<b>I wish to comment in support of</b>	Metro Nashville Public Schools

## Written Comment

To be clear, I do not wish to make a comment in support of Nashville Collegiate Prep High School, so I selected "Metro" in opposition to the former. The property at the intersection of Barnes Rd. and Old Hickory Blvd. was bought and then destroyed without any input from the community or the government. That property had historic structures, old growth trees, beautiful rock formations, and streams. It rests in the center of a partly rural community, along Mill Creek, one of our treasures. It might have been Cane Ridge's equivalent to Radnor Lake, preserving not just history but the wildlife that thrived in those acres. However, with zero input from the community a company, which isn't even in Tennessee (from my understanding, it's a Florida company), razed every tree, then bulldozed and blasted the land beyond recognition. I can see the property from my front porch, and have felt my house rattle time and again with the explosions. The brazenness and lack of care has been, to me and my neighbors, profoundly upsetting. I realize we live in a growing county, and I realize that you can't save every tree. I realize that development happens (and sometimes needs to happen). But it ought to happen responsibly, with a care for the humans whose lives are rooted to the place (and those who will live here many years from now). Could they not have saved some of the old growth trees? Could they not have planned the school to fit within the natural contours of the property without exploding tons of granite? Could they not have provided green space and walkability through the old groves for the benefit of those who live here? Could they not have asked, just once, what we thought? If this charter is denied, the developer will likely sell off the land to another developer who will thoughtlessly build a thoughtless subdivision on the wasteland that they created. I'm not sure what's better--a charter school and the valid traffic and noise/light pollution concerns, or a bland subdivision with no mixed use or means for true community engagement or walkability. There could have been, as I said, a park. There could have been some sort of agricultural use, good for the land and its people. There could have been a small town center (like Leiper's Fork) that would have preserved the quaint feel of Cane Ridge while adding a bit of responsible commerce, a project which would have given Cane Ridge a personality and a shape that would have elevated the lives of the people in the area for a hundred years. I'm opposed to the charter school not because I believe that charter schools are bad, but because the people who bought this property have demonstrated no concern for this community--either the human one or the natural one. Those acres are, quite literally, ruined. The shape of the land is forever changed. The trees were hundreds of years old. The wildlife has been expelled. It's too late for my words to do any good, but I didn't want to miss an opportunity to voice my sadness over the loss of this precious part of our community, at the hands of developers who made these decisions from afar. I will forever regret not trying harder to protect this property.

<b>Written Comment</b>	My children have had such a hard time in MNPS schools, and I switched them to a charter school because there's so much more effort and support from the teachers in my opinion. I would love for my kids to attend all the way through high school if possible with Nashville collegiate! I can't wait for them to gain all the new experiences and see the growth of their individual selves as well.

<b>Written Comment</b>	I have two children attending NCP since the beginning. We are very lucky to be just minutes away from this great school. My children love NCP. It would be great very convenient and beneficial to have K-12. The kids are used to NCP and love the community classrooms. It would make the transition between elementary school to middle and high school so much easier on the kids.

**Written Comment**

This is our 3rd year living in Nashville and first year experiencing a charter school. With school only being in attendance for 1 month I can already feel the difference. I absolutely love NCP , I couldn't say that about the public school my kids attending before. NCP school is very hands on and committed to their students and their families. I appreciate the opportunity my kids has gotten so far and I know adding a high school would be great.

Thank you,

Proud parent of NCP

<b>I wish to comment in support of</b>	Nashville Collegiate Prep High School
<b>Written Comment</b>	<p>I wish to express my support for extending Nashville Collegiate Prep to a full K-12 environment. My daughter currently attends in 1st grade and has thrived there over the last year and a half. She has made many friends and is gets along well with all of the faculty and staff. I believe it would be detrimental to her and her classmates to be forced to separate for High School after having gone through the previous 9 years as a group. In fact it would be cruel. Allowing the school to continue providing its exceptional opportunity to the students who have been a part of that community throughout their earlier years only makes sense. A significant change in the style of teaching and focus, just as they start High School, can only be detrimental to their ability to secure positions in top colleges after graduation. It introduces an unneeded learning curve to become familiar with a new culture of schooling just as their performance becomes most important. The school has already demonstrated a track record of being able to extend its service as it has moved from a K-4 environment to include a Middle School and there is no reason to believe it would not be just as successful extending into a High School.</p>

To whom it may concern,

I have a daughter who is a current 1st grader at NCP. We have now been a family of the school for the second year. We LOVE the learning atmosphere that NCP brings to the area. The ability to have your child get personalized learning and in an environment they can thrive is an integral part of learning. Growing up in a school system that was catered towards one style of learning its incredible to see my daughter thrive learning how she as an individual learns best. She has gained confidence and social skills beyond measure from her time at NCP. We love this school and hope to be able to send her there for the remainder of her schooling years would be amazing. I can for see this school to do amazing things for the community and the nashville school system. I look forward to be able to see the amazing work this team will provide and to see my daughter grow and learn and hopefully have the opportunity to be a part of an amazing school community for the remainder of her schooling here in nashville.

<b>Written Comment</b>	<p>I am a local attorney and the father of 4 young children, ages 7, 4, 2, and 0. My wife and I chose Nashville Collegiate Prep for our oldest because we hoped NCP would develop into a full K-12 track, providing quality education all the way through. We are in our forever home and plan to put all our children through the NCP system. It is very important to us that an NCP high school be created so our children can maintain their relationships as part of a continuous community throughout their grade-school education. I also speak as a former educator: I taught college philosophy for about half a decade before becoming a lawyer. My wife, who taught sociology at Vanderbilt for nearly a decade before moving on to better opportunities, heartily agrees.</p>

<b>I wish to comment in support of</b>	Nashville Collegiate Prep High School
<b>Written Comment</b>	<p>I hope this letter finds you in good health and high spirits. I am writing to express my wholehearted support for the proposed addition of a High School to Nashville Collegiate Prep. This endeavor holds immense promise in providing our students with a comprehensive K-12 educational experience that will undoubtedly shape their future.</p> <p>Expanding Nashville Collegiate Prep to include a High School is a vital step towards ensuring that our students receive a seamless and consistent education from kindergarten through to graduation. This continuity in learning environments fosters a sense of belonging and community, which is essential for academic success and personal growth.</p> <p>Furthermore, a dedicated High School within the Nashville Collegiate Prep system will allow for a more tailored and nuanced curriculum, designed to meet the unique needs and aspirations of our students as they approach their final years of secondary education. This specialized focus will undoubtedly enhance their preparedness for higher education and the challenges of an increasingly competitive global job market.</p> <p>In addition to academic benefits, this expansion will create a nurturing environment that fosters character development, leadership skills, and a strong sense of civic responsibility. By instilling these values early on, we are not only shaping well-rounded individuals, but also contributing to the betterment of our community and society at large.</p> <p>Thank you for your time and consideration. I look forward to witnessing the positive transformation that this addition will bring to Nashville Collegiate Prep and its students.</p>

<b>I wish to comment in support of</b>	Nashville Collegiate Prep High School
<b>Written Comment</b>	Hello,

I am a writing today in hopes of bringing support and understanding regarding the addition of a high school for Nashville Collegiate Prep. I am the mother of 2 NCP students, and we have been at the school since the day they opened their doors. As a family we were struggling following Covid, with where to send our kids to school at all. The pandemic affected our income to where we could no longer afford private school, and the ratings of the public schools in our area were discouraging, to say the least. We prayed for a safe school, that would understand our kids needs, challenge them academically, bring joy and make them feel at home - and we got it! The blessing, to have Nashville Collegiate Prep open up a few miles from our home JUST in the nick of time, was immense! I literally cried when we got our acceptance notice. Fast forward to today and both my daughter (who is a creative thinker) and my son (who is on the autism spectrum with an IEP) are THRIVING. They are excited to go to school every day, they're happy when they come home and they are excelling in their academics. What more could we ask for? NCP is exactly what South Nashville needed. NCP is our home away from home, and my kids do not want to go to school anywhere else. Please, please consider us and the other families when making your decision, as your choice can and will affect our children's lives deeply.

Thank you for your time.

Sincerely,  
Jenna Pegelow

<b>I wish to comment in support of</b>	Nashville Collegiate Prep High School
<b>Written Comment</b>	<p>NCP gives children that would be lost in the public school system a chance at an amazing education. We knew our child would not succeed in the public school of metro and were lost as to what to do. We were told about NCP and decided to go visit. After that visit we knew that is where our daughter belonged. NCP offers a structured learning environment that you can not find in the public school systems. I truly believe the older the student gets the needs become more prominent and NCP can offer everything a student needs and beyond. Please approve NCP K-12!!!!!!</p>

Hello Everyone!  
We have daughter who is attending 3rd grade in NCP and this is her second year in this school.  
Our experience is not too vast but as parents we can admit that NCP is contributing a lot to the education of our kids in its district. Teachers and staff are very dedicated, find suitable approach to every kid, use latest available technologies in educational process. Also, school is offering affordable Aftercare program that really helps to the parents. We would be happy to have a chance to continue education of our child in High School of NCP considering all that positive experience that has been already received.  
Hope that reasoned and clever decision will be made after consideration of all facts and arguments and that our kids won't be off board of all those perspectives to get quality and decent high school education.  
Thank you!

**Written Comment** As a resident of the neighborhood (Sunset Hills) adjacent to the proposed site, I have concerns about increased traffic due to a school situated without proper traffic infrastructure. This could lead to congested roads surrounding my neighborhood, as well as increased traffic cutting through our neighborhood, leading to greater risk for pedestrians.

I also have concerns about the destruction of trees and forests will lead to increased flooding of Mill Creek and potential property damage near us.

<b>Written Comment</b>	<p>Hi! I would first like to introduce myself. I am a parent of a kindergarten student, who absolutely loves his teachers. The experience that we have already have had at Collegiate prep is completely unique and unmatched, from the way we are talked to and greeted. To the way, the kids dress and have to interact with each other. I truly think having a high school option would be a tremendous benefit to everyone involved. Thank you, have a great day!!</p>

<b>I wish to comment in support of</b>	Nashville Collegiate Prep High School
<b>Written Comment</b>	I like the idea of Nashville Collegiate Prep becoming a K-12 school. It was difficult to find a good school for my youngest granddaughter who is currently in the 5th grade. I also have a great-granddaughter in the 3rd grade. The family wanted to keep them together. If NCP becomes K-12 they can both go to the same High School until my youngest granddaughter graduates from the school.

Re: Support Nashville Collegiate Prep High School

To whom it may concern,

My name is Nahema Canty, I am writing this letter on behalf of Nashville Collegiate Prep High School. Nashville Collegiate Prep is a very important school in our community that is making a difference in my children's education. Nashville Collegiate Prep provides great educational choices, and core values of safety, community, diversity, fun, and personal growth. I would love for my children to continue their education with this school because they have high standards combined with Steam curriculum that will prepare students to succeed in college and their careers.

I support the approval of Nashville Collegiate Prep High School to serve our community. I value the mission and the vision.

Sincerely,

Nahema Canty

**Written Comment**

This is our 3rd year living in Nashville and first year experiencing a charter school. With school only being in attendance for 1 month I can already feel the difference. I absolutely love NCP , I couldn't say that about the public school my kids attending before. NCP school is very hands on and committed to their students and their families. I appreciate the opportunity my kids has gotten so far and I know adding a high school would be great.

Thank you,

Proud parent of NCP

<b>Written Comment</b>	Nsshville Collegiate has been an amazing addition to the neighborhood and has provided our children with opportunities that may have not been possible elsewhere. Please consider allowing a high school so the children can continue their matriculation from kindergarten to senior year without having to be uprooted from their friends and teachers. A new high school will be great for all students of Nashville. Thank you

## Written Comment

As a member of the community and a school board member, I support the decision to MNPS to deny this application for the following reasons:

### Community Concerns

1. **Unrealistic Enrollment Goals:** The application contains enrollment projections that are unrealistic, particularly given the under-enrollment of the existing middle school. This raises concerns about the school's ability to serve the community effectively.
2. **Compliance Issues:** There are numerous errors in the application's waivers, making it questionable whether they will be approved by the Tennessee Department of Education. This places an undue burden on community resources to correct or oversee these compliance issues.
3. **Community Involvement:** There has been no community input on the current building of the school. Requests to meet with NEI from council member were made to try address the concerns and build good will but the request was denied repeatedly.

### Parent Concerns

1. **English Learner Policies:** The application contains policies and standards related to English Learners that are not compliant with current guidelines. Parents of English Language Learners may find that the proposed charter school would not adequately meet their children's needs.
2. **Insufficient Funding for Transportation:** The application does not allocate sufficient funding for the transportation of both general students and students with disabilities. This could put a strain on families who rely on these services.
3. **Transparency in Financial Planning:** The applicant's refusal to provide a network financial plan that outlines the fiscal health of other schools in its network may lead to trust issues among parents.

### Academic Concerns

1. **RTI2 Mandated Intervention Time:** The application does not meet the state-required Response to Intervention (RTI2) mandated intervention time, raising concerns about the quality of individualized academic support for students.
2. **Staffing for English Language Learners:** The school has not allocated appropriate staffing to serve the needs of English Language Learners, undermining the academic potential of this

important subgroup.

3. Portfolio Performance: The school's academic performance data for existing schools either matches or underperforms compared to Metro Nashville Public Schools (MNPS). This poses a question about the school's ability to deliver better academic outcomes.
4. Authorizer Evaluation: The authorizer's evaluation of the current school in the portfolio falls short in the category for Academic Performance Growth, which raises red flags about the school's academic credibility.

#### Other Concerns

1. Inadequate Reporting of Managed Schools: The absence of reporting data for schools managed by Nobel Education Initiative, the confirmed Charter Management Organization (CMO), raises questions about transparency and effectiveness.
  2. Lack of Latest Audit: The application's failure to include the latest audit poses a risk in understanding the fiscal responsibility and integrity of the school.
  3. Incomplete Professional Development Plans: While the application does include a professional development plan, it doesn't mitigate other operational and financial shortcomings that impact the overall quality of the education environment.
- In light of these concerns, we strongly urge the Tennessee Public Charter Commission to deny the appeal application of Nashville Collegiate Public High School. Thank you for your consideration.

I have served on Metro Council, representing District 31 since 2019. The new campus construction site for Nashville Collegiate Prep is in the heart of my Southeast Nashville district. I write to express my disappointment in the leadership involved in planning this new campus. During my time on Council, no major construction project has started without significant community engagement, except for this one. Even though a zoning change was not required, I didn't learn of this project until after the property was already being cleared, and the same can be said for my constituents, who were not happy to say the least. A community meeting to discuss the project would have gone a long way towards building a relationship with neighbors and parents of potential students. Among my constituents are both opponents and supporters of charter schools. Opponents are obviously opposed to this new campus, but many of the supporters of charters are not happy that Nashville Collegiate Prep failed to engage the community. The two concerns I have heard most regarding this project is environmental concerns related to the adjacent Mill Creek and traffic on Old Hickory Blvd on the front of the property. What is being done to protect the creek? Will there be turn lanes and shoulders added to this tiny two-lane road and what will be the impact on the intersection at Barnes Road? These are questions residents have not been able to ask. From my experience having facilitated many development related community meetings, every development in my district has ultimately been improved through community engagement. This project hasn't had that and every effort I made to engage with school leadership to encourage community engagement was ultimately rebuffed. I believe community engagement would have led to far less opposition to this school and would have led them to being seen as more of a willing community partner. When determining this school's future, lack of community engagement and the attitude projected from refusing to engage, should be considered.

## Written Comment

I am writing in support of Nashville Collegiate Prep High School. I am a parent of a current Nashville Collegiate Prep Elementary student who is thriving in her current school setting at NCP. I am also a resident of Oak Highlands/Deer Valley Subdivision which will be adjacent to the NCP High School Campus. I, as many of my neighbors in Cane Ridge, have not enjoyed the traffic, blasting, and construction that has occurred at the new school site. However, I realize that this is a temporary inconvenience that will result in so much good for our community. I am also a veteran teacher of 17 years and understand the need for schools like NCP in our community. Unfortunately, the school my daughter is zoned for has a history of very low academic achievement. Recent years' test scores at our zoned school showed only 12 % of students proficient in reading and math. As a teacher, I understand the room and chance for growth in this school and I am sure their teachers and staff work very hard to help their students grow. But as a parent of a high achieving child, this environment is not the best place for my child. This environment will not provide the space for growth for my child. Teachers will need to spend the majority of their time, rightfully so, scaffolding and supporting the lower achieving students to help them to grow closer to proficiency. Where does that leave my child? My child's academic growth should not be hindered because of one particular school's academic intervention needs.

Nashville Collegiate provides the academic opportunity for all students to grow. Their community learning models and committed teaching staff create an environment for students to set personal learning goals and work toward them as needed. Students requiring tiered interventions get that extra small group time, but advanced students get the same times working toward their own advancement. No one is stifled, no one is held back. I have had the opportunity to substitute this year at NCP. I can attest to the teachers and administration's planning and intense dedication to teach their students with rigor and intention. I see high expectations of behaviors and follow through when expectations are not met.

With Nashville Collegiate High School, I am excited that my daughter will be able to continue her education at Nashville Collegiate. She will be able to continue to thrive at her needed pace and keep her educational path steady and moving forward. This will not be possible if she is forced to attend our "zoned" school cluster. School choice is a difficult one. If my daughter could thrive in our zoned school, I would have no issues sending her there. However, that is not the case. NCP offers her and her peers a path that other schools could not. That kind of success is good for our kids, our community, and our city. The data of previous years shows that there is much work to be done at MNPS. Charter schools should not be looked at as an oppositional force. They should be looked at as a partner.

Nashville Collegiate High School will provide more opportunity for our community to contribute positively to Nashville. Better education opportunities equal better citizens. Please don't let bureaucracy and politics play with our children's education. Don't let complaints about traffic hinder a

child's ability to excel or be proficient. No one likes traffic and construction. We all know the infrastructure in Davidson County is horrific. Cane Ridge has dealt with a ridiculous amount of real estate developing in recent years. We have let these developers make millions by over developing our land. I understand people's frustration over that. I have them, too. But our children deserve a place like NCP High School. They are investing in our community's future. I say that's more important than a few extra minutes of traffic or a short time of inconvenience because of construction.

<b>Written Comment</b>	<p>I am a parent of a 6th-grade student at NCP. My daughter attended Lighthouse Christian School for most of her life until this year. Changes had been made in the school that no longer upheld the education standards we were seeking. I am a product of the public school system in Davidson County having attended Antioch High School. I did not have a good experience at this school and felt my teachers did not take my education seriously. I was in the class of 2010, so I had hoped conditions had improved considering my daughter is zoned for this school. My neighbor graduated from AHS last year and it appears conditions have worsened. The public school system is quite broken and there are many flaws, which is why we chose to go the charter route. That said, I have been hands-on with NCP and my daughter has experienced teachers who genuinely care about her academic standing, maintaining creative outlets for the children, and about genuine kindness amongst everyone in the school. This is where I want my daughter to stay and having a high school with this high of a standard as their bottom line is vital to our community. I understand a primary argument is that Antioch does not need another high school, however, our community is growing rapidly through infrastructure upgrades and a major revitalization and it is apparent we are preparing for this with more housing and the like. We need our school systems to grow with the community to allow for incoming families and also to allow families to choose a better education. Thank you for your time and consideration.</p>

<b>I wish to comment in support of</b>	Nashville Collegiate Prep High School
<b>Written Comment</b>	The High School is necessary for our school district, our children will have the opportunity to stay in one school from kindergarten to 12th grades. They will grow with their peers as friends and family. Please let Nashville College Prep continue with the construction of the high school.

<b>Written Comment</b>	<p>I support the addition of grades 9 to 12, I am very satisfied with this school because it takes care of and protects the students and keeps me informed of all important events and responds as quickly as possible, does not pressure the students but at the same time It supports them so that they are up to date with their studies and good communication with parents. I love the NCP educational system. I am sure that educational establishments like this will make a difference for our children tomorrow, thank you.</p>

<b>Written Comment</b>	<p>NCP has everything and more of what all Nashville / Davidson County schools are missing - a proper education with a beautiful mission to provide each child - no matter what background - with love, guidance, and acceptance.</p> <p>To have my child attend NCP from Kindergarten to High School would be phenomenal. Yeah, there are plenty of high schools in the area, but absolutely zero are at the level of NCP.</p> <p>Imagine your child staying with the same students / friends they've known since their first year at NCP, growing, learning, and loving one another all the way to college. That's what's so special about NCP. As a Nashville native, I was re-zoned three times during my summer before high school. Me, and five other kids, were the only one's who were pushed to a new school where we knew absolutely no one - it was heartbreaking and terrifying.</p> <p>This isn't just going to be a high school; this is going to be a whole new community.</p>

<b>Written Comment</b>	<p>NCP provides my special needs child with a safe and fun educational environment where he can excel in his strengths and work toward reaching goals where he has difficulties. My son scored in the 95th percentile for ELA nation wide while attending MNPS and he was not recognized, congratulated or encouraged. This year he is at the top of his class so far in ELA and the amazing team at NCP makes sure that he is recognized and has the ambition to continue. This is the kind of environment that I want my child to receive throughout his high school career as well which I do not feel he will receive at the local high schools that are already in place.</p>

<b>Written Comment</b>	<p>I support NCP. We ARE IN NEED of another high school in our area. High schools are so overcrowded. I attended high school in Nashville and the classrooms were so large!! STUDENTS DO NOT LEARN THIS WAY. I attended schools with smaller classrooms and I was always an As and and student compared to when I attended Antioch High School. My grades were always Cs and Ds!!! The US needs to change this. This is the reason our students do not progress!!!!</p>

<b>Written Comment</b>	<p>I am support of an NCP high school. Although I am aware that there are trade-offs with charter programs, the current schools for which my family is districted do not meet my child's needs, and the NCP model is a much better fit. Additionally, part of the argument against a new school is that there are ample high schools in the area, I do not believe that will remain true (if it is even now) for many years due to local population growth, and NCP's planned location would be a welcome addition geographically relative to our districted spot as well.</p>

<b>Written Comment</b>	<p>I support the NCP High School addition. Please give us a chance to build a full k-12 school with my son loving the school and learning so much from these great teachers we have.. this we'll give me stress free so I do not have to run around looking for a high school for my son. We really need this because it is so hard to find a good school for my son and a school that is close by. Please give us a chance to continue building this great community we have it just doesn't feel completed with out a high school.. thank you for your time the kids need this and we need this.. god bless</p> <p>-Salar khalifa</p>

<b>Written Comment</b>	As the parents of a 10 year old in fifth grade at Nashville Collegiate Prep, my wife and I cannot speak highly enough of the educational environment and overall experience, our son has had there. He began his NCP journey in third grade, and now in our third year, we are very pleased with Both school administration and teachers. The ability to carry on this education through high school is vital and I highly encourage you to approve the high school plan for Nashville Collegiate Prep.

<b>Written Comment</b>	<p>We need to continue to move forward with expanding the NCP school to high school level. That was what was promised going into middle school. We don't have a back up plan. My children have been going to NCP since elementary (since the school opened) - my oldest has gone to middle school grades every year as they have expanded - we were told that the new middle/high school was approved and being built. Please, do not stop this from continuing. My kids are used to the NCP learning model now - it will be extremely difficult for them to go back to traditional school ways now. Also, NCP has been working closely with my child and her extra needs. She has needed An IEP and now has a 504.</p>

<b>Written Comment</b>	<p>September 12, 2023 Ms. Michelle Bonds Registrar Nashville Collegiate Prep Ms. Bonds:</p> <p>I am writing to support Nashville Collegiate Prep's application to expand its grades through the 12th grade. My daughter, Kiera O'Leary, is currently enrolled at Nashville Collegiate Prep, and we have had a great experience. The school fosters a learning community that cares for its students, and my daughter has benefitted greatly from being a part of that community. Allowing Nashville Collegiate Prep to operate a high school would allow my daughter to stay with the same cohort of students through high school and not have to switch from school to school. I believe this would benefit her greatly, as she has strived since her enrollment at Nashville Collegiate Prep.</p> <p>Sincerely, s/Tara Cleary Tara Cleary Mother of Kiera O'Leary</p>

## Written Comment

My name is Eve Carney, and I have recently joined the Noble Education Initiative (NEI) team in Tennessee and am accountable for the Tennessee charter schools operated by NEI. Having been at the Tennessee Department of Education for 15 years prior to my joining NEI Tennessee, most recently as Deputy Commissioner and overseeing choice, I have a unique perspective to offer as it relates to charter schools and more specifically, Nashville Collegiate Prep High School (NCPHS).

In the time I have been with NEI, I have observed schools being operated with a student-first mission and vision. More importantly, I have observed the actions and hard work it takes to serve all students well - meeting them where they are and moving them forward.

NCP holds itself to the highest of expectations and refuses to accept the lowering of expectations for students, particularly those who have been historically marginalized. I am in these school buildings and classrooms every day and observe the great things that are transpiring - all to equip students to make their goals and dreams attainable. Of particular note, each student has a personalized mobile learning plan that is used regularly with students, so they have familiarity and ownership over their own learning.

As I reviewed the most recent school-level TVAAS data for NCP, I was both surprised and excited by the data I was seeing. Admittedly, our TVAAS composite was not where we want it to be; however, our English learners, which currently makes up more than 40% of our overall student population at NCP, exceeded the All Students proficiency levels across every grade level in ELA, math, and science. This accomplishment is a testament to doing what is necessary to ensure all students learn and grow. Students need and deserve the choice to continue at NCPHS, especially given the current TVAAS scores of the traditional public high schools in the Antioch community.

Separate, but related, I am seeing similar growth trends in another high school operated by NEI, Knowledge Academy, which earned TVAAS scores of level 3 or higher in four of the five EOC assessments - with two earning level 5.

In my experience visiting and overseeing charter schools across Tennessee, I have yet to see this level of investment, both financial and otherwise, in a community as I am currently seeing with NEI. They are "all in" - committing their resources into providing a K-12 option by constructing a state-of-the-art facility and creating a learning environment that is adaptive and smaller in scale than other public options.

As someone who has committed her professional career to ensure that all students have real access to an excellent education, I fully support the approval of NCPHS as a high-quality, public choice option to families in the Antioch community. All families deserve to have a voice and choice in their

child's education, and the approval of NCPHS provides families this choice option.

Thank you for the opportunity to provide feedback.

<b>Written Comment</b>	My child is currently attending the middle school for NCP. This has been a wonderful experience for her and we would like to see it continue through high school. We do not feel comfortable placing her in her zoned high school, when the time comes. We will have to explore private school options. With one child in college, I hope that will not be the case.

<b>I wish to comment in support of</b>	Nashville Collegiate Prep High School
<b>Written Comment</b>	Nashville Collegiate Prep has be a critical component to helping reduce the knowledge gap my child experienced as a result of online learning during the pandemic of 2020-2021. Entering NCP in 2022, my 5th grafter was performing well below grade level. The innovative instruction, class structure and leadership prepared my student to enter middle school with confidence. She's also on track to be at or exceeding proficiency in all subjects by end of year. I can't express how this has changed the trajectory of her education.

I've worked in the schools for many years and worked under a Nashville school managed by Noble Education Initiative/ Rethink Forward. They completely mismanage the schools under their command (while getting paid high consultant fees). NCP's track record of a horrible first few years of data shows that they are not able to deliver a high quality school. If they are unable to demonstrate a cheating with elementary and middle school, they do not deserve to do the same for high school.

Also, from what I have heard, the way NCP has spited the Cane Ridge Community has not made many residents want to send their kids there. Cane Ridge tried to be involved in the planning of the school. NCP said they were gonna do whatever they wanted to do and didn't need any input from the community. Instead, they clear-cut an old standing forest the Community valued and sold the temperature for a profit. Their community engagement person refused to meet with any of the community leaders, including the city councilman. They have a horrible reputation in our community.

