

# What Could a Community Living Supports (CLS) Home Look Like?

Money Follows the Person (MFP) helps people living in an institution move to a home or apartment in the community. TennCare provides money to local agencies to help them improve Community Living Support (CLS) homes.

## About Community Living Support (CLS) Homes

CLS homes are homes or apartments in the community where four or less individuals with disabilities live together. You can still receive the supports you need while living in the community.

If you are interested in transitioning to a CLS home, please contact your Support/ Care Coordinator to learn how this process works. Let's look at some Community Living Support homes in Tennessee.

## Exterior

CLS homes look and feel like any other home. They are part of a neighborhood and allow you to connect with the community.

Some CLS homes have yards where you can enjoy fresh air or relax outside.

CLS homes come in all different shapes and sizes, so you can find a home that fits your need and preferences.

## Interior- Kitchen

The kitchen is a great place for you to practice cooking skills, learn new recipes, and create fun memories.

## Interior- Living room

The living room is a comfortable space to relax or spend time with friends by watching a movie, playing games, or enjoying time together.

# Interior- Bedroom/ Bathroom

You can decorate your bedrooms how you want and create a space that feels like home.

Some CLS homes also offer accessible features, such as walk-in showers.
