

# • Background and Basics • Examples of TERAs • TERA Claims • TERA Medical Exams/Opinions • Miscellaneous • Hypos • TERA & VHA

### THE PACT ACT

- · 8/10/2022: "Sergeant First Class Heath Robinson Honoring our Promise to Address Comprehensive Toxics Act of 2022" or the "Honoring our PACT Act of 2022" signed into law
- Expanded VA Health Care eligibility for millions of Vets
- Made it easier for Vets and DIC claimants to obtain SC disability and death benefits for diseases associated with toxic exposure

© 2024 National Veterans Legal Services Program. All Rights Reserved. www.misp.o

### THE PACT ACT

- New radiation-risk activities that qualify Vet as "radiation exposed" and entitled to presumptive SC for several cancers
- · New locations where herbicide exposure is presumed
- · New diseases presumed caused by herbicide exposure
- New locations that qualify Vets for presumptive SC for Gulf War illnesses – undiagnosed illnesses and Medically Unexplained Chronic Multi-Symptom Illnesses (MUCMIs)

© 2024 National Veterans Legal Services Program. All Rights Reserved. www.mlsp.org

### THE PACT ACT

- Eases some requirements to establish SC for Gulf War illnesses
- Presumptive SC for diseases associated with exposure to burn pits and other toxins
- Lowers burden for triggering VA's duty to provide medical exams / opinions for claims associated with toxic exposure
- Provides for favorable effective date if DIC claim was previously denied and is now granted based on new presumption

© 2024 National Veterans Legal Services Program. All Rights Reserved. www.m/sp.or

# PACT ACT DEFINITIONS: "TOXIC EXPOSURE"

### MVLSI

- A. A toxic exposure risk activity (TERA), which is any activity that:
- 1. Requires a corresponding entry in an exposure tracking record system for the Vet
- Secretary of VA determines what qualifies as a TERA when taking into account what is reasonably prudent to protect the health of Vets
- •38 U.S.C. §§ 101(37)(A); 1710(e)(4)

P 2024 National Vistamer I and Seniore Donors, All Bioth Records was rules on

### PACT ACT DEFINITIONS: "EXPOSURE TRACKING RECORD SYSTEM"

- Any system, program, or pilot program used by the Secretary of VA or the Secretary of Defense to track how Vets or members of the Armed Forces have been exposed to various occupational or environmental hazards
- · Includes the Individual Longitudinal Exposure Record (ILER), or successor system

· 38 U.S.C. 1119(c)(2)

© 2024 National Veterans Legal Services Program. All Rights Reserved. www.rv/sp.org

# PACT ACT DEFINITIONS: "ILER"

- · ILER includes:
- · Service records
- Any database maintained by DOD and shared w/ VA to serve as central portal for exposure-related data that compiles, collates, presents, and provides available occupational and environmental exposure info to support the needs of DOD and VA
- · Any successor system to that database
- · 38 U.S.C. § 1171

© 2024 National Veterans Legal Services Program. All Rights Reserved. www.mlsp.o

### MORE ON THE ILER

- ·It is a web-based application designed in collaboration between VA and DOD that provides an individual electronic record of exposures for each service member / future Vet
- · It begins with service member's entry into military service and spans entire military career

© 2024 National Veterans Legal Services Program. All Rights Reserved. www.rvlsp.org

### wilsi 🔯

### MORE ON THE ILER

- · ILER contains:
- · Dates of deployments
- · Locations and events during deployments
- · All hazard occupational data
- · Environmental hazards that were known or found
- · Any monitoring performed in the area(s) of service
- · Medical encounter information (e.g., diagnosis, treatment, and laboratory data)
- Medical concerns that should be addressed regarding possible exposures

© 2024 National Veterans Legal Services Program. All Rights Reserved. www.nvlsp.org

