

Section Title: Financial Policies

Policy Title: Master Plans

Policy Number: F4.1

4.1.10 **Scope and Purpose.** The purpose of a campus master plan is to articulate the multi-year facility needs of an institution or group of institutions to accomplish the vision, goals, objectives, and direction established within an approved academic or strategic plan and mission statement for the institution(s). The campus master plan provides guidance for future development of the physical campus necessary to provide quality instructional and service facilities.

4.1.20 **Authority.** The Commission is empowered to make recommendations and decisions upon capital investment and real estate transactions for institutions of higher education in its execution of the Master Plan, approval of campus master plans, and oversight of the state's comprehensive strategic financial plan for higher education.

4.1.30A **Procedures.** A campus master plan, once approved in compliance with the policies and procedures of a respective governing board, must be submitted to the Commission for review and approval prior to submission to the State Building Commission. A new campus master plan or a master plan update must be completed for each institution at least once every ten (10) years.

4.1.30B Once approved in compliance with the policies and procedures of a governing board, all subsequent updates or amendments to existing campus master plans must be submitted to the Commission for review and approval.

The Commission authorizes the Executive Director to review and approve updates and amendments to campus master plans previously approved by the Commission.

A **Master Plan Update** includes substantive changes to various sections of the campus master plan or revisions in scope that are consistent with the objectives and concept of the current master plan and may require the re-issuance of the complete master plan book. The approval of an Update by the Executive Director shall be reported to the Commission and may be presented for information, at the discretion of the Commission, at a following quarterly meeting.

A **Master Plan Amendment** is consistent with the objectives of the original master plan and involves revisions of limited scope, which may include, but shall not be limited to:

- 1) Property acquisitions or disposals;
- 2) Plans for traffic, parking, or vehicular or pedestrian circulation;
- 3) Refinement of a building program or site;
- 4) Studies of regional demographics or workforce development; or
- 5) Operation of auxiliary enterprises, including, but not limited to, athletics, recreation, housing, and food services.

4.1.30C Commission staff may solicit information from each institution to assess whether or not—in the judgment of the Executive Director—substantive changes have occurred to the campus environment, that warrant updates or revisions to a campus master plan before the next regularly scheduled master plan review or update.

4.1.30D All capital project requests and transactions shall be reviewed by Commission staff for conformity with the campus master plan. The Commission reserves the right to not rank or approve capital projects for facilities that are not identified in an institution’s current and approved master plan.

4.1.40A **Master Plans.** When evaluating and approving new and updated or amended campus master plans, the Commission and Executive Director may consider, but are not limited to, the following:

- 1) Academic mission;
- 2) Enrollment;
- 3) Student services;
- 4) Capital projects;
- 5) Parking;
- 6) Space need, as defined by the Commission’s Space Allocation Guidelines, and space utilization;
- 7) Land acquisition and disposal; and
- 8) Site, environmental, and utility issues.

4.1.40B The development, execution, timeliness, and scope of campus master plans shall be performed in accordance with Master Plan Guidelines. The Guidelines shall be developed, maintained, and updated by Commission staff.

Approved: January 26, 1990
Revised: November 14, 2002
May 11, 2017
January 26, 2018
