12100 TAA Program Information

12101 Program Overview

The Trade Adjustment Assistance (TAA) Program is a federal program that assists US workers who have lost their jobs as a result of foreign trade. The TAA program seeks to provide these trade-affected workers with opportunities to obtain the skills, resources, and support they need to become reemployed.

12102 Background of the Program

The TAA for Workers Program (TAA program) was first established at the U.S. Department of Labor (Department) under chapter 2 of title II of the Trade Act of 1974 (1974 Act). The TAA program has a two-step process for workers to obtain program benefits. First, a group of workers, or other specified entities, must file a petition for certification of eligibility to apply for TAA benefits and services with Office of Trade Adjustment Assistance (OTAA) in the Department’s Employment and Training Administration (ETA) and the state in which the workers’ firm is located. A petition will be certified by a Certifying Officer in OTAA after finding that the statutory criteria that test whether the group of workers was adversely affected by international trade have been met. Second, workers who are part of a group covered under a certified petition may apply individually to a state for TAA benefits and services. States administer the TAA program as agents of the Secretary of Labor (Secretary) through a state agency or agencies designated as the CSA in an agreement between the Governor and the Secretary (the Governor-Secretary Agreement). The CSA is responsible for both the determination of participant eligibility to receive TAA, and the provision of benefits and services to TAA-eligible workers.

The 2002 Amendments

The 1974 Act has been amended numerous times. The Trade Adjustment Assistance Reform Act of 2002 reauthorized and expanded the scope of the TAA program and increased benefit amounts, repealed the North American Free Trade Agreement Transitional Adjustment Assistance (NAFTA-TAA) program, added to the TAA program in 1993 to provide benefits to workers who lost their jobs because of trade with Mexico and Canada after NAFTA, created the Health Coverage Tax Credit (HCTC), and initiated a pilot program for Alternative Trade Adjustment Assistance for older workers (ATAA program). The NAFTA-TAA program was no longer necessary because the 2002 Amendments extended the same favorable TAA coverage to workers who lost their jobs because of shifts in production to other countries with which the United States had trade agreements or treaties or where
there was also a likelihood of increased imports, as NAFTA-TAA had provided to workers who lost their jobs because of shifts in production to Mexico and Canada. Adversely affected secondary workers, whose layoffs could be attributed to trade impacts demonstrated by TAA certifications of workers for companies for whom their firms were suppliers or downstream producers, also were covered under these amendments. The 2002 Program applied to workers covered under petitions filed on or after November 4, 2002.

The operation of the TAA program for workers covered by petitions filed on or after November 4, 2002 and before May 18, 2009 is governed by TEGL No. 11-02, Operating Instructions for Implementing the Amendments to the Trade Act of 1974 Enacted by the Trade Act of 2002, and Changes 1, 2, and 3; and TEGL No. 2-03, Interim Operating Instructions for Implementing the Alternative Trade Adjustment Assistance (ATAA) for Older Workers Program - Established by the Trade Adjustment Assistance Reform Act of 2002, and Changes 1 and 2. The provisions of the longstanding TAA regulations codified at 20 CFR part 617 that were not affected by program changes in 2002 also have continued to apply to the TAA program and workers covered under the 2002 Amendments.

The 2009 Amendments

The TGAAA reauthorized the TAA program through December 31, 2010, and again expanded its scope to cover additional categories of Trade-Affected Workers, increased benefit amounts, and added employment and case management services to the categories of TAA benefits. The Older Workers Program no longer was a pilot program and was renamed the RTAA program. Workers no longer had to choose between receiving ATAA or the training benefit. Part-time training could be approved for all Trade-Affected Workers, and Trade-Affected Workers could enroll in TAA-approved training before separation from employment. The 2009 Amendments, applied to workers covered under petitions filed on or after May 18, 2009, through December 31, 2010. The Omnibus Trade Act amended the TGAAA to provide a six-week extension of the December 31, 2010 termination date of the program in effect under the 2009 Amendments (the 2009 Program), and the resumption of the program in effect before the 2009 Amendments (the 2002 Program). As described in TEGL No. 16-10, Change 1, the application of the 2009 Amendments ended (or “sunset”) on February 12, 2011. The expanded TAA group eligibility and certification requirements available under the 2009 Amendments continued to apply to petitions received on or before 11:59 PM EST on Monday, February 14, 2011, which was the next business day after February 12, 2011, a Saturday.

TEGL No. 22-08, Operating Instructions for Implementing the Amendments to the Trade Act of 1974 Enacted by the Trade and Globalization Adjustment Assistance Act of 2009, and its Change 1 continue to govern the delivery of benefits to workers covered under the 2009 Program. TEGL No. 11-02, Operating Instructions for Implementing the Amendments to the Trade Act of 2002, and it’s Changes 1, 2, and 3; and TEGL No. 2-03, Interim Operating
Instructions for Implementing the Alternative Trade Adjustment Assistance (ATAA) for Older Workers Program Established by the Trade Adjustment Assistance Reform Act of 2002, and its Change 1 continue to govern the delivery of benefits to workers covered by petitions filed on or after November 4, 2002 and before May 18, 2009, and where identified in Section A.2.4 below, the delivery of benefits to workers covered under petitions numbered TA-W 80,000-80,999.

The Secretary’s regulations codified at 20 CFR part 617 continue to apply to the delivery of benefits under the 2002 Program and the 2009 Program to the extent that the applicable law did not supersede those regulatory requirements, as explained in the TEGLs and other guidance documents that apply to the respective programs. To the same extent, 29 CFR part 90 continues to apply to the certification process for all TAA petitions. The regulatory requirement of merit-based staffing of the TAA program, codified at 20 CFR 618.890, continues to apply to state administration.

The 2011 Amendment

On October 21, 2011, President Obama signed the Trade Adjustment Assistance (TAA) Extension Act of 2011, which changes the group eligibility requirements, and participant benefits and services available under the Trade Adjustment Assistance program, for some workers.

Petitions Filed after February 12, 2011 and before October 21, 2011 makes the changes to the group eligibility requirements contained in the TAA Extension Act of 2011 retroactive to February 12, 2011, and apply to all petitions filed since that time-petitions designated with numbers from TA-W80,000 through TA-W-80,999

Any petition filed after February 12, 2011 and before October 21, 2011, that was denied was automatically reconsidered under the group eligibility provisions of the TAA Extension Act of 2011. USDOL completed the reconsideration of these petitions on February 21, 2012.

The Trade Adjustment Reauthorization Act of 2015 (TEGL 5-15)

The TAARA 2015, title IV of the Trade Preferences Extension Act of 2015 (Public Law 114-27), was signed into law by President Barack Obama on June 29, 2015, and both amends and reauthorizes the TAA Program. The TAARA 2015 (see Attachment B) restores the worker group eligibility and benefits established by the Trade Adjustment Assistance Extension Act of 2011 (TAAEA). The TAARA 2015 also authorizes the operation of the 2015 Program and continuation of the 2002 Program, the 2009 Program, and the 2011 Program through June 30, 2021; provides a 90-day transition period for Reversion 2014 Program participants; expands coverage of certifications of petitions filed since January 1, 2014 for 90
days; requires reconsideration of negative determinations on petitions filed since that date and before the date of enactment under 2015 Act certification requirements; and reauthorizes the HCTC program benefit for eligible TAA participants. Additionally, new requirements are added by the TAARA 2015 to align performance reporting for the TAA Program with the requirements of the WIOA.

12103 How Does TAA Work

To obtain TAA re-employment services and benefits a group of workers must first file a petition with the U.S Department of Labor's Trade Adjustment Assistance Program (TAA) requesting certification as workers adversely affected by foreign trade. Once a complete petition is filed, the Office of Trade Adjustment Assistance (OTAA) initiates an investigation to determine whether a group of workers meets the group eligibility requirements. If the participant is found to meet the group eligibility criteria, a group eligibility certification will be issued. This certifies that the workers of the group are eligible to apply for Trade Adjustment Assistance benefits.

After a group certification is issued, each participant in the group must then individually apply for services and benefits through their local America’s Job Center.

12104 What Does TAA Offer

TAA offers benefits and a variety of services to support workers seeking re-employment:

**BENEFITS**

- **Income Support** (Trade Readjustment Allowances (TRA)) is available to provide income support to workers while participating in full-time training. Under certain circumstances, TRA is also available to certified workers for whom training is not feasible or appropriate. There are three (3) categories of TRA Benefits: Basic TRA, Additional TRA, and Completion TRA. Each category has its own set of eligibility requirements.

**SERVICES**

- **Re-employment services** - This service can include Employment Counseling; Resume Writing and Interview Skills Workshops; Career Assessment; Job Development; Job Search Programs; Job Referrals; and Supportive Services

- **Employment and Case Management Services** must be made available to the adversely affected workers and/or adversely affected incumbent workers covered by a certified petition requesting TAA services over the course of
their participation in the TAA program, through early assessment, Individual Employment Plans, Case Notes, etc.