### WA MVLSI

### MORE ON THE ILER

- ·ILER contains (cont'd):
- Name-only entries and records from contractor or civilian service periods
- VA does not accept these entries as participation in a TERA
- · Self-reported info alleging exposure
- VA must validate these reports to determine if the alleged exposure is consistent with the facts and circumstances of the Vet's service
- VBA Letter 20-24-06 (June 12, 2024)

© 2024 National Veterans Legal Services Program. All Rights Reserved. www.mlsp.o

### TAKE ES

### MORE ON THE ILER

- Available to VA and DoD health care providers, epidemiologists and researchers, and VBA claims adjudicators
- · It is used to improve internal processes, but is not available for individual access
- www.publichealth.va.gov/exposures/publications/military-exposures/meyh-1/ILER.asp
- https://health.mil/Reference-Center/Fact-Sheets/2023/07/24/ILER

© 2024 National Veterans Legal Services Program. All Rights Reserved. www.m/sp.o.

# PACT ACT DEFINITIONS: "TOXIC EXPOSURE"

- B. An exposure to a substance, chemical, or airborne hazard identified in a list to be created under 38 U.S.C. § 1119(b)(2)
  - VA Secretary must establish and maintain the list, in collaboration with the Secretary of Defense
    - 38 U.S.C. § 101(37)(B); 1119(b)(2)(A)

© 2024 National Veterans Legal Services Program. All Rights Reserved. www.rv/sp.org

# PACT ACT DEFINITIONS: "TOXIC-EXPOSED VETERAN"

- · Any Vet described in 38 U.S.C. § 1710(e)(1):
- · Vietnam-era herbicides
- Padiation
- · SW Asia during Persian Gulf War 8/1990-11/1998
- In theater of combat ops or in combat after 11/11/1998
- · DOD chem and bio weapons testing 1962-1973
- · Camp Lejeune for at least 30 days 8/1/1953-12/31/1987
- Toxic-exposure risk activity participant

© 2024 National Veterans Legal Services Program. All Rights Reserved. www.misp.o

# PACT ACT DEFINITIONS: "TOXIC-EXPOSED VETERAN"

MA NVILSI

- · Any Vet described in 38 U.S.C. § 1710(e)(1) (cont'd)
- · Covered Vet in 38 U.S.C. § 1119(c), i.e., w/ service:
- · On/after 8/2/1990, in: On/after 9/11/2001, in:
- · Bahrain
- AfghanistanDjibouti
- IraqKuwait
- Egypt
- · Oman
- Jordan
- · Qatar
- Lebanon
- Saudi Arabia
- Syria
- · Somalia
- YemenUzbekistan
- · U.A.E
- Any country added by VA

© 2024 National Visterans Lenal Services Program All Birkts Reserved www.misn.org

# PACT ACT DEFINITIONS: "TOXIC-EXPOSED VETERAN"

- · Any Vet described in 38 U.S.C. § 1710(e)(1) (cont'd)
- · Vet who deployed in support of:
- · Operation Enduring Freedom
- · Operation Freedom's Sentinel
- · Operation Iraqi Freedom
- · Operation New Dawn
- · Operation Inherent Resolve
- · Resolute Support Mission

© 2024 National Veterans Legal Services Program. All Rights Reserved. www.rv/sp.org

### MYLSI

### **VA GUIDANCE**

- · Claims involving TERA include those related to "garrison exposures"
- Environmental exposure that may have been experienced while stationed on a military base
- · Includes exposure to substances such as asbestos, fuels, lead, and perfluoroalkyl and polyfluoroalkyl substances (PFAS)
- VBA Letter 20-24-06, § 4.3

© 2024 National Veterans Legal Services Program. All Rights Reserved. www.misp.or

# SIGNIFICANCE OF PARTICIPATION IN TERA

### MVLSI

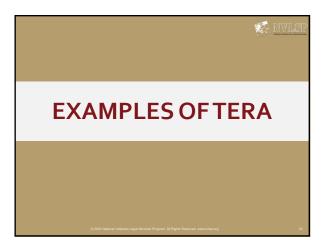

### ·VHA

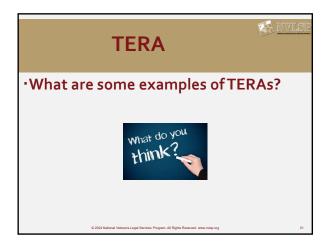

- Triggers healthcare eligibility for Vets
- 38 U.S.C. § 1710(e)(1)(G)

### ·VBA

• Triggers VA exam / opinion for Vets who participated in TERA and are claiming SC for certain non-presumptive conditions

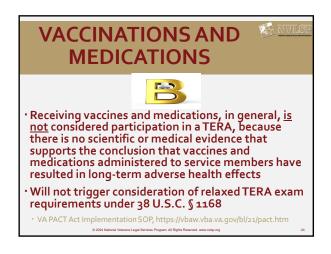

P 2024 National Vistamor Legal Consider Discours All Digital Recognity www.mice.org

TYPES OF TERA EXPOSURE		
Chemicals	Herbicides (Agent Orange) used during Vietnam era, burn pits, sulfur fire in Iraq, Camp Lejeune water supplies, pesticides used during Gulf War, depleted uranium, industrial solvents	
Air Pollutants	Burn pits, oil well fire during Gulf War, sulfur fire in Iraq, Atsugi (Japan) waste incinerator, sand, dust, and very small particles or liquid droplets	
Occupational Hazards	Asbestos, industrial solvents, lead, radiation, vibration, noise, fuels, polychlorinated biphenyl (PCBs), and special paint used on military vehicles	
Radiation	Nuclear weapons and testing, x-rays, depleted uranium	
Warfare Agents	Chemical weapons, Project 112/Project Shipboard Hazard and Defense (SHAD), herbicide tests and storage, and chemical experiments	
www.va.go	//iron-mountain-health-care/programs/pact-act-cheat-sheet/  0 2024 National Veterans Legal Services Program. All Rights Reserved, www.misp.org 22	

# \* Is receiving vaccines and medications, in general, considered participation in a TERA? A. Yes B. No C. Maybe

# RECOGNIZED TERA LOCATIONS

- MA NVLSI
- Whether explicitly claimed or not, VA should recognize TERA participation if Vet served in a location associated with:
- Presumption of exposure to a toxic substance (burn pits or other toxins, herbicides, etc.)
- · Mustard gas exposure, as listed in Manual M21-1, VIII.iii.3.A.1.b
- Exposure to pollutants from a waste incinerator near the Naval Air Facility at Atsugi, Japan
- $\cdot \ VA\ PACT\ Implementation\ SOP,\ https://vbaw.vba.va.gov/bl/21/pact.htm$

CONTRACTOR OF THE PROPERTY OF

# CIRCUMSTANCES OF VET'S SERVICE

- When determining Vet's participation in TERA, VA must research military records, ILER, and alternative sources of evidence, to include:
- · Personal statements
- Buddy statements
- · Unit histories
- · News articles
- Military exposure info on VHA's Military Exposures site (www.publichealth.va.gov/exposures/index.asp)
  - Manual M21-1,VIII.iii.9.B.2 (change date June 8, 2022)

© 2024 National Veterans Legal Services Program. All Rights Reserved. www.rvfsp.org

# CIRCUMSTANCES OF VET'S SERVICE

- VA must also follow Manual M21-1 guidance regarding concession of MOS-related toxic exposure, such as:
- · Military occupational hazards in M21-1, VIII.iii.9.B.2.g (exposure to CARC, paint, fuels, industrial solvents, lead, PCBs)
- · Asbestos exposure probability by MOS in M21-1, VIII.iii.7.C.1.b
- · Ultimately, VA must concede participation in TERA if it is consistent with the places, types, and circumstances of the Vet's service
- 38 C.F.R. 3.303(a); Manual M21-1, VIII.iii.9.B.2.b

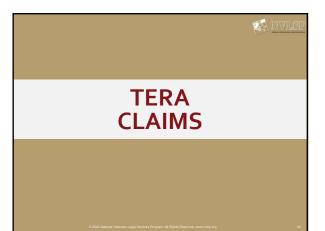

© 2024 National Veterans Legal Services Program. All Rights Reserved. www.m/sp.or

### **SERVICE AT K2**

### · On 8/2/2024, VA announced it would take steps to:

- Acknowledge that Vets who served at Karshi-Khanabad (K2) base in Uzbekistan after 9/11/2001 were exposed to contaminants including jet fuel, volatile organic compounds, particulate matter and dust, asbestos roofing tiles, and leadbased paint
- Consider Vets who served at K2 as "Persian Gulf Veterans," making them eligible for presumptive SC for undiagnosed illnesses and MUCMIs
- Ensure that toxic exposures are fully taken into account when processing K2 Vets' claims and all benefits to which Vet entitled are granted, to include pre-decisional review

manufacture and the second sec

### **TERA CLAIMS**

 When does VA need to address toxic exposure as a possible basis for establishing SC disability or death benefits?

© 2024 National Veterans Legal Services Program. All Rights Reserved. www.m/sp.or

1	0

### **TERA CLAIMS**

- •VA must assess whether a Vet participated in a TERA when:
- There is evidence of the claimed disability, AND
- The issue is not a claim for increase, AND
- The disability cannot be granted on a presumptive basis, AND
- The condition is not considered a TERA exam exception

© 2024 National Veterans Legal Services Program. All Rights Reserved. www.mlsp.org

### MA NVILSI

### **TERA CLAIMS**

- Claims associated with TERA may include claims in which claimant:
- Explicitly states a disability is related to
- · Service in a location where toxic exposure is presumed, or
- · Toxic exposure
- <u>Does not explicitly state</u> what caused a claimed disability, but Vet <u>served in a location</u> where toxic exposure is presumed
- · Claims SC for a newly recognized presumptive disability, or
- Claims a non-presumptive disability and evidence establishes participation in TERA

© 2024 National Veterans Legal Services Program. All Rights Reserved. www.misp.org

### WA MVLSI

### **EXPLICIT CLAIMS**

- Explicit claims of toxic exposure:
- Vet lists an exposure in "Exposure Information" section on VA Form 21-526EZ
- · Vet notes exposure on VA Form 20-0995
- Survivor claims Vet's cause of death is due to a toxic exposure on/with VA Form 21P-534EZ
- · Lay statement submitted with a claim includes info about exposure

© 2024 National Veterans Legal Services Program. All Rights Reserved. www.mlsp.org

VA	FORM 2	1-526E	Z	TLSI

### **IMPLICIT CLAIMS**

- MVLSP
- If not explicitly claimed, VA should liberally construe a claim to determine if it is implicitly based on toxic exposure:
- · Vet served in location associated with toxic exposure
- · Vet's MOS is associated with toxic exposure
- ILER or other military records show participation in a TERA
- Documented concession of exposure in a prior claim or Vet's VA corporate record contains a claim attribute for toxic exposure, such as the Toxic Exposure - Sec. 1119 Covered Veteran flash

© 2024 National Veterans Legal Services Program. All Rights Reserved. www.mlsp.org

### **IMPLICIT CLAIMS**

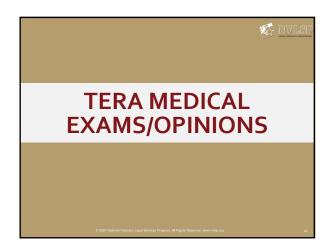

- MVILSIP
- VA should liberally construe claim to determine if it is implicitly based on toxic exposure (cont'd):
- Medical records, such as VHA exposure screening, contain an allegation of exposure to a toxic substance, chemical, or airborne hazard
- Survivor submits death certificate that lists a primary or contributing cause of death for which a TERA exception does not apply, and there is reasonable probability that the death may be related to service
- · Any other relevant evidence of record
- ${\color{blue} \bullet \ VA\ PACT\ ACT\ Implementation\ SOP,\ https://vbaw.vba.va.gov/bl/21/pact.htm}$

© 2024 National Veterans Legal Services Program. All Rights Reserved. www.rvlsp.r

# SURVEY #2 • Is there required minimum level of exposure or duration of participation in a TERA necessary to qualify as a toxic-exposed Vet? A. Yes B. No C. Maybe

## 38 U.S.C. § 1168

- MVILSI
- Medical nexus exams for toxic exposure risk activities
- VA must provide a medical exam and obtain a medical nexus opinion if Vet (not DIC claimant) submits a claim for SC and there is
  - 1. Evidence of a disability,
  - 2. Evidence of participation in a TERA during active service,
  - 3. An indication of an association between the disability and the TERA, and
  - 4. Insufficient evidence to **GRANT** service connection

© 2024 National Veterans Legal Services Program. All Rights Reserved. www.mlsp.org

## 38 U.S.C. § 5103A(a)

- Section 5103A(a) controls VA's duty to obtain a medical opinion for DIC claims, including those involving TERA
- · VA must obtain a medical opinion regarding a DIC claim unless no reasonable possibility exists that such assistance would aid in substantiating a claim
- · Wood v. Peake, 520 F.3d 13545 (Fed. Cir. 2008)
- This threshold is much lower than the thresholds for living Vets set forth in *McLendon* and Section 1168

© 2024 National Veterans Legal Services Program. All Rights Reserved, www.mlsp.o

### VA MEDICAL EXAMS / **OPINIONS**

- ·Exam / opinion may be needed when:
- · Claimed condition not subject to a presumption of SC
- · Vet does not have qualifying service in a recognized location, but may have other exposures shown in the totality of evidence
- · Severity of disability needs to be determined for evaluation

### WHEN EXAM/OPINION AM **NOT REQUIRED**

- Exam/opinion generally NOT required for living Vets if there is no indication of an association between the claimed condition and the toxic exposure
- 1. Non-presumptive claims based on physical trauma (blunt force, repetitive use, penetrating)
- 2. Mental disorders
- 3. Conditions determined by VA Secretary to have no positive association with herbicide exposure
- 4. Disabilities that manifested during service or with an etiology not associated w/ toxic exposure

### WHEN EXAM/OPINION **NOT REQUIRED**

- 5. The only participation in a TERA that is established is based on an entry in an exposure tracking record system, such as ILER, that doesn't corroborate or correspond to an activity carried out by the Vet during active military service that could result in potential exposure to toxic substances, chemicals, or airborne hazards
  - · Such as a routine health encounter (e.g., ankle sprain) with no evidence of exposure to toxin

# WHEN EXAM/OPINION WIND NOT REQUIRED

- 6. The only participation in a TERA that is established is based on an entry in an exposure tracking record system, such as ILER, that is based on the Vet's self-reports of exposure to toxic substances, chemicals and airborne hazards that cannot be substantiated
  - Such as a post-service health assessment or registry
  - Includes self-reported records that are inconsistent with the info available and circumstances of the Vet's service or that provide insufficient info to permit reasonable verification
  - VBA Letter 20-24-06, § 4.3

### NON-PRESUMPTIVE CLAIMS BASED ON PHYSICAL TRAUMA

- Fracture of any bone or joint
- Any muscle/ligament tear/sprain/strain
- Meniscal tear
- Dislocation of any joint
- Osteoarthritis/traumatic arthritis of any joint
- Spinal fusion
- Spinal stenosis
- Spondylolisthesis

- Degenerative disc disease
- Cold/electrical/thermal burns
- Osteitis deformans
- Metatarsalgia
- Pes planus
- Plantar fasciitis
- Traumatic brain injury
- Heterotopic ossification
- Lower extremity bones shortening

D 2024 National Veterans Legal Services Program. All Rights Reserved. www.nvlsp.org

### NON-PRESUMPTIVE CLAIMS BASED ON PHYSICAL TRAUMA

### .....

### · NOTES:

- Hearing loss is not considered a physical trauma under this exception
- · If it is unclear whether the joint condition is related to physical trauma, it should be assumed that it is, unless there is competent medical/scientific evidence to the contrary
- Penetrating traumas with toxic embedded fragments don't fall under this exception (i.e., an exam will be required if other elements met)
- VBA Letter 20-24-06

© 2024 National Veterans Legal Services Program. All Rights Reserved. www.mlsp.o

### **MENTAL DISORDERS**

- · Mental disorders for which there is no association w/ toxic exposure are those listed in 38 C.F.R. §
- · A diagnosed mental disorder should be considered on a direct or secondary basis
- · But, toxic exposure can result in symptoms of neurobehavioral decline, like decreased memory and concentration, not associated with a diagnosed mental disorder, and for which a TERA exam may be warranted
- · VA PACT Act Implementation SOP, https://vbaw.vba.va.gov/bl/21/pact.htm

### **CONDITIONS DETERMINED TO** HAVE NO POSITIVE ASSOCIATION WITH HERBICIDE EXPOSURE

**Malignant Conditions (Cancers)** 

- Melanoma
- Nonmelanoma skin cancer
- Hepatobiliary cancers and pancreatic cancer
- Cancers of the pleura, mediastinum, and other unspecified sites w/in the respiratory system and infrathoracic organs
- Endocrine cancers
- Cancers of the reproductive organs (excluding prostate)
- Cancers of the digestive organs
- Cancers of the brain and nervous system (including eye)
- Leukemia (other than all chronic B-cell leukemias)
- Bone and connective tissue cancer Cancers of the oral cavity, pharynx, and nasal cavity

### CONDITIONS DETERMINED TO HAVE NO POSITIVE ASSOCIATION WITH HERBICIDE EXPOSURE

**Non-Malignant Conditions** 

- Osteoporosis
- Farmer's lung
- COPD
- Immune system disorders
- Neurodegenerative diseases, excluding Parkinson's disease and Parkinsonism
- Hearing loss
- Neurobehavioral disorders
- Circulatory disorders (other than hypertension, ischemic heart disease, and stroke)
- Endometriosis
- Diseases of the eye
- · Gastrointestinal, metabolic, and digestive disorders
- Chronic peripheral nervous system disorders (other than early-onset peripheral neuropathy)

# CONDITIONS DETERMINED TO HAVE NO POSITIVE ASSOCIATION WITH HERBICIDE EXPOSURE

- •The conditions under this exception only apply to claims based on herbicide exposure
- · Claims processors must still consider all evidence, as there may be a record of a TERA other than herbicide exposure
- · VA PACT Act Implementation SOP, https://vbaw.vba.va.gov/bl/21/pact.htm

CONTRACTOR OF THE PROPERTY OF

# EXCEPTION TO THE EXCEPTIONS

- Even if medical exam / opinion would not normally be required because it falls in categories 1, 2, or 3 on the previous slides, VA must order TERA exam if Vet submits competent medical or scientific evidence of an association between the disability and the in-service toxic exposure
- Ex: private medical opinion indicating a link between Vet's tongue cancer and his herbicide exposure
  - · VBA Letter 20-24-06

© 2024 National Veterans Legal Services Program. All Rights Reserved. www.mlsp.org

### DISABILITIES THAT MANIFESTED DURING SERVICE OR WITH AN ETIOLOGY NOT ASSOCIATED WITH TOXIC EXPOSURE

- · Applies to conditions that:
- Manifested during service for which a nexus opinion would not be needed to decide SC on a direct basis (evidence of chronicity or continuity is of record)
- Evidence shows are clearly caused by something not associated with toxic exposure (including a post-service event)
- Claims processors must liberally apply reasonable doubt when determining if this exception applies.
   When there is an approximate balance of evidence, they should request the TERA exam and nexus opinion

• VBA Letter 20-24-06

invilsi?
SECTION VII - MEDICAL OPINION FOR TOXIC EXPOSURE RISK ACTIVITIES
Choose the statement that most closely approximates the etiology of this claimed condition.
☐ 7a. The claimed condition was at least as likely as not (likelihood is at least approximately belanced or nearly equal, if not higher) caused by the indicated toxic exposure risk activity(les), after considering the total potential exposure through all applicable military deployments of the Veteran and the synergistic, combined effect of all box exposure risk activities of the Veteran. Provide rationale in section C.
☐ 7b. The claimed condition was less likely than not (likelihood is less than approximately balanced or nearly equal) caused by the indicated toxic exposure risk activity(ies), after considering the total potential exposure through all applicable military deployments of the Veteran and the synergistic, combined effect of all otics exposure risk, activities of the Veteran Provide rationals in section C.
7c. Provide rationale:
SECTION VIII - OPINION REGARDING CONFLICTING MEDICAL EVIDENCE
I have reviewed the conflicting medical evidence and am providing the following opinion:
Veteran was instructed to send all personal medical records to the VA Evidence Intake Center if applicable, for proper submission into VBMS.
© 2024 National Veterans Legal Services Program. All Rights Reserved, www.m/sp.org 58

### **TERA MEMO**

- Provides justification for ordering or not ordering a TERA exam and opinion
- ·Includes details about potential exposures for the examiner to facilitate a wellinformed opinion

TERA MEMO	LSP
Question 1. Does the Veteran qualify for a presumption of exposure(s) for one or more of following hazards during military service? (If Yes, provide details below.)	of the
ONO OYes, the Veteran was exposed to the following (select all that apply):	
☐ Herbicide Agent - 2,3,7,8 - Tetrachlorodibenzodioxin (TCDD)	
Radiation - Ionizing	
☐ Camp Lejeune Water Contamination - Perchloroethylene (PCE), trichloroethylene (TCE), vinyl chloride, benzene	
Evidence of exposure (include the subject and date of receipt of the cited documents):	
© 2024 National Veterans Legal Services Program. All Rights Reserved, www.misp.org	60

# TIPS FOR TERA CLAIMS • Utilize the Exposure Information section of the VA Form 21-526EZ (recently updated to better reflect exposure events) • Don't forget garrison and other non-deployment related TERAs • Encourage Vet to write lay statement describing claimed condition (including onset and symptoms) and any TERAs to which it may be related • Be specific in terms of the exposure dates, duration, occupation, and circumstances • If Vet has medical records to support claim, submit them up front to reduce claims processing time

### **EFFECTIVE DATES**

- MA NVILSI
- · If claim was pending prior to 8/10/2022, SC claims granted under theory unrelated to new PACT Act presumptions of exposure (locations) or service connection (diseases) should be effective the later of:
- · Date of claim
- · Date disability first manifested
- In other words, benefits granted under theory of direct SC may be assigned an effective date prior to 8/10/2022

© 2024 National Veterans Legal Services Program. All Rights Reserved. www.rvlsp.org

### **ADVOCACY ADVICE**

- · VA's internal PACT Act Implementation SOP INCORRECTLY states that any grant based on the new exam threshold under 38 U.S.C. § 1168 cannot be before 8/10/2022
- · Incorrect, because claim not granted under new theory of SC or based on new presumption
- Similar to claims pending when VCAA enacted
- · If VA fails to assign effective date prior to 8/10/2022 for this reason, seek direct review at BVA and notify NVLSP

© 2024 National Veterans Legal Services Program. All Rights Reserved. www.mlsp.org

### ivilsi?

### **TERA HYPOS**

Adopted from VA's PACT Act FAQs Version 6.0 https://vbaw.vba.va.gov/bl/21/pact.htm

© 2024 National Veterans Legal Services Program. All Rights Reserved. www.nv/sp.co

### HYPO #1

- · What are the requirements for records development in association with looking for toxic exposures?
- Does every claim filed with VA now require development for the personnel file if not already of record when a non-presumptive disability is claimed?

