

## **Apprenticeship Training Grant (ATG) Frequently Asked Questions**

**Q: WHAT IS THE PURPOSE OF THE APPRENTICESHIP TRAINING GRANT?**

**A:** The purpose of the Apprenticeship Training Grant (ATG) is to support Tennessee Companies/Organizations, which have US/DOL, Office of Apprenticeship Registered Apprenticeship Programs or interested in starting an apprenticeship program, with strategies to significantly increase apprenticeship opportunities for job seekers and existing first & second year apprentices with:

- OJT assistance for eligible Dislocated Workers entering an apprenticeship program as a new hire, and or;
- To provide assistance in the Classroom Training of existing first or second year apprentices or for participants in a pre-apprenticeship program.

**Q: WHY APPRENTICESHIPS?**

**A:** Registered Apprenticeship (RA) programs offer employment and a combination of on-the-job learning and related technical and theoretical instruction through a training provider. Apprentices are employed at the start of their apprenticeship and work through a series of defined curricula until the completion of their apprenticeship programs.

The duration of training, and the skills and competencies required for mastery, are driven by industry. Traditional apprenticeship programs require a specific number of hours of on-the-job training. Increasingly, industries are requiring competency-based training programs that reflect mastery of key skills and allow motivated workers to progress at their own pace. Currently, the Registered Apprenticeship system approves time-based, competency-based, and a hybrid of time-based and competency-based programs, and helps industries transition to competency-based apprenticeship programs for enhanced effectiveness.

Certifications earned through Registered Apprenticeship programs are recognized nationwide as portable industry credentials.

**Q: HOW CAN OJT FUNDS BE USED TO SUPPORT PLACING PARTICIPANTS INTO A REGISTERED APPRENTICESHIP PROGRAM?**

**A:** An OJT contract may be made with a registered apprenticeship program for training WIOA eligible participants. OJT contracts are made with the employer, and registered apprenticeships. Registered Apprenticeship programs generally involve both classroom and on-the-job instruction. The OJT contract may be made to support the OJT portion of the registered apprenticeship program. Registered apprenticeship programs vary in length, so the OJT may support the entire duration of training when possible but because most programs are 2 to 5 years in length, only the beginning of the registered apprenticeship training program can be supported.

An OJT contract must be limited to the period of time required for a participant to become proficient in the occupation for which the training is being provided. In determining the appropriate length of the contract, consideration should be given to the skill requirements of the occupation, the academic and occupational skill level of the participant, prior work experience, and the participant's individual employment plan.

**Q: WHAT IS A REGISTERED APPRENTICESHIP PROGRAM?**

**A:** Registered Apprenticeship (RA) programs offer employment and a combination of on-the-job learning and related technical and theoretical classroom instruction. Apprentices are employed at the start of their apprenticeship and work through a series of defined curricula until the completion of their apprenticeship programs. Registered Apprenticeship programs are administered by the Employment and Training Administration's Office of Apprenticeship within the U.S. Department of Labor.