- **Waiver from the Training Requirement** – under certain circumstances, an eligible participant may receive a waiver from the requirement for training, if they meet one of the following conditions: health, enrollment unavailable, training not available.

- **Training** – provided to workers that do not have sufficient skills to obtain suitable employment in the current labor market. Allowable types of training include, Classroom Training, On-Line, Distance Learning, On-the-Job Training (OJT), Vocational, Customized, and Basic or Remedial Education.

- **Job Search Allowance** – may cover expenses for a pre-approved job interview that occurs 10 miles or more from trade impacted worker’s residence when suitable employment, as defined by State law, is not available in the area.

- **Relocation Allowance** - may cover expenses for a pre-approved move of the participant, their families and their household goods, outside the participant’s normal commuting area if suitable employment, as defined by State law, is not available in the area. The commuting area in Tennessee is 50 miles one way. The participant must have a bona fide offer of work.

- **Alternative Trade Adjustment Assistance (ATAA) / Re-employment Trade Adjustment Assistance (RTAA)** is a wage subsidy provided to eligible workers age of 50 and above that subsidizes a portion of the wage difference between their new wage and their old wage (up to a specified maximum amount).

**12105 Who Does TAA Serve**

TAA workers come from a variety of backgrounds and industries, and therefore many enter the program with a wide array of skills and experience. However, the majority of TAA workers who enter the program face similar challenges in obtaining re-employment, which can include no education beyond high school, job skills solely in the manufacturing sector, and an average age of 46 with over 12 years of experience in a specific job that may no longer exist. The TAA program has been developed through legislation, regulation, and administrative guidance to best serve the needs of this unique population.
12106 Filing a TAA Petition (www.doleta.gov/tradeact/downloadpetitions.cfm)

Petition Process Overview

1. To obtain TAA re-employment services and benefits a petition must be filed with the U.S Department of Labor's Trade Adjustment Assistance Program (TAA). Once a complete petition is filed, the Office of Trade Adjustment Assistance (OTAA) initiates an investigation to determine whether a group of workers meets the group eligibility requirements. If the participant group meets the group eligibility criteria, a group eligibility certification will be issued. This certifies that the workers of the group are eligible to apply for Trade Adjustment Assistance benefits.

2. After a group certification is issued, each participant in the group must then individually apply for services and benefits through their local America’s Job Center. The TAA Representatives at the local America’s Job Center will ensure the workers’ TAA eligibility to apply for TAA services.

Who may file a petition - A petition may be filed by any of the following: a group of three or more workers, an employer of a group of workers, a Union, a State Workforce Official, a One-Stop Operator/Partner, or another Duly Authorized Representative. OTAA will initiate an investigation when a complete petition is filed by any of these parties.

Assistance in preparing a petition - Petitioners may request assistance in preparing the petition at their local America’s Job Center which may be located by calling 1-877-US2-JOBS, (TTY) 1-877-889-5627, or visit the America's Service Locator website at http://www.serviceLocator.org. Petitioners may also contact the U.S. Department of Labor in Washington, D.C. at 202-693-3560 or 1-888-365-6822.

Submitting a Petition - The petition should be electronically file and electronically signed by the three workers in the participant group, employer, Union Official, State Workforce Official, One-Stop Operator/Partner or Duly Authorized Representative who are filing the petition. When a group of three workers are filing the petition, all three workers must sign the petition.

Once signed, the petition must be submitted to both the Office of Trade Adjustment Assistance in Washington, D.C. and to the relevant state workforce agency.

Decisions on TAA Petitions

After accepting a complete petition, OTAA will initiate an investigation to determine whether the group of workers covered by the petition meets the group eligibility requirements of the Trade Act. This investigation may include contacting the workers' firm to collect data, contacting customers of the workers' firm, the petitioners, unions, Cooperating State Agencies, or other sources of relevant information as needed. The steps required to complete an investigation vary according to the circumstances specific to the participant's firm.
If the workers are found to meet the group eligibility criteria set by the Trade Act, OTAA will issue a certification of group eligibility.

**Certification of Petitions** - If the eligibility requirements have been met OTAA will issue the participant group a decision titled: "Certification Regarding Eligibility to Apply for Trade Adjustment Assistance."

 Generally the certification covers all members of the participant group who are separated or threatened with separations during the period beginning one year before the petition was filed and ending two years after the date of the certification. Each certification describes the participant group and specifies the beginning and ending dates.

**Denial of Petitions** - If, after investigation, OTAA determines that the eligibility requirements are not met, OTAA will issue the participant group a "Negative Determination Regarding Eligibility to Apply for Trade Adjustment Assistance." A negative determination denies workers certification of eligibility to apply for TAA services and benefits.

Workers who are denied eligibility to apply for TAA may: 1) request administrative reconsideration of the determination; 2) seek judicial review of the determination; and/or 3) seek re-employment services from other programs such as those available through the Workforce Investment and Opportunities Act's Dislocated Worker’s program also available through local America’s Job Center.

**Notification of Certification or Denial** - After making a determination on group eligibility, OTAA will notify the petitioners, the workers’ firm, and State agency of the determination. In addition, the determination will be posted on the TAA website and published in the Federal Register. If a group of workers is certified eligible to apply for TAA, the Cooperating State Agency will then notify workers of the certification and provide information about benefits.

**How to Challenge a Petition Denial / Administrative Reconsideration** - Determinations on Trade Adjustment Assistance petitions are published in the Federal Register, the official daily publication for Rules, Proposed Rules, and Notices of Federal organizations. Workers who are denied certification may request administrative reconsideration from OTAA. Requests for reconsideration must: 1) be in writing; 2) include the TAA investigation number; 3) be signed; and 4) describe the group of workers included in the petition. Requests must also cite reasons why the workers consider the denial erroneous according to the facts, the interpretation of the facts, or the law itself. **Reconsideration requests must be filed with OTAA within 30 days of Federal Register publication and may be mailed or faxed to:**

*United States Department of Labor Employment and Training Administration Office of Trade Adjustment Assistance Attn: Reconsiderations*

*Room N-5428*

*200 Constitution Avenue N.W. Washington DC 20210*

*Phone: 202-693-3560 or 1-888-DOL-OTAA (1-888-365-6822) Fax: 202-693-3584*
or 3585

Web site: http://www.doleta.gov/tradeact

**Judicial Review** - Workers who are denied certification may seek judicial review of OTAA’s initial determination or determination following administrative reconsideration. Appeals for judicial review must be filed with the Case Management Supervisor, U.S Court of International Trade, One Federal Plaza, New York, New York 10007, (212) 264-1611. **Appeals must be filed within 60 days of Federal Register publication of the initial denial or administrative reconsideration denial.**

12107 Rights to TAA Training

The following are the most pertinent elements of approved training under the Trade Act:

1. Training is an entitlement under the Trade Act program, but it is not an unconditional entitlement. There are six criteria that must be considered before training is approved.

2. Only adversely affected workers who are laid off from affected employment during an impact period of a specific certification are eligible and entitled to receive training approved and paid for under the Trade Act.

3. Workers who are laid off during the impact period but lack the 26 weeks of employment necessary to qualify for weekly TRA allowances are eligible and entitled to receive approved training, relocation, and job search under the Trade Act.

4. Depending on the petition number, Vocational, remedial, and/or pre-requisite training may be approved under the Trade Act.

12108 (UI-8330) Statement of Training Status for TRA Claimant, LB-0723 Waivers

**NOTE:** Form LB-0723 has been replaced with LB-0911W (Waiver of Training Requirement under Trade Act of 2002 which is Appendix 8300-iiiW), LB-0911WR/D (TAA Training Waiver Review, Denial and Agency Decision, which is Appendix 8300-iiiR/D), and LB-0911R (TAA Training Waiver Revoked which is Appendix 8300-iiiR).

The form, LB-0723 (Revised May 2002), is a two-page form. Page one is used to waive the training requirement when it is found that training is feasible not or appropriate. A complete explanation will be required as to the reason a waiver is issued. The LB-0723 will be reviewed for accuracy prior to entry of a training status code into the system. It will then be
forwarded for microfilm with the first AC/RC which activates the claim, or with any subsequent RC/AC if a waiver is issued. Page two of the form should be held in the claimant’s file and would be used in the event that it is necessary to revoke the waiver. See Section 8332, 8390) (See Appendix 8300-iiiW, Appendix 8300-iiiR/D, and Appendix 8300-iiiR)

A. Appropriate

The word "appropriate" refers to suitability of training for the worker (including whether there is a reasonable prospect of employment within the foreseeable future). If the training duration exceeds the worker’s eligibility for benefits, training would not be required but offered as an entitlement if all six criteria apply. If it is determined that the worker is a candidate for training approval, the question of feasibility must be explored.

B. Feasible

For the purpose of determining training approval, "feasible" means whether there is any training available which meets all the criteria for approval under the six criteria and whether funding is available to pay the full costs including transportation or subsistence if necessary. (See Section 8390)

C. Training Status Code

The TRA claimant history should be updated by accessing the TLC screen and entering the appropriate Training Status (TS) code. (See Section(s) 8205, 8331, 8391)

During basic TRA, a claimant approved for training within thirty (30) days may receive benefits; additional weeks may only begin when the worker begins participating in training. Training status code "P" is appropriate during this time.
12200 Training

Effective August 23, 1988, training is an entitlement, and, in any case where the criteria are reasonably met and funding is available, the participant is entitled to have the training approved and it may not be unreasonably denied. Effective February 7, 1994, only one program of training is allowable under a single petition.

The participant shall be entitled to "have payment of the costs of such training paid on his/her behalf" (subject to the limitations imposed by the Trade Act). The reference to "limitation" includes all of the limitations and restrictions on types of training criteria, as well as the limit on annual training costs payable from TAA funds.

12201 Training Program

A training program may consist of a single course or group of courses which is designed and approved by the State agency for a participant to meet a specific occupational goal. Depending on the Petition number training could be approved for:

- 50000 – 69999 (2002) [TEGL 11-02]
  - Up to 104 weeks of full-time training
  - Up to 130 weeks of full-time training if there are remedial
  - Must be separated and covered by a trade petition to request training.

- 70000 – 79999 (2009) [TEGL 22-08]
  - Up to 130 weeks of full-time or part-time training. However, if the training is part-time, there will be no TRA benefits.
  - Up to 156 weeks of full-time training or part-time, if there are remedial or pre-requisites. However, if part-time there will be no TRA benefits.
  - Trade impacted workers may request training prior to layoff

- 80000 – 80,999 (2002) [TEGL 16-10]
  - Up to 104 weeks of full-time training
  - Up to 130 weeks of full-time training if there are remedial

- 81,000 and above (2015) [TEGL 10-11, 16-14, 05-15]
  - 130 weeks of full-time or part-time training. However, if the training is part-time, there will be no TRA benefits.
  - Last 13 weeks must meet benchmarks for Completion TRA Benefits.
  - Trade impacted workers may request training prior to layoff

12202 Amended Training Program

A participant's approved training program may be amended to add a course or to satisfy unforeseen needs of the participant, such as remedial education or specific occupational skills, as long as the length of the amended training program does not exceed the number
of weeks designated by the petition number.

12203 Full-time Training

TAA approved training programs are to be designed to consist of full-time attendance in accordance with the established hours and days of training determined by the training provider. Written documentation from the training facility admissions or business office is required to clarify full-time status. If combined with on-the-job (OJT) training, the combined attendance at both must be full-time. Staff should seek guidance from the TAA Training Coordinator regarding training programs having limited hours-per-day scheduled.

12204 Incumbent Participant/Part-time Training

Under Petition number 70000 through 79999 and 81000 and above, TAA approved training programs can consist of part-time attendance. However, if part-time training is chosen and approved, no TRA benefit will be paid to the participant. Also, participant must indicate in a written statement that he/she understands the lack of TRA benefits.

If the participant is covered under Petition numbers 60000 through 69999 or 80000 through 80999, workers are not eligible for part–time training.

12205 Distance Training

Distance training (i.e., training provided via the internet) may be considered “classroom training” when the degree or certificate received is equivalent to what would have been received if the training had been conducted on campus. This interpretation expands the types of approved classroom training to include distance learning, where a participant completes all or part of an educational or vocational program in a location far away from the institution hosting the training program. For distance learning, the final degree or certification conferred must be equivalent in content and standard of achievement to the same program completed on campus or at an institutional training location. When the above condition is met, the training will be recognized as the type that normally takes place in an interactive classroom setting. This standard replaces the four conditions in TEGL 7-00.

In addition, in order for distance learning to be approved, all criteria for training approval found at 20 CFR 617.22 must be met in the same way as in any other training.

Distance learning may, in some cases, be more self-paced than in class institutional training. TAA Representatives will need to work with distance learning providers to understand the specific requirements or milestones of the distance learning program and to ensure that the training provider keeps the agency informed of the student’s adherence to those requirements through weekly attendance certifications.
12206 Case Management

Case Management consist of comprehensive assessments of skill levels and service needs, development of an participant employment plan (IEP) to identify employment goals and objectives, and information on available training and counseling.

12207 Criteria for Approval

Conditions for approval: Training shall be approved for an adversely affected worker if the State agency determines that the six training criteria have been met. These criteria are:

1. There is no suitable employment available for the participant.
2. The participant would benefit from appropriate training (occupational and/or remedial) and be job ready upon completion of training.
3. There is a reasonable expectation of employment following completion of occupational training.
4. Approved occupational training is reasonably available to the participant.
5. The participant is qualified to undertake and complete such occupational training.
6. Such training is suitable for the participant and available at a reasonable cost.

The six criteria will also be used to determine approved training which is paid for with sources other than TAA funds. The costs of training approved under the six criteria are "not required" to be paid from TAA funds to the extent that such costs are paid under any state or federal program or from any other source, i.e., an employer. However, training would not be considered approvable if the participant paid for the training or if the participant was required to reimburse anyone for the training.

12208 Criteria for Approval, Explanations [20 CFR 617.22]

1. This criteria is met if, at the time of job search, there is no suitable employment (which may include technical and professional employment) available for the participant who is being considered for training, and there is no reasonable prospect of such suitable employment becoming available for the worker in the foreseeable future. The term "suitable employment" means, work of a substantially equal or higher skill level than the participant's past adversely affected employment, and wages for such work at not less than 80 percent of the participant's average weekly wage.

2. The participant would benefit from appropriate training (occupational and/or remedial). The participant will be job ready upon completion of training.

3. There is a reasonable expectation (not necessarily a prior guarantee) of employment following completion of occupational training. While immediate
employment is not required, **approval of training must be in occupational areas that are in demand.** In determining suitable training, certain occupations must be excluded when there is a lack of employment opportunities as substantiated by Jobs4TN, School placement rates, job orders and other pertinent labor market data or when the occupation provides no reasonable expectation of permanent employment. Training must be in occupations for which an identifiable demand exists in the local labor market or in other areas for which the participant is willing to relocate.

Note: In making a determination as to whether a training occupation is in demand, CO will begin with the Cluster located under Supply and Demand by Education Cluster or by Labor Supply and Demand by Occupation, located on Jobs4TN. The Cluster actually states whether an occupation is in demand or not for the area where the participant will be seeking employment. However, there are other resources that can be used and they are listed below.

**The School Placement Rate (70% or higher for the training occupation)**

1. May be available on the Cluster
2. If not on the Cluster, may be obtained from the training institution.

At least 3 Newspaper advertisements for the specific occupation (be sure the advertisement has the newspaper’s date line that includes the name and the date of the paper)

Newspaper articles/news releases concerning growth of a particular occupation in the area (be sure the article has the newspaper’s date line that includes the name and the date of the paper)

Letter from an employer that indicates an offer of employment to the person requesting training in the occupation he/she will be trained in.

Any documentation that indicates a demand in the area that comes from a reputable authority.

4. Approved occupational training is reasonably available to the participant from governmental agencies or private sources which may include area technology centers. First priority will be given to providing training in Tennessee College of Applied Technology (TCAT) locations unless it is determined and documented that such schools are not as effective and efficient as other institutional alternatives.

This means that the training is reasonably accessible to the participant within the participant’s commuting area at any governmental or private institution or facility. Reasonable commuting area is within a 10 mile radius of the participant’s residence. It also means training is suitable for the participant and meets the other criteria. Emphasis must be given to finding accessible training for the participant, although not precluding training outside the commuting area if
none is available at the time within the participant's commuting area. If outside the commuting area then the training must be available at a reasonable cost. Mileage from the workers’ home to the training facility should be documented.

In determining whether or not training is reasonably available, first consideration shall be given to training opportunities available within the participant's normal commuting area. Training at facilities outside the participant's normal commuting area should be approved only if such training is not available in the area or the training to be provided outside the normal commuting area is provided at a more reasonable cost.

5. The participant is qualified to undertake and complete such occupational training (determine either through testing and/or entrance requirements).

This emphasizes the participant's personal qualifications to undertake and complete approved training. Evaluation of the participant's personal qualifications must include the participant's physical and mental capabilities, educational background, work experience, as indicated by the TABE or CASAS assessment, and financial resources, as adequate to undertake and complete the specific training program.

Evaluation of the participant's financial ability should include an analysis of the participant's remaining weeks of UI and TRA payments in relation to the duration of the training program. If the participant's UI and TRA will be exhausted before the end of the training program, it will be ascertained through the financial statement whether personal or family resources will be available to the participant. It must be documented on the LB-0783 that financial resources will be available for the participant if the training is to be approved.

6. Such training is suitable for the participant and available at a reasonable cost.

Suitable for the participant means that criteria one is met in that no suitable employment is available and that the training is appropriate for the participant given his/her capabilities, background and experience.