Our community needs high-quality charter schools, but NCP is the perfect example of what a charter school should not be. Approving them weakens the argument for charters.

Tennessee Public Charter School Commission

500 James Robertson Parkway

8th Floor, Davy Crockett Tower

Nashville, TN 37243

Dear Members of the Tennessee Public Charter School Commission,

I am writing to express my wholehearted support for the expansion of Nashville Collegiate Prep High School, a vital educational institution serving the local Antioch & Cane Ridge communities of Davidson County. As the Director of External Affairs & Development for Noble Education Initiative, I have witnessed firsthand the positive impact this school has had on the lives of students and families in this area of Davidson County.

Nashville Collegiate Prep High School represents an essential pillar in our educational landscape, offering a unique and high-quality educational experience to students in our community. One of the key aspects that makes this institution so valuable is its commitment to providing parents with choice options in education. The need for parental choice is paramount, as it empowers families to make decisions that align with their children's unique needs, aspirations, and values. By approving the expansion of Nashville Collegiate Prep High School, the Tennessee Public

Charter School Commission will reaffirm its commitment to supporting parental choice in education.

Additionally, I would like to highlight the invaluable relationships and partnerships that Nashville Collegiate Prep High School has cultivated within our community. From the school's work with the local Hispanic Heritage Foundation to the mentoring program with the Friends of Mill Ridge Park, the school has consistently demonstrated its dedication to fostering collaborations with local businesses, nonprofits, and community organizations. These partnerships have not only enhanced the educational experiences of the students but have also contributed to the overall well-being and development of the broader community.

Nashville Collegiate Prep High School's ability to engage community partners is a testament to its commitment to holistic education and its vision for preparing students not only academically but also as responsible and engaged citizens. The school has served as a hub for positive community engagement, further solidifying its position as a vital asset in our region.

In closing, I urge the Tennessee Public Charter School Commission to strongly consider the approval of the expansion of Nashville Collegiate Prep High School. This expansion is not only a vote of confidence in the school's proven track record of academic excellence but also a recognition of the importance of parental choice in education and the positive community impact it generates. By expanding this exceptional institution, we are investing in the future of our students and the vitality of our community.

Thank you for your time and consideration of this important matter. I am confident that your support for Nashville Collegiate Prep High School's expansion will have a lasting and positive impact on the lives of countless students and their families in our area.

Sincerely,

Matt Herriman

Director of External Affairs & Development

Noble Education Initiative

## Written Comment

I appreciate the Charter Commission's opportunity for written comment on the denial of Nashville Collegiate Prep and in support of MNPS. I write to you as a Nashville resident, Metro Nashville Public Schools (MNPS) parent, District 2 MNPS Board of Education representative and as Chair of the Board of Education.

I represent the district that Nashville Collegiate Prep resides in and, frankly, only hear about the school from constituents or community members when there is a complaint. In fact, I've called the school asking how to forward these concerns to their board as its members are not publicly listed nor known. Yet, the board was so unknown that the school could not help me. I've heard this same response from Metro Councilmembers and members of the community. This is a telling reflection of how uninvolved the school and its leadership are within the community and how they lack personal investment in its requirement to meet the needs of the community.

During Monday's hearing, Nobel Education Initiative (NEI) stated they have reduced their marketing costs. If that is the case, I'd be curious to what their previous cost was, but they would not provide an audit during the application process. I have a hard time believing they have reduced marketing costs because the other time I hear from Nashville Collegiate Prep is via social media ads and mailers that are sent to my home to recruit my children. To further illustrate how Nashville Collegiate Prep is not part of the community and that they've already counted on your votes in their favor, I shared one of the mailers in the hearing. As you may remember, it opens with a demeaning statement about "teachers that actually care" aimed at our school system and our staff. Then, the back is where I learned Nashville Collegiate Prep was opening a high school. I was shocked that not only did I not know about it, neither did MNPS nor the Councilmember who should know due to zoning. Yet, there was a rendering of the school and the bold statement of "NC's upper school campus will be open for the 2024-2025 school year!"

Nashville Collegiate Prep obviously believes the Charter Commission will not thoroughly consider their outcomes or ongoing lack of organization and preparation, because their school will open no matter what. I urge you not to do that. The school does not align with your task of opening needed, high quality educational opportunities. The school does not align with our elected school board's responsibilities, which is why we unanimously denied them, twice.

As you know from the MNPS review team findings, Nashville Collegiate Prep did not meet the standards set for academic, operational, or financial findings. Among the many concerns were mentions of Nashville Collegiate Prep not being able to detail their planned curriculum nor how it aligned with Tennessee's State Standards and that they would not provide their latest financial audit. Along with these basic requirements, they are grossly unprepared for English Language (EL) students which is almost 30% of their population and EL students are many of the neighboring communities which is reflected in our MNPS zoned public schools. Not budgeting for

baseline services like an EL teacher and consistently referring to outdated EL policies shows an incredible lack of commitment to those students and families.

I argue that NEI and Nashville Collegiate Prep's Board, has not effectively proven a desire nor need for their schools. The current performance scores of both of NEI's Nashville Collegiate Prep and Knowledge Academy schools are underwhelming. Considering charter schools are provided a great amount of flexibility and first dibs at per pupil funding with minimal oversight, it is unfathomable that a charter school cannot provide remarkably different results than the surrounding public schools. I expect a strong return on investment (ROI) when considering a charter school's results, work, and engagement. I believe this to be part of my fiduciary responsibilities to taxpayers, along with considering the fiscal impact of any school opening within the school system.

The fiscal impact of fixed costs may not be part of the state rubric, but they are something I am expected to consider in opening or reapproving a charter school within MNPS. Opening Nashville Collegiate Prep, when the seats are unwanted and unneeded, is counter intuitive to my fiduciary responsibilities. I must consider the transfer of per pupil costs to this school and the increased fixed costs that it will oppose on us. Students do not leave their public schools in tidy, classroom sized clusters that allow us to reallocate the supports their per pupil funding provided. Instead, MNPS must make up those fixed costs in staffing, maintenance, transportation, and utilities. These fixed costs are not supported within our state funding, which is already the lowest allocation of all Tennessee school systems. So, we are drowning in them to meet our current responsibilities.

I was specifically mentioned a couple times by Mr. Tom Lee, on behalf of Nashville Collegiate Prep, in his closing arguments this Monday and I need to address those comments. If Mr. Lee wants to argue that only items, subjects, or information found within the rubric should be considered then I hold him to the same expectation. Therefore, I still believe his ongoing and alluding points about Nashville private school growth in the 1970s being because families desired smaller classrooms is out of line. Again, please let me remind you that it is exceptionally well documented that Nashville had a mass of private school growth in the 1970s due to federal desegregation orders and the "cross-town busing" of that time. These private schools were not created in response to a need for smaller classroom sizes, as Mr. Lee claimed and then alluded to as a main reason for Nashville Collegiate Prep's existence.

Mr. Lee also used his comments on private school growth to support his repeated statement that MNPS has not opened a new high school since Cane Ridge High School. MNPS has expanded several of our high schools, including the zoned schools that would be affected by the opening of Nashville Collegiate Prep. Just this school year, we opened James Lawson High School to much fanfare as it is a much-needed replacement for

Hillwood High School's deteriorating campus. Still, he is correct that we have not opened a new high school cluster and that is because of my ongoing point that these additional seats are not needed and that MNPS students are well supported within our current schools and options. MNPS does 10-year capital budget and enrollment projections, well beyond the state's required 6-year projections. Like other urban areas with decreased enrollment, we're seeing families move outside of the city/district to find housing they can afford while a younger, child-free demographic is moving into the area. There was a MNPS zoned middle school recently budgeted for in the Antioch area. MNPS even purchased land for this school just a few years ago, but it has not been opened due to the recent charter growth in the area which has resulted in more seats than students, which is evident in surrounding school enrollment data.

An expansion of Nashville Collegiate Prep is not needed nor wanted in Nashville. Their data shows that they're not innovative nor high quality and MNPS does not need additional seats. I ask the Charter Commission to consider and compare the TVAAS data that will be published this week by TDOE, as part of their findings. Again, thank you for the opportunity to address the commission directly. Please uphold MNPS' decision to deny this charter school and honor our ability and right to locally govern our schools with a focus on the equitable improvement of them.

<b>Written Comment</b>	<p>My son is a current elementary age student at NCP. When we were planning for my son to enter kindergarten, we were excited to learn about NCP as an option that extended from kindergarten through beyond middle school. He is now a 1st grader and we have loved our experience with the staff and community at NCP. As a parent with two other future NCP students , I am so pleased that NCP has planned to offer a K-12 school community. Having all my kids attend Nashville Collegiate Prep is important to me due to the excellent experience we have had thus far. As we drive past the site of the middle school each day, my first grader is excited to see his future school and how NCP has planned for exciting sports and older kid activities. His excitement about going to school each day and his engagement in this school community speaks volumes. We ask for approval for NCP High School.</p>

**Written Comment**

As the State Representative for Tennessee's House District 59, I have several reservations about Nashville Collegiate Prep, particularly in light of concerns raised by the Metro Nashville School Board. I find it concerning that Nashville Collegiate Prep has fallen short of academic, operational, and financial standards outlined in the state rubric, raising questions about its ability to deliver a high-quality education in this district.

The fact that both NEI's Nashville Collegiate Prep and Knowledge Academy schools have performance scores mostly below MNPS' data raises questions. There also do not seem to be many members of the community asking for or supporting the project, nor a demonstrated need for additional seats in the area. These issues warrant careful consideration before any expansion plans are approved. We must prioritize the best interests of our students and the community.

I hope the commission takes these concerns into account.

---

Aung Du

## NCP HIGHSCHOOL

Why should NCP get a highschool? NCP Middle school is already perfect, so why not make it "perfecter?" NCP Highschool would be very good, and it would let more students attend school. Since the school would be bigger, there would be more sports fields. Also, there would be more than just P.E. There would be STEM, art, computer, Robotics, chourus, etc. I'm mainly looking forward to sports, and I hope you'll accept to build the highschool! Now let's talk about academics. The teachers teach us well. They help us do well too. But I feel like there should be more choices. Like I said: There should be more than just P.E. So when the highschool opens, there would be more electives, so people can choose what fits them.

Summer Jackson 9/11/23

NCP is important to me because NCP cares about us mentally and physically, our teachers care about if we are struggling or doing amazing! It's important to build a high school because NCP has an amazing learning system. NCP has created a smart and happy community and we need to expand NCP's wonderful community.

Why does NCP need a high school?

NCP is already going so well. There's 2 buildings, good education, nice teachers, and fun clubs after school. Another reason is because there would be a middle/high school lockers, larger sports fields, and lockers for PE bathrooms.

(I know it's not necessary, I'm just listing ideas.)

We also need a high school to make it larger and successful. It would even make it feel like an actual high school/college building.

- Miriam

Chris E

NCP is a important to me because the learning style different and better than my old school. The teachers treat the students well, and have a higher expectation for the students. The middle school is great, so making a high school would be even greater - since it would be a bigger building, there would be better, and more electives. There would be more classes in the bigger building, and would allow more students to attend NCP. Finally, there would be more academics.

Dear, Commissioner

In my opinion Nep should have a High School because the uniforms make us look professional and doesn't interfere with school. Another thing is that Nep gives you a opportunity to be someone in life. With the Nep High School we could gain credits for college. it would be amazing.

Sincerely

Jacob

02/11/20 Surin Lata

Why there should be a Nep High school?

In my opinion there should be a Nep high school because Nep has strict disciplines and more disciplines.

For Example if you have low marks units they push you to get more. The staff and teachers here are better than any other public school teacher or staff because they put more effort into your education. Nep having a high school is important to me because then I can continue my journey in Nep as a high schooler and hopefully graduate.

As a result of my letter, I hope you consider approving Nep high school!

Bameen

NCP is important to me because, they work hard, and they care about all of the students. Teachers care about our grades/data, even though they don't have much space to do so, they do their best.

Actually this school is special to me, if they opened an high school it will be a nice idea. I hope NCP opens a high school, it could be even better than this school year!

Milagros Diaz Cruz

Why should NCP Open a Highschool?  
Well, other people who want to attend this school currently can't, because we don't have a Highschool. If we don't have a highschool, they can't experience NCP! And NCP Highschool would give us a gym so we can run around in and be loud. We don't have to distract the other classes! Our classrooms are small, and we to share a bathroom. NCP is special for its community model classes and an NCP Highschool would give us the space to expand on this special learning environment!

Adriana

What I like about NCP is that they are more strict about things, which is good because at my old school they didn't care and just gave us a warning. I also like that NCP tries their best to make sure we learn. Another thing is that they are serious about PE. They want us to do really well, and to be active and make sure we are educationally and prepared.

I think NCP should have a high school because younger kids can learn from older kids, and get an idea on how things are going to be in the future. If we have a high school they are also more options on sports and electives. We will be a bigger community with more academics and goals we can make greater to achieve.

Elizabeth

I would like to tell you my reasons why you should help open our high school. My first reason is the learning opportunity. In this school, there are many teachers who teach us well. Every student should have chances to find a good future with this school. My second reason is our community that we are growing. In our community, we are expected to help each other, have fun, get to know others, learn, and know what's right. Third is how we can help families. With our high school, we can help families by giving them before and after school care, while they work. In conclusion we need the high school for learning, growing our community, and helping those in need.

Thank you for  
reading ♥

Jimena Reyes

I think Ncp should have a highschool because with a highschool more opportunities can be given to us, such as a better education. Ncp deserves a high school because unlike other schools, Ncp actually help us students become better in what we need help on. The teachers and principals care about our learning and try to help us. With a high school, there could be more opportunities such as sports and other electives. Most importantly, we would have more academics. It would also help expand the community. There could be a good future for the students education at Ncp high.

Yesenia Romero Rosas

Sep 11 2023

Should Nashville Collegiate Prep Highschool open? Yes, I think Nashville Collegiate Prep Highschool should open because NCP is really special, and definitely different. How NCP is special and different is here in NCP the people who work here do care about us. In all the three different I have been, I never experienced a school that really care about us. For example, Mr. C the vice principal, always comes to our classroom to check if we are doing okay. I always look forward to come to NCP and learn something new. This is why I think Nashville Collegiate Prep Highschool should be open.

Nataly

9/7/2013

I like this school because the teachers care about our grades, and MCP teachers care about if we understand or not; they also give us activities to have fun learning. What I think MCP needs is a high school because we can have more opportunities to have our excellent grades and to grow more like students.

09/11/23

NCP is really important to me because I think the school and teachers really care about us and the community.

Why I think NCP should have a Highschool:

First of all, I really want to go to college and to get to that point I have to go to highschool - so I think that should happen.

Something else is that I think the uniform is really cool and calmer. Although, sometimes I want to wear whatever I want, but a uniform helps me focus on my education and not my style.

So this is why I really want the highschool to be built.

By: Absson C. Hernandez

# Ncp High school!!!

By: Scarlet Sophia Hansen 9/12/23

Why should Nashville Collegiate Prep should have a high school? Well in my opinion on why the Community should let us have a high school is because by the way the teachers, principals, and just people on the higher ranks have a good view on the children and the school for us. Another reason is because the previous building isn't originally a school so it doesn't have all the school matters. Another thing is if we had a Actual high school we will be able to have a better environment for both the adults and children in the building.

---

With the bigger school means more classes, just with all that will make a pretty big impact on the population of the students and teachers. I think that's a good thing for us, and having all those classes will make a bigger population there's a good possibility that more children will be able to look forward for a future and more academics in life if they find a extras class for children. Education is a really important thing to take a new step in life especially as a child. Honestly I'm looking forward for an NCP high school and ready to see all my friends teachers and have a great experience at our Nashville collegiate prep high school.

---

If they don't succeed to accept our request on having a Nashville collegiate prep high school it would honestly be pretty stressful since not everybody has a back up plan. Not just that, if they don't accept our request all of my friends would have to split even though we were expecting to graduate high school together. Another thing, if we have to go to a different high school the technique will be completely different.

---

That's my opinion on why NCP should have a high school!

How much  
Nashvill collegiate Prep is  
important to us

Nashvill collegiate Prep is a educational  
learn program that hires the best teachers  
that care about us, and help us improve our  
work.

## Learning at Class

Teachers stand up and read the book  
Sometime we all read along, and it's  
helpful for a many of us. What NCP  
teaches us is more improved, and exciting  
than other school in the world.

## Why Nashvill collegiate Prep High School should open

The new school will have more room,  
so new students can join the NCP  
learning. That means more friendships!  
The new school will have more room, so we can  
have more elective classes, stem program,  
language courses, and sports! If we get the  
new high school, the community would be so  
happy because we know that we are  
taught by the teachers of NCP. Because of  
NCP teachers, we will be the generation  
that improve so much!

We can push humanity to a another  
level!
