Article I – Name

This body has been established in accordance with the Workforce Innovation and Opportunity Act and is known as the State Workforce Development Board (hereinafter referred to as the “Board”). The Board was established through Executive Order #46 on June 30, 2015.

Article II – Purpose

Section 1. The primary responsibility of the Board is to advise the Governor on all matters of workforce development strategy for the state of Tennessee. The Board shall not operate or provide services directly. All recommendations by the Board shall be subject to approval by the Governor.

Section 2. In the absence of statutory prohibition, the Board may also carry out the duties and functions of other existing State councils as described under laws relating to federal and state workforce development programs where the Governor and Commissioner of the State department responsible for the administration of such program jointly agree to include the program within the jurisdiction of the Board.

Section 3. The Board shall identify the workforce development needs of the State, analyze and assess new federal policy and program initiatives, and make recommendations toward improving statewide policies, goals, and guidelines for the coordination of all workforce education, employment, and training programs. Such recommendations should transcend traditional organizations and program boundaries and focus rather on providing quality services to those citizens who use such services, and on the needs of the employers who increasingly depend upon the workforce development system to secure qualified workers. The Board shall advise the Governor on these matters and attend to those specific tasks which may be delegated to the board from time to time by the Governor.

Section 4. The Board shall review the provision of services and the use of funds and resources under applicable Federal workforce development programs and advise the Governor on methods of improving and coordinating the use of such funds and resources. Where necessary, the Board shall develop and implement appropriate State and local performance measures to ensure that such resources and funds are being used effectively.
Section 5. The Board shall make an annual report to the Governor which shall be a public document. It shall issue such other studies, reports, or documents as it deems advisable to assist in improving the delivery of workforce development services and in carrying out the purposes of the State Workforce Development System.

Section 6. The Board shall identify the employment and training and vocational education needs throughout the state; assess the extent to which employment and training, vocational education, rehabilitation services, economic development, temporary assistance for needy families, and other federal, state, and local programs and services represent a consistent, integrated, and coordinated approach to meeting such needs.

Section 7. The Board shall review plans of all state agencies providing employment, training, and related services, and provide comments and recommendations to the Governor, the state legislature, the state agencies, and the appropriate federal agencies on the relevancy and effectiveness of employment and training, and related service delivery systems in the state.