Available at a reasonable cost means that training is not approved at one institution when, all costs being considered, the same or similar training can be obtained at another institution at a lower total cost. It also means that training is not approved when the costs of the training is unreasonably high in comparison with the average costs of training of other workers in similar occupations at other institutions or facilities. This criteria also requires taking into consideration the funding of training costs from sources besides TAA funds, and the least cost to TAA funding of providing suitable training opportunities to workers. Greater emphasis will need to be given to these elements in determining the reasonable costs of training, particularly in view of the requirements that TRA claimants be enrolled in and participate in training.
Reasonable cost of training shall take into consideration tuition and related expenses (books, tools, and fees, etc.), travel or transportation expenses, and subsistence expenses.

In determining whether cost of training is reasonable, consideration should first be given to the lowest cost training which is available within the commuting area. When like training for suitable employment, is offered at more than one training facility, the lowest cost training shall be approved.

Training outside the participant's normal commuting area should be approved only in situations where appropriate training is not otherwise available. Training that involves transportation or subsistence costs which add substantially to the total costs provides a basis for disapproving the training, if other appropriate training is available.

NOTE: The six training criteria will be completed by the TAA Specialist after notification of the TAA training request has been received. Case Notes must document enough information that will enable the TAA Specialist to make an eligibility determination.

12209 Other Factors Which Must be Considered in the TAA Training Approval Process

1. To request training a participant must first complete a job search to determine if there is any suitable employment available in his/her commuting area.
2. The training is of suitable duration to achieve the desired skill level in the shortest possible time.
3. The hours and days in a week of attendance will be in accordance with established hours and days commensurate with the course as determined by the training facility.
4. No other payment for the costs of such training has been or will be made from any other source which would create duplication of payments. Any funds which are used for any purpose other than the direct payment of the costs incurred in training is deductible, even if such use indirectly pays or reduces the costs involved in training the participant.
5. Case Management should be completed on all TAA eligible workers requesting any services covered under the program. This information should be documented in Jobs4TN (VOS) under case notes.
6. All TAA eligible workers requesting training must be assessed by the LWDA, their agent, or Adult Education (if no high school diploma) using the TABE/CASAS.

NOTE: The above criteria will also be used to determine approved training which is paid for with sources other than TAA funds.
NOTE: Pell and/or Lottery grants are no longer required to be used for training cost under TAA. If costs are deemed unreasonable, the participant must give written approval for the use of the grants.

12210 TAA Eligibility Application (Jobs4TN (VOS))

All workers identified as trade impacted must complete a Wagner Peyser application and then a TAA application in Jobs4TN prior to participation in the program. Once the TAA Application has been established and the participant has been identified as eligible to request services under the law, the next step is to set up Participation in the program. (See Petition information on page)

12211 TAA Participation (Jobs4TN (VOS))

Establishing Participation in the TAA Program starts with setting up an Initial Assessment Activity. All TAA workers must have specific activities offered to them as part of core and intensive services. Initial Assessment (VOS Code 102) is always the first service offered to the participant. Followed by:

- IEP – Individual Employment Plan must be developed on all TAA Workers (VOS Code 205)
- LMI – Labor Market Information that will help with re-employment (VOS Code 107)
- Job Search – Suitable employment search required prior to requesting training (VOS Code 125)
- Referral to WIOA – Assessment (TABE/CASAS testing) (VOS Code 211)
- Rapid Response – Participant attended a rapid response meeting (VOS Code 110)

There may be other activities that you include on the participant, but the list above is required on all TAA workers that are looking at occupational training.

12212 TAA Training Enrollment (Jobs4TN (VOS))

A training activity must be completed in Jobs4TN (VOS) by the TAA Representative establishing the type of training being requested, using one of the following codes:

- 300 Occupational Skills Training – Approved Provider List (ITA)
- 328 Occupational Skills Training – Non Approved Provider (No ITA)
339 Approved HiSet Training
342 TAA Approved Prerequisites
301 On-The-Job Training
314 Apprenticeship Training

The training provider and course of study are also identified in the activity.

**NOTE:** *Cost of training will be established based on the cost sheet submitted by the training facility and posted in Jobs4TN (VOS) by the TAA Specialist.*

Completion of the activity information will be the printed TAA Enrollment document.

**12213 Trade Adjustment Assistant Program (TAA) Application for TAA Training (ETA-858) (Jobs4TN (VOS))**

The TAA Specialist will review the activity, training information, cost, case notes, and make an eligibility decision based on the facts as they have been presented and they will complete the six training criteria. The form will be printed and signed indicating the decision. That printed form is the Application for TAA Training (ETA 858).

**NOTE:** *Case Notes must be entered in Jobs4TN (VOS) so that the TAA Specialist will have justification for the answers to the six training criteria.*

**12214 How to Apply for TAA Funded Training**

If the participant is requesting TAA funded training, America’s Job Center TAA Representative will complete and/or upload in Jobs4TN (VOS) the following:

1. TAA Program Application
2. TAA Occupational Training Activity (VOS Codes 300/328/339/342/301/314)
3. IEP Plan & IEP Activity (VOS 205)

12215 How to Apply for Approval of Training with Other Funding Source

For workers who are enrolled in training by and funded through any source other than TAA, America’s Job Center TAA Representatives will complete and/or upload in Jobs4TN (VOS) the following:

1. TAA Application
2. TAA Occupational Training Activity
3. IEP Plan & IEP Activity

14. Mileage Documentation
15. Demand Information

12216 Signature of Authority for Training Facility Officials, LB-0898

(www.tn.gov/workforce/article/technical-assistance-policies-wfs/article/technical-assistance-policies-wfs)

The Signature of Authority for Training Facility Officials, LB-0898, is available for use by America’s Job Centers in obtaining training facility and/or vendor signatures(s) of authorization. The form is designed to collect the signature of the official(s) authorized to sign:

1. Claimant certifications, regardless of the funding source, and
2. Claimant certification and invoicing TDLWD when the training is TAA funded.

NOTE: Please ensure to include email addresses on the form.
12217 Forwarding Requests for Training Approval Timely

Training approval requests and all required documents should be uploaded to Jobs4TN (VOS) at least 30 days prior to the anticipated training start date in order for a determination to be made in a timely manner. **No training may be started prior to written approval by the TAA Specialist.** A copy of each document, with original signatures, should be maintained in the participant’s America’s Job Center file.

12218 Individual Employment Plan (IEP)

The Individual Employment Plan is a **shared document** in Jobs4TN (VOS) between all partners. The plan will follow the trade impacted participant from the first time he/she steps into the office for services until suitable employment is obtained.

The plan is made up of a goal(s) and objectives that describe the planned steps that will take the participant from dislocation to suitable employment. The goal is what the planned outcome will be, i.e. Complete Training, Obtain suitable employment, etc. The objectives should lay out a path through trade services, such as re-employment, training, job search, relocation, etc., to reach the established goal.

When developing objectives to meet the goal of training, it is important that the objectives are laid out in a specific order:

- Job Search (was there any suitable employment found)
- Requested training (what type of training is the participant interested in and did the participant provide documentation from the training facility that will establish the request date?)
- Referred to WIOA for Assessment (when was the scheduled assessment appointment?)
- Training is recommended (what does the case notes from WIOA and TABE/CASAS scores indicate?)
- Referred to training provider for training information
- Enroll in/Begin training (When, Where, What)
- Maintain satisfactory progress through out training
- Meet benchmarks
- Must schedule benchmark appointments every 60 days for progress reports, and
- Report at the end of every term with grades and registration/cost sheet for next term.
- Complete training
- Report for re-employment services
- Obtain suitable employment
NOTE: The above list of objectives are required on the IEP, however, please be aware that there could be additional objectives added throughout the training.

12219 Training Benchmarks

Training benchmarks are required to be established for a participant when the participant enrolls in training and to be able to monitor the participant’s progress toward completing the approved training within the 130-week maximum duration. The participant must substantially meet benchmarks every 60 days to receive Completion TRA and, therefore, benchmarks must be included in all IEPs (IEP’S). Benchmarks also measure satisfactory progress of the participant while in training.

In order to determine that the participant has substantially met the performance benchmarks established in the approved IEP (IEP) the participant must be evaluated for satisfactory progress against 2 benchmarks at intervals of no more than 60 days, beginning with the start of the IEP, to determine whether the participant is:

1. Maintaining satisfactory academic standing (i.e. not on probation or determined to be “at risk” by the instructor or training institution, and
2. On schedule to complete training within the timeframe identified in the approved IEP (IEP).

For this review, the training provider may provide documentation of the participant’s satisfactory progress, the America’s Job Center TAA Representative may attest to the participant’s satisfactory progress after consultation with the vendor and the participant. Or the state may request that the participant provide documentation of his/her satisfactory progress towards meeting the training benchmarks from the provider, like transcripts, grades, written progress reports, etc.

Regardless of the mechanisms used, the training benchmarks must be described in the participant’s IEP (IEP) and documented in Case Notes at each review.

Upon one substandard review of the established benchmarks, the participant will be given a warning, (Participant Non-Compliance Warning LB-1107 located at www.tn.gov/workforce/article/technical-assistance-policies-wfs/article/technical-assistance-policies-wfs) while two substandard reviews must result in a modification to the IEP, or the participant will no longer be eligible for Completion TRA. In this way, the training benchmarks may be used to provide early intervention that will provide the opportunity to determine whether the training is appropriate for the participant or that the plan requires a revision.

NOTE: Workers are required to provide grades and an updated course outline or academic plan at the end of every term so that staff can determine if the participant is on track. This information should also be documented in the IEP Plan and Case Notes.
12220 Additional Weeks of TRA Benefits

In order to assist the adversely affected participant to complete approved training, TRA benefits may be paid depending on the Program (2002, 2009, 2011, and 2015)

  - 26 weeks of Basic TRA and up to 104 weeks of additional TRA benefits if enrolled in full-time approved TAA training, or
  - Up to 130 weeks if participant had remedial training
  - Must be enrolled in training within 8 weeks of certification or 16 weeks of layoff, whichever is later or have completed a waiver.
  - Training must be full-time

- 70000 – 79999 (2009)
  - 26 weeks of Basic TRA and up to 130 weeks of additional TRA benefits if enrolled in full-time TAA training, or
  - Up to 156 weeks if participant has had remedial or pre-requisites training
  - Training must be full-time to receive additional TRA benefits.
  - Must enroll within 26 weeks of either certification or layoff

  - 26 weeks of Basic TRA and up to 104 weeks of additional TRA benefits if enrolled in full-time approved TAA Training, or
  - Up to 130 weeks if participant has had remedial training
  - Training must be full-time
  - Must be enrolled in training within 8 weeks of certification or 16 weeks of layoff, whichever is later or have completed a waiver.

- 80000 - 80999 (2011)(*workers who begin receiving services on or after December 20, 2011*)
  - May be eligible for up to 26 weeks of Basic TRA and up to 65 out of 78 weeks of additional TRA benefits if enrolled in full-time training. The last 20 weeks of training, the participant could draw up to an additional 13 weeks of Completion TRA. Benchmarks must have been met during the course of training.
  - Training must be full-time to received additional TRA.

- 81000 and above (2015 TAARA)
  - May be eligible for up to 26 weeks of Basic TRA and up to 65 out of 78 weeks of additional TRA benefits if enrolled in full-time training. The last 20 weeks of training, the participant could draw up to an additional 13 weeks of Completion TRA. Benchmarks must have been met during the course of training.
  - Training must be full-time to received additional TRA.

NOTE: TRA determination will be made by the Federal Benefit Unit.
12221 Determinations of Request for Training

Approval of training requests for workers who are enrolled in training by and funded through TAA or any source other than TAA will be made by the TAA Coordinator and/or the designated area TAA Specialist.

Denial of a training request will be in writing via electronic form from the TAA Coordinator and/or the designated area TAA Specialist to the adversely affected participant and must list the reason for such denial. Appeal procedures are contained on this form.

If an adversely affected participant is already attending training, but not approved under this section, he/she may apply for approval. If it is determined that the participant and course of training meet all requirements, and training is approved, the costs of such training will be paid by TAA, at the start of the next term.

12222 Approval of Training for Interstate Claimants

Training applications for interstate TRA claimants are to be prepared and submitted as described in Sections 12214 & 12215. Upon review of the application, the Agency TAA Training Coordinator and/or the designated area TAA Specialist will make a recommendation to the liable state to approve or deny the training. The final approval/denial will be issued by the state which is liable for the TRA benefit claim. Any appeal of a denial of training will be made to the issuing state.

12223 Time Limits Affecting Training

A participant must start approved training within 30 calendar days after the approval date to meet the definition of enrolled in training for TRA purposes, 617.11 (A)2(vii)D(1). The only time limit for workers applying for TAA paid training is the sunset of the TAA program. However, their eligibility for additional weeks of TRA benefits will be affected if they do not apply for training approval within the specified time limits as dictated by the petition number they are under. Therefore, staff must complete training requests as soon as a training program is selected and the application process begins. This will allow the requirement for additional benefits to be determined.

12224 Procedures for Certifications for TAA Approved Claimants

TRA claimants attending training must submit the 858-A (LB-0429) for weekly
certification whether or not they are drawing TRA Weekly Monetary Benefits. This lets
the TAA and TRA Unit know the claimant is attending their approved training weekly.
The Weekly Certification form is to be mailed each week. A fax of the form will not be
accepted. They must be mailed to the TRA Unit at P.O. Box 280450, Nashville, TN
37228. The TAA/TRA Field Staff will provide the claimant a copy of the School
Certification once TAA approved training has begun.

A Signature of Authority form (LB-0898) signed and dated by those authorized to sign
off on the weekly school certifications, along with their individual email addresses, must
be submitted with each request for training. The Signature of Authority form with
original signatures is to be maintained in the individual TAA file at the AJC.

NOTE: These forms can be obtained at https://www.tn.gov/workforce/topic/forms

12225 Training Related Costs (Transportation and Subsistence)

An adversely affected participant approved for TAA training will be eligible for
supplemental assistance to defray the cost of transportation expenses and/or subsistence
necessary to pay the cost of separate maintenance when the training facility is located
outside the commuting area of the participant’s regular place of residence. [20 CFR
617.27 & 617.28] (Commuting area for the purpose of TAA travel for training
participation is defined as 10 miles or more one way from the participant’s residence.)

12226 Travel and Subsistence Payments

Transportation Payments

When the participant lives 10 or more miles one way, transportation payments
shall be made according to the cost per mile at the prevailing federal mileage rate
and shall be paid for each mile that is traveled round trip.

NOTE: A training activity will be set up in Jobs4TN so funds can be established
for travel while in approved training 10 miles or more one way from the
participant’s residence.

Subsistence Payments

Subsistence payments will be paid when necessary for the costs of separate
maintenance. Such payments will not exceed the lesser of (1) the participant's
actual per diem expenses for subsistence; or (2) 50% of the prevailing per diem
rate authorized under the federal travel regulations for the locale of the training.

No subsistence payment will be made for any day of unexcused absence as
certified on the Weekly Request for Allowances by Participant in Training, MA-858A (LB-0429)

**NOTE:** A subsistence activity will be set up in Jobs4TN so funds can be established for living expenses while in approved training over **50 miles** one way from the participant's residence.

**NOTE:** Transportation/Subsistence Application can be found at [https://www.tn.gov/workforce/topic/forms](https://www.tn.gov/workforce/topic/forms)

### 12227 Mileage Checklists

2. Print several copies of the form for participant to have for submitting requests to Central Office

3. Have participant sign and complete a W-9 form (only needed one time and must be provided with the training packet)

4. Remind all participants that a Weekly Attendance form (LB-0429) must be completed, signed, and date at the end of every week, by the school to track attendance. The form must be submitted weekly for the worker to receive his/her travel reimbursement.

   *Note: (If this form is not completely filled out, reflecting dates of attendance, and dated at the end of each week benefits cannot be provided to a participant).*

5. Once a participant is approved for travel allowance the amount of the cost is already included in the TAA approved training packet and has been calculated.

### 12228 Authorization and Invoice, TA-2

Authorization and Invoice (TA-2) form (*LB-1121*) will be furnished to the training institution by the TAA Specialist when TAA funding is approved for training. Payment of approved training facility costs will be processed upon receipt of the signed Voucher, TA-2, and an invoice with cost break down for the current term from the training
in institution to the TAA Training Coordinator and/or area TAA Specialist.  

https://www.tn.gov/workforce/topic/forms

12229 How Payments Are Made

Approved TAA funded training cost (institutional training) will be paid as follows:

1. Approved training facility or vender cost will be processed upon receipt of the Voucher, Authorization and Invoice Form (TA-2), and an invoice, submitted by the training institution or vender to the TAA Training Coordinator and/or area TAA Specialist. The TAA Specialist will provide the training institution with TDLWD billing requirements at the time of approval and be available to answer questions about billing that may arise when necessary.
   • The Voucher must be signed by an authorized school official. *(person who signed the signature of authority)*
   • Each TA-2 and backup invoice must have a unique invoice number in order to be processed in EDISON.
   • Jobs4TN SID number will replace contract number/SSN on the TA-2.
   • There should be no highlighting on either document.
   • A W-9 is required if training facility or vendor has never contracted with TDLWD.
   • Address on the W-9 should be the billing address, i.e. where the check is expected to be mailed.
   • The amount listed on the TA-2 must match the amount listed on the training facility/vendor’s invoice.
   • The charges on the bill must be for the term the voucher is issued.
   • TA-2, signed voucher, and back up invoice should be scanned and emailed to the TAA Unit at: TDLWD.TAA@TN.gov.

*NOTE: If an invoice amount is greater than the amount on the approved voucher, additional documentation will be request that justifies the increase cost.*

2. The TAA Fiscal Specialist and/or his/her backup will review each invoice for completeness and accuracy and will send the original to Fiscal staff to process for payment as promptly as possible.

12230 De-obligations

90 days after the completion or withdrawal from training and if there is a remaining balance, the TAA Specialist will verify that all invoicing has been completed. Remaining balance will be returned to the TAA Grant and the activity will be completed/closed.
NOTE: Training activities with remaining balances should never be closed. TAA Specialist will close activity when funds for activity have been zeroed out.

12231 Costs Incurred After Termination of the Act

A participant whose training is approved and enters training on or before the termination date of the Act, will have appropriate tuition related training expenses set aside as resources-on-order to cover the costs of approved training. However, there is no authority to obligate or pay for costs of tuition or other training expenses, when the obligation to pay such costs arises after the termination date of the Act. [20 CFR 617.64]

No transportation or subsistence expenses may be obligated or paid after the termination date regardless of the participant's continuation in training approved on or after the termination date.

12232 Disqualification of Continued Entitlement

Any adversely affected participant without "good cause", refuses to accept, continues, or fails to make satisfactory progress in suitable training to which he or she has been referred by staff, will not be entitled to any payments until he or she enters or resumes training and makes satisfactory progress in such training. [20 CFR 617.18]

12233 Training Facility Follow-Up Notice, LB-0785

The TAA Representative will request follow-ups from the training facilities on students who have reached their completed date or withdrawn from training. Upon receipt from the training facility it will be scanned into Jobs4TN for access by the TAA Unit. https://www.tn.gov/workforce/topic/forms

Note: If notification is received that a participant is not on track to complete training by scheduled end date, the AJC TAA staff will be required to obtain a letter of explanation for need and request to extend the training end date, from the provider before an extension can be granted.

12234 Notice to Training Facility Trade Adjustment Assistance (TAA), LB-0743

The Notice to Training Facility Trade Adjustment Assistance (TAA), LB-0743, is available for AJC’s to communicate with the provider regarding items required for the training approval or payment process.

NOTE: The Notice to Training Facility Trade Adjustment Assistance (TAA), LB-0743 is available on line at https://www.tn.gov/workforce/topic/forms.
12300 Job Search Allowance

A job search allowance will be granted to an adversely affected participant who meets all eligibility requirements to assist the participant in securing a job within the United States. [20 CFR 617.30]

12301 Requests for Job Search Allowance

The Request for Job Search Allowance will be completed to request approval for allowable reimbursement for job search activities outside the commuting area. [20 CFR 617.31]

Workers may be reimbursed up to $1250 or $1500 depending on their petition for the necessary transportation costs while searching for such employment. TAA offers up to 90% reimbursement of job search costs when searching for a job outside the normal commuting area.

When you have a trade impacted worker they can be eligible for multiple services. These services are training, relocation and job search. The following information is to assist you with the job search process.

When a participant receives a written notification of a denial, they are advised as to their right to appeal and the time frame in which to do so. If the participant has questions regarding the appeal process, they should be addressed to AJC TAA staff. If the participant desires to file an appeal, the usual methods for filing an appeal will be used.

12501 Notification of Approval/Denial/Disqualification

Any application for benefits or services under the Trade Act will be determined, and notices will be sent to the claimant and AJC TAA staff advising them of appeal rights. Likewise, requests for payments disqualified or otherwise not payable will receive a determination.

12600 Trade Adjustment Assistance Guidance

1. Any training costing in excess of 200% of the average cost of similar training, inclusive of tuition, textbooks, tools, academic fees, and travel or transportation expense shall be reviewed for meeting the reasonable cost criteria and as such shall be denied unless contradicting information is furnished. [20 CFR 617.22 (6)(iii)(a)]

2. In accordance with TAA regulations, a training application for an extraordinarily high skill level shall be denied. Extraordinarily high skill as defined is an occupation that requires training beyond an Associate’s Degree. In rare instances, training beyond an Associate’s Degree may be approved and only when the TAA approving authority takes into consideration factors such as cost, length of training, replacement rate of wages, the client’s previous training/education, the availability of other suitable training, etc. [20 CFR 617.22(b)]

3. TAA regulations provide that workers may be provided either one or a combination of on-the-job training and institutional training. If institutional training is utilized, priority must be given to vocational education schools (Tennessee College of Applied Technology centers). [20 CFR 617.23(c)(2)] When training, substantially similar in quality, content and results, is offered at more than one training provider, the lowest cost training shall be approved. [20 CFR 617.22(a)(6)(iii)(B)]

4. TAA regulations define classroom (institutional) training as used to “....impart technical skills and information required to perform a specific job or group of jobs.” Therefore, training requests that do not list a specific occupation for training will be denied. Examples of non-specific training are certificates or degrees in Business, Arts, or Business Systems Technology (without a defining field of study). The title of the training must be specific and the O-Net Code assigned must accurately reflect the title. [20 CFR 617.21(g)]

5. The TAA regulations stipulates that the “costs of a training program shall include tuition and related expenses (books, tools, and academic fees) travel or transportation expenses, and subsistence expenses;” Since no mention is made of desk top materials (i.e., pencils, pens, paper, notebooks, etc.), TDLWD will not purchase such items for the TAA participant unless the item is of a specialized nature inherent to the program of training (i.e., drafting pens). [20 CFR 617.22(a)(6)(iii)(A)]

6. In determining whether the costs of a particular training program is reasonable, first consideration must be given to the lowest cost training which is available within the commuting area. When training, substantially similar in quality, content and results, is offered at more than one training provider, and training at facilities outside the participant's normal commuting area that involves
transportation or subsistence costs which add substantially to the total costs shall not be approved if other appropriate training is available. The lowest cost training shall be approved. [20 CFR 617.22 (4)(ii)]

7. TDLWD shall purchase a special garment pin for workers completing a nursing course of study only if the pin is required. Further, it must be the least expensive pin available to the participant, unless a particular pin is required by the training provider for all training workers.

8. Transportation or travel expenses shall be paid to a TAA participant only if the training site is 10 miles or more from the participant’s residence. Reimbursement shall be made at the prevailing federal per mile rate and shall be paid for each mile that is traveled round trip. The projected total of travel expenses to be paid shall be used in the calculation to determine if the cost of the training is reasonable. [20 CFR 617.28(A)(B)]

9. Federal Regulation state that "...no participant shall be entitled to more than one training program under a single certification." Therefore, after a participant enters a training program, he/she may not change his/her training program to another occupation/skill unless the Instructor and/or adviser request the change for the benefit of the participant. Before a participant is enrolled in a training program, he/she must receive an assessment of his/her abilities to complete the training program, and there must be an expectation he/she will find a job in the field of study. Also, the training must be provided by the most economical means. If an participant were to be allowed to change training programs, the entire process would have to be repeated to assure compliance. While the training program approved for the participant may be amended to include additional courses, its final goal of training in a specific occupation cannot be altered. [20 CFR 617.22(f)(2)]

10. Evaluation of the participant's financial ability shall include an analysis of the participant's remaining weeks of UI and TRA payments in relation to the duration of the training program. If the participant's UI and TRA payments will be exhausted before the end of the training program, it shall be ascertained whether personal or family resources will be available to the participant to complete the training. A financial statement must accompany the participant’s request for training. [20 CFR 317.22(5)(ii)]

11. Pell and other grants will not be used to fund training on TAA affected workers. These monies may be used by the participant for living expenses and may be identified as such on the financial statement. These grants may be also used to cover cost that TAA cannot cover. [TEGL 22-08 (D.5.2)]

12. States are encouraged to select training providers that have met the qualifications necessary to be included in the Eligible Training Provider List (ETPL) as defined in the WIOA Law. However, training providers not on the list may be utilized as long as it can be determined that the facility is accredited. [TEGL 11-02 (D.2)]
13. WIOA approved training is an approvable TAA training option. However, the amendment of Section 236(a)(5) of the 2002 Act expressly provides that training options available under the TAA program are not limited to training programs available under Title I of WIOA.

14. The participant must be identified as an adversely affected participant covered under a trade certification to be eligible to request benefits and/or services. [20 CFR 617.22 (A) as defined under 617.3(B)(C)(1)(2) unless otherwise amended]

15. Prior to requesting training, a participant must complete a Wagner Peyser application, including resume, and Virtual Recruiter in Jobs4TN to assist him/her with a work search to determine if there is any suitable employment available. [20 CFR 617.22 (1)(i)]

16. Participant without 12th grade education or HiSet may be referred directly to Adult Education.

17. Referral to Adult Education upgrade will be based on WIOA recommendation after TABE or CASAS has been administered.

18. Distance training (i.e., training provided via the internet) may be considered “classroom training” when the credential received is equivalent to what would have been received if the training had been conducted on campus. This interpretation expands the types of approved classroom training to include distance learning, where a participant completes all or part of an educational or vocational program in a location far away from the institution hosting the training program. For distance learning, the final credential conferred must be equivalent in content and standard of achievement to the same program completed on campus or at an institutional training location. When the above condition is met, the training will be recognizing as the type that normally takes place in an interactive classroom setting. This standard replaces the four conditions in TEGL 7-00.

In addition, in order for distance learning to be approved, all criteria for training approval found at 20 CFR 617.22 must be met in the same way as in any other training.

Distance learning may, in some cases, be more self-paced than in class institutional training. AJC TAA staff will need to work with distance learning providers to understand the specific requirements or milestones of the distance learning program and to ensure that the training provider keeps the agency informed of the student’s adherence to those requirements through weekly attendance certifications.

19. Pre-Requisite training requires a participant training packet be developed and submitted for determination indicating the number of weeks and the cost of pre-requisites only. An additional estimated cost sheet and the number of weeks
should accompany this packet indicating the total cost of training and weeks for both the pre-requisites and the actual training, so reasonable cost and length of training can be determined. [TEGL 22-08, Sec 236 (a)(5)(E)]

Upon completion of the pre-requisite training a second training activity for the primary training must be established in VOS. Required training documents must be uploaded into VOS documents for review and determination.

20. Purchase of Personal electronic devices for training purposes are only permitted when the training facility conducting the training requires all students to purchase this type of equipment as part of his/her training. If the training facility offers the use of electronic equipment to their students for their class work and studies, then the request for these types of purchases will be denied. [Email Guidance 14-04]

21. **TEGL 22-08 Trade and Globalization Adjustment Assistance Act of 2009 amended 20 CFR 617.22** to allow for Part-time training under the program. Participant’s enrolled in part-time training are not eligible to receive TRA benefits. Summer sessions may have fewer hours than spring and fall, because there are fewer classes to choose during that term. However, if the participant is enrolled in full-time training, the summer session should be at least 9 credit hours to be considered full-time.

22. **20 CFR 617.22(a)(f)(ii) Breaks in training:** When an approved training program involves more than one course and involves breaks in training (within or between courses, or within or between terms, quarters, semesters and academic years), all such breaks in training are subject to the “30-day break in training” provision in § 617.15(d), (as amended by TEGL 11-02, the Operating Instructions for Implementing the Amendments to the Trade Act of 1974 Enacted by the Trade Act of 2002,), for purposes of receiving TRA payments. A participant's approved training program may be amended by the State agency to add a course designed to satisfy unforeseen needs of the participant, such as remedial education or specific occupational skills, as long as the length of the amended training program does not exceed the maximum allowable training weeks (per petition number) if remedial limitation and the courses provided constitutes full-time training, (as amended by TEGL 22-08.Operating Instructions for Implementing the Amendments to the Trade Act of 1974 Enacted by the Trade and Globalization Adjustment Assistance Act of 2009)

23. A request for training means the claimant has provided the AJC TAA Representative a copy of a letter or email of acceptance, or a letter stating they have been placed on a waiting list at the time the participant makes his/her request for training. Any hard copy letter from the training provider must be on School Letter Head. Upon receipt of this information the AJC TAA Representative must date stamp it received. [State Guidance Email 13-06]
24. If for some reason the participant does not attend or he/she changes their mind on what he/she wants to do or where he/she wants to go, unless it is due to circumstances beyond their control, the timely request date will not be honored. [State Guidance Email 13-06]

25. AJC TAA Representatives are required to evaluate satisfactory progress of participants against two benchmarks every 60 days, beginning with the start of the training plan, to determine whether the participant is:

1. Maintaining satisfactory academic standing (e.g. not on probation or determined to be “at risk” by the instructor or training institution), and
2. on schedule to complete training within the timeframe identified in the approved training plan.

[TEGL 10-11, Section C.3.1 & State TAA Guidance E-Mail 11-01]

26. At the end of each term the participant must provide the AJC TAA Representative grades for the term just completed, an updated academic plan or course outline, and cost sheet for his/her next term of training. This will provide AJC TAA Representatives with an up to date progress report on the participant’s training activity and ensure they are meeting required benchmarks as stated above. [TEGL 10-11, Section C.3.1 & State TAA Guidance E-Mail 11-01]

27. At any time, during the course of TAA approved training, if a participant fails and/or withdraws from any required class or classes two (2) times; he/she will be issued a Non-Compliance Warning letter. The TAA Specialist will review all end of term grades and complete the letter if the participant’s grades reflect multiple failures or withdrawals of any identical required classes over the course of training. The Non-Compliance Warning letter will advise the participant that failure to complete the class the third time could provide TAA a reason to pull the student from the current training and re-evaluate what other training might be appropriate, available, and be completed within the remaining eligibility time limit. Participants will also be advised that any subsequent attempt to pass the class should be done during the next available term. The original letter will be maintained in the participant’s file at the AJC. (These failures/withdrawals do not have to happen in subsequent terms.) [State Guidance Email 17-01]

## RTAA PROGRAM SELECTION

- I choose to file my claim under Reemployment Trade Adjustment Assistance (RTAA) instead of regular TRA. I understand that receipt of wage subsidies under RTAA voids my rights to TRA benefits. I understand that this choice is final and that I may not switch to regular TRA once I begin receiving these subsidies.

I certify that all information included on this form is correct to the best of my knowledge and belief. Q & A’s

2014 TAA Conference

June 25-27, 2014

1. If a participant wants to start training and has paid for the first trimester/semester, can TAA pick the participant up for the next trimester?

   Yes, TAA can pick the participant up the next trimester/semester and forward; however TAA cannot go back and pick up cost for any tuition, books, and/or supplies for previous trimesters/semesters.

2. How do we handle a training that will be conducted by 2 schools in partnership?

   1. Prepare one completed training packet for the first portion. Be sure you indicate in the IEP that the training is a partnership of the schools.
   2. Nearing completion of the first training, prepare a second request for training (Activity).
   3. Be sure to include an estimate of the full training cost in the first training packet.

3. What if the training is less than full-time during a semester?

   If there are classes pertinent to the training, but not necessarily a required part of the training, the class or classes can be used to make the semester at least 12 credit hours. (No more than 2 classes that are not needed per term)

4. If there is no information in the Source that indicates demand, but you can get a statewide cluster can that be used to justify demand?

   When statewide clusters are available for teachers only, you may use the statewide cluster to justify demand.
5. How soon can a training institution or vendor invoice TAA?

A training institution or vendor may invoice TAA at the beginning of the classes as long as the participant has attended at least one day if they choose. (Not for the total amount of the training. Just for the term they are currently enrolled in.)

6. How does the training institution or vendor submit an invoice for payment?

a. The Trade Act of 1974 Payment and Authorization form or as we call it the TA2 must be completed and attached to the school’s invoice. The institution or vendor will complete the left-hand portion with the school/vendor name and address. On the right, only the name and SSN need to be completed. The middle section would be just a summary of the cost, i.e. tuition $0000, books $0000, etc. and total at the bottom of that section. On the lower left hand side, the school or vendor official will sign, indicate his/her title, and date the form.

b. The TA2 and invoice should be emailed to tdlwdtaa@tn.gov.

7. If a person wants to go into training that originally marked down that he/she didn't want training on both the Waiver and the Training Assessment Guide during TRA claims taking, can a training activity be developed?

Yes, the waiver is for TRA benefits only. The participant may request training at any time until the entire program (TAA) ends. He/She will have to meet the six training criteria and a financial statement must be completed to show how he/she can financially support him/herself while in training.

8. Does TAA require a participant to have a HiSet prior to approval of training?
No, a HiSet is not necessary for any training unless the school requires it. However, we want to try and help the participant get his/her HiSet if possible, but we do not deny any training based on the lack of it, unless the school will not accept him/her.

9. How do you document mileage to show whether the participant lives 10 miles or more from the school and needs mileage cost covered?

a. We ask that you use one (1) on-line source to document the mileage from the participant’s home to school. We look for the shortest distance to the school.

b. Sources that can be used:

- Rand McNally
- Google Maps
- Yahoo Maps
- Bing Maps

NOTE: Do not use MapQuest as a source. It does not always give clear directions.

10. How do we document state schools first on the workers TAA training request?

TAA Regulations say that priority should be given to TCATs first, then state training institutions, and finally private training institutions if the other 2 are not available, whenever possible.

Indicate in case notes the steps taken to ensure the participant investigated the training facilities as stipulated by federal regulations. If technology centers have a waiting list, case notes must be backed up with a statement from the training facility as to the waiting list.

There may be instances where the closest school to the participant is a state college or private training institution. There should always be documentation to backup why the student has chosen that particular training facility over a technology center and/or state school.
11. Why are we required to obtain a financial statement from the participant in the application process?

Criteria number five (5) under the Six TAA training criteria ask, “Is the participant qualified to undertake and complete the training he/she is requesting?” There are 2 parts to this question. First part addresses is the participant qualified to begin? The answer to this question would reflect the participant’s assessment by your local workforce investment agency and their recommendation.

