

## TennCare PCMH Program Update: 1.18.2022

**Welcome Wave 6 Organizations!** We are excited to announce that five new organizations have begun participation in the TennCare PCMH program! Please wish a warm welcome and congratulations to Murfreesboro Medical Clinic, Pediatric Partners of Nashville, Wellmont Medical Associates, West Tennessee Medical Group UT Medicine, and WT Medical Associates. You may find a complete list of all participating organizations attached and, on the website, [here](#).

**New Care Coordination Tool (CCT) Training in February.** Join us for a training session on *Using Data in the CCT to Improve Member Outcomes: IMA Combo 2 and 10 Measures* on **Wednesday, February 16<sup>th</sup> from 12 PM – 1 PM CT**. In this training, we will review the data and tools available in the CCT to help with coordinating closure of the combo 2 and 10 measures. We will review how to identify open measures, where to find TennIS data in the CCT, and other tools in the CCT that may help in coordinating care. Stay tuned for the training invitation!

**March 2022 Virtual Delivery Systems Transformation Conference.** TennCare and the MCOs are gearing up for the first round of our virtual Delivery Systems Transformation conferences in 2022! If the last two years have taught us anything, it is to expect the unexpected and adapt as required. Join us on **Tuesday, March 29<sup>th</sup> from 8:30 AM – 12:30 PM CT** (please note the change in date from previously announced) for *Game On: Embracing Change Through Transformation and Resiliency*. The conference will feature COVID-19 pandemic updates, learning collaborative sessions, and the kick-off to this year's theme – Youth & Adolescence Health Series. Subject matter experts from PCMH, THL, and EOC will also share their knowledge and answer your questions. Save the date and be on the lookout for registration updates. You don't want to miss this *free* event!

**2022 HEDIS Coding Guides Now Available in the CCT.** The 2022 HEDIS coding guides for PCMH and THL are now available in the "Forms, Resources, and Education" section of the CCT. The guides indicate which CPT codes can close certain HEDIS measures/gaps in care. See below on where to find the PCMH and THL guides within the CCT:
