PREMIUM RATE INFORMATION

New employers in Tennessee are initially subject to a “new employer” rate until their account has been subject to premiums and chargeable with benefits for thirty-six consecutive months ending on the computation date (December 31 of each year). They then become eligible, beginning on the next July 1, for a premium rate based on their individual reserve experience.

New employer rates are determined separately for each major industry group based on the combined reserve experience of each industry group as a whole. Starting July 1, 2021, all industries have a new employer rate of 2.7%. The new employer rates for construction, mining, and manufacturing, for previous years, are listed below.
