

Final Annual Report to CMS

Thursday, March 21, 2019

On October 26, 2018, the Division of TennCare submitted a Draft Annual Report to the Centers for Medicare and Medicaid Services (CMS). The purpose of the report is to summarize important achievements and developments in the operation of the TennCare program for State Fiscal Year 2018. The report is required both by federal regulation (42 C.F.R. § 431.428) and by the terms of TennCare's Demonstration agreement with CMS.

CMS has the authority to request changes in the Draft Annual Report. On January 10, 2019, CMS identified sections of the Draft Annual Report for which additional detail would be helpful. TennCare expanded the report to address CMS's feedback and submitted the Final Annual Report for State Fiscal Year 2018 on February 8, 2019. CMS notified TennCare on March 8, 2019, that the Final Annual Report had been approved.

The Final Annual Report is being published on the TennCare website on March 21, 2019, at the following address:
