- **6** day reporting centers

## TDOC Snapshot

### Community Service Work

# \$3.3M Savings

Labor savings for state and local government and non-profit groups from over 454,000 hours of prison and community supervision service work programs.

### Technical Violator Returns

# 18%

\*Since 2014

Technical violators are probationers or parolees who violate conditions of supervision that generally does not result in an arrest (e.g. failure to report) which may result in re-incarceration. Implementation of the seamless supervision model resulted in positive outcomes for offenders who avoided revocation by the term of compliance with their conditions of supervision.

## Successfully Completed Sanctions

# 75.3%

A swift, certain and proportionate response to return an offender to compliance by use of non-prison accountability measures and programs.
