

Charter School Pre-Opening Checklist

Nashville Collegiate Prep

Introduction

After a charter school application is approved and authorized, there are a significant number of steps to be taken before a school is ready to open its doors to students, families, teachers, and the community. This will serve as a guiding document for charter schools that have been authorized by the Tennessee Public Charter School Commission (Charter Commission). Operators are expected to fulfill all of the requirements outlined in the following table to ensure that the charter school opens with the tools in place to succeed as a high-quality school.

The Charter Commission staff will work with the charter school to complete the pre-opening checklist, but it is the ultimate responsibility of the charter school to ensure it has completed all steps to be ready to open. We understand that opening a school takes a significant amount of time and energy, and the failure to complete one item does not mean that the school will not open. However, items that are in **bold text** are considered foundational items that must be completed for a school to open. If any of the **bolded items** are not completed or if a significant number of other items are not completed by the deadlines set by the Charter Commission, the school's opening may be delayed.

The Charter Commission staff will conduct a pre-opening visit to verify that the school is ready to open its doors to students. A school may not open until it has received a letter from the Charter Commission stating that it has completed the necessary items on the Pre-Opening Checklist, and the school is ready to open for students, families, and staff.

If a charter school does not complete all of the items on the Pre-Opening Checklist by December 31st of the year it opens, the school's charter will be recommended for immediate revocation.
