility Services for Impaired Vision shall mean services (1) to assess the orientation and mobility of a person supported to determine functional limitations resulting from severe visual impairment and (2) to provide orientation and mobility training to enable a person supported with functional limitations resulting from severe visual impairment to move with greater independence and safety in the home and community environment.

Orientation and Mobility Services for Impaired Vision shall be based on a formal assessment of the person supported and may include concept development (i.e. body image); motor development (i.e., motor skills needed for balance, posture and gait); sensory development (i.e. functioning of the various sensory systems); residual vision stimulation and training; techniques for travel (indoors and outdoors) including human guide technique, trailing, cane techniques, following directions, search techniques, utilizing landmarks, route planning, techniques for crossing streets, and use of public transportation; and instructional use of Low Vision devices.

Orientation and Mobility Services for Impaired Vision shall be provided by a Certified Orientation and Mobility Specialist (COMS) who is nationally certified through the Academy for Certification of Vision Rehabilitation and Education Professionals (ACVREP). Orientation and Mobility Services for Impaired Vision shall be provided face to face with the person supported except for training of caregivers responsible for assisting in the mobility of the person supported and except for that portion of the assessment involving development of the plan of care.

Therapeutic goals and objectives shall be required for persons supported receiving Orientation and Mobility Services for Impaired Vision. Continuing approval of Orientation and Mobility Services for Impaired Vision shall require documentation of reassessment of the condition and continuing progress of the person supported toward meeting the goals and objectives.

Orientation and Mobility Services for Impaired Vision shall not be billed when provided during the same time period as Physical Therapy, Occupational Therapy, Nutrition Services, Behavior Services, or Speech, Language, and Hearing Services, unless there is documentation in the record of medical justification of the person supported for the two services to be provided concurrently.

Orientation and Mobility Services for Impaired Vision shall not replace services available under a program funded by the Rehabilitation Act of 1973 or Individuals with Disabilities Education Act.

The unit of reimbursement for an Orientation and Mobility Services for Impaired Vision assessment with plan development shall be per day. The unit of reimbursement for other Orientation and Mobility Services for Impaired Vision shall be per 15 minutes.

Reimbursement for an Orientation and Mobility Services for Impaired Vision assessment with development of the plan based on such an assessment shall be limited to a maximum of one assessment with plan development per month with a maximum of 3 assessments per calendar year per person supported per provider. Orientation and Mobility Services for Impaired Vision assessments shall not be billed on the same day with other Orientation and Mobility Services for Impaired Vision services. Orientation and Mobility Services for Impaired Vision services other than such assessments (e.g., person supported training; person supported-specific training of caregivers), which shall be reimbursed on a per diem basis, shall be limited to a maximum of 52 hours of services per person supported per calendar year. Reimbursement shall not be made for telephone consultations. A provider shall not receive reimbursement for Orientation and Mobility Services for Impaired Vision unless provided by a Certified Orientation and Mobility Specialist (COMS) who is nationally certified through the Academy for Certification of Vision Rehabilitation and Education Professionals (ACVREP).

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Reimbursement limits:
* 1 assessment with plan development per month;
* 3 assessments per year per enrollee per provider; and
* 52 hours of non-assessment services per calendar year.

</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Personal Assistance shall mean a type of service, selected by the person supported, offering individualized services and supports that enable the person to live in the community in a setting of their choice and which supports each person’s independence, rights, and full inclusion in the community; and ensures each resident’s choice and rights. Personal Assistance services shall be delivered in a manner that complies fully with standards applicable to HCBS settings delivered under Section 1915(c) of the Social Security Act, except as supported by the individual’s specific assessed need and set forth in the person-centered ISP.

All individual goals and objectives, along with needed supports shall be established through the person-centered planning process and documented in the person-centered ISP and shall include opportunities to seek employment and work in competitive integrated settings, engage in community life, and control personal resources, as applicable based on the needs and preferences of the individual. Supports may include of direct assistance as needed with, participating in, and learning how to complete independently activities of daily living (e.g., bathing, dressing, personal hygiene, feeding/assistance with eating, meal preparation excluding cost of food, toileting and incontinence care, assistance with transfer and mobility), household chores essential to the health and safety of the person supported (e.g., washing dishes; personal laundry; general housecleaning in areas of the residence used by the person supported); budget management (which shall include supporting the individual in managing his/her personal funds, as appropriate), supervising and accompanying the person supported to medical appointments if needed, and on personal errands such as grocery shopping, picking up prescriptions, paying bills; and trips to the post office.

Supports shall be provided in a manner which ensures an individual’s rights of privacy, dignity, respect and freedom from coercion and restraint; and which optimizes individual initiative, autonomy, and independence in making life choices.

Personal Assistance may include medication administration as permitted under Tennessee’s Nurse Practice Act and performance of other non-complex health maintenance tasks, as permitted by State law. Personal Assistance is a service that is provided for the direct benefit of the person supported. It is not a service that provides direct assistance to other members of the household (e.g., preparation of meals for the family, family laundry) who are not persons supported through the waiver. Personal Assistance staff shall not provide any personal assistance services to family members of the person supported, unless such family members are also supported through the waiver residing in the same home (e.g., when 2 siblings in the home are both waiver participants).

A single staff person may provide Personal Assistance services to more than one individual residing in the same home at the same time, provided each person’s needs can be safely and appropriately met. When Personal Assistance is provided as a shared service for 2 or more family members residing in the same home (regardless of funding source), the total number of units of shared Personal Assistance shall be apportioned based on an assessment of individual need and the apportioned amount included in the ISP for each waiver participant, as applicable. Only one unit of service will be billed for each unit of service provided, regardless of the number of persons supported. Documentation of service delivery must be kept for each person supported and shall reflect the total number of shared units of service provided, and the tasks performed/assistance provided for that individual.

Personal Assistance is often delivered in the place of residence of the person supported; however, it may be provided outside the person supported home in community-based settings where the Personal Assistance provider accompanies the person supported to perform tasks and functions in accordance with the approved service definition and as specified in the person-centered ISP. Personal Assistance does not include routine provision of Personal Assistance services in an area outside the person’s local community of residence. On an infrequent and exceptional basis and in accordance with the approved person-centered ISP, Personal Assistance services may be provided in an area outside the person’s local community of residence.

Personal Assistance may be provided in the home or community; however, it shall not be provided in schools for school-age children, to replace personal assistance or similar services required to be covered by schools, to transport or otherwise take children to or from school, or to replace services available through the Medicaid State Plan/TennCare Program. Personal Assistance services shall not be provided in the home of the Personal Assistant, except (1) when the person supported lives in the home with the Personal Assistant or (2) on an infrequent and exceptional basis when the person supported is attending a special event (e.g., a party) that is held in the home of the Personal Assistant. Services provided in the Personal Assistant’s home must be specified and in accordance with the approved person-centered ISP.

Personal Assistance may be provided during the day or night, as specified in the person-centered ISP. A person supported who is receiving a residential service (i.e., Supported Living, Residential Habilitation, Medical Residential Services, or Family Model Residential Support) shall not be eligible to receive Personal Assistance.

Individuals receiving Personal Assistance services may choose to receive services in a shared living arrangement with other persons who need differing levels of support, differing types of waiver services, or who participate in different HCBS programs, as permitted in state licensure law and regulation, as long as there is a willing, qualified provider who can safely meet the needs of each resident in the home.

Personal Assistant Services shall not be provided during the same time period that the person supported is receiving
Day Services, Respite Services, services under a 504 Plan or Individual Education Program (IEP), is being homeschooled, or any combination thereof or as a substitute for education services which are available pursuant to IDEA, but which the person or his representative has elected to forego.

This service shall not be provided in inpatient hospitals, nursing facilities, and Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICFs/IID). Personal Assistance shall not be provided in a licensed facility (e.g., a group home, boarding home, or assisted living home) when the facility's licensure category requires the provision of personal assistance or personal care services.

Family members who provide Personal Assistance must meet the same standards as providers who are unrelated to the person supported. The Personal Assistant shall not be the spouse of a person supported and shall not be the parent or custodial grandparent of a person supported under age 18 years, whether the relationship is by blood, by marriage, or by adoption; and reimbursement shall not include payment for Personal Assistance provided by such individuals. Reimbursement shall not be made to any other individual who is a conservator unless so permitted in the Order for Conservatorship.

Family members are required to implement services as specified in the person-centered ISP. Reimbursement to family members shall be limited to forty hours per week per family member. The person’s Circle of Support is responsible for determining if the use of family members to deliver paid care is the best choice for the person supported and shall ensure that paid services do not supplant natural supports that would otherwise be provided at no cost to the Medicaid program.

The unit of reimbursement for Personal Assistance services shall be 15 minutes.

The Personal Assistance provider is not obligated to provide transportation for the person supported as part of the Personal Assistance service; however, a Personal Assistance provider who is also an Individual Transportation Services provider may bill for Individual Transportation Services for transport of the person supported into the community.

Personal Assistance may be provided out-of-state under the following circumstances:

a. Out-of-state services shall be subject to the same monthly limitation as Personal Assistance services provided in-state and in addition, are limited to a maximum of 14 days of service per person supported per waiver program year (calendar year), regardless of the number of hours of service provided each day.

b. The waiver service provider agency must be able to assure the health and safety of the person supported during the period when services will be provided out-of-state and must be willing to assume the additional risk and liability of provision of services out-of-state (i.e., provision of out-of-state services is at the discretion of the service provider).

c. During the period when out-of-state services are being provided, the waiver service provider agency must maintain an adequate amount of staffing (including services of a nurse if applicable) to meet the needs of the person supported and must ensure that staff meet waiver provider qualifications.

d. The waiver service provider agency shall not receive any additional reimbursement for provision of services out-of-state. The costs of travel, lodging, food, and other expenses incurred by staff during the provision of out-of-state services shall not be reimbursed through the waiver. The costs of travel, lodging, food, and other expenses incurred by the person supported while receiving out-of-state services shall be the responsibility of the person supported and shall not be reimbursed through the waiver.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Personal Assistance services shall be limited to a maximum of 860 units (215 hours) per waiver participant per month. Out of state Personal Assistance services are subject to the same monthly limitation, and in addition, are limited to a maximum of 14 days per waiver participant per waiver program year (i.e. calendar year).

Service Definition (Scope):

A Personal Emergency Response System shall mean a stationary or portable electronic device used in the place of residence of the person supported which enables the person supported to secure help in an emergency. The system shall be connected to a response center staffed by trained professionals who respond upon activation of the electronic device. The system shall be limited to those who are alone for parts of the day and who have demonstrated mental and physical capability to utilize such a system effectively.

A Personal Emergency Response System shall consist of installation and testing of the Personal Emergency Response System as well as monthly monitoring performed by a response center.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Monitoring is limited to 1 unit/month (12 units/calendar year) maximum.

Service Delivery Method (check each that applies):

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Semi Independent Living

HCBS Taxonomy:

| Category 1: |
| Sub-Category 1: |

| Category 2: |
| Sub-Category 2: |

| Category 3: |
| Sub-Category 3: |

Service Definition (Scope):

| Category 4: |
| Sub-Category 4: |
Semi-Independent Living Services (SILS) shall mean services selected by the person supported that include training and assistance in managing money, preparing meals, shopping, personal appearance and hygiene, interpersonal and social skills building, and other activities needed to maintain and improve the capacity of an individual with an intellectual disability to live in the community, and which supports the person’s independence and full integration into the community, ensures the person’s choice and rights, and comports fully with standards applicable to HCBS settings delivered under Section 1915(c) of the Social Security Act, except as supported by the individual’s specific assessed need and set forth in the person-centered Individual Support Plan (ISP).

The service also includes oversight and assistance in managing self-administered medication and/or medication administration as permitted under Tennessee’s Nurse Practice Act and performance of other non-complex health maintenance tasks, as permitted by State law. The SILS provider shall oversee the health care needs of the person supported.

This service is appropriate for people who need intermittent or limited support to remain in their own home and do not require staff that lives on-site. However, access to emergency supports as needed from the provider on a 24/7 basis is an essential component of this residential service and is what differentiates it from Personal Assistance services.

Individuals receiving SILS may choose to receive services in a shared living arrangement with other persons who need differing levels of support, differing types of waiver services, or who participate in different HCBS programs, as permitted in state licensure law and regulation, as long as there is a willing, qualified provider who can safely meet the needs of each resident in the home. No more than 3 persons receiving services will be permitted per residence. All individual goals and objectives, along with needed supports shall be established through the person-centered planning process and documented in the person-centered ISP and shall include opportunities to seek employment and work in competitive integrated settings, engage in community life, and control personal resources, as applicable based on the needs and preferences of the individual. Supports shall be provided in a manner which ensures an individual’s rights of privacy, dignity, respect and freedom from coercion and restraint; and which optimizes individual initiative, autonomy, and independence in making life choices.

The Circle of Support must consider the person's level of independence and safety prior to establishing a semi-independent living arrangement. Safety considerations must be reviewed at least annually (and more often should a change of needs or circumstances warrant). Consideration regarding the use of a Personal Emergency Response System should be given when appropriate. The ISP must reflect the routine supports that will be provided by residential staff.

The person may choose to live with one or two other persons supported and share expenses or to live alone as long as sufficient financial resources are available to do so.

Reimbursement for SILS shall not include the cost of maintenance of the dwelling. Residential expenses (e.g., phone, cable TV, food, rent) shall be apportioned between the person(s) supported and other residents in the home (if applicable).

A person who is receiving SILS shall not be eligible to receive Personal Assistance, Respite or Transportation as separate services. With the exception of transportation to and from medical services covered through the Medicaid State Plan/TennCare Program, transportation shall be a component of SILS and shall be included in the reimbursement rate for such.

The SILS provider shall not own the person’s place of residence or be a co-signer of a lease on the person’s place of residence unless the provider signs a written agreement with the person that states that the person will not be required to move if the primary reason is because the person desires to change to a different provider. The SILS provider shall not own, be owned by, or be affiliated with any entity that leases or rents a place of residence to a person supported if such entity requires, as a condition of renting or leasing, the person to move if the person desires to change to a different provider.

SILS shall not be provided in inpatient hospitals, nursing facilities, and Intermediate Care Facilities for individuals with Intellectual Disabilities (ICFs/IID). A family member(s) of the person supported shall not be reimbursed to provide SILS. SILS shall not be provided in a home where a person supported lives with family members unless such family members are also persons receiving waiver services. Family member shall be interpreted to mean the mother, father, grandmother, grandfather, sister, brother, son, daughter, or spouse, whether the relationship is by blood, by marriage, or by adoption.

On a case-by-case basis, the DIDD Commissioner or designee may authorize SILS for a person supported who resides with his or her spouse and or minor children.

SILS shall not be provided out-of-state.

A minimum of two face-to-face direct service visits in the home per week are required for each person receiving SILS. However, providers delivering this service are required to implement provisions for availability of provider staff on a 24 hour basis in case emergency supports are needed.

SILS providers are required to be licensed as Mental Retardation (i.e., Intellectual Disabilities) Semi-Independent Living Services (SILS) and to conduct a thorough background check on all employees and volunteers prior to allowing them to interact with the person supported.
Living Providers.
For individuals who are transitioning from a 24-hour residential waiver service supports into SILS and need additional hours of support during the transition period, providers will be reimbursed at a transition period rate, per the waiver max fee schedule, for a period of no more than 30 days from the date of transition.

For persons supported successfully transitioned from a 24-hour residential waiver service into Semi-Independent Living, a one-time per person “Transition to Independent Living Payment” will be made to the provider after the person supported has spent 6 consecutive months in SIL, so long as the person is still in SIL at the time of billing and is expected to continue living successfully in this setting. The “Transition to Independent Living Payment” will not count against a person’s individual cost neutrality cap, but will be included in all federally required demonstrations of waiver cost neutrality.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

A person receiving Semi-Independent Living Services shall not be eligible to receive the Residential Special Needs Adjustment - Homebound or the Non-Residential Homebound Support Services.

Applications for 1915(c) HCBS Waiver: TN.0128.R06.07 - Feb 01, 2024 (as of Feb 01, 2024)

Services provided to a person who, because of his or her disabilities, needs support not available to the person through a program funded under Sec. 110 of the Rehabilitation Act of 1973 or the IDEA (20 U.S.C. 1401 et seq.) to obtain, maintain, and/or advance in competitive integrated employment, including customized or self-employment, for which the individual is compensated at or above minimum wage. The expected outcome of these services is individualized integrated employment (IIE) or self-employment (SE), consistent with the individual’s personal and career goals, and defined as follows: (1) Sustained paid employment in a competitive or customized job with an employer for which an individual is compensated at or above the state’s minimum wage, with the optimal goal being not less than the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals without disabilities; or (2) Sustained paid SE that is home-based or conducted in an integrated setting(s) where net income in relation to hours worked is equivalent to no less than minimum wage, after a one-year start-up period. The Supported Employment—Individual Employment Support (SE-IES) provider shall be responsible for any Personal Assistance (PA) needs during the time that SE-IES services are provided; however, PA may not comprise the entirety of the SE-IES service(s) being provided. Transportation during the provision of these services is included in the rates paid for these services. Transportation of the individual to and from these services is included in the rates paid for these services when such transportation is needed by a participant. Time spent transporting the individual to/from the job site, when needed, in individual job coaching (JC) is considered authorized service time and it is expected that the job coach will use this time with the individual, as needed, to engage in conversation to identify/address employment-related issues and questions, and to provide support, guidance and positive reinforcement that contributes to the individual maintaining competitive integrated employment. An individual’s Individual Support Plan may include more than one non-residential habilitation service (SE-IES; Supported Employment-Small Group Employment Supports; Community Participation Supports; Intermittent Employment and Community Integration Wrap-Around Supports; Facility-Based Day Supports); however, they may not be billed for during the same period of time (e.g., the same 15 minute or hour unit of time). A provider of SE-IES services may also receive Social Security’s Ticket to Work Outcome and Milestone payments. These payments do not conflict with CMS regulatory requirements and do not constitute an overpayment of Federal dollars for services provided. SE-IES services are individualized and may include one or more of the following components: 1. Exploration: This is a time-limited and targeted service designed to help a person make an informed choice about whether s/he wishes to pursue IIE or SE, as defined above. This service is not appropriate for Waiver participants who already know they want to pursue IIE or SE. This service includes career exploration activities to identify a person’s specific interests and aptitudes for paid work, including experience and skills transferable to IIE or SE. This service also includes exploration of IIE or SE opportunities in the local area that are specifically related to the person’s identified interests, experiences and/or skills through four to five uniquely arranged business tours, informational interviews and/or job shadows. Each business tour, informational interview and/or job shadow shall include debriefing with the person after each opportunity. This service also includes introductory education on work incentives for individuals receiving publicly funded benefits (e.g. SSI, SSDI, Medicaid, Medicare, etc.), and includes introductory education on how Supported Employment services work (including VR services). Educational information is provided to the person and the legal guardian/conservator and/or most involved family member(s), if applicable, to ensure legal guardian/conservator and/or family support for the person’s choice to pursue IIE or SE. The educational aspects of this service shall include addressing any concerns, hesitations or objections of the person and the legal guardian/conservator and/or most involved family member(s), if applicable. The Exploration service shall be completed no more than thirty (30) calendar days from the date of service initiation, unless extenuating circumstances warrant an extension. Exploration service is expected to involve, on average, forty (40) hours of service. 2. Discovery: This is a time-limited and targeted service for an individual who wishes to pursue IIE or SE but for whom more information is needed to determine the following prior to pursuing IIE or SE: o Strongest interests toward one or more specific aspects of the labor market; o Skills, strengths and other contributions likely to be valuable to employers or valuable to the community if offered through SE; o Conditions necessary for successful employment or SE. Discovery involves a comprehensive analysis of the person in relation to the three bullets above. Activities include observation of person in familiar places and activities, interviews with family, friends and others who know the person well, observation of the person in an unfamiliar place and activity, identification of the person’s strong interests and existing strengths and skills that are transferable to IIE or SE, Discovery also involves identification of conditions for success based on experience shared by the person and others who know the person well, and observation of the person during the Discovery process. Discovery results in the production of a detailed written Profile, using a standard template prescribed by DIDD, which summarizes the process, learning and recommendations to inform identification of the person’s IIE or SE goal(s) and strategies to be used in securing this employment or SE for the person. If Discovery is paid for through the Waiver, the person should be assisted to apply to VR for services to obtain IIE or SE. The Discovery Profile should be shared with VR staff to facilitate the expeditious development of an Individual Plan for Employment (IPE). Discovery shall be limited to no more than ninety (90) calendar days from the date of service initiation, unless extenuating circumstances warrant an extension.
This service is expected, on average, to involve fifty (50) hours of service. 3. Job Development Job Development is support to obtain IIE or SE as defined above. The Job Development strategy should reflect best practices and whether customized employment is being sought. Job Development can also include SE Start Up which is support in establishing SE or a microenterprise, through implementation of a viable and comprehensive business plan. SE Start Up may include: (a) aid to the individual in identifying potential business opportunities; (b) assistance in the development of a business plan, including potential sources of business financing and other assistance in including potential sources of business financing and other assistance in developing and launching a business; (c) identification of the supports that are necessary in order for the individual to operate the business. The outcome of this service is expected to be the achievement of an IIE or SE outcome consistent with the individual’s personal and career goals. This service will be paid on an outcome basis once the person has completed two calendar weeks of IIE or SE Outcome payment amounts are tiered based upon the assessed level of need for the individual being served. 4. Job Coaching (JC) JC includes identifying, through job analysis, and providing services and supports that assist the individual in maintaining IIE or SE as defined above. JC includes supports provided to the individual and his/her supervisor and/or co-workers. Supports during each phase of employment must be guided by a JC Fading Plan which incorporates an appropriate mix of best practices for the individual to achieve fading goals as identified in the Plan (e.g. systematic instruction utilizing task analysis to teach the individual to independently complete as much of his/her job duties as possible; high or low tech assistive technology; and effective engagement of natural supports including co-workers and supervisor(s) as needed). If progress on fading ceases at some point, adaptations to job duties, negotiated with the supervisor/employer, may be utilized to allow fading to continue if no reduction in hours or hourly pay results. If an individual’s support needs are one hour per week or less, JC through monthly Stabilization and Monitoring (SM) will be authorized. This requires a minimum of one monthly face-to-face contact with the supported employee, one monthly contact with the employer and ability of the provider to respond as needed to prevent job loss and where necessary, pursue a change in service authorization as needed to address longer term challenges to avoiding job loss. JC can also include supports for persons participating in individualized, integrated SE, which includes identification and provision of services and supports that assist the individual in maintaining SE. Supports must enable the individual to successfully operate the business (with assistance from other sources of professional services or suppliers of goods necessary for the type of business). JC supports should never supplant the individual’s role or responsibility in all aspects of the business. Supports during each phase of SE must be guided by a JC Fading Plan which incorporates an appropriate mix of best practices for the individual to achieve fading goals as identified in the Plan. (e.g. systematic instruction utilizing task analysis to teach the individual to independently complete as much of his/her roles and responsibilities as possible; high or low tech assistive technology; and effective engagement of any business partners and/or associates and/or suppliers of goods or services. If progress on fading ceases at some point, business plan adaptations may be utilized to allow fading to continue, if no reduction in paid hours or net hourly pay results. If an individual’s support needs are one hour per week or less, JC through monthly SM will be authorized as defined and stated above. This requires a minimum of one monthly face-to-face contact with the supported employee and ability of the provider to respond as needed to prevent loss of SE and where necessary, pursue a change in service authorization as needed to address longer term challenges to avoiding loss of SE. The amount of time authorized for either type of JC is a percentage of the individual’s hours engaged in employment or SE, based on need. For the Exploration and Discovery Service, the provider shall document each date of service, the activities performed that day, and the duration of each activity. Each service culminates in a written report summarizing the process and outcomes, using a standard template prescribed by DIDD. The written report is due no later than fourteen (14) calendar days after the last date of service is concluded. Exploration and Discovery are paid on an outcome basis, after the written report is received and approved, and the provider submits documentation detailing each date of service, the activities performed that day, and the duration of each activity. Except as necessary to provide for seamless transition of waiver participants to the new service array, this service will be available only through September 30, 2023 or a subsequent date by which IT changes necessary to implement this waiver amendment are complete.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
The Waiver will not cover SE-IES services which are otherwise available to the individual under section 110 of the Rehabilitation Act of 1973, or the IDEA (20 U.S.C. 1401 et seq.). If one or more of these services are authorized, documentation is maintained that the service is not available to the individual under a program funded under section 110 of the Rehabilitation Act of 1973 or the IDEA (20 U.S.C. 1401 et seq.). SE-IES shall not be provided during the same time period that the person is receiving Personal Assistance, Respite, or services under a 504 Plan or Individual Education Program (IEP), is being homeschooled, or any combination thereof, or as a substitute for education services which are available pursuant to the Individual with Disabilities Education Act (IDEA), but which the person or his/her legal representative has elected to forego. Except for students who have graduated prior to May 2014, employment and day services for school aged persons (i.e., under the age of 22) are limited to regular school break periods. These services are only for individuals seeking or engaged in individualized integrated employment or self-employment. These services are not for group employment of any size or variation. Services do not include supports for volunteering or any form of unpaid internship, work experience or employment. SE-IES shall not be provided in excess of actual need and cannot be billed for more hours than the individual, engaged in employment or self-employment, has worked in a billing period. These services do not include supporting paid employment or training in a sheltered workshop or similar facility-based setting. These services do not include supporting paid employment or training in a business enterprise owned or operated by or affiliated with a provider of these services. However, those individuals who are currently employed by a provider to fulfill a contract authorized pursuant to TCA 71-4-701 et seq. may continue to receive supported employment services for paid employment or training until the contract expires or the person loses the employment for any other reason. At that point, any supported employment services the person receives must fully align with best practices in competitive integrated employment and the State’s commitment to Employment First, and will no longer be used to support employment or training in a business enterprise owned or operated by or affiliated with a provider of these services. In limited circumstances where the person is working in an integrated employment arrangement, but the provider agency is serving as the EOR, providers will be permitted to bill for Employment Supports while EOR responsibilities are transitioned from the provider to the business/entity offering the integrated employment opportunity, in order to ensure that employment is not disrupted. These services do not include payment for supervisory activities rendered as a normal part of the business setting and supports otherwise available to employees without disabilities filling the same or similar positions in the business. Exploration: After an individual has received the service for the first time, re-authorization may occur a maximum of once per year (with a minimum 365-day interval between services) and only if the person, at the time of re-authorization, is not already engaged in individualized integrated employment or self-employment, or other services to obtain such employment. Discovery: After an individual has received the service for the first time, re-authorization may occur a maximum of once every three years (with a minimum of three 365-day intervals between services), and only if the person, at the time of re-authorization, is not already engaged in individualized integrated employment or self-employment, or other services to obtain such employment, and the person has a goal to obtain individualized integrated employment or self-employment within 12 months. Job Development (JD) including Self-Employment Start-Up: After an individual has received the service for the first time, re-authorization may occur a maximum of once per year (with a minimum 365-day interval between services), and only if the person, at the time of re-authorization, is not already engaged in individualized integrated employment or self-employment, or other services to obtain such employment, and the person has a goal to obtain individualized integrated employment or self-employment within 9 months. Self-Employment Start-up: Medicaid funds may not be used to defray the expenses associated with starting up or operating a business. Non-residential habilitation services (SE-IES except as noted below): Small Group ES; Community Participation Supports; IE&C Wrap-Around Supports; FB Day Supports) and either the Residential SNA-Homebound (HB) or the Non-Residential HB Service, when combined, may involve no more than 5,832 quarter hour units/year and no more than 240 quarter hour units in a fourteen day billing period. The Residential SNA-HB and the Non-Residential HB Service are paid on a per diem basis and each day shall be considered as 24 quarter hour units for the purposes of including this service in the annual and billing period limits. Under SE-IES, authorizations of Exploration, Discovery and JD are not included in these limits. These services will not duplicate other services provided through the Waiver or the Medicaid State Plan. Federal financial participation is not claimed for incentive payments, subsidies, or unrelated vocational training expenses such as the following: Incentive payments made to an employer to encourage or subsidize the employer’s participation in supported employment; Payments that are passed through to users of supported employment services; or Payments for training that is not directly related to an individual’s supported employment program. This service is available beginning Jan. 1, 2020.

C-1/C-3: Provider Specifications for Service

- **Service Type**: Other Service
- **Service Name**: Supported Employment - Individual Employment Support

**Provider Category:**

- Individual

**Provider Type:**

- Legally Responsible Person

**Provider Qualifications**

- **License (specify):**
  - N/A

- **Certificate (specify):**
  - N/A

- **Other Standard (specify):**
The provider must meet the general requirements for all waiver service providers: 1. All providers shall be at least 18 years of age. 2. Staff who have direct contact with or direct responsibility for the service recipient shall be able to effectively read, write, and communicate verbally in English and shall be able to read and understand instructions, perform record-keeping, and write reports. 3. Any waiver service provider who is responsible for transporting a service recipient shall ensure that the driver has a valid driver’s license and automobile liability insurance. 4. Staff who have direct contact with or direct responsibility for the service recipient shall pass a criminal background check performed in accordance with a process approved by the Department of Intellectual and Developmental Disabilities (DIDD). 5. Staff who have direct contact with or direct responsibility for the service recipient shall not be listed in the Tennessee Department of Health Abuse Registry or the Tennessee Sexual Offender Registry. 6. Waiver service providers shall not have been excluded from participation in the Medicare or Medicaid programs. 7. All providers must comply with TennCare-approved policies, procedures, and rules for waiver service providers, including quality monitoring requirements. Individual staff delivering Supported Employment-Individual Employment Supports services shall also be required to meet the following qualifications: 1. For Exploration and Job Coaching, the staff person shall have qualified as a Job Coach by either: (1) qualifying as a Job Developer as listed in 2. below; or (2) successfully completing a competency-based training course covering best practices in job coaching and consultation, pre-approved by DIDD and covering, at minimum, specific content prescribed in policy by DIDD. Example of acceptable course is: Training Resource Network, Inc. (TRN) Job Coaching and Consulting: Design, Training and Natural Support on-line web course. 2. For Discovery and Job Development, the staff person shall have successfully obtained one of the following to qualify as a Job Developer: a. Association of People Supporting Employment (APSE) Certified Employment Support Professional (CESP) Certificate received through passing an exam; OR b. ACRE Basic Employment Certificate – The Supported Employment Online Certificate Series earned through Virginia Commonwealth University; OR c. ACRE Basic Employment Certificate in Community Employment with Emphasis on Customized Employment offered by Griffin-Hammis Associates; OR d. ACRE Basic Employment Certificate – College of Employment Services (CES) Plus offered by University of Massachusetts Institute for Community Inclusion; OR e. ACRE National Certificate of Achievement in Employment Services earned through University of Tennessee; OR f. ACRE Professional Employment Certificate earned through completion of “Work Works” on-line course offered by University of Georgia Institute on Human Development and Disability.

This service provides employment services and training activities to support successful transition to Individualized Integrated Employment (IIE) or Self-Employment (SE) as defined in TennCare Rule, or to supplement such IIE and/or SE when it is only part-time. Service may involve small group career planning and exploration, small group Discovery classes/activities, other educational opportunities related to successful job acquisition and working successfully in IIE. Service may also include employment in integrated business, industry, and community settings. Examples include mobile crews, small enclaves and other small groups participating in integrated employment that is specifically related to the identified interests, experiences and/or skills of each of the persons in the small group and that results in acquisition of knowledge, skills, and experiences that facilitate transition to IIE or SE, or that supplement such IIE or SE when it is only part-time. Maximum group size is three waiver participants.

As part of the provision of this service, the provider shall be responsible for working with the person, the person’s ISC/Case Manager and Circle of Support (COS) to explore how Enabling Technology (ET) could be used to support the person’s achievement of individualized goals and outcomes and increase the person’s independence in or across environments, including home, community, work, volunteering, and travel; helping to educate the person supported and his/her Conservator, as applicable and COS in order to ensure an informed choice regarding the potential use of ET; and the implementation of ET supports as part of the delivery of this service, as appropriate, when approved as part of the person’s ISP.

1. Career planning and exploration activities, Discovery classes/activities, other educational opportunities related to successful job acquisition and working successfully in IIE or SE must be conducted in appropriate non-disability-specific settings (e.g. Job Centers, businesses, post-secondary education campuses, libraries, etc.) All settings must meet all HCBS setting standards and must not isolate participants from others who do not have disabilities.

2. In the enclave model, a small group of people with disabilities (no more than three people) is trained and supervised to work among employees who are not disabled at the host company’s work site. Persons in the enclave may work as a team at a single work area or may work in multiple areas throughout the company. The Supported Employment—Small Group provider is responsible for training, supervision, and support of participants. The provider is expected to conduct this service in integrated business, industry or community settings that meet all HCBS setting standards and do not isolate participants from others in the setting who do not have disabilities. The experience should allow opportunities for routine interactions with others without disabilities in the setting and involvement from supervisors and co-workers without disabilities (not paid to deliver this service) in the supervision and support of individuals receiving this service.

3. In the mobile work crew model, a small crew of workers (including no more than three persons with disabilities and ideally including workers without disabilities who are not paid support staff) work as a distinct unit and operate as a self-contained business that generates employment for their crew members by selling a service. The crew typically works at several locations within the community. The Supported Employment—Small Group provider is responsible for training, supervision, and support of participants. The provider is expected to conduct this service in integrated business, industry or community settings that meet all HCBS setting standards and do not isolate participants from others who do not have disabilities. The experience should allow opportunities for routine interactions with people without disabilities (including fellow crew members, customers, etc.) in the course of performing services.

Paid work under Supported Employment—Small Group must be paid in accordance with all applicable federal and state labor laws, with the optimal expectation being wages that are at or above the state minimum wage. Further, the employment must provide an opportunity for participants, whether paid based on productivity or not, to earn an increased hourly wage over time as would be typical for other members of the general workforce. Supported Employment—Small Group does not include vocational or prevocational services, employment or training provided in facility-based work settings. Supported Employment—Small Group service settings cannot be provider-owned, leased, or operated settings. The settings must be integrated in and support full access of participants to the greater community, including opportunities to learn about and seek IIE or SE, engage in community life, and control their earned income. The IIE or SE shall be consistent with the individual’s personal and career goals. Supported Employment—Small Group services shall be provided in a way that presumes all participants are capable of working in IIE and/or SE. Participants in this service shall be encouraged, on an ongoing basis, to explore and develop their interests, strengths, and abilities relating to IIE and/or SE. In order to reauthorize this service, the ISP must document that such opportunities are being provided through this service, to the individual, on an on-going basis. The ISP shall also document and address any barriers to the individual transitioning to IIE or SE if the person is not already participating in IIE or SE. Any individual using this service to supplement part-time IIE or SE shall be offered assistance to increase hours in IIE and/or SE as an alternative or partial alternative to continuing this service.

As a component part of this service, Supported Employment—Small Group service providers shall support
individuals in identifying and pursuing opportunities that will move them into IIE or SE.
An individual’s person-centered support plan may include more than one non-residential habilitation service (Supported Employment-Individual Employment Supports; Supported Employment-Small Group Employment Supports; Community Participation Supports; Intermittent Employment and Community Integration Wrap-Around Supports; Facility-Based Day Supports); however, they may not be billed for during the same period of time (e.g., the same 15 minute or hour unit of time).

Transportation during the provision of these services is included in the rates paid for these services. Transportation of a participant to and from these services is included in the rates paid for these services when such transportation is needed by a participant.

The Supported Employment—Small Group provider shall be responsible for any personal assistance needs during the hours that Supported Employment-Small Group services are provided; however, the personal assistance services may not comprise the entirety of the Supported Employment—Small Group service.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

- Supported Employment—Small Group does not include vocational or prevocational services, habilitation services, employment or training provided in facility based work settings.
- Supported Employment—Small Group service settings cannot be provider-owned, leased, or operated settings.
- Tennessee Department of Transportation rest areas, operated by a provider as part of State Use Program, where individuals employed are earning at least minimum wage, are excluded from this requirement.
- Supported Employment—Small Group services exclude services available to an individual under a program funded under section 110 of the Rehabilitation Act of 1973 or the IDEA (20 U.S.C. 1401 et seq.).
- Supported Employment—Small Group Employment Supports shall not be provided during the same time period that the person is receiving Personal Assistance Services, Respite Services, or services under a 504 Plan or Individual Education Program (IEP), is being homeschooled, or any combination thereof, or as a substitute for education services which are available pursuant to the Individual with Disabilities Education Act (IDEA), but which the person or his/her legal representative has elected to forego. Except for students who have graduated prior to May of 2014, Day Services for school aged persons (i.e., under the age of 22) are limited to regular school break periods.
- Federal financial participation is not claimed for incentive payments, subsidies, or unrelated vocational training expenses such as the following: • Incentive payments made to an employer to encourage or subsidize the employer’s participation in supported employment; • Payments that are passed through to users of supported employment services; or • Payments for training that is not directly related to an individual’s supported employment program.
- Supported Employment—Small Group does not include supports for volunteering.
- Non-residential habilitation services (Supported Employment-Individual services (except as noted below); Supported Employment-Small Group Employment Supports; Community Participation Supports; Intermittent Employment and Community Integration Wrap-Around Supports; Facility-Based Day Supports) and the Non-Residential Homebound Support Service when combined may involve no more than 5,832 quarter hour units/year and no more than 240 quarter hour units in a fourteen day billing period. The Non-Residential Homebound Support Service is paid on a per diem basis and each day shall be considered as 24 quarter hour units for the purposes of including this service in the annual and billing period limits. Under Supported Employment-Individual Employment Supports, authorizations of Benefits Counseling, Exploration, Discovery, and Job Development are not included in these limits.

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Supported Employment Individual-Benefits Counseling

HCBS Taxonomy:

Category 1:  
Sub-Category 1:

Category 2:  
Sub-Category 2:

Category 3:  
Sub-Category 3:

Service Definition (Scope):

Category 4:  
Sub-Category 4:
Supported Employment Individual (SE Ind)-Benefits Counseling is designed to inform the individual (and guardian, conservator and/or family, if applicable) of the multiple pathways to ensuring Individualized Integrated Employment (IIE) or Self-Employment (SE), as defined in TennCare Rule, results in increased economic self-sufficiency (net financial benefit) through the use of various work incentives. This service should also repudiate myths and alleviate fears and concerns related to seeking and working in IIE or SE through an accurate, individualized assessment. The service provides information to the individual (and guardian, conservator and/or family, if applicable) regarding the full array of available work incentives for essential benefit programs including SSI, SSDI, Medicaid, Medicare, 1915(c) waivers, housing subsidies, food stamps, etc.

The service also will provide information and education to the person (and guardian, conservator and/or family, if applicable) regarding income reporting requirements for public benefit programs, including the Social Security Administration.

Benefits Counseling provides work incentives counseling and planning services to persons actively considering or seeking IIE or SE, or career advancement in either of these types of employment.

This service is provided by a certified Community Work Incentives Coordinator (CWIC) or certified Work Incentive Practitioner (WIP-C). In addition to ensuring this service is not otherwise available to the individual under section 110 of the Rehabilitation Act of 1973, or the IDEA (20 U.S.C. 1401 et seq.), the waiver may not fund this service if CWIC Benefits Counseling services funded through the Federal Work Incentives Planning and Assistance (WIPA) program are available to the individual.

Benefits Counseling must be provided in a manner that supports the person’s communication style and needs, including, but not limited to, age-appropriate communications, translation/interpretation services for persons of limited English-proficiency or who have other communication needs requiring translation including sign language interpretation, and ability to communicate with a person who uses an assistive communication device.

These services are designed to support the achievement of IIE and SE outcomes consistent with the individual’s personal and career goals, as determined through Exploration, Discovery and/or other similar career planning processes and which include an introduction to the variety of work incentives available to individuals receiving Supplemental Security Income (SSI) and/or Social Security Disability Insurance (SSDI), Medicaid and/or Medicare.

As part of the provision of this service, the provider shall be responsible for working with the person, the person’s ISC/Case Manager and Circle of Support (COS) to explore how Enabling Technology (ET) could be used to support the person’s achievement of individualized goals and outcomes and increase the person’s independence in or across environments, including home, community, work, volunteering, and travel; helping to educate the person supported and his/her Conservator, as applicable and COS in order to ensure an informed choice regarding the potential use of ET; and the implementation of ET supports as part of the delivery of this service, as appropriate, when approved as part of the person’s ISP.

The SE Ind-Benefits Counseling provider shall be responsible for any Personal Assistance (PA) needs during the time that SE Ind-Benefits Counseling services are provided; however, PA may not comprise the entirety of the SE Ind-Benefits Counseling service(s) being provided.

Transportation during the provision of SE Ind-Benefits Counseling is included in the rates paid for these services. Transportation of the person to and from SE Ind-Benefits Counseling is included in the rates paid for these services when such transportation is needed by the person.

A person’s ISP may include more than one non-residential service (SE Ind services; Supported Employment-Small Group Employment Supports; Community Participation Supports; Intermittent Employment and Community Integration Wrap-Around Supports; Facility-Based Day Supports); however, they may not be billed for during the same period of time (e.g., the same 15 minute or hour unit of time).

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
Benefits Counseling services are paid for on an hourly basis and limited in the following ways:

a. Initial Benefits Counseling for someone actively considering or seeking IIE or SE, or career advancement in these types of employment: up to twenty (20) hours. This service may be authorized no more than once every two (2) years (with a minimum of two 365-day intervals between services).

b. Supplementary Benefits Counseling for someone evaluating an IIE job offer/promotion or SE opportunity: up to an additional six (6) hours. This service may be authorized up to three (3) times per year if needed.

c. PRN (pro re nata/as needed) Problem-Solving services for someone to maintain IIE or SE: up to eight (8) hours per situation requiring PRN assistance. This service may be authorized up to four (4) times per year if necessary for the individual to maintain IIE or SE.

The Waiver will not cover SE-Ind Benefits Counseling services which are otherwise available to the individual under section 110 of the Rehabilitation Act of 1973, or the IDEA (20 U.S.C. 1401 et seq.). If one or more of these services are authorized, documentation is maintained that the service is not available to the individual under a program funded under section 110 of the Rehabilitation Act of 1973 or the IDEA (20 U.S.C. 1401 et seq.). SE-Ind Benefits Counseling shall not be provided during the same time period that the person is receiving Personal Assistance, Respite, or services under a 504 Plan or Individual Education Program (IEP), is being homeschooled, or any combination thereof, or as a substitute for education services which are available pursuant to the Individual with Disabilities Education Act (IDEA), but which the person or his/her legal representative has elected to forego. Except for students who have graduated prior to May 2014, employment and day services for school aged persons (i.e., under the age of 22) are limited to regular school break periods.

These services are only for individuals seeking or engaged in IIE or SE. These services do not include supporting paid employment or training in a sheltered workshop or similar facility-based setting. However, those individuals who are currently employed by a provider to fulfill a contract authorized pursuant to TCA 71-4-701 et seq. may continue to receive supported employment services for paid employment or training until the contract expires or the person loses the employment for any other reason. At that point, any supported employment services the person receives must fully align with best practices in competitive integrated employment and the State’s commitment to Employment First and will no longer be used to support employment or training in a business enterprise owned or operated by or affiliated with a provider of these services. In limited circumstances where the person is working in an integrated employment arrangement, but the provider agency is serving as the Employer of Record (EOR), providers will be permitted to bill for Employment Supports while EOR responsibilities are transitioned from the provider to the business/entity offering the integrated employment opportunity, in order to ensure that employment is not disrupted. These services do not include payment for supervisory activities rendered as a normal part of the business setting and supports otherwise available to employees without disabilities filling the same or similar positions in the business.

Non-residential habilitation services (SE-Ind (except as noted below); Small Group ES; Community Participation Supports; IE&CI Wrap-Around Supports; FB Day Supports) and either the Residential SNA-Homebound (HB) or the Non-Residential HB Service, when combined, may involve no more than 5,832 quarter hour units/year and no more than 240 quarter hour units in a fourteen-day billing period. The Residential SNA-HB and the Non-Residential HB Service are paid on a per diem basis and each day shall be considered as 24 quarter hour units for the purposes of including this service in the annual and billing period limits. Under SE-Ind, authorizations of Benefits Counseling, Exploration, Discovery, and Job Development are not included in these limits. These services will not duplicate other services provided through the Waiver or the Medicaid State Plan.

Federal financial participation is not claimed for incentive payments, subsidies, or unrelated vocational training expenses such as the following:

• Incentive payments made to an employer to encourage or subsidize the employer’s participation in supported employment;

• Payments that are passed through to users of supported employment services; or

• Payments for training that is not directly related to an individual’s supported employment program.

A provider of SE-Ind Benefits Counseling services may also receive Social Security’s Ticket to Work Outcome and Milestone payments. These payments do not conflict with CMS regulatory requirements and do not constitute an overpayment of Federal dollars for services provided.

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Supported Employment Individual-Discovery

HCBS Taxonomy:
Category 2:  

Sub-Category 2:  

Category 3:  

Sub-Category 3:  

Service Definition (Scope):  

Category 4:  

Sub-Category 4:  

Supported Employment Individual-Discovery (SE-Ind Discovery) is a time-limited and targeted service for a person who wishes to pursue Individualized Integrated Employment (IIE) or Self-Employment (SE) as defined in TennCare Rule, but for whom more information is needed to determine the following prior to pursuing IIE or SE:

- Strongest interests toward one or more specific aspects of the labor market;
- Skills, strengths and other contributions likely to be valuable to employers or valuable to the community if offered through SE;
- Conditions necessary for successful employment or SE.

Discovery involves a comprehensive analysis of the person in relation to the three bullets above. Activities include observation of person in familiar places and activities, interviews with family, friends and others who know the person well, observation of the person in an unfamiliar place and activity, identification of the person’s strong interests and existing strengths and skills that are transferable to IIE or SE, Discovery also involves identification of conditions for success based on experience shared by the person and others who know the person well, and observation of the person during the Discovery process. The information developed through Discovery allows for activities of typical life to be translated into possibilities for IIE or SE.

Discovery results in the production of a detailed written Profile, using a standard template prescribed by DIDD, which summarizes the process, learning and recommendations to inform identification of the person’s IIE or SE goal(s) and strategies to be used in securing this employment or SE for the person.

If Discovery is paid for through the Waiver, the person should be assisted by his or her ISC/DIDD Case Manager to apply to Vocational Rehabilitation (VR) for services to obtain IIE or SE. The Discovery Profile will be shared with VR staff to facilitate the expeditious development of an Individual Plan for Employment (IPE). Discovery shall be limited to no more than 90 calendar days from the date of service initiation, unless extenuating circumstances warrant an extension. This service is expected, on average, to involve 50 hours of service.

For Discovery, the provider shall document each date of service, the activities performed that day, and the duration of each activity. The written Profile is due no later than 14 calendar days after the last date of service is concluded. Exploration & Discovery are paid on an outcome basis, after the written report is received and approved, and the provider submits documentation detailing each date of service, the activities performed that day, and the duration of each activity.

These services are designed to support the achievement of IIE and SE outcomes consistent with the individual’s personal and career goals, as determined through Exploration, Discovery and/or other similar career planning processes and which include an introduction to the variety of work incentives available to individuals receiving Supplemental Security Income (SSI) and/or Social Security Disability Insurance (SSDI), Medicaid and/or Medicare.

As part of the provision of this service, the provider shall be responsible for working with the person, the person’s ISC/Case Manager and Circle of Support (COS) to explore how Enabling Technology (ET) could be used to support the person’s achievement of individualized goals and outcomes and increase the person’s independence in or across environments, including home, community, work, volunteering, and travel; helping to educate the person supported and his/her Conservator, as applicable and COS in order to ensure an informed choice regarding the potential use of ET; and the implementation of ET supports as part of the delivery of this service, as appropriate, when approved as part of the person’s ISP.

The SE Ind-Discovery provider shall be responsible for any Personal Assistance (PA) needs during the time that SE Ind-Discovery services are rendered at any given time; however, PA may not comprise the entirety of the SE Ind-Discovery service(s) being provided.

Transportation during the provision of SE Ind-Discovery is included in the rates paid for these services. Transportation of the person to and from SE Ind-Discovery is included in the rates paid for these services when such transportation is needed by the person.

A person’s ISP may include more than one non-residential service (SE Ind services; Supported Employment-Small Group Employment Supports; Community Participation Supports; Intermittent Employment and Community Integration Wrap-Around Supports; Facility-Based Day Supports); however, they may not be billed for during the same period of time (e.g., the same 15 minute or hour unit of time).
Specify applicable (if any) limits on the amount, frequency, or duration of this service:

After an individual has received the Discovery service for the first time, re-authorization may occur a maximum of once every three years (with a minimum of three 365-day intervals between services), and only if the person, at the time of re-authorization, is not already engaged in IIE or SE, or other services to obtain such employment, and the person has a goal to obtain IIE or SE within 12 months.

The Waiver will not cover SE-Ind Discovery services which are otherwise available to the individual under section 110 of the Rehabilitation Act of 1973, or the IDEA (20 U.S.C. 1401 et seq.). If one or more of these services are authorized, documentation is maintained that the service is not available to the individual under a program funded under section 110 of the Rehabilitation Act of 1973 or the IDEA (20 U.S.C. 1401 et seq.).

SE-Ind Discovery shall not be provided during the same time period that the person is receiving Personal Assistance, Respite, or services under a 504 Plan or Individual Education Program (IEP), is being homeschooled, or any combination thereof, or as a substitute for education services which are available pursuant to the Individual with Disabilities Education Act (IDEA), but which the person or his/her legal representative has elected to forego. Except for students who have graduated prior to May 2014, employment and day services for school aged persons (i.e., under the age of 22) are limited to regular school break periods.

These services are only for individuals seeking or engaged in IIE or SE.

These services do not include supporting paid employment or training in a sheltered workshop or similar facility-based setting. However, those individuals who are currently employed by a provider to fulfill a contract authorized pursuant to TCA 71-4-701 et seq. may continue to receive supported employment services for paid employment or training until the contract expires or the person loses the employment for any other reason. At that point, any supported employment services the person receives must fully align with best practices in competitive integrated employment and the State’s commitment to Employment First and will no longer be used to support employment or training in a business enterprise owned or operated by or affiliated with a provider of these services. In limited circumstances where the person is working in an integrated employment arrangement, but the provider agency is serving as the Employer of Record (EOR), providers will be permitted to bill for Employment Supports while EOR responsibilities are transitioned from the provider to the business/entity offering the integrated employment opportunity, in order to ensure that employment is not disrupted.

These services do not include payment for supervisory activities rendered as a normal part of the business setting and supports otherwise available to employees without disabilities filling the same or similar positions in the business.

Non-residential habilitation services (SE-Ind (except as noted below); Small Group ES; Community Participation Supports; IE&CI Wrap-Around Supports; FB Day Supports) and either the Residential SNA-Homebound (HB) or the Non-Residential HB Service, when combined, may involve no more than 5,832 quarter hour units/year and no more than 240 quarter hour units in a fourteen day billing period. The Residential SNA-HB and the Non-Residential HB Service are paid on a per diem basis and each day shall be considered as 24 quarter hour units for the purposes of including this service in the annual and billing period limits. Under SE-IES, authorizations of Benefits Counseling, Exploration, Discovery, and Job Development are not included in these limits.

These services will not duplicate other services provided through the Waiver or the Medicaid State Plan.

Federal financial participation is not claimed for incentive payments, subsidies, or unrelated vocational training expenses such as the following:

• Incentive payments made to an employer to encourage or subsidize the employer's participation in supported employment;
• Payments that are passed through to users of supported employment services; or
• Payments for training that is not directly related to an individual’s supported employment program.

A provider of SE-Ind Discovery services may also receive Social Security’s Ticket to Work Outcome and Milestone payments. These payments do not conflict with CMS regulatory requirements and do not constitute an overpayment of Federal dollars for services provided.

Supported Employment Individual-Exploration (SE Ind-Exploration) is a time-limited and targeted service designed to help a person make an informed choice about whether s/he wishes to pursue Individualized Integrated Employment (IIE) or Self-Employment (SE), as defined in TennCare Rule. Exploration is not appropriate for participants who already know they want to pursue IIE or SE.

Exploration includes career exploration activities to identify a person’s specific interests and aptitudes for paid work, including experience and skills transferable to IIE or SE. Exploration also includes exploration of IIE or SE opportunities in the local area that are specifically related to the person’s identified interests, experiences and/or skills through 4 to 5 uniquely arranged business tours, informational interviews and/or job shadows. Each person seeking IIE who is receiving this service should participate in business tours, informational interviews and/or job shadows uniquely selected based on his or her individual interests, aptitudes, experiences, and skills most transferable to employment. All persons should not participate in the same experiences. Each business tour, informational interview and/or job shadow shall include time for set-up, prepping the person for participation, and debriefing with the person after each opportunity.

Exploration also includes introductory education on work incentives for people receiving publicly funded benefits (e.g., SSI, SSDI, Medicaid, Medicare, etc.), and includes introductory education on how SE-IES work (including Vocational Rehabilitation (VR) services). Educational information is provided to the person and the legal guardian/conservator and/or most involved family member(s), if applicable, to ensure legal guardian/conservator and/or family support for the person’s choice to pursue IIE or SE. The educational aspects of this service shall include addressing any concerns, hesitations or objections of the person and the legal guardian/conservator and/or most involved family member(s), if applicable.

Self-Employment Exploration includes but is not limited to: Initial meeting with job coach or job developer to discuss SE goals, collecting information to assist the person in making an informed choice on the pursuit of SE, and feasibility study and consultation with local advisory agencies. This may consist of virtual or in-person meetings with job developer and advisory agencies with the goal of informing the person on SE. At the conclusion of SE Exploration, the individual will choose whether to continue pursuing SE. Additionally, the job developer will work to identify supports needed, discuss fading of paid job supports, and the expectations of job developer and job seeker. Completion and approval of the SE Exploration template is required for completion. Benefits counseling is mandatory during this phase through VR or the waiver.

Exploration shall be completed no more than sixty (60) calendar days from the date of service initiation, unless extenuating circumstances warrant an extension. Exploration service is expected to involve, on average, 40 hours of service. For Exploration & Discovery, the provider shall document each date of service, the activities performed that day, and the duration of each activity. Each service culminates in a written report summarizing the process and outcomes, using a standard template prescribed by DIDD. The written report is due no later than 14 calendar days after the last date of service is concluded. Exploration & Discovery are paid on an outcome basis, after the written report is received and approved, and the provider submits documentation detailing each date of service, the activities performed that day, and the duration of each activity.

As part of the provision of this service, the provider shall be responsible for working with the person, the person’s ISC/Case Manager and Circle of Support (COS) to explore how Enabling Technology (ET) could be used to support the person’s achievement of individualized goals and outcomes and increase the person’s independence in or across environments, including home, community, work, volunteering, and travel; helping to educate the person supported and his/her Conservator, as applicable and COS in order to ensure an informed choice regarding the potential use of ET; and the implementation of ET supports as part of the delivery of this service, as appropriate, when approved as part of the person’s ISP.

The SE Ind-Exploration provider shall be responsible for any Personal Assistance (PA) needs during the time that SE Ind-Exploration services are rendered at any given time; however, PA may not comprise the entirety of the SE Ind-Exploration service(s) being provided.

Transportation during the provision of SE Ind-Exploration is included in the rates paid for these services. Transportation of the person to and from SE Ind-Exploration is included in the rates paid for these services when such transportation is needed by the person.

A person’s ISP may include more than one non-residential service (SE Ind services; Supported Employment-Small...
Group Employment Supports; Community Participation Supports; Intermittent Employment and Community Integration Wrap-Around Supports; Facility-Based Day Supports); however, they may not be billed for during the same period of time (e.g., the same 15 minute or hour unit of time).

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

After an individual has received the Exploration service for the first time, re-authorization may occur a maximum of once each per year for Exploration for IIE or Exploration for SE (with a minimum 365-day interval between services) and only if the person, at the time of re-authorization, is not already engaged in IIE or SE, or other services to obtain such employment.

The Waiver will not cover SE-Ind Exploration services which are otherwise available to the individual under section 110 of the Rehabilitation Act of 1973, or the IDEA (20 U.S.C. 1401 et seq.). If one or more of these services are authorized, documentation is maintained that the service is not available to the individual under a program funded under section 110 of the Rehabilitation Act of 1973 or the IDEA (20 U.S.C. 1401 et seq.).

SE-Ind Exploration shall not be provided during the same time period that the person is receiving Personal Assistance, Respite, or services under a 504 Plan or Individual Education Program (IEP), is being homeschooled, or any combination thereof; or as a substitute for education services which are available pursuant to the Individual with Disabilities Education Act (IDEA), but which the person or his/her legal representative has elected to forego. Except for students who have graduated prior to May 2014, employment and day services for school aged persons (i.e., under the age of 22) are limited to regular school break periods.

These services are only for individuals seeking or engaged in IIE or SE. These services do not include supporting paid employment or training in a sheltered workshop or similar facility-based setting. However, those individuals who are currently employed by a provider to fulfill a contract authorized pursuant to TCA 71-4-701 et seq. may continue to receive supported employment services for paid employment or training until the contract expires or the person loses the employment for any other reason. At that point, any supported employment services the person receives must fully align with best practices in competitive integrated employment and the State’s commitment to Employment First and will no longer be used to support employment or training in a business enterprise owned or operated by or affiliated with a provider of these services. In limited circumstances where the person is working in an integrated employment arrangement, but the provider agency is serving as the Employer of Record (EOR), providers will be permitted to bill for Employment Supports while EOR responsibilities are transitioned from the provider to the business/entity offering the integrated employment opportunity, in order to ensure that employment is not disrupted.

These services do not include payment for supervisory activities rendered as a normal part of the business setting and supports otherwise available to employees without disabilities filling the same or similar positions in the business.

Non-residential habilitation services (SE-Ind (except as noted below); Small Group ES; Community Participation Supports; IE&CI Wrap-Around Supports; FB Day Supports) and either the Residential SNA-Homebound (HB) or the Non-Residential HB Service, when combined, may involve no more than 5,832 quarter hour units/year and no more than 240 quarter hour units in a fourteen day billing period. The Residential SNA-HB and the Non-Residential HB Service are paid on a per diem basis and each day shall be considered as 24 quarter hour units for the purposes of including this service in the annual and billing period limits. Under SE-Ind, authorizations of Benefits Counseling, Exploration, Discovery, and Job Development are not included in these limits. These services will not duplicate other services provided through the Waiver or the Medicaid State Plan.

Federal financial participation is not claimed for incentive payments, subsidies, or unrelated vocational training expenses such as the following:

- Incentive payments made to an employer to encourage or subsidize the employer’s participation in supported employment;
- Payments that are passed through to users of supported employment services; or
- Payments for training that is not directly related to an individual’s supported employment program.

A provider of SE-Ind Exploration services may also receive Social Security’s Ticket to Work Outcome and Milestone payments. These payments do not conflict with CMS regulatory requirements and do not constitute an overpayment of Federal dollars for services provided.

</table>
Supported Employment Individual-Job Coaching (SE Ind-JC) consists of Job Coaching for Individualized Integrated Employment (IIE) and Job Coaching for Self-Employment (SE).