© 2024 National Vistamor Local Consises Discours. All District Recorded years rules on

### **ANSWER - HYPO #1**

VA must ensure all military records, to include personnel records (if not already of record), have been requested and obtained prior to determining that a Vet did not participate in a TERA

© 2024 National Veterans Legal Services Program. All Rights Reserved. www.rvfsp.org

### **HYPO #2**

·If Vet claims any non-presumptive condition and doesn't specify a basis/theory of SC, but a TERA can be verified, does VA need to request a TERA medical exam/opinion (presuming exception does not apply)?

© 2024 National Veterans Legal Services Program. All Rights Reserved, www.misp.or,

# HYPO #2 - ANSWER

- · If ...
- There is lay or other evidence of a current disability
- · It's not a claim for increase
- · TERA exceptions don't apply, AND
- The evidence is insufficient to grant the claim
- Then an exam and TERA medical nexus opinion are required if Vet participated in a TERA, even if Vet did not specifically claim the condition on that basis

### **HYPO #3**

Can a buddy statement be a credible source of lay evidence for a TERA claim? For example, Vet submits a buddy statement asserting that Vet was exposed to a toxic substance. The RVSR has no idea whether that toxic substance is located where the Vet was stationed, but it seems plausible given the statement.

## HYPO #3 - ANSWER

- A buddy statement can be credible lay evidence for a TERA claim
- The statement must be provided by a person who has knowledge of facts or circumstances of the Vet's TERA and conveys matters that can be observed and described by a lay person. The statement should be consistent with the circumstances and conditions of the reported TERA and be evaluated with available service records.

# ELIGIBILITY DATES 38 U.S.C. § 1710(e)(6)

- Under PACT Act, eligibility for VA health care for new categories of toxic-exposed Vets was to be phased in between 10/1/2024 and 10/1/2032
- PACT Act gave VA Secretary the authority to move up eligibility start dates if VA had resources to do so
- '3/5/2024: VA announced that Vets in these categories were <u>immediately eligible</u> to enroll in VA health care!
- \* 89 Fed. Reg. 15,753 (Mar. 4, 2024)

© 2023 National Veterans Legal Services Program. All Rights Reserved. www.rvlsp.org

# ENROLLMENT FOR CATEGORY 1

- · If eligibility based participation in TERA:
- · If new enrollee, Vet must apply using VA Form 10-10EZ
- If existing enrollee in Priority Group 7 or 8 and seeking higher Priority Group 6, Vet must file VA Form 10-10EZR
- VHA must determine if Vet participated in a TERA
- Prior VA finding in disability comp claim that Vet participated in a TERA is binding on VA for health care enrollment
- If VA has not previously found Vet participated in a TERA, VA will consider required entries in Vet's ILER, Vet's service personnel records, and other sources

# ENROLLMENT FOR CATEGORIES 2 & 3

- nvilsi
- · For current enrollees, VA will review its existing records to determine if the enrollee is a "Covered Veteran" or deployed in support of an identified contingency operation
- · If Vet's service qualifies, VA will place Vet in Priority Group 6, unless Vet qualifies for a higher Priority Group based on other factors
- · New enrollees must file VA Form 10-10EZ
- VA will review application to determine if Vet is eligible for enrollment in Priority Group 6 based on qualifying service as a "Covered Veteran" or in an identified contingency operation

# VA HEALTH CARE ELIGIBILITY

- •Toxic-exposed Vets can enroll in VA
  Health Care <u>without applying for</u>
  <u>disability comp first</u>, if they meet basic service and discharge requirements
- Even non-toxic exposed Vets may be eligible for VA Health Care without applying for disability comp, based on other factors
