DATE: July 24, 2008
SUBJECT: Temporary Authorization of New Institutions under the Postsecondary Authorization Act

ACTION RECOMMENDED: Temporary Authorization

BACKGROUND INFORMATION: The Commission, under the Postsecondary Authorization Act, has the “power and duty” to act upon applications for authorization to operate an educational institution in the state. For the institutions listed below, applications have been reviewed, site visits have been performed, and staff has determined that all necessary documentation and bonds have been secured. The Committee on Postsecondary Educational Institutions met on June 19, 2008 and endorsed staff recommendations for Temporary Authorization of these institutions.

A. Embry-Riddle Aeronautical University Millington, TN

Embry-Riddle Aeronautical University – Millington is located at 5722 Integrity Drive in Millington, Tennessee. The institution is a not-for-profit corporation that is accredited by the Southern Association of Schools and Colleges (SACS).

The institution will offer six programs:

1. The Master of Aeronautical Science in Aviation/Aerospace Management (Onsite) Degree Program provides students with modern management concepts, methods, and theories for the aviation and aerospace industries. Emphasizing advancement within an aviation career path, this program is designed to build efficient and effective management skills for students. Students are taught communication and quantitative skills, global awareness, social responsibility and ethics, information technology, critical thinking, and teamwork. Students will be provided this training at the Naval base within a classroom setting.

Program: Aviation/Aeronautical Management (Onsite)
Credential Awarded: Master of Aeronautical Science
Length of Program: 36 semester credit hours (24 months)

2. The Master of Aeronautical Science in Aviation/Aerospace Management (On-line) Degree Program provides students with modern management concepts, methods, and theories for the aviation and aerospace industries. Emphasizing advancement within an aviation career path, this program is designed to build efficient and effective management skills for students. Students are taught communication and quantitative skills, global awareness, social responsibility and ethics, information technology, critical thinking, and teamwork. Students will be provided this training through distance learning.
3. **The Master of Aeronautical Science in Aviation/Aerospace Safety System (Onsite) Degree Program** provides students with knowledge of the complex safety systems and the rules governing these systems within the aeronautical field. This program offers methods and theories for the aviation and aerospace industries to ensure federal safety guidelines are followed. Students will also be taught human factors involving the hiring and managing of flight and support personnel; the securing of a flight environment; and the cutting edge design efforts for occupant-friendly aircrafts. Students will be provided this training at the Naval base within a classroom setting.

4. **The Master of Aeronautical Science in Aviation/Aerospace Safety System (On-line) Degree Program** provides students with knowledge of the complex safety systems and the rules governing these systems within the aeronautical field. This program offers methods and theories for the aviation and aerospace industries to ensure federal safety guidelines are followed. Students will also be taught human factors involving hiring and managing flight and support personnel; the securing of a flight environment; and the cutting edge design efforts for occupant-friendly aircrafts. Students will be provided this training through distance learning.

5. **The Bachelor of Science in Professional Aeronautics (Onsite) Degree Program** will provide a comprehensive understanding of the theories and concepts of aeronautics. This program provides students the knowledge of occupational safety and health standards, logistics, and general management skills. The curriculum also provides general education courses such as: communications, humanities, social science, computer science, mathematics, and physical science. Students will be provided this training at the Naval base within a classroom setting.

6. **The Bachelor of Science in Professional Aeronautics (On-line) Degree Program** will provide a comprehensive understanding of the theories and concepts of aeronautics. This program provides students the knowledge of occupational safety and health standards, logistics, and general management skills. The curriculum also provides general education courses such as.
communications, humanities, social science, computer science, mathematics, and physical science for the completion of a bachelor’s degree. Students will be provided this training through distance learning.

**Program:** Professional Aeronautics (On-line)  
**Credential Awarded:** Bachelor of Science  
**Length of Program:** 120 semester credit hours (48 months)

The institution participates in Title IV funding.

**B. National American University**  
Rapid City, SD

National American University is located at 5301 South Highway 16, Suite 200 in Rapid City, South Dakota. The institution is a for-profit corporation that is accredited by the Higher Learning Commission of the North Central Association (NCA).

The institution will offer thirty-five programs:

**Program:** Business Administration – Non Thesis  
**Credential Awarded:** Master of Business Administration  
**Length of Program:** 54 semester credit hours (18 months)

**Program:** Business Administration – Thesis  
**Credential Awarded:** Master of Business Administration  
**Length of Program:** 54 semester credit hours (18 months)

**Program:** Healthcare Administration – Non Thesis  
**Credential Awarded:** Master of Business Administration  
**Length of Program:** 54 semester credit hours (18 months)

**Program:** Healthcare Administration – Thesis  
**Credential Awarded:** Master of Business Administration  
**Length of Program:** 54 semester credit hours (18 months)

**Program:** Human Resource Management – Non Thesis  
**Credential Awarded:** Master of Business Administration  
**Length of Program:** 54 semester credit hours (18 months)

**Program:** Human Resource Management – Thesis  
**Credential Awarded:** Master of Business Administration  
**Length of Program:** 54 semester credit hours (18 months)

**Program:** Information Technology – Non Thesis  
**Credential Awarded:** Master of Business Administration  
**Length of Program:** 54 semester credit hours (18 months)

**Program:** Information Technology – Thesis  
**Credential Awarded:** Master of Business Administration  
**Length of Program:** 54 semester credit hours (18 months)