JC for IIE includes identifying, through job analysis, and providing services and supports that assist the individual in maintaining IIE or SE as defined in TennCare Rule.

JC for IIE includes supports provided to the individual and his/her supervisor and/or co-workers, either remotely (via technology) or face-to-face. Supports during each phase of employment must be guided by a JC Fading Plan which incorporates an appropriate mix of best practices for the individual to achieve fading goals as identified in the Plan (e.g., systematic instruction utilizing task analysis to teach the individual to independently complete as much of his/her job duties as possible; high or low tech assistive technology; and effective engagement of natural supports including co-workers and supervisor(s) as needed). If progress on fading ceases at some point, adaptations to job duties, negotiated with the supervisor/employer, may be utilized to allow fading to continue if no reduction in hours or hourly pay results.

JC for SE includes identification and provision of services and supports that assist the individual in maintaining SE. JC for SE includes supports provided to the individual, either remotely (via technology) or face-to-face. Supports must enable the individual to successfully operate the business (with assistance from other sources of professional services or suppliers of goods necessary for the type of business). JC supports should never supplant the individual's role or responsibility in all aspects of the business. Supports during each phase of SE must be guided by a JC Fading Plan which incorporates an appropriate mix of best practices for the individual to achieve fading goals as identified in the Plan (e.g., systematic instruction utilizing task analysis to teach the individual to independently complete as much of his/her roles and responsibilities as possible; high or low tech assistive technology; and effective engagement of any business partners and/or associates and/or suppliers of goods or services). If progress on fading ceases at some point, business plan adaptations may be utilized to allow fading to continue, if no reduction in paid hours or net hourly pay results.

If the individual’s support needs are 1 hour per week or less, JC through monthly Stabilization and Monitoring will be authorized as defined and stated above. This requires a minimum of 1 monthly face-to-face contact with the supported employee and ability of the provider to respond as needed to prevent loss of IIE/SE and where necessary, pursue a change in service authorization as needed to address longer term challenges to avoiding loss of IIE/SE.

The amount of time authorized for either type of SE Ind-JC is a percentage of the individual's hours engaged in IIE or SE, based on need.

These services are designed to support the achievement of IIE and SE outcomes consistent with the individual’s personal and career goals, as determined through Exploration, Discovery and/or other similar career planning processes and which include an introduction to the variety of work incentives available to individuals receiving Supplemental Security Income (SSI) and/or Social Security Disability Insurance (SSDI), Medicaid and/or Medicare.

As part of the provision of this service, the provider shall be responsible for working with the person, the person’s ISC/Case Manager and Circle of Support (COS) to explore how Enabling Technology (ET) could be used to support the person’s achievement of individualized goals and outcomes and increase the person’s independence in or across environments, including home, community, work, volunteering, and travel; helping to educate the person supported and his/her Conservator, as applicable and COS in order to ensure an informed choice regarding the potential use of ET; and the implementation of ET supports as part of the delivery of this service, as appropriate, when approved as part of the person’s ISP.

The SE Ind-JC provider shall be responsible for any Personal Assistance (PA) needs during the time that SE Ind-JC services are rendered at any given time; however, PA may not comprise the entirety of the SE Ind-JC service(s) being provided.

Transportation during the provision of SE Ind-JC is included in the rates paid for these services. Transportation of the person to and from SE Ind-JC is included in the rates paid for these services when such transportation is needed by the person. Time spent transporting the person to/from the job site, when needed, in SE Ind-JC is considered authorized service time and it is expected that the Job Coach will use this time with the person, as needed, to engage in conversation to identify/address employment-related issues and questions, and to provide support, guidance and positive reinforcement that contributes to the person maintaining IIE or SE.
A person's ISP may include more than one non-residential service (SE Ind services; Supported Employment-Small Group Employment Supports; Community Participation Supports; Intermittent Employment and Community Integration Wrap-Around Supports; Facility-Based Day Supports); however, they may not be billed for during the same period of time (e.g., the same 15 minute or hour unit of time).

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
JC services do not include supports for volunteering or any form of unpaid internship, work experience or employment. JC shall not be provided in excess of actual need and cannot be billed for more hours than the individual, engaged in employment or SE, has worked in a billing period.

The Waiver will not cover SE Ind-JC services which are otherwise available to the individual under section 110 of the Rehabilitation Act of 1973, or the IDEA (20 U.S.C. 1401 et seq.). If one or more of these services are authorized, documentation is maintained that the service is not available to the individual under a program funded under section 110 of the Rehabilitation Act of 1973 or the IDEA (20 U.S.C. 1401 et seq.).

SE Ind-JC shall not be provided during the same time period that the person is receiving Personal Assistance, Respite, or services under a 504 Plan or Individual Education Program (IEP), is being homeschooled, or any combination thereof, or as a substitute for education services which are available pursuant to the Individual with Disabilities Education Act (IDEA), but which the person or his/her legal representative has elected to forego. Except for students who have graduated prior to May 2014, employment and day services for school aged persons (i.e., under the age of 22) are limited to regular school break periods.

These services are only for individuals seeking or engaged in IIE or SE. These services do not include supporting paid employment or training in a sheltered workshop or similar facility-based setting. However, those individuals who are currently employed by a provider to fulfill a contract authorized pursuant to TCA 71-4-701 et seq. may continue to receive supported employment services for paid employment or training until the contract expires or the person loses the employment for any other reason. At that point, any supported employment services the person receives must fully align with best practices in competitive integrated employment and the State’s commitment to Employment First and will no longer be used to support employment or training in a business enterprise owned or operated by or affiliated with a provider of these services. In limited circumstances where the person is working in an integrated employment arrangement, but the provider agency is serving as the Employer of Record (EOR), providers will be permitted to bill for Employment Supports while EOR responsibilities are transitioned from the provider to the business/entity offering the integrated employment opportunity, in order to ensure that employment is not disrupted.

These services do not include payment for supervisory activities rendered as a normal part of the business setting and supports otherwise available to employees without disabilities filling the same or similar positions in the business.

Non-residential habilitation services (SE-Ind (except as noted below); Small Group ES; Community Participation Supports; IE&CI Wrap-Around Supports; FB Day Supports) and either the Residential SNA-Homebound (HB) or the Non-Residential HB Service, when combined, may involve no more than 5,832 quarter hour units/year and no more than 240 quarter hour units in a fourteen day billing period. The Residential SNA-HB and the Non-Residential HB Service are paid on a per diem basis and each day shall be considered as 24 quarter hour units for the purposes of including this service in the annual and billing period limits. Under SE-Ind, authorizations of Benefits Counseling, Exploration, Discovery and Job Development are not included in these limits. These services will not duplicate other services provided through the Waiver or the Medicaid State Plan.

Federal financial participation is not claimed for incentive payments, subsidies, or unrelated vocational training expenses such as the following:

• Incentive payments made to an employer to encourage or subsidize the employer’s participation in supported employment;

• Payments that are passed through to users of supported employment services; or

• Payments for training that is not directly related to an individual’s supported employment program.

A provider of SE-Ind JC services may also receive Social Security’s Ticket to Work Outcome and Milestone payments. These payments do not conflict with CMS regulatory requirements and do not constitute an overpayment of Federal dollars for services provided.

Supported Employment Individual-Job Development (SE-Ind JD) consists of JD Plan or Self-Employment (SE) Plan and JD Start-Up or SE Start-Up.

JD Plan or SE Plan is a time-limited and targeted service designed to create a clear and detailed plan for JD or for the start-up phase of SE. This service is limited to thirty (30) calendar days from the date of service initiation for JD Plan and is limited to ninety (90) calendar days from the date of service initiation for SE Plan. This service includes a planning meeting involving the individual and other key people who will be instrumental in supporting the individual to become employed in individualized integrated employment (IIE) or SE as defined in TennCare Rule. For SE Plan, the following additional items are required, and the service is expected to take around 50 hours to complete:

- Attend one of the small business orientation classes if not completed during SE Exploration – options listed under SE Exploration.
- Complete Feasibility Study with business mentor.
- Completion of SE Plan Template and business plan. This should promote further questions for start-up consultant, person supported, etc.
- Contacting sources of start-up capital, beginning process of obtainment. (Plan to Achieve Self-Support (PASS), Vocational Rehabilitation (VR), Loans, Crowdsourcing).
- Identifying licensure needed, inspections, liability insurance, etc. – and begin process of licensure. Reference the following site to determine if licensure is required: Registration and Licensing (tn.gov)
- Identifying total cost and how to obtain all resources and licensure needed. Confirm funding.
- Final consultation with job developer and the advisor to review SE Plan and business plan and give further recommendations prior to start-up.
- Benefits counseling consultation – if individual did not elect to pursue SE Exploration, ensure benefits counseling is received during this phase
- A final template verifying not only SE Plan, but resources, funding, licensure needed, how it was obtained, and next steps. Submission and approval of the template is required and will need approval at the completion of this phase. The expected outcome of this phase is to obtain all needed goods, licensure, services, and assistive/enabling technology necessary for a person to start their business. A final meeting with person supported, job developer, and advisor is required before completion. The business plan and completed SE Plan Template need to be submitted to Employment Specialist in order to complete service.

This service culminates in a written plan, using a template prescribed by DIDD that incorporates the results of Exploration and/or Discovery, if previously authorized. The written plan is due no later than thirty (30) calendar days after the service commences. For SE goals, this service results in the development of a SE business plan, including potential sources of business financing (such as VR, Small Business Administration loans, PASS plans), given that Medicaid funds may not be used to defray the capital expenses associated with starting a business. This service is paid on an outcome basis, after the written plan is received and approved, and the provider submits documentation detailing each date of service, the activities performed that day, and the duration of each activity.

JD Start-Up or SE Start-Up is a time-limited service designed to implement a JD or SE Plan as follows:

- JD Start-Up is support to obtain an individualized competitive or customized job in an integrated employment setting in the general workforce, for which an individual is compensated at or above the minimum wage, but ideally not less than the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals without disabilities. The JD strategy should reflect best practices and adjusted based on whether the individual is seeking competitive or customized employment.

- SE Start-Up is support in implementing a SE business plan.

The outcome of this service is expected to be the achievement of an IIE or SE outcome consistent with the individual’s personal and career goals, as determined through Exploration and/or Discovery if authorized, and as identified in the JD or SE Plan that guides the delivery of this service.

This service will be paid on an outcome basis once the person begun participation in IIE or SE. First payment for SE Start-Up will be following ten (10) business days “open.” SE business “open” means the first day of offering the sale of goods or services. Proof of licensure is needed for SE outcome, indicating active SE. Outcome payment amounts for JD Start-Up are tiered based upon the assessed level of challenge anticipated to achieve the intended outcome of this service for the individual being served. The outcome payment amounts for SE Start-Up are not tiered. Outcome
payments for both Start-Up services are also paid over three phases (two calendar weeks, six calendar weeks, and ten calendar weeks following the start of IIE or SE, so long as employment or SE is sustained) to incentivize retention of the job or SE situation.

These services are designed to support the achievement of IIE and SE outcomes consistent with the individual’s personal and career goals, as determined through Exploration, Discovery and/or other similar career planning processes and which include an introduction to the variety of work incentives available to individuals receiving Supplemental Security Income (SSI) and/or Social Security Disability Insurance (SSDI), Medicaid and/or Medicare.

As part of the provision of this service, the provider shall be responsible for working with the person, the person’s Case Manager and Circle of Support (COS) to explore how Enabling Technology (ET) could be used to support the person’s achievement of individualized goals and outcomes and increase the person’s independence in or across environments, including home, community, work, volunteering, and travel; helping to educate the person supported and his/her Conservator, as applicable and COS in order to ensure an informed choice regarding the potential use of ET; and the implementation of ET supports as part of the delivery of this service, as appropriate, when approved as part of the person’s ISP.

The SE Ind-JD provider shall be responsible for any Personal Assistance (PA) needs during the time that SE Ind-JD services are rendered at any given time; however, PA may not comprise the entirety of the SE Ind-JD service(s) being provided.

Transportation during the provision of SE Ind-JD is included in the rates paid for these services. Transportation of the person to and from SE Ind-JD is included in the rates paid for these services when such transportation is needed by the person.

A person’s ISP may include more than one non-residential service (SE Ind services; Supported Employment-Small Group Employment Supports; Community Participation Supports; Intermittent Employment and Community Integration Wrap-Around Supports; Facility-Based Day Supports); however, they may not be billed for during the same period of time (e.g., the same 15 minute or hour unit of time).

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
o JD Plan or SE Plan: After an individual has received the service for the first time, re-authorization may occur a maximum of once every three years (with a minimum of three 365-day intervals between services), and only if the person, at the time of re-authorization, is not already engaged in IIE or SE, or other services to obtain such employment, and the person has a goal to obtain IIE or SE within 12 months.

o JD Start-Up or SE Start-up: After an individual has received the service for the first time, re-authorization may occur a maximum of once per year (with a minimum 365-day interval between services), and only if the person, at the time of re-authorization, is not already engaged in IIE or SE, or other services to obtain such employment, and the person has a goal to obtain IIE or SE within nine (9) months.

Job Development may not include placement services of an employment agency or business/financial services. The Waiver will not cover SE-Ind JD services which are otherwise available to the individual under section 110 of the Rehabilitation Act of 1973, or the IDEA (20 U.S.C. 1401 et seq.). If one or more of these services are authorized, documentation is maintained that the service is not available to the individual under a program funded under section 110 of the Rehabilitation Act of 1973 or the IDEA (20 U.S.C. 1401 et seq.).

SE-Ind JD shall not be provided during the same time period that the person is receiving Personal Assistance, Respite, or services under a 504 Plan or Individual Education Program (IEP), is being homeschooled, or any combination thereof, or as a substitute for education services which are available pursuant to the Individual with Disabilities Education Act (IDEA), but which the person or his/her legal representative has elected to forego. Except for students who have graduated prior to May 2014, employment and day services for school aged persons (i.e., under the age of 22) are limited to regular school break periods.

These services are only for individuals seeking or engaged in IIE or SE. These services do not include supporting paid employment or training in a sheltered workshop or similar facility-based setting. However, those individuals who are currently employed by a provider to fulfill a contract authorized pursuant to TCA 71-4-701 et seq. may continue to receive supported employment services for paid employment or training until the contract expires or the person loses the employment for any other reason. At that point, any supported employment services the person receives must fully align with best practices in competitive integrated employment and the State’s commitment to Employment First and will no longer be used to support employment or training in a business enterprise owned or operated by or affiliated with a provider of these services. In limited circumstances where the person is working in an integrated employment arrangement, but the provider agency is serving as the Employer of Record (EOR), providers will be permitted to bill for Employment Supports while EOR responsibilities are transitioned from the provider to the business/entity offering the integrated employment opportunity, in order to ensure that employment is not disrupted.

These services do not include payment for supervisory activities rendered as a normal part of the business setting and supports otherwise available to employees without disabilities filling the same or similar positions in the business.

Non-residential habilitation services (SE-Ind (except as noted below); Small Group ES; Community Participation Supports; IE&CI Wrap-Around Supports; FB Day Supports) and either the Residential SNA-Homebound (HB) or the Non-Residential HB Service, when combined, may involve no more than 5,832 quarter hour units/year and no more than 240 quarter hour units in a fourteen day billing period. The Residential SNA-HB and the Non-Residential HB Service are paid on a per diem basis and each day shall be considered as 24 quarter hour units for the purposes of including this service in the annual and billing period limits. Under SE-IES, authorizations of Benefits Counseling, Exploration, Discovery, and Job Development are not included in these limits.

These services will not duplicate other services provided through the Waiver or the Medicaid State Plan. Federal financial participation is not claimed for incentive payments, subsidies, or unrelated vocational training expenses such as the following:

• Incentive payments made to an employer to encourage or subsidize the employer’s participation in supported employment;

• Payments that are passed through to users of supported employment services; or

• Payments for training that is not directly related to an individual’s supported employment program.

A provider of SE-Ind JD services may also receive Social Security’s Ticket to Work Outcome and Milestone payments. These payments do not conflict with CMS regulatory requirements and do not constitute an overpayment of Federal dollars for services provided.

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Supported Living

HCBS Taxonomy:

Category 1:  
Sub-Category 1:

Category 2:  
Sub-Category 2:

Category 3:  
Sub-Category 3:

Service Definition (Scope):

Category 4:  
Sub-Category 4:
Supported Living (SL) shall mean a type of residential service selected by the person supported having individualized services & supports that enable the person supported to acquire, retain, or improve skills necessary to reside in a home that is owned or leased by the residents & which supports each resident’s independence & full integration into the community, ensures each resident’s choice & rights, & comports fully with standards applicable to HCBS settings delivered under Section 1915(c) of the Social Security Act, including those requirements applicable to provider-owned or controlled homes, except as supported by the individual’s specific assessed need & set forth in the person-centered ISP.

All individual goals & objectives, along with needed supports shall be established through the person-centered planning process & documented in the person-centered ISP & shall include opportunities to seek employment and work in competitive integrated settings, engage in community life, & control personal resources, as applicable based on the needs/preferences of the individual. Supports may include direct assistance as needed with, participating in, & learning how to complete independently activities of daily living (e.g., bathing, dressing, personal hygiene, eating, meal preparation(excluding cost of food), household chores essential to the health/safety of the person, budget management(which shall include supporting the person in managing his/her personal funds, as appropriate), attending appointments, & interpersonal/social skills building to enable the person to live in a home in the community. Supports shall be provided in a manner which ensures an individual’s rights of privacy, dignity, respect & freedom from coercion & restraint; & which optimizes individual initiative, autonomy, & independence in making life choices.

SL may include medication administration as permitted under Tennessee’s Nurse Practice Act & performance of other non-complex health maintenance tasks, as permitted by State law. The SL provider shall oversee the health care needs of the person.

The SL provider shall not own the place of residence of the person or be a co-signer of a lease on the place of residence of the person unless the SL provider signs a written agreement with the person that states that the person will not be required to move if the primary reason is because the person desires to change to a different SL provider. A SL provider shall not own, be owned by, or be affiliated with any entity that leases or rents a place of residence to a person supported if such entity requires, as a condition of renting or leasing, the person to move if the SL provider changes. The person (or the parent, guardian, or conservator acting on behalf of the person supported) shall have a voice in choosing the individuals who reside in the SL residence & the staff who provide services/supports.

A SL home shall have no more than 3 residents including the person supported. Unless the residence is individually licensed or inspected by a public housing agency utilizing the HUD Section 8 safety checklist, the residence must pass a home inspection approved by TennCare.

The SL provider shall be responsible for providing an appropriate level of services and supports up to 24 hours per day during the hours the person is not receiving Day Services, is not otherwise engaged with natural supports, is not at school or work, based on the person’s support needs. Persons should receive the amount of support they need while also, consistent with the federal HCBS Settings Rule, have freedom in choosing to spend time alone or engage in activities without paid staff present, unless there are specific safety concerns that cannot be mitigated to a tolerable level of risk. Providers are responsible for providing an appropriate level of supports, including enabling technology, paid staff, & natural supports, as applicable, to ensure each person’s health/safety, while maximizing personal choice & independence, and not restricting individual rights and freedoms, except as minimally necessary & in accordance with the federal Rule. Thus, a person supported who is receiving SL shall not be eligible to receive Personal Assistance or Respite (which would duplicate services that are the responsibility of the SL provider).

SL shall not be provided in inpatient hospitals, nursing facilities, & ICFs/IID. SL shall not be provided in a home where a person lives with family members unless such family members also receive SL services, or by special exception when the family member is a minor child living with a parent receiving services or spouse of a person receiving services. Family member shall be interpreted to mean the mother, father, grandmother, grandfather, sister, brother, son, daughter, or spouse, whether the relationship is by blood, by marriage, or by adoption.

In SL companion model, family and friends of the companion staff may only reside in the home of the person supported when approved by the person or his/her conservator. Such approval shall be documented in the person-centered ISP. Individuals receiving SL services may choose to receive services in a shared living arrangement with other persons who need differing levels of support, differing types of waiver services, or who participate in different HCBS programs, as permitted in state licensure law/regulation, as long as there is a willing, qualified provider who can safely meet the needs of each resident in the home.

SL shall not be covered for persons supported under age 18 years.

With the exception of transportation to & from medical services covered through the Medicaid State Plan/TennCare Program & in accordance with TennCare protocol, transportation shall be a component of SL and shall be included in the reimbursement rate for such.

Reimbursement for SL shall not include payment for SL provided by the spouse of a person supported. The SL provider and provider staff shall not be the parent or custodial grandparent of a person supported under age 18 years,

11/22/2023
whether the relationship is by blood, by marriage, or by adoption; and reimbursement shall not include payment for
SL provided by such individuals.
Reimbursement for SL shall not be made for room and board with the exception of a reasonable portion that is
attributed to a live-in caregiver who is unrelated to the person supported & who provides services to the person
supported in the home of the person supported. Reimbursement for SL shall not include the cost of maintenance of
the dwelling. Residential expenses (e.g., phone, cable TV, food, rent) shall be apportioned between the person
supported, other residents in the home, & (as applicable) live-in or other caregivers. For SL services in a companion
model home, all U.S. Department of Labor, Wage & Hour Division rules shall be applied to live-in caregivers.
SL may be provided out-of-state under the following circumstances:

a. Out-of-state services shall be limited to a maximum of 14 days per person supported per calendar year.
b. The waiver service provider agency must be able to assure the health/safety of the person supported during the
   period when services will be provided out-of-state & must be willing to assume the additional risk & liability of
   provision of services out-of-state (i.e., provision of out-of-state services is at the discretion of the service provider).
c. During the period when out-of-state services are being provided, the waiver service provider agency must
   maintain an adequate amount of staffing (including services of a nurse if applicable) to meet the needs of the person
   supported and must ensure that staff meet waiver provider qualifications.
d. The waiver service provider agency shall not receive any additional reimbursement for provision of services
   out-of-state. The costs of travel, lodging, food, and other expenses incurred by staff during the provision of out-of-
   state services shall not be reimbursed through the waiver. The costs of travel, lodging, food, and other expenses
   incurred by the person supported while receiving out-of-state services shall be the responsibility of the person
   supported and shall not be reimbursed through the waiver.

The Residential Special Needs Adjustment – Homebound (RSNA-HB) is a supplementary per diem payment that
may be approved in limited circumstances as specified herein for Supported Living service that are provided in the
individual’s residence when the individual is determined by TennCare and DIDD to meet the definition of
‘homebound” and as a result, is unable (not unwilling) to participate in any employment or day service and must
remain at their residence for the full 24 hours of a particular day, except leaving the home for medical treatment or
medical appointments, and requires paid support in the residence during that time. ‘Homebound” is defined as being
unable (not unwilling) to leave your home except for medical treatment or medical appointments and unable to
participate in any employment or day service for at least 2 hours per day (the 2 hours may or may not be
consecutive) for a sustained period of time which is at least 5 days in a 14 day billing period.

RSNA-HB can only be authorized and paid in limited exceptional circumstances when engaging in integrated
community participation and/or integrated community employment outside the home is not possible for the
individual due to:

1. Needs related to end of life. End-of-life issues relate to someone's death and the time just before it, when it is
   known that they are likely to die soon from a terminal illness or similar condition. The person is receiving support
   and medical care given during the time surrounding death.
2. Needs related to a sustained behavioral crisis, involving behaviors not otherwise typical for the individual. These
   behaviors are not considered safe and/or would be sufficiently disruptive if displayed in the community and/or at a
   place of employment so as to cause issues that would interfere with successful participation in the community and or
   in community employment.
3. Needs related to recovery after a period of hospitalization, recovery due to being admitted to hospital ICU,
   emergency illness, surgical complication or accident.
4. Significantly health compromised - A chronic health issue, supported by current medical records that restricts the
   person from leaving their home under certain pre-determined circumstances, including environmental issues i.e.
   extreme heat or cold, high pollen, air quality, exposure (geographically) to high incidences of communicable disease
   etc., that would further compromise the person’s health and physical well-being. RSNA-HB payments are intended
   to be as time-limited as possible, with a goal of supporting the person to engage in employment or other integrated
   community activities and must be reviewed and reauthorized, as appropriate, at a minimum, every 90 days, and not
   on a continuous basis, except in exceptional circumstances as approved by TennCare and DIDD(e.g., end of life).
   All individual goals and objectives, and specific needed supports, related to authorization of the RSNA-HB, and to
   supporting the individual’s ability to participate in employment and other integrated community activities shall be
   established through the person-centered planning process and documented in the person-centered ISP. The RSNA-
   HB can only be authorized and paid for services provided on the same day that SL service is also authorized and
   provided.

To support the introduction of TennCare and DIDD Value-Based Purchasing (VBP) initiatives, a flexible residential
service rate option is available to incentivize provider outcomes that align with system transformation values, such
as person-centered practices, independence, community integration, dignity of choice, competitive integrated
employment, enabling technology, and workforce development.
Specify applicable (if any) limits on the amount, frequency, or duration of this service:

A person authorized to receive the RSNA-HB payment may receive therapy services such as PT, OT, Speech, Language and Hearing, and Behavior Services on the same day the RSNA-HB payment is made when appropriate based on the individualized needs and goals of the person supported. A person authorized to receive the RSNA-HB payment may receive Nursing Services only on an intermittent basis and limited to no more than one hour of the six-hour period to perform specific skilled nursing tasks that cannot be performed by or delegated to the staff providing the residential service for which the RSNA-HB is authorized. If a person receives continuous nursing, the RNNSA-HB payment shall not be paid.

The RSNA-HB does not replace any of the existing residential special needs adjustments. It can be authorized in addition to another residential special needs adjustment that is authorized for a different, non-duplicative purpose on same day. The RSNA-HB payment shall not be paid on any day that the person supported receives any Employment or Day Services, services under a 504 Plan or Individual Education Program (IEP), is being homeschooled, or any combination thereof or as a substitute for education services which are available pursuant to IDEA, but which the person or his representative has elected to forego. It may not be self-directed.

</tr>
</tbody>
</table>
Service Definition (Scope):
Transitional Case Management shall mean case management services provided for the purpose of community transition of a Medicaid eligible person residing in an Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID) or other institutional setting who has been determined to qualify for HCBS waiver services upon discharge during the last 180 consecutive days of the person’s institutional stay prior to being discharged and enrolled in the waiver. Transitional Case Management shall assist the person supported in identifying, selecting, and obtaining both paid services and natural supports to enhance the independence, integration in the community, and productivity of the person supported, as specified in the transitional plan of care. Transitional Case Management shall be person-centered and shall include, but not be limited to, ongoing assessment of the strengths and needs of the person supported; development, evaluation, and revision of the transitional plan of care; assistance with the selection of service providers; provision of general education about the waiver program, including person supported rights and responsibilities; and monitoring implementation of the transitional plan of care. Transitional case management shall include at least one face-to-face contact with the person supported per calendar month. The date the person leaves the ICF/IID or other institutional setting and is enrolled in the waiver shall be the date of service for billing purposes.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Limited to the last 180 consecutive days of the person’s institutional stay prior to being discharged and enrolled in the waiver.

Service Type: Other Service
Service Name: Transitional Case Management

Provider Category:
Agency

Provider Type:
ISC Service Agency

Provider Qualifications

License (specify):

N/A

Certificate (specify):

N/A

Other Standard (specify):
The Support Coordinator must have:

1. A Bachelor's degree from an accredited college or university in a human services field; or
2. A Bachelor's degree from an accredited college or university in a non-related field and one year of relevant experience; or
3. Associate degree plus two (2) years of relevant experience; or
4. Four (4) years of relevant experience.

Relevant experience means experience in working directly with persons with intellectual, developmental, or other types of disabilities or mental illness.

Support coordinators who do not have a Bachelor's degree in a human services field must be supervised by someone who does meet that qualification.

Support Coordinators must successfully complete required pre-service training courses as well as periodic in-service training and any other any re-training required to maintain approval to be a Support Coordinator.

The provider must meet the general requirements for all waiver service providers:

1. All providers shall be at least 18 years of age.
2. Staff who have direct contact with or direct responsibility for the service recipient shall be able to effectively read, write, and communicate verbally in English and shall be able to read and understand instructions, perform record-keeping, and write reports.
3. Any waiver service provider who is responsible for transporting a service recipient shall ensure that the driver has a valid drivers license and automobile liability insurance.
4. Staff who have direct contact with or direct responsibility for the service recipient shall pass a criminal background check performed in accordance with a process approved by the Department of Intellectual and Developmental Disabilities (DIDD).
5. Staff who have direct contact with or direct responsibility for the service recipient shall not be listed in the Tennessee Department of Health Abuse Registry or the Tennessee Sexual Offender Registry.
6. Waiver service providers shall not have been excluded from participation in the Medicare or Medicaid programs.
7. All providers must comply with TennCare-approved policies, procedures, and rules for waiver service providers, including quality monitoring requirements.

Appendix C: Participant Services

C-1: Summary of Services Covered (2 of 2)

b. Provision of Case Management Services to Waiver Participants. Indicate how case management is furnished to waiver participants (select one):

- **Not applicable** - Case management is not furnished as a distinct activity to waiver participants.
- **Applicable** - Case management is furnished as a distinct activity to waiver participants.

*Check each that applies:*

- As a waiver service defined in Appendix C-3. Do not complete item C-1-c.
- As a Medicaid state plan service under §1915(i) of the Act (HCBS as a State Plan Option). Complete item C-1-c.
- As a Medicaid state plan service under §1915(g)(1) of the Act (Targeted Case Management). Complete item C-1-c.
- As an administrative activity. Complete item C-1-c.
- As a primary care case management system service under a concurrent managed care authority. Complete item C-1-c.

**c. Delivery of Case Management Services.** Specify the entity or entities that conduct case management functions on behalf of waiver participants:

Appendix C: Participant Services

C-2: General Service Specifications (1 of 3)

a. Criminal History and/or Background Investigations. Specify the state's policies concerning the conduct of criminal history and/or background investigations of individuals who provide waiver services (select one):

- **No.** Criminal history and/or background investigations are not required.
- **Yes.** Criminal history and/or background investigations are required.

Specify: (a) the types of positions (e.g., personal assistants, attendants) for which such investigations must be conducted; (b) the scope of such investigations (e.g., state, national); and, (c) the process for ensuring that mandatory investigations have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid or the operating agency (if applicable):

Any staff person who has direct contact with or direct responsibility for the person supported must pass a criminal background check performed in accordance with a process approved by the Department of Intellectual and Developmental Disabilities (DIDD) and must not be listed on the Tennessee Department of Health Abuse Registry, the Tennessee Sexual Offender Registry, the Tennessee Felony Offender List, or the Office of Inspector General List of Excluded Individuals and Entities.

A statewide criminal background check is performed by the Tennessee Bureau of Investigation or a Tennessee-licensed private investigation company. If the staff person has resided in Tennessee for one year or less, a nationwide criminal background check is required in accordance with DIDD requirements.

During Qualified Provider Reviews conducted by the Department of Intellectual and Developmental Disabilities (DIDD), the provider’s personnel files are reviewed to ensure that there is documentation that the mandatory background and registry checks have been conducted on potential staff who will have direct contact with or direct responsibility for the person supported.

**b. Abuse Registry Screening.** Specify whether the state requires the screening of individuals who provide waiver services...
through a state-maintained abuse registry (select one):

☐ No. The state does not conduct abuse registry screening.

☒ Yes. The state maintains an abuse registry and requires the screening of individuals through this registry.

Specify: (a) the entity (entities) responsible for maintaining the abuse registry; (b) the types of positions for which abuse registry screenings must be conducted; and, (c) the process for ensuring that mandatory screenings have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

The Tennessee Department of Health maintains the State’s Abuse Registry under the authority of T.C.A. 68-11-1001, et seq. The provider agreement requires that each provider have background and registry checks completed for all new employees whose responsibilities include direct care for a person supported and any current employees who have a change in job responsibilities to include direct care for a person supported, prior to, but no more than 30 calendar days in advance of, employment or a change in duties. This requirement includes specifically: (1) an appropriate background check completed by either the Tennessee Bureau of Investigation or a company licensed by the state to conduct such checks; (2) a check of the Tennessee Department of Health Abuse Registry; (3) a check of the Tennessee Sexual Offender Registry; (4) a check of the Tennessee Felony Offender List; and (5) a check of the Office of Inspector General List of Excluded Individuals and Entities. The process for ensuring that these checks have been completed appropriately and timely is part of the quality assurance survey process set forth in the waiver application (see performance measure a.i.a.6.). During the provider performance review, determination is made as to the provider’s compliance with the above requirements through a check of personnel records for all new employees and employees with a change in job responsibilities to include direct care for a person supported (existing employees would have already been verified). Should there be any deficiencies in a provider’s performance within this area, the provider is required to correct the deficiencies within 30 calendar days of discovery. DIDD collects data regarding compliance with these requirements and remediation of deficiencies, and reports monthly to TennCare in performance measure compliance reports. Furthermore, DIDD conducts monthly checks of the Office of Inspector General List of Excluded Individuals and Entities for all providers and sends the monthly reports directly to TennCare Program Integrity.

Appendix C: Participant Services

C-2: General Service Specifications (2 of 3)

Note: Required information from this page (Appendix C-2-c) is contained in response to C-5.

Appendix C: Participant Services

C-2: General Service Specifications (3 of 3)

d. Provision of Personal Care or Similar Services by Legally Responsible Individuals. A legally responsible individual is any person who has a duty under state law to care for another person and typically includes: (a) the parent (biological or adoptive) of a minor child or the guardian of a minor child who must provide care to the child or (b) a spouse of a waiver participant. Except at the option of the State and under extraordinary circumstances specified by the state, payment may not be made to a legally responsible individual for the provision of personal care or similar services that the legally responsible individual would ordinarily perform or be responsible to perform on behalf of a waiver participant. Select one:

☐ No. The state does not make payment to legally responsible individuals for furnishing personal care or similar services.

☒ Yes. The state makes payment to legally responsible individuals for furnishing personal care or similar services when they are qualified to provide the services.

Specify: (a) the legally responsible individuals who may be paid to furnish such services and the services they may provide; (b) state policies that specify the circumstances when payment may be authorized for the provision of
extraordinary care by a legally responsible individual and how the state ensures that the provision of services by a legally responsible individual is in the best interest of the participant; and, (c) the controls that are employed to ensure that payments are made only for services rendered. Also, specify in Appendix C-1/C-3 the personal care or similar services for which payment may be made to legally responsible individuals under the state policies specified here.

Family members may be employed by a provider agency selected by the person supported to provide waiver services, including Personal Assistance. Family members who provide Personal Assistance or any other waiver service as permitted in accordance with the waiver service definition must meet the same standards as staff who are unrelated to the person supported and shall not be the spouse and shall not be the parent or custodial grandparent if the person supported is a minor.

This requirement includes implementing services as specified in the ISP. Reimbursement to family members shall be limited to forty hours per week per family member and shall not supplant natural supports that would otherwise be provided at no cost to the Medicaid program. The person supported, working with his/her Circle of Support, as desired and appropriate, is responsible for determining if the use of family members to deliver his/her paid care is the best choice.

Reimbursement shall not be made to any other individual who is a conservator unless so permitted in the Order of Conservatorship [T.C.A.1200-13-1-.25(3) 1 ].

The state makes such allowances for the best interest of the person supported. Payment to family members is intended to promote a more family-oriented residential environment, allowing the person supported to stay in their own home. This promotes family involvement in the life of the person, with the intent to strengthen the person’s family unit.

☐ Self-directed
☒ Agency-operated

e. Other State Policies Concerning Payment for Waiver Services Furnished by Relatives/Legal Guardians. Specify state policies concerning making payment to relatives/legal guardians for the provision of waiver services over and above the policies addressed in Item C-2-d. Select one:

☒ The state does not make payment to relatives/legal guardians for furnishing waiver services.

☒ The state makes payment to relatives/legal guardians under specific circumstances and only when the relative/guardian is qualified to furnish services.

Specify the specific circumstances under which payment is made, the types of relatives/legal guardians to whom payment may be made, and the services for which payment may be made. Specify the controls that are employed to ensure that payments are made only for services rendered. Also, specify in Appendix C-1/C-3 each waiver service for which payment may be made to relatives/legal guardians.

☒ Relatives/legal guardians may be paid for providing waiver services whenever the relative/legal guardian is qualified to provide services as specified in Appendix C-1/C-3.

Specify the controls that are employed to ensure that payments are made only for services rendered.
A spouse or the parent or custodial grandparent or guardian of a minor child shall not be employed and paid by a provider agency to provide waiver services. In Tennessee, "guardian" refers to the legally responsible person for a minor. Family members employed by a provider agency who provide Personal Assistance or any other waiver service as permitted in accordance with the waiver service definition must meet the same standards as providers who are unrelated to the person supported and shall not be the spouse and shall not be the person supported parent or custodial grandparent if the person supported is a minor.

Reimbursement shall not be made to any other individual who is a conservator unless so permitted in the Order of Conservatorship [T.C.A. 1200-13-1.25(3)(l)]. Such service providers are also subject to review by both DID and the State Medicaid Agency reviewers. Family members who are providers are expected to abide by all applicable state and federal guidelines, as well as all policies administered by either DID or the State Medicaid Agency.

Specify:

f. Open Enrollment of Providers. Specify the processes that are employed to assure that all willing and qualified providers have the opportunity to enroll as waiver service providers as provided in 42 CFR §431.51:

TennCare and the Department of Intellectual and Developmental Disabilities (DIDD) allow for enrollment of all willing and qualified providers of waiver services during recruitment cycles. The DIDD web site provides information to interested providers regarding the DIDD enrollment process; which includes obtaining a provider application, Applicant Forums and information regarding Open and Targeted Enrollment (recruitment cycles). Information regarding the provider enrollment process, provider qualifications for waiver services and other helpful information is also available to prospective services on the DIDD website and by contacting designated staff at DIDD whose contact information is posted online. All information and forms mentioned are available at all times to potential providers.

All applications submitted by providers are reviewed by DIDD and submitted to TennCare for enrollment as a waiver provider if the specified qualifications are met.

Prospective providers are given the opportunity to respond to any questions or additional information requested to complete the application. DIDD staff are available to address any questions the prospective provider may have regarding the application process.

In addition to the provider qualifications specified in Appendix C-1 for each HCBS service, the following general requirements apply to all providers of waiver services:

- Staff who have direct contact with or direct responsibility for the person supported shall be able to effectively read, write, and communicate verbally in English and shall be able to read and understand instructions, perform record-keeping, and write reports.
- Staff who have direct contact with or direct responsibility for the person supported shall be able to effectively read, write, and communicate verbally in English and shall be able to read and understand instructions, perform record-keeping, and write reports.
- Any waiver service provider who is responsible for transporting a person supported shall ensure that the driver has a valid driver’s license and current automobile liability insurance.
- Staff who have direct contact with or direct responsibility for the person supported shall ensure that the driver has a valid driver’s license and current automobile liability insurance.
- Staff who have direct contact with or direct responsibility for the person supported shall ensure that the driver has a valid driver’s license and current automobile liability insurance.
- Staff who have direct contact with or direct responsibility for the person supported shall ensure that the driver has a valid driver’s license and current automobile liability insurance.
- Staff who have direct contact with or direct responsibility for the person supported shall pass a criminal background check performed in accordance with a process approved by the Department of Intellectual and Developmental Disabilities.
- Staff who have direct contact with or direct responsibility for the person supported shall pass a criminal background check performed in accordance with a process approved by the Department of Intellectual and Developmental Disabilities.
- Staff who have direct contact with or direct responsibility for the person supported shall pass a criminal background check performed in accordance with a process approved by the Department of Intellectual and Developmental Disabilities.
- Staff who have direct contact with or direct responsibility for the person supported shall pass a criminal background check performed in accordance with a process approved by the Department of Intellectual and Developmental Disabilities.
- Waiver service providers shall not have been excluded from participation in the Medicare or Medicaid programs.
- Waiver service providers shall not have been excluded from participation in the Medicare or Medicaid programs.
- All providers must comply with TennCare-approved policies, procedures, and rules for waiver service providers, including quality monitoring requirements.

Appendix C: Participant Services

Quality Improvement: Qualified Providers

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States...
a. Methods for Discovery: Qualified Providers

The state demonstrates that it has designed and implemented an adequate system for assuring that all waiver services are provided by qualified providers.

i. Sub-Assurances:

a. Sub-Assurance: The State verifies that providers initially and continually meet required licensure and/or certification standards and adhere to other standards prior to their furnishing waiver services.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:
a.i.a.11. # and % of newly employed (or reassigned) direct support staff who transport waiver participants and who had a current driver's license. Percentage =

\[
\text{newly employed (or reassigned) direct support staff who transport waiver participants and had a current driver's license} / \text{total number of newly employed (or reassigned) direct support staff serving waiver participants in the QP sample.}
\]

Sub-Assurance: The State implements its policies and procedures for verifying that provider training is conducted in accordance with state requirements and the approved waiver.

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:
a.i.c.1. % of required trainings newly employed (or reassigned) direct support staff delivering services to waiver participants have completed prior to direct service delivery. \( \% = \# \text{ of required trainings newly employed } DS \text{ staff delivering services have completed prior to direct service delivery/total } \# \text{ of required trainings each newly employed } DS \text{ staff are required to take prior to direct service.}

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

Performance Measures a.i.a.4., a.i.a.5. through a.i.a.11., a.i.b.1 and a.i.c.1.: Qualified Provider Reviews and Provider Performance Surveys are conducted annually for 100% of provider agencies who employ two (2) or more staff. Providers who achieve exceptional or proficient Provider Performance Survey scores, who achieve substantial compliance in Domain 3: Safety and Security, who have a substantiated investigation rate which is less than 10 per 100, and who have no suspicious deaths since the previous provider performance survey qualify for reduction in the frequency (i.e., every two years) of the Provider Performance Survey. A representative sample of independent providers (e.g., physical therapists, occupational therapists, speech language pathologists, audiologists, nurses, nutritionists, and behavior service providers) who do not employ any additional staff (i.e., the provider consists of one person) will be surveyed/reviewed annually. Performance Measure a.i.a.5.: Tennessee Code Annotated (33-2-1201) states: “Each organization shall have a criminal background check performed on each employee whose responsibilities include direct contact with or direct responsibility for service recipients.”

Note: The State added a.i.a.16 to reflect the ongoing requirement that newly employed (or reassigned) direct support staff serving waiver participants (persons supported) have federal List of Excluded Individuals/Entities (LEIE) checks completed prior to, but no more than 30 calendar days in advance of employment, or a change in assignment to direct support.

b. Methods for Remediation/Fixing Individual Problems
i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.
Performance Measure a.i.a.1.: Providers who do not meet the requirements specified in these performance measures will not be allowed to sign a Provider Agreement, enroll in the DI DD and/or TennCare MMIS claims processing systems, or receive payment for services rendered. Applications that do not meet requirements will be denied. Written denials of provider applications will indicate which requirements have not been met and advise that the provider may reapply for consideration with additional documentation that such requirements have been met.

Performance Measure a.i.a.4.: When DI DD identifies that an existing provider has not maintained required licensure/certification, DI DD will notify TennCare within two (2) working days so that funds may be recouped for payment of any past period during which services were billed while the provider qualifications were not met. The Provider Agreement will be terminated unless proof of licensure/certification is submitted to DI DD within 30 days of the date the issue was identified. The provider will not be eligible for payment of claims until licensure/certification issues are resolved.

Performance Measures a.i.a.5. through a.i.a.8.: DI DD will review a sample of provider agency staff personnel records during Qualified Provider Reviews. For individual direct support staff who did not have required background/registry checks at the time of the Qualified Provider Review, DI DD will request that the background and/or registry check be initiated during the review. Designated DI DD Regional Office staff will be responsible for verifying that the background/registry check was obtained and reviewing the results. If staff did not pass the background/registry check, DI DD will require the provider agency to take appropriate personnel action(s), and designated DI DD Regional Office staff will verify that the provider took appropriate action within 30 days of the provider's receipt of the completed background check. For staff in the sample who commit a serious criminal offense during the course of employment, DI DD will determine if the provider agency took appropriate action, or if action is pending, will verify that the provider took appropriate action within 30 days of discovery. Failure to obtain background or registry checks in accordance with state law and DI DD requirements and/or failure to take appropriate personnel actions may result in provider sanctions, including institution of a moratorium on serving new waiver participants.

Performance Measure a.i.a.10. through a.i.a.11.: DI DD will review a sample of provider agency staff personnel records during Qualified Provider Reviews. For individual direct support staff who did not meet waiver general qualifications, DI DD will notify the provider and request that the provider take appropriate personnel action, which may include termination of the employee, ensuring that the employee acquires the skills needed to meet general requirements, or reassignment to a non-contact position. Designated DI DD Regional Office staff will be responsible for verifying that the appropriate actions were taken within 30 days of discovery.

Performance Measure a.i.b.1.: Non-licensed/non certified providers who do not meet provider qualifications will be subject to termination of their Provider Agreement unless identified issues can be resolved within 30 days of the date of discovery. DI DD will notify TennCare within two (2) working days of any lapse in meeting provider qualifications, so that payment may be recouped for service reimbursed during the time period when qualifications were not met. The provider will not be able to receive reimbursement for additional services provided prior to the date when provider qualification issues are resolved.

Individual Remediation Data Aggregation: DI DD has developed a data flow document which identifies data collection, reporting, and aggregation tasks that must be completed to generate the required reports for submission to TennCare. For each task, due dates are specified. Responsible DI DD staff and back-up staff are identified for each task. Designated DI DD Central Office staff compile the data collected and entered by regional and central office staff into DI DD databases to create data files that are posted for TennCare analysis and aggregation. In addition, DI DD generates a Quality Management Report using the data collected and reported. The Quality Management Report is submitted to TennCare each month and information contained therein is reviewed during monthly State Quality Management Committee Meetings.

**c. Timelines**

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Qualified Providers that are currently non-operational.

- [ ] No
- [ ] Yes

Please provide a detailed strategy for assuring Qualified Providers, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

**Appendix C: Participant Services**

**C-3: Waiver Services Specifications**

Section C-3 'Service Specifications' is incorporated into Section C-1 'Waiver Services.'

**Appendix C: Participant Services**

**C-4: Additional Limits on Amount of Waiver Services**

**a. Additional Limits on Amount of Waiver Services.** Indicate whether the waiver employs any of the following additional limits on the amount of waiver services (select one).

- [ ] Not applicable - The state does not impose a limit on the amount of waiver services except as provided in Appendix C-3.
- [ ] Applicable - The state imposes additional limits on the amount of waiver services.

When a limit is employed, specify: (a) the waiver services to which the limit applies; (b) the basis of the limit, including its basis in historical expenditure/utilization patterns and, as applicable, the processes and methodologies that are used to determine the amount of the limit to which a participant's services are subject; (c) how the limit will be adjusted over the course of the waiver period; (d) provisions for adjusting or making exceptions to the limit based on participant health and welfare needs or other factors specified by the state; (e) the safeguards that are in effect when the amount of the limit is insufficient to meet a participant's needs; (f) how participants are notified of the amount of the limit. (check each that applies)

- [ ] Limit(s) on Set(s) of Services. There is a limit on the maximum dollar amount of waiver services that is authorized for one or more sets of services offered under the waiver.

  Furnish the information specified above.
**Prospective Individual Budget Amount.** There is a limit on the maximum dollar amount of waiver services authorized for each specific participant.

_Furnish the information specified above._

**Budget Limits by Level of Support.** Based on an assessment process and/or other factors, participants are assigned to funding levels that are limits on the maximum dollar amount of waiver services.

_Furnish the information specified above._

**Other Type of Limit.** The state employs another type of limit.

_Describe the limit and furnish the information specified above._

---

**Appendix C: Participant Services**

**C-5: Home and Community-Based Settings**

Explain how residential and non-residential settings in this waiver comply with federal HCB Settings requirements at 42 CFR 441.301(c)(4)-(5) and associated CMS guidance. Include:

1. Description of the settings and how they meet federal HCB Settings requirements, at the time of submission and in the future.

2. Description of the means by which the state Medicaid agency ascertains that all waiver settings meet federal HCB Setting requirements, at the time of this submission and ongoing.

*Note instructions at Module 1, Attachment #2, HCB Settings Waiver Transition Plan for description of settings that do not meet requirements at the time of submission. Do not duplicate that information here.*
Services are provided in a person’s home and community. Specific setting types include all residential and non-residential and include all the following services which are re-assessed annually as part of the Quality Monitoring process: Facility-Based Day Supports, Community Participation Supports, Supported Employment (Individual and Small Group Employment Support), Intermittent Employment and Community Integration Wrap-Around Supports, Non-Residential Homebound Support Services, Supported Living, Residential Habilitation, Medical Residential Services, and Family Model Residential Support. All settings in which HCBS are provided, and not otherwise included in the HCB Settings Transition Plan for this waiver, comport with standards applicable to HCBS settings delivered under Section 1915(c) of the Social Security Act, including those requirements applicable to provider-owned or controlled homes. Exceptions to these requirements are made only when supported by the individual’s specific assessed need and specified in the person-centered ISP.

All individual goals and objectives, along with needed supports to progress toward, achieve or sustain these goals and objectives, are established through the person-centered planning process and documented in the person-centered ISP and shall include opportunities to seek employment and work in competitive integrated settings, engage in community life, and control personal resources, as applicable based on the needs and preferences of the person supported. Supports shall be provided in a manner which ensures an individual’s rights of privacy, dignity, respect and freedom from coercion and restraint; and which optimizes individual initiative, autonomy, and independence in making life choices.

The Interagency Agreement between TennCare and DIDD for operation of these waivers includes HCBS Settings Rule compliance, as do Provider Agreements with providers, TennCare, and DIDD. In addition, HCBS Settings Rule language has been added to the DIDD Provider Manual that sets requirements related to individual rights and modifications to the Rule. Each provider is assessed at a minimum, at enrollment, and during the quality assurance survey process to ensure that each service is being delivered to all persons supported in a manner that comports with federal waiver assurances, and the HCBS settings rule. Compliance at the individual member level will continue to be assessed through oversight of the person-centered planning process and review of member experience data. An assessment of each person’s experience is embedded into the person-centered planning process on an ongoing basis to ensure that services and supports received by that person are non-institutional in nature, and consistent with the requirements and objectives of the HCBS settings rule. This is conducted by the Independent Support Coordinator, or Case Manager, as applicable, as part of the person’s annual person-centered plan review. This assessment is intended to measure each individual’s level of awareness of and access to rights provided in the HCBS Settings Rule, freedom to make informed decisions, community integration, privacy requirements, and other individual experience expectations as outlined in the HCBS Settings Rule. DIDD reviews assessment responses for all Medicaid recipients receiving services in this waiver and investigates each “No” response that indicates a potential area of non-compliance or potential rights restriction to determine if the provider is in compliance with the HCBS Settings Rule, and with respect to restrictions, to ensure the restriction has gone through the HCBS Settings Rule modifications procedure, and is appropriately included in the person-centered support plan. If the restriction has not gone through the modification process and is not supported in the person-centered support plan, DIDD remediates the concern by working with the provider and the person supported and his or her representative, if applicable.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (1 of 8)

State Participant-Centered Service Plan Title:

Individual Support Plan

a. Responsibility for Service Plan Development. Per 42 CFR §441.301(b)(2), specify who is responsible for the development of the service plan and the qualifications of these individuals (select each that applies):

- [ ] Registered nurse, licensed to practice in the state
- [ ] Licensed practical or vocational nurse, acting within the scope of practice under state law
- [ ] Licensed physician (M.D. or D.O)
- [X] Case Manager (qualifications specified in Appendix C-1/C-3)
- [X] Case Manager (qualifications not specified in Appendix C-1/C-3).

Specify qualifications:
The Independent Support Coordinator (ISC) must have:
1. A Bachelor's degree from an accredited college or university in a human services field; or
2. A Bachelor's degree from an accredited college or university in a non-related field and one (1) year of relevant experience; or
3. Associate degree plus two (2) years of relevant experience; or
4. High School diploma or general educational development (GED) certificate plus four (4) years of relevant experience.

Relevant experience as it relates to Independent Support Coordinators means experience in working directly with persons with intellectual, developmental, or other types of disabilities or mental illness. Independent Support Coordinators who do not have a Bachelor’s degree in a human services field must be supervised by someone who does meet that qualification.

Support coordination provider agencies are required to ensure that persons employed to render support coordination services receive effective guidance, mentoring, and training, including all training required by DIDD. Effective training must include opportunities to practice support coordination duties in a manner that promotes development and mastery of essential job skills.

The intent of providing independent support coordination is to ensure that planning and coordination of services is conflict-free. Thus, providers of independent support coordination services are prohibited from providing both support coordination and other direct waiver services. Support coordination providers must maintain an office in each grand region where services are provided.

Support Coordination must be conducted in a manner that ensures person-centered planning processes and practices are followed pursuant to all applicable state and federal regulations.

☐ Social Worker
   Specify qualifications:

☐ Other
   Specify the individuals and their qualifications:

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (2 of 8)

b. Service Plan Development Safeguards. Select one:

- Entities and/or individuals that have responsibility for service plan development may not provide other direct waiver services to the participant.
- Entities and/or individuals that have responsibility for service plan development may provide other direct waiver services to the participant.

The state has established the following safeguards to ensure that service plan development is conducted in the best interests of the participant. Specify:
c. Supporting the Participant in Service Plan Development. Specify: (a) the supports and information that are made available to the participant (and/or family or legal representative, as appropriate) to direct and be actively engaged in the service plan development process and (b) the participant's authority to determine who is included in the process.

As part of the enrollment process into the waiver, DIDD intake staff advise and explain to the individual or person legally authorized to act on behalf of the individual (as applicable), the operation of the waiver program and waiver services offered as an alternative to care in an Intermediate Care Facility for individuals with Intellectual Disabilities (ICF/IID), including the person’s right to direct the person-centered planning process, including supports available to do so. The intake staff discuss with the person and any legally authorized representative, the supports the person will need to engage in the person-centered planning process and development of the initial ISP, and will help to arrange for such supports, and actively engage the person and others s/he designates in the person-centered planning process and development of the initial ISP. Intake staff review the PreAdmission Evaluation (PAE) and the initial ISP with the person and his representative, provide a list of available service providers with contact information, and answer any questions related to the waiver. The intake staff person will provide information, including a copy of the Family Resource Guide, to the person supported or person’s family representative. The Family Resource Guide is a guide that describes support services for family members of individuals with intellectual disabilities. The intake staff are also expected to share information about non-state services and supports such as community resources, etc.

Once enrolled in the waiver, all persons supported have an assigned Independent Support Coordinator who is responsible for a facilitating person-centered planning process, always driven by the person supported, and directed by the person supported, as appropriate and with supports as needed. The person-centered planning process results in the development of the ISP; ensuring services are initiated within required time frames; and conducting ongoing monitoring of the implementation of the ISP and the person’s health and welfare.

The Independent Support Coordinator is responsible for providing necessary information and support to the individual to support his/her direction of the person-centered planning process to the maximum extent desired and possible. The person supported has the authority to decide who is included in the development of the (ISP).

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (4 of 8)

d. Service Plan Development Process. In four pages or less, describe the process that is used to develop the participant-centered service plan, including: (a) who develops the plan, who participates in the process, and the timing of the plan; (b) the types of assessments that are conducted to support the service plan development process, including securing information about participant needs, preferences and goals, and health status; (c) how the participant is informed of the services that are available under the waiver; (d) how the plan development process ensures that the service plan addresses participant goals, needs (including health care needs), and preferences; (e) how waiver and other services are coordinated; (f) how the plan development process provides for the assignment of responsibilities to implement and monitor the plan; and, (g) how and when the plan is updated, including when the participant's needs change. State laws, regulations, and policies cited that affect the service plan development process are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):
Independent Support Coordinators (ISCs) assist persons supported in identifying their needs and preferences and selecting, obtaining and coordinating services using paid and natural supports. The ISC, in collaboration with the person supported, the person supported authorized representative (if applicable), other persons specified by the person supported (this may include family members, friends, and paid service providers selected by the person) convene at time and location convenient to the person supported, in a formal Planning Meeting to discuss and finalize the ISP which is the person-centered ISP.

Each person-centered planning process must:

a. Be directed by the individual to the greatest extent possible,
b. Identify strengths and needs, both clinical and support needs, and desired outcomes,
c. Reflect cultural considerations and use language understandable by the individual
d. Include strategies for solving disagreements
e. Provide method for individual to request updates to be made to their ISP

The policy and procedures which define and guide the person-centered planning process and assure that people chosen by the individual supported are integrally involved in the development of an ISP that reflects their preferences, choices, and desired outcomes provide for:

a. An assessment of the individual’s status, adaptive functioning, and service needs through the administration of a uniform assessment instrument (such as the Supports Intensity Scale);
b. The identification of individual risk factors through the administration of a uniform risk assessment, identification of person-centered strategies to mitigate risks, and clear communication with the person supported and/or his/her representative, as applicable, regarding potential risks and ways to mitigate risks to support an informed decision regarding whether the risk, as mitigated, is tolerable, including documentation of the person’s decision in the ISP;
c. Additional assessments, where appropriate, by health care professionals (e.g., occupational or physical therapists, behavior analysts, etc.);
d. The identification of personal outcomes, support goals, supports and services needed, information about the person’s current situation, what is important to the person supported, and changes desired in the person’s life (e.g., home, work, relationships, community membership, health and wellness). (Information for the ISP will be gathered and developed through the person-centered planning process driven, to the greatest extent possible, by the person supported and, if applicable, in collaboration with the guardian or conservator, as well as family members and other persons specified by the person supported.);
e. At least annual assessment of the individual’s experience to confirm that the setting in which the individual is receiving services and supports comports with standards applicable to HCBS settings delivered under Section 1915(c) of the Social Security Act, including those requirements applicable to provider-owned or controlled homes, except as supported by the individual’s specific assessed need and set forth in the person-centered ISP; and
f. Waiver and other services are coordinated by the ISC through the development and implementation of the ISP. The ISP describes all the supports and services necessary to support the person to achieve their desired outcomes and attain or maintain a quality life as defined by them, including services that may be provided through natural supports, the Medicaid State Plan or pursuant to the person's Individual Education Plan (IEP).

The ISP development process includes the following: identification of personal outcomes, support goals, supports and services needed, information about the individual’s current situation, what is important to the person supported, and changes desired in the person’s life (e.g., home, work, relationships, community membership, health and wellness), supporting the individual’s informed choice regarding services and supports they receive, providers of such services, and the setting in which services and supports are received and which shall be integrated in, and support full access to the greater community, including opportunities to seek employment and work in competitive integrated settings, engage in community life, control personal resources, and receive services in the community to the same degree of access as individuals not receiving Medicaid HCBS; and specific documentation of any modifications to HCBS settings requirements based on the needs of the individual and in accordance with processes prescribed in federal and state regulation and protocol. As required pursuant to the federal Personal Centered Planning Rule, the ISP shall be signed by the individual and all persons involved in implementing the plan, including those providing paid and or unpaid supports. The use of e-signatures that meets privacy and security requirements will be added as a method for the participant or legal guardian signing the PCSP to indicate approval of the plan. Services may start while waiting for the signature to be returned to the ISC/Case Manager, whether electronically or by mail.

Signatures will include a date reflecting the PCSP meeting date.

The ISP is the fundamental tool by which the state ensures the health and welfare of the individuals served under this waiver. As such, it is subject to periodic review and update. These reviews will take place to determine the appropriateness and adequacy of the services, and to ensure that the services furnished are consistent with the nature and severity of the person’s disability and are responsive to the person’s needs and
Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (5 of 8)

e. **Risk Assessment and Mitigation.** Specify how potential risks to the participant are assessed during the service plan development process and how strategies to mitigate risk are incorporated into the service plan, subject to participant needs and preferences. In addition, describe how the service plan development process addresses backup plans and the arrangements that are used for backup.

A uniform risk assessment is administered as part of the process for developing the person’s ISP. A person-centered approach is employed to identify risk factors and develop proactive strategies to address those factors. The tool identifies potential situational, environmental, behavioral, medical, and financial risks. When risks are identified, the strategies necessary to address them are incorporated into the ISP.

In addition, the State has a system in place for assuring emergency backup and/or emergency response capability in the event those providers of services and supports essential to the individual’s health and welfare are not available. While the state may define and plan for emergencies on an individual basis, the state also must have system procedures in place. As a result of the administration of the uniform risk assessment, situations will be identified when access to emergency backup services could be required and appropriate person-centered strategies will delineate how emergency backup services will be triggered and responsibilities for ensuring that such services are furnished. As appropriate, strategies will identify informal (unpaid) supports that could assist in meeting emergency backup needs.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (6 of 8)

f. **Informed Choice of Providers.** Describe how participants are assisted in obtaining information about and selecting from among qualified providers of the waiver services in the service plan.

Participation in a waiver program is voluntary. Prior to being enrolled in a waiver, a qualified applicant has the right to freely choose whether they want to receive services in the waiver or in an Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID). Freedom of choice also includes the right to select any provider with an active provider agreement with the Department of Intellectual and Developmental Disabilities (DIDD) and the Division of TennCare if the provider is available, willing, and able to provide the services needed, and choice of the setting in which services and supports are received which shall be integrated in, and support full access to the greater community, including opportunities to seek employment and work in competitive integrated settings, engage in community life, control personal resources, and receive services in the community to the same degree of access as individuals not receiving Medicaid HCBS.

The state ensures that each individual found eligible for the waiver will be given free choice of all qualified providers of each service included in his or her written ISP. The ISC will provide information about selecting from among qualified providers of the waiver services in the ISP.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (7 of 8)

g. **Process for Making Service Plan Subject to the Approval of the Medicaid Agency.** Describe the process by which the service plan is made subject to the approval of the Medicaid agency in accordance with 42 CFR §441.301(b)(1)(i):
The initial ISP must have been submitted to TennCare as part of the PreAdmission Evaluation (PAE or level of care) application. All initial ISPs were reviewed and approved as part of the PAE. While subsequent plans of care are reviewed and approved by DIDD, they remain subject to the review and approval of TennCare at TennCare’s discretion. TennCare reviews the adequacy and appropriateness of ISP through the quality assurance process set forth in the waiver application (see Appendix D). In addition, TennCare regularly reviews ISPs as part of the utilization review process which is described in Appendix I.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (8 of 8)

h. Service Plan Review and Update. The service plan is subject to at least annual periodic review and update to assess the appropriateness and adequacy of the services as participant needs change. Specify the minimum schedule for the review and update of the service plan:

- Every three months or more frequently when necessary
- Every six months or more frequently when necessary
- Every twelve months or more frequently when necessary
- Other schedule

Specify the other schedule:

i. Maintenance of Service Plan Forms. Written copies or electronic facsimiles of service plans are maintained for a minimum period of 3 years as required by 45 CFR §92.42. Service plans are maintained by the following (check each that applies):

- Medicaid agency
- Operating agency
- Case manager
- Other

Specify:

Appendix D: Participant-Centered Planning and Service Delivery

D-2: Service Plan Implementation and Monitoring

a. Service Plan Implementation and Monitoring. Specify: (a) the entity (entities) responsible for monitoring the implementation of the service plan and participant health and welfare; (b) the monitoring and follow-up method(s) that are used; and, (c) the frequency with which monitoring is performed.
Independent Support Coordinators (ISC) assist persons supported in identifying needs and preferences, and in selecting, obtaining, and coordinating services using paid and natural supports.

Ongoing monitoring by ISCs is accomplished through a stratified approach, based on the person’s assessed level of support need, as follows:

At minimum, one monthly in-person or telephone contact is required. At least once every three months, for level of need 1, 2, or 3 residential services (Supported Living, Residential Habilitation, and Family Model Residential), a visit must occur in the person’s home; and for level of need 1, 2, or 3 day or employment services or services not based on level of need, a visit should be coordinated with the person or the person’s family to occur every third month in the person’s home or in alternate locations as chosen by the person or the person’s family. Based on the person’s or family’s preference as applicable, the home visit may be conducted through videoconference no more frequently than once every six months. Generally, face-to-face visits should be coordinated with the person supported (and their family, as applicable) to occur in the person’s residence. However, for persons not receiving residential services, if requested by the person (or their family, as applicable), visits can be scheduled at alternative locations that are convenient for the person and their family, unless there are specific concerns regarding the person’s health and safety which would warrant that the visit is conducted in the home as documented in the person-centered plan.

A person assessed to have level of need 4, 5, or 6 for purposes of reimbursement requires at least one face-to-face contact per calendar month. Based on the person’s preference, the required monthly contact may be conducted with the person through videoconference no more frequently than every other month. At least once every three months, for level of need 4, 5, or 6 residential services (Supported Living, Residential Habilitation, Medical Residential, and Family Model Residential), a visit must occur in the person’s home; or if only receiving a day or employment service at level of need 4, 5, or 6, a visit should be coordinated with the person or the person’s family to occur either in the person’s home or in alternate locations as chosen by the person or the person’s family. Generally, face-to-face visits should be coordinated with the person supported (and their family, as applicable) to occur in the person’s residence. However, for persons not receiving residential services, if requested by the person (or their family, as applicable), visits can be scheduled at alternative locations that are convenient for the person and their family, unless there are specific concerns regarding the person’s health and safety which would warrant that the visit is conducted in the home as documented in the person-centered plan.

The level of need for reimbursement of residential services is the overriding determinant of the type and frequency of contacts. The level of need or employment and day services will determine type and frequency of contacts only if the person receives no residential services.

Each contact, whether in person or by phone, requires the ISC to complete and document a Monthly Status Review of the ISP for that person per service received across service settings. Face-to-face and/or telephone contacts shall be conducted more frequently when appropriate based on the person’s needs and/or request, or based on a significant change in needs or circumstances. The frequency of monitoring visits may be provided more frequently as needed. Information is gathered using standardized processes and tools.

The ISC may, if preferred by the person and/or legal guardian, if applicable, and documented in the ISP, complete some of the minimally required visits using telehealth-specifically online videoconferencing using a tablet or other smart mobile device. If virtual technology is not available to the person, then a telephone contact may be acceptable to allow flexibility per the family’s request. All of the following, at a minimum, shall require in-person face-to-face visits, absent extenuating circumstances such when an in-person meeting may negatively impact the person or coordinator’s health or safety:

1. Annual re-assessment or planning meeting for purposes of updating the ISP;
2. When there is a significant change in condition defined as:
   a. Change in community placement to a residential setting (i.e., Supported Living, Medical Residential) or a change between residential settings;
   b. Loss or change in primary caregiver or loss of essential social supports for a person not receiving residential services;
   c. Significant change in physical or behavioral health and/or functional status, including but not limited to hospital (acute or psychiatric) admission for purposes of ensuring appropriate supports are available upon discharge; following any hospital discharge (to ensure the person’s needs are being met, ensure co-continuity of care, and avoid potential readmission; following any out-of-home placement related to behavior support needs; or
   d. Repeated instances of reportable events; or
   e. Any other event that significantly increases the perceived risk to a person; and
At any time based on the member’s preference for in-person meetings.

The ISC reports issues identified to management staff from the appropriate provider agencies. DIDD Regional Office management staff may assist in achieving resolution when timely provider response does not occur. All individuals who receive supports and services through DIDD are required to have an annual risk assessment. This assessment is a component of the planning process intended to identify potential risks and create an environment that establishes appropriate safeguards without limiting personal experiences. Risk management is accomplished through risk assessment and identification of risk factors, risk analysis and planning, ongoing evaluation of the effectiveness of risk management strategies, and staff training and re-training as appropriate.

The success of individual strategies to ameliorate individual risks identified through risk assessment are evaluated by the person supported, their families and significant others, providers, and the ISC as part of on-going planning for and monitoring of services.

In addition, the ISC conducts initial (i.e., as part of the State’s initial assessment of compliance with the new federal HCBS Setting rule) and at least annual assessment of the individual’s experience, in accordance with timeframes outlined in State Protocol, to confirm that that the setting in which the person supported is receiving services and supports comports fully with standards applicable to HCBS settings delivered under Section 1915(c) of the Social Security Act, including those requirements applicable to provider-owned or controlled homes, except as supported by the individual’s specific assessed need and set forth in the person-centered ISP.

b. Monitoring Safeguards. Select one:

- Entities and/or individuals that have responsibility to monitor service plan implementation and participant health and welfare may not provide other direct waiver services to the participant.

- Entities and/or individuals that have responsibility to monitor service plan implementation and participant health and welfare may provide other direct waiver services to the participant.

The state has established the following safeguards to ensure that monitoring is conducted in the best interests of the participant. Specify:

Appendix D: Participant-Centered Planning and Service Delivery

Quality Improvement: Service Plan

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Service Plan Assurance/Sub-assurances

The state demonstrates it has designed and implemented an effective system for reviewing the adequacy of service plans for waiver participants.

i. Sub-Assurances:

a. Sub-assurance: Service plans address all participants assessed needs (including health and safety risk factors) and personal goals, either by the provision of waiver services or through other means.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.
Performance Measure:
\( a.i.a.2 \). Number and Percentage of waiver participants who have Individual Support Plans with measureable action steps applicable to each of the outcomes specified. Percentage = number of waiver participants who have ISPs with measureable action steps for each outcome/ total number of waiver participants in the sample.

d. **Sub-assurance:** Services are delivered in accordance with the service plan, including the type, scope, amount, duration and frequency specified in the service plan.

**Performance Measures**

*For each performance measure the State will use to assess compliance with the statutory assurance (or*
For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:
a.i.d.4. Number and Percentage of waiver participants who received services for the duration specified in the approved Individual Support Plan. Percentage = number of waiver participants receiving services for the duration specified in the ISP/ total number of waiver participants in the sample less TennCare approved and documented exceptions.

If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.
Performance Measures a.i.b.2. and a.i.b.3., a.i.c.1 and a.i.c.2, a.i.d.2 through a.i.d.5, and a.i.e.1, a.i.e.4, and a.i.e.5: A representative sample of waiver participants (persons supported) will be generated at the beginning of the waiver year. The sample will be divided as evenly as possible to collect data during the following twelve (12) months. For each waiver participant included in the sample, Individual Record Reviews will be conducted by designated DIDD Regional Office staff. Staff will review waiver participant records, including claims data, to obtain the information needed to determine compliance with these performance measures.

b. Methods for Remediation/Fixing Individual Problems
i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

Performance Measures a.i.b.2. and a.i.b.3., a.i.c.1 and a.i.c.2, and a.i.e.1 and a.i.e.2: Designated DIDD Regional Office staff will notify Support Coordination (ISC) Agencies and other provider agencies as appropriate when service planning and implementation compliance issues are identified. Regional Office staff will monitor remediation actions until able to verify that the issue has been resolved satisfactorily. Remediation actions and timeframes are reported to TennCare monthly. TennCare notifies DIDD of any remediation determined unacceptable and requires DIDD to provide additional information and/or take additional remedial action until remediation can be determined appropriately completed. Support Coordination (ISC) and other provider agencies, as applicable, will be held accountable for taking appropriate personnel actions within 30 calendar days to address employee job performance, including, but not limited to training and retraining, verbal or written warning, suspension or termination. Other contracted providers will be held accountable, as appropriate, for resolution of issues involving ISP implementation. Remediation actions are expected to be completed within a targeted time frame of 30 calendar days. Performance Measure a.i.a.4 and a.i.d.5: When individuals report issues with the ISP, the satisfaction survey (known as People Talking to People Survey) interviewer will notify the DIDD People Talking to People Director within three business days. The DIDD People Talking to People Director will take appropriate action, which could include filing a complaint if appropriate and in accordance with the waiver participant’s wishes, or notifying the ISC of the waiver participant’s need to consider plan amendment. The DIDD People Talking to People Director will monitor remedial actions and track remediation timeframes. Complaints filed will be resolved in accordance with DIDD complaint resolution processes. The DIDD goal is to resolve complaint issues within a 30 calendar day time frame. Designated DIDD staff will compile monthly information about complaints and complaint resolution, including complaint types and referral sources, into data files and the Quality Management Report, all of which will be submitted monthly to TennCare. Appeals filed will be processed in accordance with TennCare rules and TennCare approved DIDD policy. Performance Measure a.i.d.2 through a.i.d.5: TennCare and DIDD have determined that there are acceptable reasons when services may not be provided exactly in accordance with plan specifications. Such acceptable reasons (e.g., holidays, inclement weather, person supported choice, hospitalization) have been identified and shared with DIDD staff and waiver service providers through a memorandum. When service amount, frequency, or duration varies for acceptable reasons, compliance is indicated; however, data is tracked regarding the reasons services were not provided in the amount, frequency, and duration in approved plan. In situations where more services were billed than were actually provided or documented, DIDD reviewers will forward this information to designated DIDD administrative staff who will initiate recoupment procedures. If warranted, a provider may be referred to DIDD audit staff for a more extensive fiscal audit. The DIDD Deputy Commissioner will determine the need for more extensive provider level fiscal audits during monthly State Quality Management meetings. Individual Remediation Data Aggregation: DIDD has developed a data flow document which identifies data collection, reporting, and aggregation tasks that must be completed to generate the required reports for submission to TennCare. For each task, due dates are specified. Responsible DIDD staff and back-up staff are identified for each task. Designated DIDD Central Office staff compile the data collected and entered by regional and central office staff into DIDD databases to create data files that are posted for TennCare analysis and aggregation. In addition, DIDD generates a Quality Management Report using the data collected and reported. The Quality Management Report is submitted to TennCare each month and information contained therein is reviewed during monthly State Quality Management Committee Meetings.

ii. Remediation Data Aggregation
Remediation-related Data Aggregation and Analysis (including trend identification)
c. Timelines
When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Service Plans that are currently non-operational.

☐ No
☒ Yes

Please provide a detailed strategy for assuring Service Plans, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix E: Participant Direction of Services

Applicability (from Application Section 3, Components of the Waiver Request):

☒ Yes. This waiver provides participant direction opportunities. Complete the remainder of the Appendix.

☐ No. This waiver does not provide participant direction opportunities. Do not complete the remainder of the Appendix.

CMS urges states to afford all waiver participants the opportunity to direct their services. Participant direction of services includes the participant exercising decision-making authority over workers who provide services, a participant-managed budget or both. CMS will confer the Independence Plus designation when the waiver evidences a strong commitment to participant direction.

Indicate whether Independence Plus designation is requested (select one):

☒ Yes. The state requests that this waiver be considered for Independence Plus designation.

☐ No. Independence Plus designation is not requested.

Appendix F: Participant Rights

Appendix F-1: Opportunity to Request a Fair Hearing

The state provides an opportunity to request a Fair Hearing under 42 CFR Part 431, Subpart E to individuals: (a) who are not given the choice of home and community-based services as an alternative to the institutional care specified in Item 1-F of the request; (b) are denied the service(s) of their choice or the provider(s) of their choice; or, (c) whose services are denied, suspended, reduced or terminated. The state provides notice of action as required in 42 CFR §431.210.
Procedures for Offering Opportunity to Request a Fair Hearing. Describe how the individual (or his/her legal representative) is informed of the opportunity to request a fair hearing under 42 CFR Part 431, Subpart E. Specify the notice(s) that are used to offer individuals the opportunity to request a Fair Hearing. State laws, regulations, policies and notices referenced in the description are available to CMS upon request through the operating or Medicaid agency.

The Medicaid Agency will provide an opportunity for a fair hearing under 42 CFR Part 431, subpart E, to individuals who are not given the choice of home or community-based services as an alternative to the institutional care or who are denied the service(s) of their choice, or the provider(s), services and settings of their choice.

PROCESS:
The following describes the process for informing eligible individuals of their right to request a fair hearing under 42 CFR Part 431, Subpart E:
1. A plain language explanation of appeal rights shall be provided to persons supported upon enrollment in the waiver.
2. DIDD shall provide in advance a plain language written notice to the persons supported of any action to delay, deny, terminate, suspend, or reduce waiver services, including the setting in which services and provided, or of any action to deny choice of available qualified providers.
3. Notice must be received by the persons supported prior to the date of the proposed termination, suspension, or reduction of waiver services unless one of the exceptions exists under 42 CFR 431.211-214.
4. A persons supported has the right to appeal the adverse action and to request a fair hearing.
5. Appeals must be submitted to the Division of TennCare within thirty (30) calendar days of receipt of notice of the adverse action. Receipt of any notice shall be presumed to be within five (5) calendar days of the mailing date.
6. Reasonable accommodations shall be made for persons with disabilities who require assistance with the appeal process.
7. Hearings shall be held pursuant to the provisions of the Tennessee Uniform Administrative Procedures Act and shall be held before an impartial hearing officer or administrative judge.
8. A written hearing decision shall be issued within ninety (90) calendar days from the date the appeal is received. If the hearing decision is not issued by the 90th day, the waiver service may under specified circumstances be provided until an order is issued.
9. Waiver services shall continue until an initial hearing decision if the persons supported appeals and requests continuation of waiver services within ten (10) calendar days or five (5) calendar days, as applicable under 42 CFR 431.213-214 and 431.231, of the receipt of the notice of action to suspend or reduce ongoing waiver services. If the denial decision is sustained by the hearing, recovery procedures may be instituted against the persons supported to recoup the cost of any waiver services furnished solely by reason of the continuation of services due to the appeal.

Appendix F: Participant-Rights

Appendix F-2: Additional Dispute Resolution Process

a. Availability of Additional Dispute Resolution Process. Indicate whether the state operates another dispute resolution process that offers participants the opportunity to appeal decisions that adversely affect their services while preserving their right to a Fair Hearing. Select one:

- ☑ No. This Appendix does not apply
- ☐ Yes. The state operates an additional dispute resolution process

b. Description of Additional Dispute Resolution Process. Describe the additional dispute resolution process, including: (a) the state agency that operates the process; (b) the nature of the process (i.e., procedures and timeframes), including the types of disputes addressed through the process; and, (c) how the right to a Medicaid Fair Hearing is preserved when a participant elects to make use of the process: State laws, regulations, and policies referenced in the description are available to CMS upon request through the operating or Medicaid agency.
a. Operation of Grievance/Complaint System. Select one:

- No. This Appendix does not apply
- Yes. The state operates a grievance/complaint system that affords participants the opportunity to register grievances or complaints concerning the provision of services under this waiver

b. Operational Responsibility. Specify the state agency that is responsible for the operation of the grievance/complaint system:

Division of TennCare and the Department of Intellectual and Developmental Disabilities (DIDD)

c. Description of System. Describe the grievance/complaint system, including: (a) the types of grievances/complaints that participants may register; (b) the process and timelines for addressing grievances/complaints; and, (c) the mechanisms that are used to resolve grievances/complaints. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).
Resolution of complaints:
The majority of complaints that are unable to be resolved with the provider agency are filed directly with DIDD. In the event that persons supported, family members and/or legal representatives do not agree with a provider’s proposed solution to a complaint, they may contact the DIDD Regional Complaint Resolution Coordinator for assistance. The DIDD Regional Complaint Resolution Coordinator will:
- Contact the provider(s) and/or other party(ies) involved to discuss potential resolutions to the complaint. These could include formal mediation or intervention meetings.
- Resolve the complaint within 30 calendar days of the date that the complaint was filed.
- Notify, in writing, the provider(s) and/or other party(ies) involved of the outcome of the complaint within 2 business days of resolution.

In the event the person filing the complaint is not satisfied with the outcome or if a complaint is filed directly with TennCare, the complaint will be referred to the LTSS Quality and Administration Director of ID/DD Services or designee. A complaint is any allegation or charge against a party, an expression of discontent, or information as it pertains to wrong doing affecting the well-being of a person supported. All complaints will be maintained on a complaint log. Each HCBS waiver will have a separate log. Entries to the complaint log will include the following elements:
1. The name of the waiver participant(s)
2. Social security numbers of the participant(s) (if not available from the complainant, to be retrieved from the InterChange System)
3. The name and phone number of the individual reporting the complaint
4. The nature of the complaint(s) or problem(s)
5. The date the Department of Intellectual and Developmental Disabilities (DIDD) was notified of the complaint. If the complainant expressly requests that DIDD not be notified, the reason must be documented.
6. If the complaint is such that appeal rights are involved, documentation that the complainant was informed of such rights.
7. If appeal is requested by the complainant, documentation of the date of referral to the appropriate entity with request for a copy of the final directive.
8. Any actions taken to research, investigate, or resolve the complaint or problem, including dates of such action
9. The results of complaint investigations, including complaints that were validated and a general description of actions taken to resolve complaints (e.g., Corrective Action Plans)

Upon receiving a complaint, designated TennCare staff will determine from the complainant any provider or DIDD staff involved in resolving the issue prior to the complainant’s contact with TennCare and the extent to which prior DIDD or provider actions have been successful in resolving the problem.

If the complainant indicates that DIDD has been notified of the complaint/problem and has not responded timely or satisfactorily, TennCare staff will contact the appropriate DIDD staff by telephone within two (2) business days (unless requested not to do so by the complainant) to advise of the nature of the complaint and request that all information pertaining to the complaint be provided within five (5) business days, including any actions taken to resolve the complaint or problem as of the date of the contact.

A follow-up memo will be sent to DIDD via fax or mail to document the date of DIDD notification, the request for related DIDD information, and the expected date of receipt.

DIDD will be required to collect any requested information from involved providers and submit it to the TennCare Division of Long Term Services and Supports. Upon receipt of information regarding DIDD completed actions or anticipated actions, a determination will be made as to whether adequate steps have been or are being taken to resolve the issue.

TennCare and DIDD will work cooperatively to achieve complaint resolution. Once TennCare and appropriate DIDD staff have agreed on a course of action to resolve the problem, the complainant and any providers involved will be notified in writing of the proposed solution and expected date of resolution. Sufficient follow-up contacts to the complainant and DIDD will be made by TennCare LTSS Quality and Administration staff to determine if the problem has been adequately resolved. DIDD will be responsible for providing adequate follow-up documentation as requested by TennCare Waiver staff to document that the agreed upon actions were completed. All complaints filed with TennCare are expected to be resolved within 30 calendar days. DIDD will be required to provide written notification of complaint resolution to designated TennCare staff for and will be required to advise TennCare of any TennCare complaints for which resolution cannot be achieved within targeted timeframes. TennCare will continue to monitor remedial actions until it is determined that the problem is resolved and the complaint can be closed. Outstanding complaint cases will be discussed at the monthly TennCare/DIDD meetings.

The complainant will receive written notification from designated TennCare, including the data the complaint was considered resolved and closed, a summary of information discovered, and remedial actions taken.
DIDD Complaint Resolution System

DIDD utilizes staff from their Customer Focused Services Unit to receive complaints and work with waiver participants and their families, as well as contracted providers, to determine the appropriate actions needed to resolve complaints and ensure that actions are implemented in a timely manner (within a 30 calendar day targeted timeframe). Complaint coordination staff receive training in mediation techniques.

DIDD service providers are required to establish a complaint resolution system and inform persons supported and or their legal representative of this system and allow easy access when seeking assistance and answers for concerns and questions about the care being provided. Upon admission and periodically, DIDD service providers are required to notify each person supported and or their legal representative of their Complaint Resolution System, its purpose and the steps involved to access it.

Providers are asked to resolve all complaints in a timely manner, and within 30 calendar days of the date that the complaint was filed. In the event that a person supported and or their legal representative does not agree with a provider’s proposed resolution to a complaint, they may contact the DIDD Complaint Resolution Unit for assistance. The DIDD Regional Complaint Resolution Coordinator will subsequently contact the provider(s) and or other party(ies) involved to discuss potential resolutions to the complaint. This could include formal mediation or intervention meetings.

Additionally, independent support coordinators/case managers are required to notify individuals of their rights, including how to file a complaint, an explanation of their appeal rights and the process for requesting a fair hearing, upon enrollment into a waiver program.

Filing a complaint does not void an individual’s right to request a fair hearing in accordance with 42 CFR Part 431, Subpart E, nor is it a prerequisite for a fair hearing.

DIDD collects information regarding waiver participant familiarity with the complaint process through the participant satisfaction survey. Information collected is compiled and reported to TennCare in the monthly Quality Management Report. Data files, which are available to TennCare upon request, are also completed by DIDD Complaint Resolution Staff for each complaint with data detailing the number and type of complaints received, referral sources, remedial actions, and timeframes for achieving resolution. TennCare monitors DIDD complaint remedial actions on a monthly basis through the Quality Monitoring Report and advises DIDD of any that require further action.

Appendix G: Participant Safeguards

Appendix G-1: Response to Critical Events or Incidents

a. Critical Event or Incident Reporting and Management Process. Indicate whether the state operates Critical Event or Incident Reporting and Management Process that enables the state to collect information on sentinel events occurring in the waiver program. Select one:

- ☑ Yes. The state operates a Critical Event or Incident Reporting and Management Process (complete Items b through e)
- ☐ No. This Appendix does not apply (do not complete Items b through e)

If the state does not operate a Critical Event or Incident Reporting and Management Process, describe the process that the state uses to elicit information on the health and welfare of individuals served through the program.

b. State Critical Event or Incident Reporting Requirements. Specify the types of critical events or incidents (including alleged abuse, neglect and exploitation) that the state requires to be reported for review and follow-up action by an appropriate authority, the individuals and/or entities that are required to report such events and incidents and the timelines for reporting. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).
The Department of Intellectual and Developmental Disabilities (DIDD) requires reporting of all incidents classified as “Reportable. This applies to employees and volunteers of contracted service providers, as well as DIDD employees who witness or discover such an incident. Critical events categorized as abuse, neglect, exploitation, suspicious injury, serious injury of unknown cause and unexpected/unexplained deaths are required to be reported to the DIDD Investigations hotline within four (4) hours of the discovery of the incident. The incident can be reported by telephone, email, and fax or in person. Within one (1) business day, the incident is reported by email or fax to DIDD Central Office and the ISC Agency/Support Coordinator using a Reportable Incident Form. For incidents that are not reported as abuse, neglect, exploitation, suspicious injury, serious injury of unknown cause or unexpected or unexplained death, a next business day reporting requirement is in place. Those incidents are reported via the Reportable Incident Form by email or fax. The hotline number and Reportable Incident Form are located on the DIDD Website.

If a provider reports an allegation of abuse, neglect or exploitation, they are required by State law to contact the appropriate authorities such as Adult Protective Services, Child Protective Services or law enforcement.

c. Participant Training and Education. Describe how training and/or information is provided to participants (and/or families or legal representatives, as appropriate) concerning protections from abuse, neglect, and exploitation, including how participants (and/or families or legal representatives, as appropriate) can notify appropriate authorities or entities when the participant may have experienced abuse, neglect or exploitation.

Participants and their families or legal representatives are provided the DIDD Family Resource Guide which includes information on how to report abuse, neglect, and exploitation to DIDD. The document is also posted on the DIDD website.

DIDD provides ongoing training for providers which include information on how to identify and who to contact when there is an allegation of abuse, neglect or exploitation. Providers use information from this training to educate persons supported and family members upon admission into their services. The Independent Support Coordinator is in regular contact with the person and their family and available to provide information should the need arise. Additional information is also provided via posters and signs which are visibly posted and which outline the same practices taught in the original training. Finally, training is also provided on an as requested basis.

d. Responsibility for Review of and Response to Critical Events or Incidents. Specify the entity (or entities) that receives reports of critical events or incidents specified in item G-1-a, the methods that are employed to evaluate such reports, and the processes and time-frames for responding to critical events or incidents, including conducting investigations.
The DIDD Protection From Harm Unit receives allegations of abuse, neglect, exploitation, serious injuries of unknown cause and suspicious deaths. All such incidents are investigated by trained DIDD investigators who interview the participant, service provider, and all available witnesses. The DIDD investigators examine the incident scene and collect other available relevant circumstantial evidence (written statements, expert medical opinions as needed, etc.). Based on the preponderance of the cited evidence, each allegation is determined to either be substantiated or unsubstantiated, and a formal written Investigation Report is generally completed within 30 calendar days of the allegation being witnessed or discovered. (In some extraordinary situations, such as a pending criminal investigation, the DIDD investigation may take longer than 30 calendar days. DIDD requires the waiver service provider to develop and implement a written management plan that addresses the issues and conclusions specified in the DIDD Investigations report within 14 calendar days of the completion of the Investigation Report.

For all other “Reportable Incidents”, DIDD requires the person witnessing or discovering the incident to ensure that a written incident report form is forwarded to the responsible waiver service provider and to DIDD. The service provider is required by DIDD to have incident management processes and personnel in place sufficient to review and respond to all “Reportable Incidents”. The service provider is required to ensure that the incident and the initial response to the incident are documented on the incident report form, to review all provider incidents are reviewed immediately and discussed during biweekly meetings for the purpose of identifying any additional actions needed, and to organize all incident information in a way that would facilitate the identification of at-risk participants as well as other trends and patterns that could be used in agency-level incident prevention initiatives.

The relevant parties of an investigation are notified of the results of an investigation via the following:
1. DIDD will send a final DIDD Investigation Report, as well as, a DIDD Summary of Investigation Report to the Executive Director and when applicable, to the Chair of the Board of Directors of the provider(s) responsible for the person(s) supported involved.
2. The DIDD Summary of Investigation Report will be sent to the support coordination provider/DIDD case manager for all persons supported involved in the incident.
3. The provider will be expected to document reasonable attempts to notify alleged perpetrator(s) of the outcome of the investigation.
4. Within fifteen (15) business days of receipt of the DIDD Summary of Investigation Report, the summary shall be discussed with the person(s) supported involved to the extent possible (if a legal representative has been appointed, the legal representative shall be invited to participate), with such discussion conducted by a representative of the provider who supports the person. The provider will document the date and time of this discussion and the efforts to coordinate the meeting with the legal representative, as applicable.

**e. Responsibility for Oversight of Critical Incidents and Events.** Identify the state agency (or agencies) responsible for overseeing the reporting of and response to critical incidents or events that affect waiver participants, how this oversight is conducted, and how frequently.
The Department of Intellectual and Developmental Disabilities (DIDD) is the agency responsible for overseeing the reporting of and response to all “Reportable Incidents”.

Investigation reports involving allegations of abuse, neglect, or exploitation are reviewed by the DIDD Director of Investigations and are available for review by the Division of TennCare.

All “Reportable Incidents” received by DIDD are reviewed for completeness of information (with follow-up for more information if needed), are categorized according to written criteria, and are entered into an electronic database. This database provides data management capabilities including the ability to:

1. Generate “alerts” of individual incidents to designated DIDD staff for follow-up as needed;
2. Support reporting to external entities (e.g., TennCare); and
3. Support internal DIDD trends analysis and reporting functions such as:
   a. Identification of at-risk participants;
   b. Identification of employees or contract staff with multiple episodes of substantiated abuse, neglect, and exploitation allowing voluntary screening of prospective employees by service providers during the hiring process;
   c. Identification of at-risk situations (e.g., data on injuries from falls);
   d. Creating a detailed profile of identified service providers, with information about reportable incidents related to that provider, and for comparison between service providers; and
   e. Distribution of monthly reports to DIDD management and other staff.

All Incident and Investigation reports completed by DIDD are available for TennCare review. Monthly data files and Quality Management Reports are submitted to TennCare containing information about the number and types of critical incidents reported, the number of investigations initiated and completed, the number and percentage of substantiated allegations, and time frames for completion of investigations. TennCare reviews incident and investigation data to ensure appropriate and timely remediation of identified findings. TennCare notifies DIDD, on a monthly basis, of any investigation findings that are not acceptably remediated. DIDD is required to provide additional information and/or take additional remedial action until TennCare can determine that appropriate remediation has taken place.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (1 of 3)

a. Use of Restraints. (Select one): (For waiver actions submitted before March 2014, responses in Appendix G-2-a will display information for both restraints and seclusion. For most waiver actions submitted after March 2014, responses regarding seclusion appear in Appendix G-2-c.)

☒ The state does not permit or prohibits the use of restraints

Specify the state agency (or agencies) responsible for detecting the unauthorized use of restraints and how this oversight is conducted and its frequency:

☒ The use of restraints is permitted during the course of the delivery of waiver services. Complete Items G-2-a-i and G-2-a-ii.

   i. Safeguards Concerning the Use of Restraints. Specify the safeguards that the state has established concerning the use of each type of restraint (i.e., personal restraints, drugs used as restraints, mechanical restraints). State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).
The use of seclusion is prohibited.

All take-downs and prone restraints are prohibited.

Except for emergency situations that could not have been anticipated in which a restraint is needed to ensure the health and safety of the person or others, restraints may be utilized only as specified below, and with documentation in the person-centered plan of the following: the person’s specific, individualized assessed need; the positive interventions and supports that are used prior to the use of restraints; the less intrusive methods of meeting the need that have been tried but did not work; a clear description of the condition that is directly proportionate to the specific assessed need; a requirement for regular collection and review of data to measure the ongoing effectiveness of the modification; established time limits for periodic reviews to determine if the modification is still necessary or can be terminated; and an assurance that interventions and supports will cause no harm to the individual.

When any restraint is used to ensure the health and safety of the person or others that was not anticipated, it will trigger notification to the Circle of Support, and the review and revision of the ISP as appropriate, and as reflected above to address its use going forward.

When any behavior-related restraint is used, regardless of length of time used, type or approved by a plan, it must be reported as a critical incident.

Restraints, including chemical restraints, may be used only when necessary to protect the participant or others from harm and when less intrusive methods have been ineffective. Take-downs and horizontal restraint are prohibited. The following mechanical restraints are prohibited: restraint vest, camisoles, body wrap, devices that are used to tie or secure a wrist or ankle to prevent movement, restraint chairs or chairs with devices that prevent movement, and removal of a person’s mobility aids such as a wheelchair or walker.

Staff are required to use positive proactive and reactive strategies for preventing and minimizing the intensity and risk factors presented by an individual’s behavior whenever possible in order to minimize the use of personal and mechanical restraint. Interventions that should be employed prior to the use of restraints must be documented in the person centered ISP. Staff must be trained on the use of positive interventions and document that positive interventions were employed prior to the use of restraints.

Emergency personal restraint, mechanical restraint, or emergency medication (chemical restraint) is used only as a last resort to protect the person or others from harm. The use of emergency personal restraints or mechanical restraints requires proper authorization, is limited to the time period during which it is absolutely necessary to protect the individual or others, and is not permitted as a punishment by staff, for staff convenience, or in lieu of person-centered programmatic services. The provider agency director or designee must ensure that staff are able to correctly apply the emergency personal restraint or mechanical restraint.

Time period limitations for the use of restraints will be determined on an individual basis. The modification will be assessed at the end of each individualized time period to determine if continued authorization is needed or if the use of restraints can be terminated and other methods can be utilized. Such determinations shall be made with appropriate agency staff including management and direct support staff as well as the behavior analyst and, as necessary, members of the Circle of Support as well as anyone else the individual or their representative wishes to include.

In cases where a behavior analyst assesses the level of behavior need and risk factors and the planning team concurs, the use of personal or manual restraint may be specified only as a Specialized Behavioral Safety Intervention for use in emergency circumstances, and not as an ongoing intervention or treatment in a behavior support plan that is reviewed and approved by the Circle of Support, including the person supported and his/her guardian/conservator, as applicable. Such use of restraint must be justified as a necessary component of the least restrictive, most effective behavioral intervention. The use of personal or manual restraint is limited to the time period during which it is absolutely necessary to protect the individual or others and is not permitted as a punishment by staff, for staff convenience, or in lieu of person-centered programmatic services. Provider staff who are responsible for carrying out the behavior support plan must be trained on the plan prior to implementation.
Emergency use of personal restraint or mechanical restraint constitutes a reportable incident and as such must comply with DIDD reporting procedures. The independent support coordinator must be notified of each use of emergency personal or mechanical restraint within 1 business day.

The use of a psychotropic medication requires a formal diagnosis and informed consent from the persons supported or their legal representative. In addition, the use of psychotropic medications requires review by a human rights committee. When emergency psychotropic medications are administered pursuant to physician’s orders, a Reportable Incident Form must be completed and submitted.

Agencies must provide staff training in the area of proactive and reactive supports and restraints adequate to support individuals for whom they are responsible. Quality Assurance standards require that each staff member supporting a person with an approved personal safety system is provided training on its use. Agencies are required to show proof of this training during QA surveys.

**ii. State Oversight Responsibility.** Specify the state agency (or agencies) responsible for overseeing the use of restraints and ensuring that state safeguards concerning their use are followed and how such oversight is conducted and its frequency:

DIDD, the contracted operating agency, is responsible for overseeing the use of restraints and ensuring that State safeguards concerning their use are followed.

In the 2015 renewal application and in response to CMS modifications regarding waiver assurances and sub-assurances released in March 2014, the State modified its Quality Strategy to include performance measures specifically designed to facilitate discovery and remediation of any use of prohibited restrictive interventions as well as the inappropriate use of restrictive interventions. New performance measures more closely reflect the State’s monitoring and prevention efforts around these restrictive interventions.

Two new measures pertain specifically to restraints and other restrictive interventions:

a.i.22 Number and percentage of Behavior Support Plans (BSPs) that comply with State policies and procedures regarding the use of restrictive interventions.

This involves a 100% review of all Behavior Support Plans that include any restrictive intervention by the DIDD Director of Behavioral and Psychological Services.

a.i.23 Number and percentage of reported critical incidents NOT involving use of prohibited restrictive interventions.

This involves a 100% review of all incidents reported in the DIDD Incident and Investigations Database on an ongoing basis.

Any instances of the use of prohibited restrictive interventions or other inappropriate use of restrictive interventions will be promptly remediated.

**Appendix G: Participant Safeguards**

**Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (2 of 3)**

**b. Use of Restrictive Interventions. (Select one):**

- The state does not permit or prohibits the use of restrictive interventions

Specify the state agency (or agencies) responsible for detecting the unauthorized use of restrictive interventions and how this oversight is conducted and its frequency:
The use of restrictive interventions is permitted during the course of the delivery of waiver services. Complete Items G-2-b-i and G-2-b-ii.

i. Safeguards Concerning the Use of Restrictive Interventions. Specify the safeguards that the state has in effect concerning the use of interventions that restrict participant movement, participant access to other individuals, locations or activities, restrict participant rights or employ aversive methods (not including restraints or seclusion) to modify behavior. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency.
Restrictive interventions may be utilized only as specified below, and with documentation in the person-centered plan of the following: the person’s specific, individualized assessed need; the positive interventions and supports that are used prior to the use of restrictive interventions; the less intrusive methods of meeting the need that have been tried but did not work; a clear description of the condition that is directly proportionate to the specific assessed need; a requirement for regular collection and review of data to measure the ongoing effectiveness of the modification; established time limits for periodic reviews to determine if the modification is still necessary or can be terminated; and an assurance that interventions and supports will cause no harm to the individual.

Restrictive interventions are only implemented as part of a behavior support plan approved by a Behavior Support Committee and a Human Rights Committee and after informed written consent has been obtained from the person supported or the person’s legal representative. The emphasis, however, is placed on developing effective behavior support plans that do not require the use of restrictive interventions. Person centered ISPs shall document positive interventions that are to be employed prior to the use of restrictive interventions. Staff must be trained on the use of positive interventions and document that positive interventions were employed prior to the use of restrictive interventions. If the use of restrictive interventions is required, such use is reevaluated with the goal of reducing or eliminating the continued use of the intervention as clinical progress permits.

The following types of restricted interventions are permitted:
1. Contingent effort;
2. Escape extinction;
3. Non-exclusion and *exclusion time-out;
4. Negative practice;
5. Contingent use of personal property or freedoms;
6. Delay of meals;
8. Overcorrection, positive practice;
9. Response cost;
10. Satiation;
11. Substitution of food/meals;
12. *Mechanical restraint;
13. *Protective equipment;
14. Required (forced) relaxation; or
15. Sensory extinction.

*Restraints and protective equipment may be used only when necessary to protect the person supported or others from harm and when less intrusive methods have been ineffective. The application of restraint or protective equipment and exclusionary time-out to a specific location must be implemented carefully to ensure protection from harm and to protect the person’s rights.

Behavior support plans including restricted interventions must be written by a DIDD approved Behavior Analyst. In special cases, the behavior analyst may request a variance from current policies given a person’s unique needs. A variance must be included in a behavior support plan and must be reviewed and approved by the individual and/or guardian or conservator, the Circle of Support, a Behavior Support Committee and Human Rights Committee, and by the Director of Behavior and Psychological Services. Final authorization must be provided by the Commissioner of the Department of Intellectual and Developmental Disabilities or designee.

The application review and approval process for behavior services providers is managed by the DIDD Director of Behavior and Psychological Services. Behavior analysts must have board certification as a behavior analyst (BCBA) to be approved, although providers with a graduate degree and a minimum of 12 graduate hours in behavior analysis are “grandfathered” pending a transition period to obtain such certification. Courses must focus upon behavior analysis, rather than more generic topics in the discipline for which the graduate degree was awarded. The courses should address the following issues in applied behavior analysis: ethical considerations in the practice of applied behavior analysis; definitions, characteristics, principles, processes and concepts related to applied behavior analysis; behavioral assessment
and the selection of intervention strategies and outcomes; experimental evaluation of interventions; measurement of behavior and displaying/interpreting behavioral data; behavioral change procedures and systems support.

A DIDD approved behavior analyst must complete DIDD required training courses as specified in the Provider Manual and DIDD Staff Development plan. Once the behavior support plan has been developed by the behavior analyst, direct support staff are required to receive training on the implementation of the behavior support plan prior to working with the person supported.

All incidents involving the use of restraints are reported through the DIDD incident management system. Regional Office Behavior Analysis staff routinely (daily, weekly, monthly, annually) review incident reports to determine inappropriate or excessive use of restraint. When inappropriate or excessive use is identified, Regional Office Behavior Analysts investigate and follow up to ensure appropriate actions are taken to address any emerging problems. Examples of actions that might be taken include encouraging the person’s circle of support to discuss retaining the services of a behavior analyst or reviewing an existing behavior support plan to determine what types of adjustments might be appropriate.

Agencies must provide staff training adequate to support individuals under their care. Quality Assurance standards require that each staff member supporting a person with an approved personal safety system is provided training on its use. Agencies are required to show proof of this training during QA surveys.

**ii. State Oversight Responsibility.** Specify the state agency (or agencies) responsible for monitoring and overseeing the use of restrictive interventions and how this oversight is conducted and its frequency:

DIDD, the contracted operating agency, is responsible for monitoring and overseeing the use of restrictive interventions.

In this renewal application and in response to CMS modifications regarding waiver assurances and sub-assurances released in March 2014, the State modified its Quality Strategy to include performance measures specifically designed to facilitate discovery and remediation of the inappropriate use of restrictive interventions. New performance measures more closely reflect the State’s monitoring and prevention efforts around these restrictive interventions.

Two new measures pertain specifically to seclusion and other restrictive interventions:

a.i.22 Number and percentage of Behavior Support Plans (BSPs) that comply with State policies and procedures regarding the use of restrictive interventions.

This involves a 100% review of all Behavior Support Plans that include any restrictive intervention by the DIDD Director of Behavioral and Psychological Services.

a.i.23 Number and percentage of reported critical incidents NOT involving use of prohibited restrictive interventions.

This involves a 100% review of all incidents reported in the DIDD Incident and Investigations Database on an ongoing basis.

Any instances of the inappropriate use of restrictive interventions will be promptly remediated.

---

Appendix G: Participant Safeguards

**Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (3 of 3)**

**c. Use of Seclusion.** (Select one): (This section will be blank for waivers submitted before Appendix G-2-c was added to WMS in March 2014, and responses for seclusion will display in Appendix G-2-a combined with information on restraints.)
The state does not permit or prohibits the use of seclusion

Specify the state agency (or agencies) responsible for detecting the unauthorized use of seclusion and how this oversight is conducted and its frequency:

DIDDD, the contracted operating agency, is responsible for detecting the unauthorized use of seclusion.

In response to CMS modifications regarding waiver assurances and sub-assurances released in March 2014, the State modified its Quality Strategy to include performance measures specifically designed to facilitate discovery and remediation of the use of seclusion as well as the inappropriate use of other restrictive interventions. New performance measures more closely reflect the State’s monitoring and prevention efforts around these restrictive interventions.

The use of seclusion is permitted during the course of the delivery of waiver services. Complete Items G-2-c-i and G-2-c-ii.

i. Safeguards Concerning the Use of Seclusion. Specify the safeguards that the state has established concerning the use of each type of seclusion. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

ii. State Oversight Responsibility. Specify the state agency (or agencies) responsible for overseeing the use of seclusion and ensuring that state safeguards concerning their use are followed and how such oversight is conducted and its frequency:

Appendix G: Participant Safeguards

Appendix G-3: Medication Management and Administration (1 of 2)

This Appendix must be completed when waiver services are furnished to participants who are served in licensed or unlicensed living arrangements where a provider has round-the-clock responsibility for the health and welfare of residents. The Appendix does not need to be completed when waiver participants are served exclusively in their own personal residences or in the home of a family member.

a. Applicability. Select one:

- No. This Appendix is not applicable *(do not complete the remaining items)*
- Yes. This Appendix applies *(complete the remaining items)*

b. Medication Management and Follow-Up

i. Responsibility. Specify the entity (or entities) that have ongoing responsibility for monitoring participant medication regimens, the methods for conducting monitoring, and the frequency of monitoring.
All waiver service providers employing staff who administer medications to persons supported have ongoing responsibility for monitoring to ensure that medications are correctly administered and that medication administration is appropriately documented in accordance with DIDD requirements. Providers must have written policies and procedures for medication administration and implementation of such policies is evaluated during annual DIDD Provider Performance Surveys. On an ongoing basis, providers are required to report medication variances that have caused, or are likely to cause harm to a person supported. DIDD Regional Office staff receive and review reportable incident forms for completeness and determination of the nature of the incident. DIDD monitors for medication variance trends utilizing data from the Incident and Investigations database.

During DIDD Provider Performance Surveys, DIDD Regional Quality Assurance surveyors review a sample of person’s Medication Administration Records to identify potentially harmful practices and to ensure compliance with medication administration documentation requirements. Medication variance reports are also reviewed. Provider medication management policies and practices are reviewed to ensure that:

a. The Medication Administration Record correctly lists all medications taken by the person supported;
b. The Medication Administration Record is updated, signed, and maintained in compliance with DIDD medication administration documentation requirements;
c. All medications are administered in accordance with prescriber’s orders;
d. Medications are administered by medication administration certified staff;
e. Medications are kept separated for each person supported and are stored safely, securely, and under appropriate environmental conditions.

If a person supported is using a behavior modifying medication (including psychotropic medications, the DIDD Regional Quality Assurance surveyors will determine whether (1) there is documentation of voluntary, informed consent for the use of the medication; (2) the persons supported or the person’s family member or guardian/conservator was provided information about the risks and benefits of the medication; and (3) the use of a behavior modifying medication as a restricted intervention was reviewed by Behavior Support and/or Human Rights Committees.

Personnel records are reviewed to ensure that licensed staff who administer medications are appropriately licensed and that unlicensed staff who are permitted by state law to administer medications have documentation of completion of current medication administration certification.

ii. Methods of State Oversight and Follow-Up. Describe: (a) the method(s) that the state uses to ensure that participant medications are managed appropriately, including: (a) the identification of potentially harmful practices (e.g., the concurrent use of contraindicated medications); (b) the method(s) for following up on potentially harmful practices; and, (c) the state agency (or agencies) that is responsible for follow-up and oversight.

DIDD is responsible for oversight of medication management. During annual Provider Performance Surveys, DIDD reviews the person supported Medication Administration Record (MAR) to identify potentially harmful practices and to ensure compliance with documentation requirements. Medication variance reports are reviewed. Personal Records are reviewed to ensure that licensed staff who administer medications are appropriately licensed and that unlicensed staff who are permitted by state law to administer medications have documentation of current medication administration certification. When the DIDD quality assurance surveyors identify potentially harmful medication administration/management practices, the surveyors notify the provider during the survey and then review such issues during the exit conference at the end of the survey. In addition, the provider is notified in writing of any problems identified during the survey, and the provider is required to take appropriate action to resolve such problems in a timely manner. When deficiencies are identified, the DIDD Regional Director is notified and is responsible for ensuring that DIDD Regional Office staff follow up to verify timely and appropriate resolution.

Providers are required to complete a reportable incident form for medication variances as specified by DIDD, and a copy of the DIDD Medication Variance Report is submitted with the RIF. In all cases, medication administration by a person who was not trained and certified, or was not licensed by the State of Tennessee to administer medications requires notification to the DIDD Investigations Hotline. Provider agencies are responsible for identifying medication variance trends. Agencies with systemic performance issues identified regarding medication administration during the annual quality assurance survey are discussed during the monthly State Quality Management Committee Meeting.
c. Medication Administration by Waiver Providers

i. Provider Administration of Medications. Select one:

- Not applicable. (do not complete the remaining items)
- Waiver providers are responsible for the administration of medications to waiver participants who cannot self-administer and/or have responsibility to oversee participant self-administration of medications. (complete the remaining items)

ii. State Policy. Summarize the state policies that apply to the administration of medications by waiver providers or waiver provider responsibilities when participants self-administer medications, including (if applicable) policies concerning medication administration by non-medical waiver provider personnel. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

The Nurse Practice Act in Tennessee generally prohibits administration of medication by unlicensed individuals. There is, however, a statutory exemption for providers who administer medications to individuals receiving services through the Department of Intellectual and Developmental Disabilities (DIDD). This exemption permits certain unlicensed direct support staff to administer medications after successfully completing medication administration certification developed by DIDD. After completing the training program, the individual may administer medications within specified parameters and in accordance with the prescriber’s order; however, the individual is not permitted to administer medications when such administration requires judgment, evaluation, or assessment before the medication is administered. The individual must make a written record of any medication that is administered, including the time and amount taken.

iii. Medication Error Reporting. Select one of the following:

- Providers that are responsible for medication administration are required to both record and report medication errors to a state agency (or agencies).

Complete the following three items:

(a) Specify state agency (or agencies) to which errors are reported:

The provider agency is required to complete the approved DIDD incident form used to report medication variances as specified by DIDD. This form includes information that specifies the name of the physician notified and the date and time of notification. Specified medication variances are reported to DIDD. DIDD reviews medication variance reports monthly to determine trends that must be addressed with contracted providers or systemically.

(b) Specify the types of medication errors that providers are required to record:

Providers are required to record a medication variance whenever a medication was given in a way that was not consistent with the prescriber’s orders, including the following:

1. Medication was given to the wrong person;
2. Medication was given at the wrong time;
3. Wrong dose of medication was given;
4. Wrong form of medication was given (e.g., tablet instead of liquid form);
5. Wrong medication was given;
6. Medication was given by the wrong route of administration;
7. Failure to give the medication; or
8. Medication was not prepared according to the physician’s orders (e.g., was not crushed).
(c) Specify the types of medication errors that providers must report to the state:

A medication variance must be reported if it:
1. Requires intervention and caused, or is likely to cause, the person temporary harm;
2. Caused, or is likely to cause, temporary harm requiring hospitalization;
3. Caused, or is likely to cause, permanent harm to the person;
4. Resulted in a near death event (e.g., anaphylaxis, cardiac arrest); or
5. Resulted in or contributed to the person’s death.

Providers responsible for medication administration are required to record medication errors but make information about medication errors available only when requested by the state.

Specify the types of medication errors that providers are required to record:

iv. State Oversight Responsibility. Specify the state agency (or agencies) responsible for monitoring the performance of waiver providers in the administration of medications to waiver participants and how monitoring is performed and its frequency.
The state agency responsible for monitoring the performance of waiver providers in the administration of medications to persons supported Department of Intellectual and Developmental Disabilities (DIDD). Provider Performance Surveys are conducted annually by the DIDD Regional Quality Assurance Units to assess the performance of waiver providers in the administration of medications. All waiver service providers who administer medications to persons supported are subject to Provider Performance Surveys and are monitored annually unless they meet established criteria for reduced frequency of monitoring. During Provider Performance Surveys, DIDD Regional Office nurses serve as consultants to non-nurse surveyors.

The following Quality Assurance Indicators are evaluated during Provider Performance Surveys:

1. Medication variances are reported and addressed in a timely manner. Compliance with requirements to detect, respond to, and report medication variances in accordance with DIDD policy and procedures is assessed. Surveyors determine if the agency has developed and implemented effective procedures for oversight of medication administration and reporting medication variances.

2. The provider analyzes trends in medication variances and implements prevention strategies. Monitoring is conducted to assess compliance with the requirement that the agency has policies and procedures in place for tracking and trending medication variances that include implementation of prevention strategies. Reviews are conducted to assess whether the agency has a self-assessment process to review medication administration variance; whether the agency reviews recommendations resulting from monitoring; and whether the agency has implemented corrective action in response to recommendations.

3. The person's record adequately reflects all the medications taken by the person. Surveyors assess whether current prescriber's orders are present for each medication received by the person supported.

4. Needed medications are provided and administered in accordance with prescriber’s orders. Surveyors assess documentation of medication administration or refusal, identification of medication variances with required action being taken, and monitoring of medication self-administration.

5. Only appropriately certified staff administer medication. Surveyors assess whether licensed staff who administer medications have a current license, unlicensed staff who administer medications have received appropriate training, whether there has been appropriate delegation of medication administration by a registered nurse, and whether the provider conducts ongoing monitoring of staff administering medications.

6. Medication administration records are appropriately maintained. Surveyors assess compliance with the requirement that agencies must develop and implement procedures for oversight and completion of the Medication Administration Records. Surveyors also assess compliance with the requirement that providers must maintain information on medication side-effects and that the MAR matches prescription labels and prescriber’s orders.

7. Storage of medication ensures appropriate access, security, separation, and environmental conditions. Surveyors assess the provider's compliance with the requirement that provider medication administration policy address procedures for and monitoring of medication storage and disposal.

Appendix G: Participant Safeguards

Quality Improvement: Health and Welfare

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

The state demonstrates it has designed and implemented an effective system for assuring waiver participant health and welfare. (For waiver actions submitted before June 1, 2014, this assurance read "The State, on an ongoing basis, identifies, addresses, and seeks to prevent the occurrence of abuse, neglect and exploitation.")

i. Sub-Assurances:

   a. Sub-Assurance: The state demonstrates on an ongoing basis that it identifies, addresses and seeks to prevent instances of abuse, neglect, exploitation and unexplained death. (Performance measures in this sub-assurance include all Appendix G performance measures for waiver actions submitted before June 1, 2014.)

   Performance Measures
For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:
a.i.3. # and % of participant satisfaction survey respondents who reported being treated well by direct support staff. (DIDD People Talking to People Survey question: Do your support staff treat you well or with respect?) % = # of survey respondents who reported being treated well by direct support staff / total # of waiver participants in the sample who responded to this survey question.

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.
Performance Measures a.i.1 and a.i.11: A representative sample of waiver participants will be generated at the beginning of the waiver year. The sample will be divided as evenly as possible to collect data during the following twelve (12) months. For each waiver participant included in the sample, Waiver Individual Record Reviews will be conducted by designated DIDD Regional Office staff.

Performance Measures a.i.2, a.i.3 and a.i.4: Data will be generated by contracted interviewers who complete DIDD People Talking to People Consumer Satisfaction Surveys. Interviewers are trained prior to conducting surveys regarding DIDD policies and procedures for identifying and reporting complaints and incidences of abuse, neglect, and exploitation.

Performance Measures a.i.8, a.i.9, a.i.13 and a.i.23: Data describing reportable critical incidents and investigations is entered on an ongoing basis into the DIDD Incident and Investigation Database. Monthly reports are generated that include data describing critical incidents reported and investigations initiated/completed during the month. This data will be compiled by designated DIDD staff and analyzed and trended monthly, year-to-date, and annually by DIDD Regional and State Quality Management Committees. DIDD also performs death reviews. Waiver service providers are required to report any death that is or may be a Suspicious, Unexpected, or Unexplained Death within four hours of discovery to designated DIDD Regional Office staff who record the circumstances of the death. Within one business day of the date of the death, a Notice of Death form must be completed by the waiver service provider and submitted to the DIDD Regional Director. Upon receipt of a Notice of Death form, the DIDD Regional Director or designee schedules a Preliminary Death Review Committee meeting. Within five business days of receipt of the Notice of Death, the Preliminary Death Review Committee shall perform a preliminary death review to determine if the death was Suspicious, Unexpected, or Unexplained. Any death determined to be Suspicious, Unexpected, or Unexplained shall trigger a DIDD Investigation, the preparation of a Clinical Death Summary, and a DIDD Death Review. The purpose of a DIDD Death Review is to conduct a comprehensive analysis of the relevant facts and circumstances, including the medical care provided, to identify practices or conditions which may have contributed to the death and to make recommendations, where necessary, to prevent similar occurrences. Although performance measures a.i.9 and a.i.13 will no longer be reported with the 2020 Renewal, as requested by CMS in the Final Quality Reports, the state will continue using the strategies outlined above to collect, track, and analyze monthly data related to deaths and substantiated investigations.

Performance Measures a.i.17: Complaints filed with TennCare are referred to DIDD for resolution and are tracked on the DIDD Complaint Log. The DIDD Customer Focused Government Unit is responsible for reporting complaint resolution strategies and timeframes required for complaint resolution to the DIDD Complaint Coordinator. Complaints are expected to be resolved within 30 calendar days of referral. Performance Measures a.i.10 and a.i.19: DIDD Regional Office Investigations Follow-up staff are responsible for verifying that appropriate corrective actions were completed within 45 days of issuance of the investigation findings.

Performance Measures a.i.22 and a.i.25 are reviewed during DIDD Quality Assurance (QA) Surveys. QA Surveys are conducted on 100% of providers annually. A sample of providers is generated each month.

b. Methods for Remediation/Fixing Individual Problems

i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.
Performance Measures a.i.1: When waiver participants are identified who have not received timely medical examinations, DIDD Regional Office staff will notify the Support Coordinator and any other providers, as applicable, to appropriately facilitate completion of a medical examination. Completion of the medical examination is expected within 30 days. Support Coordination and other provider agencies, as applicable, will be held accountable for taking appropriate personnel actions within 30 days to address individual DIDD case manager job performance, including, but not limited to training and retraining, verbal or written warning, suspension or termination. Support Coordination and other provider agencies, as applicable, will be required to report resolution dates to DIDD monthly.

Performance Measures a.i.2, a.i.3 and a.i.4: When individuals do not know how to report complaints, the satisfaction survey interviewer will provide the appropriate information. The DIDD People Talking to People Director or designee will contact the waiver participant and/or person assisting the waiver participant who received complaint reporting instruction within 60 days to verify that the person who received information knows how to report complaints and has the appropriate written resources describing reporting processes. On a monthly basis, the DIDD People Talking to People Director will report information regarding the number of survey respondents who did not know how to appropriately report a complaint, as well as education provided and verifications completed, to DIDD Central Office staff responsible for data aggregation.

When waiver participants report that they have not been treated well or are dissatisfied with the amount of privacy allowed, the interviewer will determine how circumstances failed to meet expectations, when any specific event(s) described happened, and if the waiver participant wants to file a complaint or take other action, such as attending self-advocacy meetings or amending the Individual Support Plan. Negative responses to participant survey questions will be reported to the DIDD People Talking to People Director within three working days. The DIDD People Talking to People Director will ensure that a complaint is filed, if appropriate and in accordance with the waiver participant’s wishes. The DIDD People Talking to People Director will track resolution of issues identified, as well as timeframes to achieve resolution. Complaints filed will be resolved in accordance with DIDD complaint resolution processes. DIDD’s goal is to resolve complaint issues within a 30 day time frame. Monthly information about complaints and complaint resolution, including types of complaint and referral sources, will be reported to DIDD Central Office staff responsible for data aggregation.

Performance Measures a.i.8, a.i.9, a.i.13 and a.i.19: Individual issues identified during DIDD investigations are reported to involved providers, who are required to respond within 30 days to identify corrective actions to be taken. DIDD Regional Office Investigations Follow-up staff are responsible for verifying that appropriate corrective actions were completed within 45 days of issuance of the investigation findings. Investigations results and follow-up actions will be reported monthly to DIDD Central Office staff responsible for data aggregation.

DIDD Death Reviews are conducted within 45 business days of the individual’s death; however, the time period may be extended by the DIDD Deputy Commissioner for good cause. The Regional Death Review Committee conducts a Death Review of any death determined to be Suspicious, Unexpected, or Unexplained and prepares detailed minutes including conclusions and recommendations for corrective actions. DIDD Regional Office staff ensure that the appropriate providers receive copies of the Committee’s conclusions and recommendations. DIDD Regional Office Staff verify whether provider corrective actions are appropriately implemented within 45 days of the date the written conclusions/recommendations are.

Performance Measure a.i.11: When unreported critical incidents are identified, the reviewer will immediately contact the appropriate provider to request that a late report be filed within two working days and will verify that the complaint was actually filed either by observing the completed report and evidence of submission or by verifying receipt of the report with appropriate Regional Office staff. Failure to file timely critical incident reports may result in provider sanctions as specified in the Provider Agreement. The number of unreported critical incidents discovered will be reported by reviewers via entry into a database that is used by DIDD Central Office staff for data aggregation. Both a DIDD monthly Quality Management Reports and data files containing discovery and remediation data are submitted to TennCare.

Performance Measure a.i.20, a.i.21: When providers cannot demonstrate, during their annual Quality Assurance survey, that they regularly review their critical incidents, DIDD issues a ‘finding’ and requires remediation within 30 days. Likewise, when providers cannot demonstrate that they are implementing corrective actions outlined in their Plans of Correction related to substantiated incidents, DIDD will report those instances.
Performance Measure a.i.22: The DIDD Director of Behavioral Services will review behavior support plans (BSPs) to ensure that they comply with state policies and procedures related to restrictive interventions.

Performance Measure a.i.23: The number of critical incidents that involve the use of prohibited interventions will be tracked and reported.

Performance Measure a.i.25: When providers are not able to provide evidence of people whose emerging health problems or issues are being addressed by provider staff, DIDD will issue a finding.

### ii. Remediation Data Aggregation

**c. Timelines**

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Health and Welfare that are currently non-operational.

☐ No
☐ Yes

Please provide a detailed strategy for assuring Health and Welfare, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

---

**Appendix H: Quality Improvement Strategy (1 of 3)**

Under §1915(c) of the Social Security Act and 42 CFR §441.302, the approval of an HCBS waiver requires that CMS determine that the state has made satisfactory assurances concerning the protection of participant health and welfare, financial accountability and other elements of waiver operations. Renewal of an existing waiver is contingent upon review by CMS and a finding by CMS that the assurances have been met. By completing the HCBS waiver application, the state specifies how it has designed the waiver’s critical processes, structures and operational features in order to meet these assurances.

- Quality Improvement is a critical operational feature that an organization employs to continually determine whether it operates in accordance with the approved design of its program, meets statutory and regulatory assurances and
requirements, achieves desired outcomes, and identifies opportunities for improvement.

CMS recognizes that a state’s waiver Quality Improvement Strategy may vary depending on the nature of the waiver target population, the services offered, and the waiver’s relationship to other public programs, and will extend beyond regulatory requirements. However, for the purpose of this application, the state is expected to have, at the minimum, systems in place to measure and improve its own performance in meeting six specific waiver assurances and requirements.

It may be more efficient and effective for a Quality Improvement Strategy to span multiple waivers and other long-term care services. CMS recognizes the value of this approach and will ask the state to identify other waiver programs and long-term care services that are addressed in the Quality Improvement Strategy.

Quality Improvement Strategy: Minimum Components

The Quality Improvement Strategy that will be in effect during the period of the approved waiver is described throughout the waiver in the appendices corresponding to the statutory assurances and sub-assurances. Other documents cited must be available to CMS upon request through the Medicaid agency or the operating agency (if appropriate).

In the QIS discovery and remediation sections throughout the application (located in Appendices A, B, C, D, G, and I), a state spells out:

- The evidence based discovery activities that will be conducted for each of the six major waiver assurances; and
- The remediation activities followed to correct individual problems identified in the implementation of each of the assurances.

In Appendix H of the application, a state describes (1) the system improvement activities followed in response to aggregated, analyzed discovery and remediation information collected on each of the assurances; (2) the correspondent roles/responsibilities of those conducting assessing and prioritizing improving system corrections and improvements; and (3) the processes the state will follow to continuously assess the effectiveness of the OIS and revise it as necessary and appropriate.

If the state’s Quality Improvement Strategy is not fully developed at the time the waiver application is submitted, the state may provide a work plan to fully develop its Quality Improvement Strategy, including the specific tasks the state plans to undertake during the period the waiver is in effect, the major milestones associated with these tasks, and the entity (or entities) responsible for the completion of these tasks.

When the Quality Improvement Strategy spans more than one waiver and/or other types of long-term care services under the Medicaid state plan, specify the control numbers for the other waiver programs and/or identify the other long-term services that are addressed in the Quality Improvement Strategy. In instances when the QIS spans more than one waiver, the state must be able to stratify information that is related to each approved waiver program. Unless the state has requested and received approval from CMS for the consolidation of multiple waivers for the purpose of reporting, then the state must stratify information that is related to each approved waiver program, i.e., employ a representative sample for each waiver.

**Appendix H: Quality Improvement Strategy (2 of 3)**

**H-1: Systems Improvement**

a. System Improvements

i. Describe the process(es) for trending, prioritizing, and implementing system improvements (i.e., design changes) prompted as a result of an analysis of discovery and remediation information.
The State’s goal is to maintain a quality improvement system that identifies problems, assesses the scope of the problem and ensures that system redesign strategies proactively address issues statewide. This section addresses the process of determining, developing, and implementing statewide remediation strategies.

Remediation strategies implemented to address issues affecting the quality of services offered in the waiver program are vital. It is equally important to evaluate the scope of the problem, so that broader improvements can address the potential for issues to affect other persons supported. One of the State’s remediation strategies includes DIDD Regional and State Quality Management Committee monitoring systems.

Regional Quality Management Committees (RQMC)

Each region has an RQMC meeting at least monthly to review provider performance. The RQMC reviews Quality Assurance surveys, Complaint data, Incident and Investigation data or any other issues warranting attention. Gathered information is analyzed to:

1. determine the scope of each discovery or remediation problem identified (both isolated and systemic);
2. identify whether additional data is needed for cause of the issue;
3. develop recommendations for remediation / improvement strategies; and
4. evaluate the effectiveness of improvement strategies previously implemented.

The DIDD RQMC is responsible for monitoring provider level remediation and regional improvement strategies through analysis of performance measure data collected. Provider specific issues / data and Regional analysis will be presented to the SQMC throughout the course of the waiver year through a quality management report.

Statewide Quality Management Committee (SQMC)

The SQMC is comprised of management level staff from the Central Office in addition to Regional Office representation. The SQMC analyzes regional data submitted to identify trends, initiate follow up actions, ensure statewide consistency and maintain oversight of RQMC activities.

During the monthly meetings, a prepared Statewide Quality Management Report containing submitted data from all RQMCs is reviewed. The report contains provider information and data for the previous month along with cumulative year-to-date compliance data.

The SQMC reviews:

1. the analysis performed by RQMC’s on monthly, cumulative year-to-date, or annual findings;
2. the appropriateness and adequacy of any improvement strategies recommended;
3. the aggregated data for indications of statewide systemic issues;

The SQMC may also determine improvement strategies for systemic level issues and identify the best process for developing those strategies. Appropriate DIDD staff may be assigned as lead for specific responsibilities.

Remediation data received from the RQMCs on provider performance is collated and produced into a monthly DIDD State Quality Management Report. Designated DIDD Central Office Compliance Unit staff develop the report for CMS assurance and sub-assurance performance measure results. This information is reviewed by DIDD and TennCare.

Statewide Continuous Quality Improvement Committee (SCQI)
The SCQI is comprised of management level staff from DIDD Central Office and senior level staff from TennCare. The purpose of this committee is to ensure TennCare’s involvement in the ongoing monitoring of overall waiver performance. This committee meets monthly and is focused on statewide systemic trends and issues. Isolated issues are presented as they relate to the minimum compliance threshold because TennCare and DIDD require a 100% remediation standard. The committee reviews, at a minimum:

1. Systemic remediations,
2. Quality Assurance Summary (performance percentages of all providers by type),
The goals of the SCQI committee are:
1. Identifying systemic issues through the study of the data,
2. Intervene with appropriate, effective quality improvement strategies,
3. Monitor implementation of quality improvement strategies to ensure prevention of reoccurrence of performance issues, and
4. Brainstorm innovative ideas for continuously improving programs and services.

b. System Design Changes

i. Describe the process for monitoring and analyzing the effectiveness of system design changes. Include a description of the various roles and responsibilities involved in the processes for monitoring & assessing system design changes. If applicable, include the state's targeted standards for systems improvement.

Performance measures with a compliance percentage below 86% consistently in a quarter (i.e. once every 3 months) are assessed for systemic impact with a Quality Improvement Plan developed and implemented if indicated.
1. Monthly, year-to-date, and annual performance measure data will be monitored during the course of the subsequent months to determine if system redesign strategies employed to address regional and state level performance problems were effective in increasing compliance percentages.
2. The DIIDD Program Operations unit is responsible for monitoring and evaluating the effectiveness of provider improvement strategies with input and assistance provided by the SQMC, and oversight from TennCare.
3. Consideration will be given as to whether aggregate data indicates a system-wide issue. Annual recommendations on long term improvement strategies will be made by the DIIDD Program Operations unit staff to the SQMC. The appropriate DIIDD senior management staff will develop a work plan for those measures to be addressed in the coming year. Appropriate DIIDD leadership staff will be responsible for the oversight of implementation of the work plan. Results will be reported to TennCare in monthly SCQI meetings.
4. DIIDD posts monthly discovery and remediation data files allowing TennCare to generate Compliance Summary Reports containing information on Individual Record Reviews completed, percentage of compliance for each performance measure, number of findings remediated, and timeframes required for remediation.

The TennCare Director of Intellectual Disabilities Services, with assistance and input from TennCare Long Term Services and Supports division staff, will have responsibility for monitoring and evaluating the effectiveness of improvement strategies specifically applicable to identified systemic issues and TennCare processes.

ii. Describe the process to periodically evaluate, as appropriate, the Quality Improvement Strategy.
At least annually, the SQMC will review the information needed to assess waiver quality or whether aspects of the quality improvement system require revision and submit recommendations to TennCare. The SQMC will also consider if existing performance measures are appropriate, if revision or deletion of existing measures should be undertaken, or if new performance measures should be added. This information is provided to TennCare as necessary for consideration.

Monthly State Continuous Quality Improvement Committee (SCQI) meetings are held as an opportunity for a collaborative review between DIDD and TennCare concerning issues related to the overall quality of the HCBS waivers. Included in the agenda of these meetings are the performance data, remediation and validation results for the previous month, results of DIDD quality assurance surveys, and a summary of the actions taken at the previous SQMC. As appropriate, additional areas such as DIDD Protection from Harm, Legal Affairs and Provider Development are discussed.

Appendix H: Quality Improvement Strategy (3 of 3)

H-2: Use of a Patient Experience of Care/Quality of Life Survey

a. Specify whether the state has deployed a patient experience of care or quality of life survey for its HCBS population in the last 12 months (Select one):

- No
- Yes (Complete item H.2b)

b. Specify the type of survey tool the state uses:

- HCBS CAHPS Survey :
- NCI Survey :
- NCI AD Survey :
- Other (Please provide a description of the survey tool used):

Appendix I: Financial Accountability

I-1: Financial Integrity and Accountability

Financial Integrity. Describe the methods that are employed to ensure the integrity of payments that have been made for waiver services, including: (a) requirements concerning the independent audit of provider agencies; (b) the financial audit program that the state conducts to ensure the integrity of provider billings for Medicaid payment of waiver services, including the methods, scope and frequency of audits; and, (c) the agency (or agencies) responsible for conducting the financial audit program. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).
A. An Independent Audit
The Department of Intellectual and Developmental Disabilities (DIDD) requires providers receiving $750,000 or more in aggregate state and federal funds to obtain an independent audit of the organization and to submit copies of the independent audit to the Tennessee Office of the Comptroller and to the DIDD Office of Risk Management and Licensure. The Independent Audit is an industry standard audit performed by a CPA/accounting firm to verify that the provider’s business practices adhere to Generally Accepted Accounting Principles (GAAP). To ensure that auditors are truly independent, a preliminary step to all such audits includes written verification that no conflicts of interest exist between the auditor and the agency or firm being audited.

All provider types are included in the audit requirement. All providers, whether independent or part of a larger organization, are reviewed to ensure compliance with the Independent Audit requirement if they meet the $750,000 threshold.

DIDD maintains a listing of all providers with “total annual funding” listed (i.e., aggregate state and federal funds). The Fiscal Accountability Review (FAR) unit of the Office of Quality Management conducts annual reviews of all applicable providers, per DIDD policy, to determine compliance with the Independent Audit requirement. DIDD policy defines applicable providers as those with annual billing in excess of $500,000. If reviewers find that an Independent Audit has not been completed within the past 12 months, a “finding” is issued and the provider is required to submit a written corrective action plan and, as soon as completed, a copy of the Independent Audit.

B. Financial audit program that the state conducts to ensure the integrity of provider billings for Medicaid payment of waiver services, including the methods, scope and frequency of audits:
Utilization Review Process - The Division of TennCare conducts utilization reviews of the HCBS waivers for persons with intellectual disabilities to determine compliance with federal and state regulations and waiver requirements. Post-payment claim reviews to ensure that services are appropriately documented and appropriately billed are conducted as part of the utilization review process.

Utilization reviews are conducted according to a predetermined audit schedule for the year. Post-payment reviews (UR) are done on all providers billing under $500,000 per year and may also include some providers over the $500k threshold. The sample must include 100% of providers under the $500,000 threshold that provided the service during the timeframe of the review. When pulling the sample for a service that is not widely utilized, the reviewer may select persons receiving the service from one or more providers over the $500k threshold to ensure a sufficient sample for the service.

Reviews are conducted in each region of the state, and cover different waiver services each month. The process includes a review of the approved service plan with the amount, frequency and duration, review of the billing documents and supporting documentation, and a comparison of all documents to adjudicated claims. Identified inconsistencies are documented and researched. Unsupported and/or inappropriate payments result in recoupment.

Fiscal Accountability Review (FAR) – The DIDD Office of Quality Management, Fiscal Accountability Review (FAR) Unit monitors contracts and conducts reviews. A review of the claims billed is compared to supporting documentation and all discrepancies are noted in a report that is submitted to the contract provider for comment. Recoupment for unsupported charges is made after review of the agency’s comments. The initial report and final resolution is then submitted to TennCare for additional follow up where appropriate.

State of Tennessee, Department of Audit, Audit Manual, Section A-2 - Audits cover at least one fiscal year, 12 months, unless otherwise approved by the Comptroller. The Division of TennCare (State Medicaid Agency) is subject to an annual audit as required by the Single Audit Act. The audit includes a random sample of each program and includes the 1915(c) HCBS waiver programs. Requests for documentation to support paid claims are made directly to selected providers by the Department of Audit and all information is submitted by providers to this Department. At the completion of the audit process, a comprehensive report is submitted to TennCare staff for review and follow-up to insure that findings are not repeated in subsequent years.

C. Agency (or agencies) responsible for conducting the financial audit program:
- The Division of TennCare conducts utilization reviews of the HCBS waivers.
- The Department of Intellectual and Developmental Disabilities (DIDD) Office of Quality Management Financial Accountability Reviews Unit (FAR) conducts the Fiscal Accountability Reviews. - The Division of State Audit of Tennessee Comptroller of the Treasury, under an agreement with the TennCare Division of the Department of Finance and Administration, performs an annual audit of the State's TennCare program.

Appendix I: Financial Accountability
Quality Improvement: Financial Accountability

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.
Methods for Discovery: Financial Accountability Assurance:
The State must demonstrate that it has designed and implemented an adequate system for ensuring financial accountability of the waiver program. (For waiver actions submitted before June 1, 2014, this assurance read "State financial oversight exists to assure that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver.")

i. Sub-Assurances:

a. Sub-assurance: The State provides evidence that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver and only for services rendered.
(Performance measures in this sub-assurance include all Appendix I performance measures for waiver actions submitted before June 1, 2014.)

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:
a.i.1. Number and percentage of claims correctly billed with correct billing codes and service rates. Numerator: Percentage = number of claims correctly billed with correct billing codes and service rates / total number of claims submitted.

b. Sub-assurance: The state provides evidence that rates remain consistent with the approved rate methodology throughout the five year waiver cycle.

**Performance Measures**

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

**Performance Measure:**

a.i.4 Number and percentage of rates approved that are consistent with the approved rate methodology throughout the five year waiver cycle. Number of claims received with billed amounts more than the approved waiver max fee schedule, which are automatically reduced to be paid according to the approved rate methodology/ total number of submitted claims.

**Data Source** (Select one):

- **Other**

  If ‘Other’ is selected, specify:

  State reports the total # of claims received with billed amounts more than the approved waiver max fee schedule, which are automatically reduced to be paid according to the approved rate methodology.
Data Aggregation and Analysis:

</tr>
</tbody>
</table>

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.
Performance Measure a.i.3 ("Less than 100% review: Other") DIDD FAR reviewers survey 100% of providers with paid claims in excess of $500,000 for the previous fiscal year. A sample of 10% of waiver participant records (not to exceed 30 records) is selected for the review of providers with paid claims exceeding $500,000. For providers with paid claims exceeding $5 million, the sample size increases to 20% (not to exceed 40 records). Reviewers select their samples which must include a billing period of at least three months of the billing year. TennCare Utilization Review processes focus on providers with paid claims less than $500,000 per year.

b. Methods for Remediation/Fixing Individual Problems
   i. Describe the State's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

   Performance Measure a.i.1: The TennCare MMIS system generates a Remittance Advice Report listing the status of all submitted claims, including those approved, those denied, and those suspended. DIDD Administrative Unit staff receive reports following each billing cycle. DIDD must correct errors, based on the reason for denial specified in the report, and resubmit the corrected claims within six months. If the error is not appropriately corrected upon resubmission, the claim will be denied again. Upon second denial of a claim, TennCare will issue a written notice to DIDD indicating that a resubmitted claim was denied and cannot be paid until errors are appropriately corrected. TennCare will provide technical assistance as needed to ensure correction of the error. TennCare will track the number of claims denied multiple times for the same error. If more than two denials are generated for the same claim error, TennCare will send a written notice to DIDD requesting corrective action, which may include procedural changes, staff training, or staff disciplinary actions. DIDD will be required to respond with a written explanation of the corrective actions taken within 30 days of receiving the TennCare request for corrective action. Suspended claims are reviewed by designated TennCare staff for determination of the reasons and appropriateness of suspension. TennCare staff will work toward correction of any issues causing the claim to suspend until they are resolved and result in approval or denial of the claim.

   The TennCare MMIS system has edits in place to automatically deny claims that are not consistent with the approved rate methodology. The TennCare Information Systems Unit reports monthly to confirm that no claims have been paid that are inconsistent with that methodology.

   Performance Measure a.i.3: Findings from DIDD FAR reviews are included in an audit report that is sent to the audited provider and copied to the appropriate DIDD, TennCare and Comptroller staff. Repeat findings are identified in the report. Payments made for claims with inadequate or missing information are recouped, unless the provider responds with additional information to justify claims billed. Providers will be required to submit a management response to DIDD FAR reports within 15 business days. Responses may include additional information to justify billing, agreement with findings and identification of management strategies to improve documentation and billing processes, or a combination of both. For responses not received within 15 business days, the DIDD FAR Director will send a notice advising that the recoupment is due within 30 days and will provide instructions for accomplishing the recoupment. The DIDD FAR Director will track recoupments in a database. At the end of each review period (calendar year), a final reckoning process will be initiated. If recouped amounts have not been collected from the provider, the amount will be withheld from provider payments so that all recoupments for the review cycle are collected no later than the end of the first quarter of the subsequent calendar year (March 31). DIDD FAR reviewers collect information identifying the waiver program in which the waiver participant whose records are being reviewed is enrolled. Consequently, review data is available by waiver program. DIDD reports monthly concerning the number of paid claims and findings if applicable. The FAR Director completes an annual summary regarding collection of recoupments from providers resulting from DIDD FAR findings and submits this to TennCare.

   Performance Measure a.i.4: The state will ensure that the rates approved are consistent with the approved rate methodology throughout the five year waiver cycle, and report cases that vary from the approved rate, if applicable.

ii. Remediation Data Aggregation
   Remediation-related Data Aggregation and Analysis (including trend identification)

**c. Timelines**

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Financial Accountability that are currently non-operational.

- ☐ No
- ☑ Yes

Please provide a detailed strategy for assuring Financial Accountability, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

---

**Appendix I: Financial Accountability**

**I-2: Rates, Billing and Claims (1 of 3)**

*a. Rate Determination Methods.* In two pages or less, describe the methods that are employed to establish provider payment rates for waiver services and the entity or entities that are responsible for rate determination. Indicate any opportunity for public comment in the process. If different methods are employed for various types of services, the description may group services for which the same method is employed. State laws, regulations, and policies referenced in the description are available upon request to CMS through the Medicaid agency or the operating agency (if applicable).
Proposed service rates are determined by DIDD & are reviewed/approved by TennCare, which has oversight of the rate determination process. TennCare keys approved rates into the MMIS for purposes of processing claims for waiver services. The methodology used to determine rates is outlined in Chapter 0465-01-02 of DIDD’s Administrative Rules & can be found at this link: http://publications.tnsosfiles.com/rules/0465/0465-01/0465-01-02.20140312.pdf

Maximum allowable rates are established for each service based on analysis of provider costs to deliver services & based on experience, as set forth in DIDD Administrative Rule. The rates for this waiver were restructured in 2005 with the average expenses incurred by providers in 2004 used as the cost model. DIDD continues to make adjustments to the 2005 rates, particularly the direct support professional hourly wage component within the rates, based on feedback from providers & current employment trends. The state has appropriated an additional $31.6 million in state funds since state fiscal year 2014 for provider rate increases across all waiver programs.

DIDD has no formal process in place to review provider costs; however, DIDD regularly meets with providers at Statewide Planning and Policy Council (SPPC) meetings as well as other providers meetings & rates are discussed. Additionally, DIDD has one staff person that routinely reviews cost data for providers who are struggling financially & have requested technical financial assistance.

Rates must be sufficient to recruit an adequate supply of qualified providers for each service to ensure participants statewide have adequate access to waiver services. In setting rates, the rates for similar services in other states & other in-state programs are considered, & rates are adjusted based on the number of waiver participants receiving services in a group arrangement, where applicable. Rates paid in this waiver are the same as those paid in the two other 1915(c) HCBS waivers for people with ID. Providers are reimbursed up to the maximum allowable rate established for a service.

Stakeholders have the opportunity to provide input into the development & sufficiency of rates through the posting of waiver renewals/amendments for public comment, the DIDD SPPC, provider meetings, & other public meetings, & through the DIDD rule-making hearing process, which includes public notice & a rule-making hearing. Information about payment rates is made public & is available on the DIDD web site, i.e., TennCare Maximum Reimbursement Rate Schedule.

The Supported Employment-Individual (SE Ind) Employment Supports service has been removed as part of this waiver amendment & in its place, the following existing components of the SE Ind Employment Supports service have been broken out into separate, standalone services with revisions to each service definition & provider specifications where applicable to align employment services across LTSS HCBS programs:

• SE Ind-Discovery
• SE Ind-Exploration
• SE-Ind-Job Coaching
• SE Ind-Job Development

SE Ind-Benefits Counseling has been added as a new SE Ind service to align employment services across LTSS HCBS programs. The rate methodology for the new Benefits Counseling service aligns with the Benefits Counseling rate methodology in ECF CHOICES.

A transition payment option incentivizing transition from Supported Employment Small Group (SESG) to Individualized Integrated Employment (IE) or Self-Employment (SE) has been added as a component to the SESG service to align this incentive across LTSS HCBS programs. The rate methodology for the new SESG Transition Incentive aligns with the rate methodology for the corresponding service in ECF CHOICES.

Enabling Technology (ET) has been added as a distinct benefit, consistent with the currently approved Appendix K to each of the waivers, clarifying that the service limit for Specialized Medical Equipment, Supplies, & Assistive Technology (SMESAT) encompasses both SMESAT as well as ET, i.e., a $10,000 limit per 2 waiver years across both services. The rate methodology for the ET service was developed by combining the service limit for SMESAT and ET into one limit as stated above.

For SE Ind-Job Coaching (JC), fee for service JC rates are based on a prospective rate model that reflects a sufficient wage for the level of qualified staff required to deliver the service & all other reasonable/anticipated costs involved in providing the service. For JC, this prospective rate is then tiered into 3 distinct rates based on the level of fading.
achieved, considering the waiver participant’s level of disability & length of time the job has been held. Providers can earn the highest rate for achieving the highest fading targets, the mid-level rate for achieving the mid-level fading targets, & the base level rate for achieving the base level fading targets. Using this model, providers are appropriately incentivized to fade JC supports over time (a key quality metric for supported employment services) while the state can also ensure no waiver participant is excluded from participation in SE Ind services based on level of disability or newness to their job. To determine a waiver participant’s acuity tier for JC, the Level of Need (LON) system that has been in use to determine employment & day service reimbursement will continue to be used. Additionally, where an individual has a need for JC that is equal to or less than 1 hour per week, a monthly “Stabilization and Monitoring” payment will be used to encourage ongoing, effective monitoring of the waiver participant’s employment situations, with minimum monthly contact requirements that will allow for prevention of otherwise avoidable job losses or reductions in work hours.

For SE Ind Services the state proposes to pay on an outcome basis, the following rate determination methods were used:

**Exploration:** Underlying fee-for-service prospective rate for qualified job coach was developed as described above. All components of Exploration service process were defined & the average time necessary for each step was determined, resulting in an average of 40 hours total for all required steps. The underlying fee-for-service prospective rate was multiplied by 40 hours to arrive at the outcome payment. The required Exploration report, necessary for authorization of payment, contains a section that tracks actual hours & miles driven, to allow the state to monitor the appropriateness of the outcome payment over time.

**Discovery:** Underlying fee-for-service prospective rate for qualified job developer was developed reflecting a sufficient wage & all other reasonable/anticipated costs involved in providing the service. All components of Discovery service process were defined & the average time necessary for each step was determined, resulting in an average of 50 hours total for all required steps. The underlying fee-for-service prospective rate was multiplied by 50 hours to arrive at the outcome payment. The required Discovery report, necessary for authorization of payment, contains a section that tracks actual hours & miles driven, to allow the state to monitor the appropriateness of the outcome payment over time.

**Job Development (JD):** Underlying fee-for-service prospective rate for qualified job developer was developed reflecting a sufficient wage & all other reasonable/anticipated costs involved in providing the service. Using information from other states and Vocational Rehabilitation, the average amount of hours necessary for completion of JD plan and start-up and self-employment (SE) plan and start-up (securing outcome of paid IIE, consistent with a waiver participant’s goals, preferences, skills & conditions for success) was determined. Aligning with the JD rate structure in ECF CHOICES, this average was used to create 3-tiered hour levels to reflect waiver participants’ varying levels of disability (acuity). For each tier, the average hours expected to be necessary to complete the JD and SE start-up services were multiplied by the underlying fee-for-service prospective rate for the qualified job developer to arrive at the 3-tiered outcome payments. The required JD report, necessary for authorization of payment, contains a section that tracks actual hours & miles driven, to allow the state to monitor the appropriateness of the outcome payment over time. To determine a waiver participant’s acuity tier for JD, the LON system that has been in use to determine employment/day service reimbursement will continue to be used.

**Quality Payment for Hours Worked Milestone under SE Ind Supports:** Payment earned and paid for additional/atypical effort of provider to assist waiver participant to obtain and retain IIE where hours worked are substantially higher than the average for all waiver participants. There are 2 quality payment levels available:

1. The base tier payment is $1,500 & is made based on the waiver participant working in IIE between 390 & 519 hours in the prior 6 calendar month period. This is average hourly employment that is at least 15 but less than 20 hours/week.
2. The top tier payment is $2,000 and is made based on the waiver participant working 520 or more hours in the prior 6 calendar month period. This is average hourly employment that is 20 hours/week or more. A provider may earn the quality payment up to twice a year.

A one-time incentive payment for full transition of a person from SESG services to IIE/SE shall be paid to the
To support the introduction of TennCare and DIDD Value-Based Purchasing (VBP) initiatives, a flexible residential service rate option is available to incentivize provider outcomes that align with system transformation values, such as person-centered practices, independence, community integration, dignity of choice, competitive integrated employment, ET, & workforce development. The rate methodology incorporated a variety of factors to maximize its financial & programmatic viability & to ensure persons supported have the opportunity to maintain recent gains in independent lifestyle & continue to be supported/encouraged to achieve additional success in their desire to live more independently with the precise supports they need to do so successfully. Primary factors include:

- Actual utilization data for ET, remote support, & flexible staffing arrangements under the flexibilities afforded by Appendix K since March 2020.
- Provider data used to develop utilization assumptions related to staffing shifts/overtime rates across the provider network.
- Variable shared savings incentives to ensure persons supported at each Level of Need have equitable opportunities to benefit from the rate.
- Emergency response capabilities to ensure all contingencies are assessed and supports are continuously available to respond to emergent needs.

The primary value-based outcome for which providers will receive incentive payments is increased levels of independence & self-determination achieved by persons supported in accordance with their goals & desires. This will be reflected in the person's unique support plan, including a combination of direct support, indirect/alterative support, &/or ET. During a person’s 1st year of using the rate, review activities will be conducted 3 times (90-day, 6-month, 1-year). During the 2nd and subsequent years, review activities will be conducted 2 times (6-month, 1-year). During the review, DIDD will verify which persons supported are using the rate & determine the incentive payment amounts for which providers are eligible.

The reimbursement rates for the new Non-Residential Homebound Support Service match the reimbursement rates for the service this new service is replacing (In Home Day).

b. Flow of Billings. Describe the flow of billings for waiver services, specifying whether provider billings flow directly from providers to the state’s claims payment system or whether billings are routed through other intermediary entities. If billings flow through other intermediary entities, specify the entities:

All Waiver services are prior approved by DIDD. Providers submit invoices for delivered services to the DIDD central office. The DIDD system has numerous edits including an edit that verifies the services provided on the date of service were approved in the participant’s ISP. The DIDD system converts the provider claims that successfully process through all of its edits to the appropriate claim format and submits the claims electronically to TennCare for processing through the MMIS. The MMIS processes the claims, and returns the remittance advices electronically to DIDD and a hard copy to each provider. TennCare issues reimbursement payments to the providers. Providers retain 100% of the payment calculated in the MMIS.

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (2 of 3)

c. Certifying Public Expenditures (select one):

- No. state or local government agencies do not certify expenditures for waiver services.
- Yes. state or local government agencies directly expend funds for part or all of the cost of waiver services
and certify their state government expenditures (CPE) in lieu of billing that amount to Medicaid.

Select at least one:

☐ Certified Public Expenditures (CPE) of State Public Agencies.

Specify: (a) the state government agency or agencies that certify public expenditures for waiver services; (b) how it is assured that the CPE is based on the total computable costs for waiver services; and, (c) how the state verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b). (Indicate source of revenue for CPEs in Item I-4-a.)

☐ Certified Public Expenditures (CPE) of Local Government Agencies.

Specify: (a) the local government agencies that incur certified public expenditures for waiver services; (b) how it is assured that the CPE is based on total computable costs for waiver services; and, (c) how the state verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b). (Indicate source of revenue for CPEs in Item I-4-b.)

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (3 of 3)

d. Billing Validation Process. Describe the process for validating provider billings to produce the claim for federal financial participation, including the mechanism(s) to assure that all claims for payment are made only: (a) when the individual was eligible for Medicaid waiver payment on the date of service; (b) when the service was included in the participant’s approved service plan; and, (c) the services were provided:

DIDD approves services in the ISP. All providers submit service invoices to DIDD. The DIDD system validates service invoices against the DIDD approved service plans. The DIDD system creates a claim for services that were in an approved plan and submits the claims to TennCare for processing through the MMIS. When the claims process through the MMIS, the system checks to verify that the person had an active Pre-Admission Evaluation establishing waiver eligibility, and the person’s eligibility for Medicaid on the date of service is verified. Claims are also processed against a number of other edits or audits specific to service limits within the MMIS. Post-payment reviews are conducted by the DIDD Internal Audit Unit and by TennCare to ensure services were provided.

e. Billing and Claims Record Maintenance Requirement. Records documenting the audit trail of adjudicated claims (including supporting documentation) are maintained by the Medicaid agency, the operating agency (if applicable), and providers of waiver services for a minimum period of 3 years as required in 45 CFR §92.42.

Appendix I: Financial Accountability

I-3: Payment (1 of 7)

a. Method of payments -- MMIS (select one):

- Payments for all waiver services are made through an approved Medicaid Management Information System (MMIS).
- Payments for some, but not all, waiver services are made through an approved MMIS.
Specify: (a) the waiver services that are not paid through an approved MMIS; (b) the process for making such payments and the entity that processes payments; (c) and how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:

☐ Payments for waiver services are not made through an approved MMIS.

Specify: (a) the process by which payments are made and the entity that processes payments; (b) how and through which system(s) the payments are processed; (c) how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:

☐ Payments for waiver services are made by a managed care entity or entities. The managed care entity is paid a monthly capitated payment per eligible enrollee through an approved MMIS.

Describe how payments are made to the managed care entity or entities:

Appendix I: Financial Accountability

I-3: Payment (2 of 7)

b. Direct payment. In addition to providing that the Medicaid agency makes payments directly to providers of waiver services, payments for waiver services are made utilizing one or more of the following arrangements (select at least one):

☐ The Medicaid agency makes payments directly and does not use a fiscal agent (comprehensive or limited) or a managed care entity or entities.
☒ The Medicaid agency pays providers through the same fiscal agent used for the rest of the Medicaid program.
☐ The Medicaid agency pays providers of some or all waiver services through the use of a limited fiscal agent.

Specify the limited fiscal agent, the waiver services for which the limited fiscal agent makes payment, the functions that the limited fiscal agent performs in paying waiver claims, and the methods by which the Medicaid agency oversees the operations of the limited fiscal agent:

☐ Providers are paid by a managed care entity or entities for services that are included in the state’s contract with the entity.

Specify how providers are paid for the services (if any) not included in the state's contract with managed care entities.
Appendix I: Financial Accountability
I-3: Payment (3 of 7)

c. Supplemental or Enhanced Payments. Section 1902(a)(30) requires that payments for services be consistent with efficiency, economy, and quality of care. Section 1903(a)(1) provides for Federal financial participation to states for expenditures for services under an approved state plan/waiver. Specify whether supplemental or enhanced payments are made. Select one:

- No. The state does not make supplemental or enhanced payments for waiver services.
- Yes. The state makes supplemental or enhanced payments for waiver services.

Describe: (a) the nature of the supplemental or enhanced payments that are made and the waiver services for which these payments are made; (b) the types of providers to which such payments are made; (c) the source of the non-Federal share of the supplemental or enhanced payment; and, (d) whether providers eligible to receive the supplemental or enhanced payment retain 100% of the total computable expenditure claimed by the state to CMS. Upon request, the state will furnish CMS with detailed information about the total amount of supplemental or enhanced payments to each provider type in the waiver.

Appendix I: Financial Accountability
I-3: Payment (4 of 7)

d. Payments to state or Local Government Providers. Specify whether state or local government providers receive payment for the provision of waiver services.

- No. State or local government providers do not receive payment for waiver services. Do not complete Item I-3-e.
- Yes. State or local government providers receive payment for waiver services. Complete Item I-3-e.

Specify the types of state or local government providers that receive payment for waiver services and the services that the state or local government providers furnish:

Appendix I: Financial Accountability
I-3: Payment (5 of 7)

e. Amount of Payment to State or Local Government Providers.

Specify whether any state or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed its reasonable costs of providing waiver services and, if so, whether and how the state recoups the excess and returns the Federal share of the excess to CMS on the quarterly expenditure report. Select one:

Answers provided in Appendix I-3-d indicate that you do not need to complete this section.

- The amount paid to state or local government providers is the same as the amount paid to private providers of the same service.
- The amount paid to state or local government providers differs from the amount paid to private providers of...
the same service. No public provider receives payments that in the aggregate exceed its reasonable costs of providing waiver services.

☐ The amount paid to state or local government providers differs from the amount paid to private providers of the same service. When a state or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed the cost of waiver services, the state recoups the excess and returns the federal share of the excess to CMS on the quarterly expenditure report.

Describe the recoupment process:

Appendix I: Financial Accountability
I-3: Payment (6 of 7)

f. Provider Retention of Payments. Section 1903(a)(1) provides that Federal matching funds are only available for expenditures made by states for services under the approved waiver. Select one:

☐ Providers receive and retain 100 percent of the amount claimed to CMS for waiver services.

☐ Providers are paid by a managed care entity (or entities) that is paid a monthly capitated payment.

Specify whether the monthly capitated payment to managed care entities is reduced or returned in part to the state.

Appendix I: Financial Accountability
I-3: Payment (7 of 7)

g. Additional Payment Arrangements

i. Voluntary Reassignment of Payments to a Governmental Agency. Select one:

☐ No. The state does not provide that providers may voluntarily reassign their right to direct payments to a governmental agency.

☐ Yes. Providers may voluntarily reassign their right to direct payments to a governmental agency as provided in 42 CFR §447.10(e).

Specify the governmental agency (or agencies) to which reassignment may be made.

ii. Organized Health Care Delivery System. Select one:

☐ No. The state does not employ Organized Health Care Delivery System (OHCDS) arrangements under the provisions of 42 CFR §447.10.

☐ Yes. The waiver provides for the use of Organized Health Care Delivery System arrangements under the provisions of 42 CFR §447.10.
Specify the following: (a) the entities that are designated as an OHCDS and how these entities qualify for designation as an OHCDS; (b) the procedures for direct provider enrollment when a provider does not voluntarily agree to contract with a designated OHCDS; (c) the method(s) for assuring that participants have free choice of qualified providers when an OHCDS arrangement is employed, including the selection of providers not affiliated with the OHCDS; (d) the method(s) for assuring that providers that furnish services under contract with an OHCDS meet applicable provider qualifications under the waiver; (e) how it is assured that OHCDS contracts with providers meet applicable requirements; and, (f) how financial accountability is assured when an OHCDS arrangement is used:
(a) The Department of Intellectual and Developmental Disabilities (hereinafter “Department” or “DIDD”) is a public government organization which delivers health care services to people with intellectual and developmental disabilities who are enrolled in the State’s Medicaid waiver. Department employees deliver health care services at the DIDD Regional Resources Centers located in West, Middle, and East Tennessee. The health care services delivered by DIDD employees include behavior services, dental services, nutrition services, occupational therapy, physical therapy, specialized medical equipment, supplies, and assistive technology, and speech language and hearing services. The Department contracts with other qualified providers to furnish other waiver services. All Department employees delivering said health care services, as well as other qualified providers, are required to satisfy waiver requirements regarding qualifications and service standards.

(b) The Department does not require waiver providers to affiliate with the Regional Resource Centers. Waiver providers who elect not to affiliate with the Regional Resource Centers are able to enter into a three-way agreement with the Department and the single State Medicaid Agency (TennCare) through the usual and customary process for direct provider enrollment. A waiver provider’s decision on whether or not to agree to contract with the Regional Resource Centers does not have any bearing on the provider’s enrollment as a waiver provider.

(c) Waiver participants are not required to secure services through the Regional Resource Centers. When an individual is determined to be likely to require the level of care provided by an ICF/IID, DIDD informs the individual or the individual’s legal representative of any feasible alternatives available under the waiver program, including a description of the waiver services and names and addresses of all available qualified providers, and offers the choice of either institutional or waiver services.

In addition, individuals are given a Freedom of Choice form which contains a simple explanation of the waiver and waiver services; a statement that participation in the Waiver is voluntary; and notification of the opportunity to apply for enrollment in the Waiver and an explanation of the procedures for enrollment. The Freedom of Choice form is explained and the signature of the person to receive waiver services or the legal representative will be obtained on the Freedom of Choice form, which is completed prior to admission into the waiver program.

(d) Any staff person who has direct contact with or direct responsibility for a waiver participant must pass a criminal background check performed in accordance with a process approved by the Department of Intellectual and Developmental Disabilities and must not be listed on the Tennessee Department of Health Abuse Registry, the Tennessee Sexual Offender Registry, the Tennessee Felony Offender List, or the Office of Inspector General List of Excluded Individuals and Entities. A statewide criminal background check is performed by the Tennessee Bureau of Investigation or a Tennessee-licensed private investigation company. If the staff person has resided in Tennessee for one year or less, a nationwide criminal background check is required in accordance with DIDD requirements. The Division of TennCare shall conduct Qualified Provider Reviews of DIDD personnel files to ensure that there is documentation that the mandatory background and registry checks have been conducted on potential staff that will have direct contact with or direct responsibility for waiver participants.

(e) TennCare reviews and approves the final language contained in the three-way provider agreement template which specifies provider requirements and responsibilities as well as DIDD and TennCare responsibilities in administration/operation of the waiver program. TennCare reviews individual waiver provider and administrative contracts prior to execution and is a signatory on all such contracts. This process ensures that OHCDS contracts meet applicable requirements.

(f) Financial accountability is assured through the audit program that the state conducts to ensure the integrity of provider billings for Medicaid payment of waiver services. Utilization Review Process - The Division of TennCare conducts utilization reviews of the HCBS waivers for persons with intellectual disabilities to determine compliance with federal and state regulations and waiver requirements. Post-payment claim reviews to ensure that services are appropriately documented and appropriately billed are conducted as part of the utilization review process. Utilization reviews are conducted according to a predetermined audit schedule for the year. Reviews are conducted in each region of the state, and cover different waiver services each month. The person sample is identified by entering the following data into the TennCare Interchange System: 1.) waiver provider number; 2.) dates of service; 3.) procedure code for the review; and 4.) paid status. The process includes a review of the approved service plan with the amount, frequency and duration, review of the billing documents and supporting documentation, and a comparison of all documents to adjudicated claims. Identified inconsistencies are documented and researched. Unsupported and/or inappropriate payments result in recoupment.
iii. Contracts with MCOs, PIHPs or PAHPs.

- The state does not contract with MCOs, PIHPs or PAHPs for the provision of waiver services.
- The state contracts with a Managed Care Organization(s) (MCOs) and/or prepaid inpatient health plan(s) (PIHP) or prepaid ambulatory health plan(s) (PAHP) under the provisions of §1915(a)(1) of the Act for the delivery of waiver and other services. Participants may voluntarily elect to receive waiver and other services through such MCOs or prepaid health plans. Contracts with these health plans are on file at the state Medicaid agency.

Describe: (a) the MCOs and/or health plans that furnish services under the provisions of §1915(a)(1); (b) the geographic areas served by these plans; (c) the waiver and other services furnished by these plans; and, (d) how payments are made to the health plans.

- This waiver is a part of a concurrent §1915(b)/§1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The §1915(b) waiver specifies the types of health plans that are used and how payments to these plans are made.
- This waiver is a part of a concurrent §1115/§1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The §1115 waiver specifies the types of health plans that are used and how payments to these plans are made.
- If the state uses more than one of the above contract authorities for the delivery of waiver services, please select this option.

In the textbox below, indicate the contract authorities. In addition, if the state contracts with MCOs, PIHPs, or PAHPs under the provisions of §1915(a)(1) of the Act to furnish waiver services: Participants may voluntarily elect to receive waiver and other services through such MCOs or prepaid health plans. Contracts with these health plans are on file at the state Medicaid agency. Describe: (a) the MCOs and/or health plans that furnish services under the provisions of §1915(a)(1); (b) the geographic areas served by these plans; (c) the waiver and other services furnished by these plans; and, (d) how payments are made to the health plans.

Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (1 of 3)

a. State Level Source(s) of the Non-Federal Share of Computable Waiver Costs. Specify the state source or sources of the non-federal share of computable waiver costs. Select at least one:

- Appropriation of State Tax Revenues to the State Medicaid agency
- Appropriation of State Tax Revenues to a State Agency other than the Medicaid Agency.

If the source of the non-federal share is appropriations to another state agency (or agencies), specify: (a) the state entity or agency receiving appropriated funds and (b) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if the funds are directly expended by state agencies as CPEs, as indicated in Item I-2-c:
Other State Level Source(s) of Funds.

Specify: (a) the source and nature of funds; (b) the entity or agency that receives the funds; and, (c) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if funds are directly expended by state agencies as CPEs, as indicated in Item I-2-c:

□ Other State Level Source(s) of Funds.

Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (2 of 3)

b. Local Government or Other Source(s) of the Non-Federal Share of Computable Waiver Costs. Specify the source or sources of the non-federal share of computable waiver costs that are not from state sources. Select One:

☐ Not Applicable. There are no local government level sources of funds utilized as the non-federal share.

☐ Applicable

Check each that applies:

☐ Appropriation of Local Government Revenues.

Specify: (a) the local government entity or entities that have the authority to levy taxes or other revenues; (b) the source(s) of revenue; and, (c) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement (indicate any intervening entities in the transfer process), and/or, indicate if funds are directly expended by local government agencies as CPEs, as specified in Item I-2-c:

□ Other Local Government Level Source(s) of Funds.

Specify: (a) the source of funds; (b) the local government entity or agency receiving funds; and, (c) the mechanism that is used to transfer the funds to the state Medicaid agency or fiscal agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if funds are directly expended by local government agencies as CPEs, as specified in Item I-2-c:

Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (3 of 3)

c. Information Concerning Certain Sources of Funds. Indicate whether any of the funds listed in Items I-4-a or I-4-b that make up the non-federal share of computable waiver costs come from the following sources: (a) health care-related taxes or fees; (b) provider-related donations; and/or, (c) federal funds. Select one:

☐ None of the specified sources of funds contribute to the non-federal share of computable waiver costs

☐ The following source(s) are used
Check each that applies:

☐ Health care-related taxes or fees
☐ Provider-related donations
☐ Federal funds

For each source of funds indicated above, describe the source of the funds in detail:

Appendix I: Financial Accountability

I-5: Exclusion of Medicaid Payment for Room and Board

a. Services Furnished in Residential Settings. Select one:

☐ No services under this waiver are furnished in residential settings other than the private residence of the individual.

☑ As specified in Appendix C, the state furnishes waiver services in residential settings other than the personal home of the individual.

b. Method for Excluding the Cost of Room and Board Furnished in Residential Settings. The following describes the methodology that the state uses to exclude Medicaid payment for room and board in residential settings:

There are 4 residential services offered through this waiver: Supported Living, Residential Habilitation, Medical Residential Services, and Family Model Residential Support. In addition, there are two services that individuals may use on a temporary basis – Respite and Behavior Respite Services. As per 42 CFR 441.310(a)(2), FFP may be claimed for respite services that are provided in a facility approved by the State. When Respite services are provided in a private residence, room and board costs are excluded from the provider's reimbursement rate. With the exception of a live-in companion for which the companion’s share of room and board costs is allowed, the residential rate structures include only staffing and program costs and exclude all room and board costs.

Appendix I: Financial Accountability

I-6: Payment for Rent and Food Expenses of an Unrelated Live-In Caregiver

Reimbursement for the Rent and Food Expenses of an Unrelated Live-In Personal Caregiver. Select one:

☐ No. The state does not reimburse for the rent and food expenses of an unrelated live-in personal caregiver who resides in the same household as the participant.

☑ Yes. Per 42 CFR §441.310(a)(2)(ii), the state will claim FFP for the additional costs of rent and food that can be reasonably attributed to an unrelated live-in personal caregiver who resides in the same household as the waiver participant. The state describes its coverage of live-in caregiver in Appendix C-3 and the costs attributable to rent and food for the live-in caregiver are reflected separately in the computation of factor D (cost of waiver services) in Appendix J. FFP for rent and food for a live-in caregiver will not be claimed when the participant lives in the caregiver’s home or in a residence that is owned or leased by the provider of Medicaid services.

The following is an explanation of: (a) the method used to apportion the additional costs of rent and food attributable to the unrelated live-in personal caregiver that are incurred by the individual served on the waiver and (b) the method used to reimburse these costs:
Supported Living is the only service in the waiver in which housing and food expenses of an unrelated live-in caregiver will be reimbursed provided that the recipient does not live in the caregiver’s home or in a residence that is owned or leased by the provider. The housing and food expenses of the unrelated caregiver will be based on the proportionate share of the household’s housing and food expenses.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (1 of 5)

a. Co-Payment Requirements. Specify whether the state imposes a co-payment or similar charge upon waiver participants for waiver services. These charges are calculated per service and have the effect of reducing the total computable claim for federal financial participation. Select one:

- ☐ No. The state does not impose a co-payment or similar charge upon participants for waiver services.
- ☐ Yes. The state imposes a co-payment or similar charge upon participants for one or more waiver services.

i. Co-Pay Arrangement.

Specify the types of co-pay arrangements that are imposed on waiver participants (check each that applies):

Charges Associated with the Provision of Waiver Services (if any are checked, complete Items I-7-a-ii through I-7-a-iv):

- [ ] Nominal deductible
- [ ] Coinsurance
- [ ] Co-Payment
- [ ] Other charge

Specify:

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (2 of 5)

a. Co-Payment Requirements.

ii. Participants Subject to Co-pay Charges for Waiver Services.

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (3 of 5)

a. Co-Payment Requirements.

iii. Amount of Co-Pay Charges for Waiver Services.

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (4 of 5)

a. Co-Payment Requirements.
iv. Cumulative Maximum Charges.

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (5 of 5)

b. Other State Requirement for Cost Sharing. Specify whether the state imposes a premium, enrollment fee or similar cost sharing on waiver participants. Select one:

- No. The state does not impose a premium, enrollment fee, or similar cost-sharing arrangement on waiver participants.
- Yes. The state imposes a premium, enrollment fee or similar cost-sharing arrangement.

Describe in detail the cost sharing arrangement, including: (a) the type of cost sharing (e.g., premium, enrollment fee); (b) the amount of charge and how the amount of the charge is related to total gross family income; (c) the groups of participants subject to cost-sharing and the groups who are excluded; and, (d) the mechanisms for the collection of cost-sharing and reporting the amount collected on the CMS 64:

Appendix J: Cost Neutrality Demonstration

J-1: Composite Overview and Demonstration of Cost-Neutrality Formula

Composite Overview. Complete the fields in Cols. 3, 5 and 6 in the following table for each waiver year. The fields in Cols. 4, 7 and 8 are auto-calculated based on entries in Cols 3, 5, and 6. The fields in Col. 2 are auto-calculated using the Factor D data from the J-2-d Estimate of Factor D tables. Col. 2 fields will be populated ONLY when the Estimate of Factor D tables in J-2-d have been completed.

Appendix J: Cost Neutrality Demonstration
J-2: Derivation of Estimates (2 of 9)

b. Average Length of Stay. Describe the basis of the estimate of the average length of stay on the waiver by participants in item J-2-a.

The average length of stay was derived from the most recently filed CMS 372 report for the Statewide Home and Community Based Services (or “Statewide”) waiver (control number 0128) for the period January 1, 2017 through December 31, 2017.

Appendix J: Cost Neutrality Demonstration
J-2: Derivation of Estimates (3 of 9)

c. Derivation of Estimates for Each Factor. Provide a narrative description for the derivation of the estimates of the following factors.

i. Factor D Derivation. The estimates of Factor D for each waiver year are located in Item J-2-d. The basis and methodology for these estimates is as follows:
For waiver years 1-3, calendar year 2018 annual participant expenditure data from DIDD formed the basis of estimates of participant utilization and average number of units per user by type of service. Per unit costs are based on the current fee structure in place. Per unit costs are not trended forward, for the most part, in the waiver application as any changes in the fee schedule are subject to the availability of appropriations through the State's budget process. The average per unit costs for some services which are reimbursed at different rate levels, however, have been adjusted throughout the renewal period to reflect changes in the level of services utilized, primarily associated with the increase in the average age of the population served and greater emphasis on employment. The total number of unduplicated waiver participants will decrease each year.

The average number of units per users of LPN services is expected to increase by less than 2% over the five-year period. This slight increase is associated with the increase in the average age of the population. Overall, a little more than 3% of the people enrolled in the statewide waiver utilize LPN services and this percentage remains constant throughout the renewal period.

The average units per users of Community Participation Supports and Facility-Based Day Supports are expected to decrease as the result of greater emphasis on employment and more time receiving job coaching services.

The average costs per unit estimates for residential services - residential habilitation, medical residential and supported living - are expected to increase slightly over the waiver renewal period. The state estimates that the level of services within each of these service categories will increase as the age of the waiver population increases.

The average cost per unit for Adult Dental services reflects a 1% increase each year over the renewal period. Adult dental services encompass many different types of dental services. The state assumes the overall mix of the types of dental services utilized will change with slightly more costly services needed each year.

Job Coaching is reimbursed at different rates based on the percentage of job coaching hours to total hours worked. Job coaching is reimbursed at a higher rate for the first six months of enrollment and when appropriate fading targets are met thereafter. The average cost per unit for job coaching is estimated to be higher the first two years as the overall total number of new enrollees to this service is projected to be higher in the first two years.

The state will serve the lesser of the number of unduplicated users specified for each year of the waiver or the number it is able to serve with funds appropriated for the DIDD by the legislature each year.

For waiver years 4 and 5, calendar year 2021 and 2022 annual participant expenditure data from DIDD formed the basis of estimates of participant utilization and average number of units per user by type of service for existing waiver services. Per unit costs for existing and updated services are based on the existing rate structure and legislative rate increases that were effective 7/1/2023. The estimates for the new Benefits Counseling service, the Small Group Transition Incentive, and the updated Job Development service were developed using prior utilization and authorization of existing employment services, in addition to analysis and evaluation of program trends to predict member needs/requests for the new/updated services. The average per unit costs for some services which are reimbursed at different rate levels, however, have been adjusted throughout the renewal period to reflect changes in the level of services utilized, primarily associated with the increase in the average age of the population served and greater emphasis on employment. The total number of unduplicated waiver participants should decrease each year.

ii. Factor D’ Derivation. The estimates of Factor D’ for each waiver year are included in Item J-1. The basis of these estimates is as follows:

The basis for Factor D’ was derived from the average per capita acute medical costs for this waiver population reported on the most recently filed CMS 372 report for this waiver (control number 0128) for the year which ended 12/31/17. This data was trended forward for each year of the waiver, anticipating a 3% rate of inflation.

Factor D’ is less than Factor G’ because, based on actual utilization, persons in an institution utilize more “other” Medicaid services, likely as a result of more complex medical and behavior support needs than persons living in the community.

iii. Factor G Derivation. The estimates of Factor G for each waiver year are included in Item J-1. The basis of these
estimates is as follows:

The basis for Factor G was derived from the annualized average per diem cost of private ICF/IID services as determined by the Tennessee Office of the Comptroller as of November 2019. This data was trended forward for each year of the waiver anticipating a 3% rate of inflation.

iv. Factor G’ Derivation. The estimates of Factor G’ for each waiver year are included in Item J-1. The basis of these estimates is as follows:

The basis for Factor G’ was derived from the average per capita acute care services expenditures for the institutional population, non-waiver recipients, as reported on the CMS 372 report for this waiver (control number 0128) for the year which ended 12/31/17. The calendar year 2017 value of $5,328.16 was trended forward for each year of the waiver, anticipating a 3% rate of inflation.

Factor G’ is greater than Factor D’ because, based on actual utilization, persons in an institution utilize more “other” Medicaid services, likely as a result of more complex medical and behavior support needs than persons living in the community.

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (6 of 9)

d. Estimate of Factor D.

i. Non-Concurrent Waiver. Complete the following table for each waiver year. Enter data into the Unit, # Users, Avg. Units Per User, and Avg. Cost/Unit fields for all the Waiver Service/Component items. Select Save and Calculate to automatically calculate and populate the Component Costs and Total Costs fields. All fields in this table must be completed in order to populate the Factor D fields in the J-1 Composite Overview table.

### Appendix J: Cost Neutrality Demonstration

#### J-2: Derivation of Estimates (7 of 9)

d. Estimate of Factor D.

i. Non-Concurrent Waiver. Complete the following table for each waiver year. Enter data into the Unit, # Users, Avg. Units Per User, and Avg. Cost/Unit fields for all the Waiver Service/Component items. Select Save and Calculate to automatically calculate and populate the Component Costs and Total Costs fields. All fields in this table must be completed in order to populate the Factor D fields in the J-1 Composite Overview table.

### Appendix J: Cost Neutrality Demonstration

**J-2: Derivation of Estimates (8 of 9)**

**d. Estimate of Factor D.**

**i. Non-Concurrent Waiver.** Complete the following table for each waiver year. Enter data into the Unit, # Users, Avg. Units Per User, and Avg. Cost/Unit fields for all the Waiver Service/Component items. Select Save and Calculate to automatically calculate and populate the Component Costs and Total Costs fields. All fields in this table must be...
completed in order to populate the Factor D fields in the J-1 Composite Overview table.

**Waiver Year: Year 4**

### Appendix J: Cost Neutrality Demonstration

#### J-2: Derivation of Estimates (9 of 9)

**d. Estimate of Factor D.**

**i. Non-Concurrent Waiver.** Complete the following table for each waiver year. Enter data into the Unit, # Users, Avg. Units Per User, and Avg. Cost/Unit fields for all the Waiver Service/Component items. Select Save and Calculate to automatically calculate and populate the Component Costs and Total Costs fields. All fields in this table must be completed in order to populate the Factor D fields in the J-1 Composite Overview table.
