Labor Force & Nonfarm Employment Estimates 2014-2018

A large group of approximately 15 people of various ethnicities and ages are posed together against a white background. They are dressed in a wide range of professional uniforms and business attire. On the far left, a man wears a yellow hard hat, a black jumpsuit, and a yellow tool belt, holding a coiled yellow cable. Next to him is a woman in a black dress and white collar. Then a man in a yellow hard hat and orange overalls over a plaid shirt. A man in a white hard hat and a dark suit holds a rolled-up blueprint. Several individuals are in white lab coats with stethoscopes, including a man and a woman. A woman in a blue nurse's uniform also has a stethoscope. Other people are in dark business suits, some with red ties, and one man in a light-colored shirt and tie. They are all smiling or looking directly at the camera, representing a diverse workforce.

INTRODUCTION

This publication provides labor force estimates and nonfarm employment estimates for the years 2014 through 2018. It includes data for the state, Metropolitan Statistical Areas (MSAs), and non-MSA counties.

Statewide annual average labor force estimates are adjusted to the Current Population Survey (CPS), a monthly survey of 60,000 occupied U.S. households conducted by the U.S. Census Bureau for the U.S. Bureau of Labor Statistics. Estimates for the state have been adjusted to the 2018 benchmark for the five years covered in this publication. MSA and non-MSA county estimates have been adjusted to the most current benchmark revision for each year.

Nonfarm employment by industry is produced from a survey of employers, providing an estimate of jobs by place of work. The data includes all full-time and part-time nonfarm wage and salary employees who worked during, or received pay for, the payroll period which includes the 12th day of the month. Estimates of employment for the state, MSAs, and non-MSA counties have been adjusted to the most current benchmark revision for each of the years.

Note: Material in this publication is in the public domain and may be reproduced without permission of state government. Most recent benchmark year:

Each year, labor force and nonfarm employment estimates are "benchmarked" to incorporate new or revised data. Listed below are the most recent benchmark years.

Labor Force Estimates:

2014 has been adjusted to the 2018 benchmark.
 2015 has been adjusted to the 2018 benchmark.
 2016 has been adjusted to the 2018 benchmark.
 2017 has been adjusted to the 2018 benchmark.
 2018 has been adjusted to the 2018 benchmark.

Nonfarm Employment Estimates:

2014 has been adjusted to the 2015 benchmark
 2015 has been adjusted to the 2016 benchmark
 2016 has been adjusted to the 2017 benchmark
 2017 has been adjusted to the 2018 benchmark
 2018 has been adjusted to the 2018 benchmark

Numbers may not add due to rounding.
