

Tailwater Trout Stocking

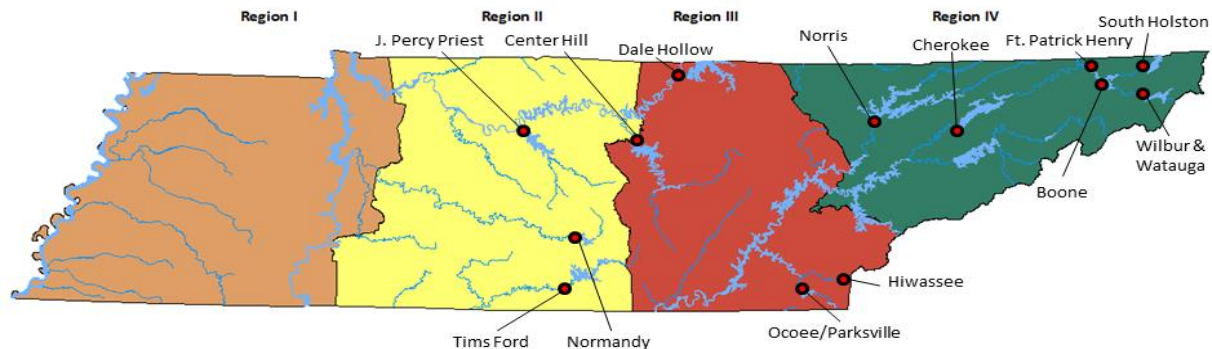

TWRA stocks fingerling and adult trout into coldwater tailwaters below dams to provide fishing opportunities. In many tailwaters trout fishing can be good year-round. Trout are stocked routinely during the following months. Use caution below dams. Call TVA at 1-800-238-2264 to check dam discharge and generation schedules (www.tva.gov/Environment/Lake-Levels).

	RIVER	BELOW	TROUT SPECIES STOCKED	STOCKING SCHEDULE	REGULATIONS
REGION II	Duck River*	Normandy Dam	Rainbow Trout	November through June	Statewide Regulations