The second part is the participant’s probability to complete. This part has to do with the participant’s financial support during training, primarily his/her TRA benefits. In the past the answer to this question would have been the participant had TRA benefits to carry him/her through their training. However, with the addition of EUC benefits, the answer to the financial statement with TRA has become cloudy. To help clarify the financial status of the participant a financial statement from the participant is required. This statement will indicate how he/she will support his/her family, should the TRA benefits be exhausted.

12. What other documentation can be used if the Cluster indicates there is no demand in the participant’s residential area?

a. **The School Placement Rate** (70% or higher for the training occupation)

   1. May be available on the Cluster
   2. If not on the Cluster, may be obtained from the training institution

b. Newspaper advertisements or job orders for the specific occupation (be sure the advertisement has the newspaper’s date line that includes the name and the date of the paper) or

c. Newspaper articles/news releases concerning growth of a particular occupation in the area (be sure the article has the newspaper’s date line that includes the name and the date of the paper) or
d. Letter from an employer that indicates an offer of employment to the person requesting training in the occupation he/she will be trained in, or

e. Any documentation that indicates a demand in the area that comes from a reputable authority.

13. Can partial training packets be submitted for review when time is limited?
    No, unless we have authorized you to do so. Always upload all training information into VOS as one document and notify your TAA Specialist when that information is available for review.

14. Will TAA pay for pre-requisites?
    If the petition the participant is covered by is 69999 or less, no. However, petitions number starting with 70000 and above, Yes!

15. How do pre-requisites affect the total number of weeks of training?
    The number of weeks required for pre-requisites are counted in the total number of weeks of training. So, if you had 26 of pre-requisites and 74 weeks of the training program, then the total number of weeks a person would be enrolled in training would be 100.

16. Can workers enroll in training part-time?
    If the petition the participant is covered by is 69999 or less, No. If the petition number starts with 70000 or above, Yes! However, the participant will lose his weekly TRA Benefits.
17. Why do I need to get a signature of authority for training and vendor contracts?

It is extremely important that a signature of authority for training be obtained so that the participant will get his/her TRA benefit during training when eligible. The signature represents the school official(s) that will verify that the participant did attend school that week.

As to the invoicing for the training facility and/or vendor contract, a signature of authority identifies the official responsible for billing TAA for tuition and/or purchases.

18. Can verbal approval be given prior to reviewing the request?

No, a participant cannot start training until the entire training packet has been reviewed and a determination is made.

19. Must grants (Pell, Lottery, etc.) be used first for training cost prior to billing TAA?

No, under the new program, we may not require the participant to obtain other funds (Pell, Lottery, grants) as a condition for approval of training. The participant may volunteer to use other funds to supplement the TAA training funds when the cost of training is otherwise not reasonable. This will allow the participant to use financial assistance for living expenses, thus providing the participant with income support during long-term training.

20. Can a participant request 2 different trainings under the same petition?

The participant may request it and receive a determination, but the federal regulations state that no participant shall be entitled to more than one training program under a single certification.
21. How many weeks of training may a participant request.

The maximum duration for any approvable training program is 104 weeks for petitions numbers equal to or less than 69999, with remedial up to 130.

130 weeks for petitions # 70000 to 79999, with remedial up to 156.

130 weeks for petitions # 80000 & above.

22. Can a participant apply for student loans?

Yes, for living expenses only. TAA will cover the required training cost, including, tuition, books, supplies, etc.

23. If a student fails a class in a semester and the school still considers them in good academic standing, will TAA allow them to repeat the class and cover the cost?

Yes, as long as required and requested by the school instructor or official.

24. A student requesting training in a specific program, applies at the school but is not accepted into that specific program. They request a different program and are accepted, what is the correct “request date” for training?

In most cases they could use the original date of request.

25. What is the process for de-obligating the remaining balance on training funds?

De-obligations for training contracts are handled by the TAA Unit. 90 Days after receipt of the follow up notice, the training facility is contacted to ensure there are no outstanding invoices. Once it has been determined that all invoices have been paid a de-obligation letter is generated closing out all remaining funds. A copy of this letter will be electronically forwarded to the training facility and the AJC TAA staff. A copy of the de-obligation letter will be uploaded to
For training approved in VOS, 90 Days after receipt of the follow up notice, the training facility is contacted to ensure there are no outstanding invoices. Once it has been determined that all invoices have been paid, the TAA Specialist will de-obligate any remain funds and close out the training activity.

26. Can the IEP be update after the participant has signed it?

Yes.

27. Some claimants do not come into the office to complete the IEP until UI has been exhausted. Is there a time frame to complete the plan? Can the interview be conducted by phone if they will not come in?

No, the participant needs to report to the AJC if truly interested in training. The participant’s delay in coming into the office to start the process could affect his/her TRA benefit.

28. When the claimant exhaust all UI/EUC/TRA and is still unemployed, does case management/ case notes continue?

It should continue as long as services are being provided. The purpose of the program is for trade affected workers to become successfully employed through services provided at the AJC. It’s important to advise trade affected workers about training opportunities that are in demand and can potentially lead to suitable employment.

29. How long are TAA files required to be kept?

5 years from last date of service.

30. When a training program leads to certification and there is a reasonable assurance of employment, but it is short term and only a few hours per week, can this training be considered full time?

Yes
31. Are TAA or adversely affected workers required to apply for Pell grants in order to receive training benefits?

   No

32. Can you deny TAA approved training to an adversely affected participant who has defaulted on a Student loan?

   NO, if the training facility enrolls them in training.

33. Can you deny TAA approved training to an adversely affected participant who has not registered for selective service?

   No

34. What is the definition of Supportive Services?

   Supportive services are customer services that are necessary to enable workers, who cannot afford to pay for such services, to participate in authorized program activities. Examples of such services include but are not limited to:

35. Should grades be scanned and uploaded to VOS?
   Yes, at the end of every term.

36. Are there Activities that need to be reported during the training period?
   Any service that is provided to the participant during his/her participation period must be documented through VOS.

37. When another state resident requests training at a facility within his/her state residence, is it best to refer the participant to an AJC in his/her state?
   Our offices are set up to assist workers no matter where they live. However, if a participant has traveled several miles past an AJC in their state to get to ours, then we should talk with the participant to ensure he/she understands they have the option to go to the AJC in their home state if they choose. However, if they want to work through us, then that's their option.
   If the petition is from their home state and they want to go to school in that state, we prefer they speak with a representative within their state, but that may not be an option for them, therefore we act as an agent state for the liable state (petition state) to provide services.
   If the petition is from another state and they reside in Tennessee and want to go to school in Tennessee then again we would work as the agent state in situation also.

38. Does "request for training" begin the day the participant brings in the checklist information from the school?
   It is the date the participant provides proof that he/she is serious about pursuing training. It should be an acceptance letter from the school, enrollment letter, a letter indicating the participant's name is on a waiting list, or it could be documentation of cost, academic plan, etc. Any document from the training facility that will establish his/her serious desire to enroll in training.
   Without an acceptance, enrollment, or letter indicating the waiting list, the TAA Unit will look for the date the cost sheet and academic plan was provided or the date of the Waiver if available.

39. What is required of the TAA AJC Rep once the activity is approved?
• Schedule appointment for Participant to sign waiver, if necessary
• Maintain all originals signatures in participant’s file
• Schedule benchmark appointment every 60 days
• Check in with the training facility at least every 60 days for progress reports
• Obtain grades from the participant at the end of every term and course outlines/academic plans for following term if still enrolled
• Upon completion, upload credential into VOS
• Assist with employment search
• Document employment information once participant is reemployed

NOTE: Always update case notes on all activities and contacts you have with the participant, training facility, etc., throughout the training.

40. What information should be provided when a TAA affected participant calls in to certify and the automated systems asks if he/she is in training, or doing job searches, etc.?

Claimants are advised to certify weekly through TIPS either over the phone or online. If the claimant is in approved TAA training or will begin training within 30 days, the claimant is exempt from work searches. The ERI code should reflect this. However, the system will still ask them if he/she has completed his/her work searches and are able & available and looking for work. He/She will answer yes to both. Because he/she are in TAA approved training, his/her UI/EUC benefits will not be affected.

41. What comparison is used if the participant request training at a private training facility?

The participant should always look at training at the TCAT's first, then state colleges, and finally private training facilities if the other 2 do not have similar training. A letter or email from the schools concerning the status of the specific training will be acceptable.

42. If a participant is 49 years of age at the time of separation and becomes employed, then unemployed and begins a second job after turning 50 years old, is the participant eligible for RTAA benefits as long as the request is made before the end of the EPE date? If so will the RTAA benefit be paid after the EPE?
Yes, as long as the work is age 50 the day he beings his second job, and makes the request before the end of his TRA EPE, he would be eligible if the other requirements are met. His RTAA claim will set up a RTAA EPE which is different than the TRA EPE. The RTAA EPE is a 2 year period that begins with his first day of re-employment.

43. Does the trade impacted participant need to have a Jobs4TN Wagner Peyser application prior to requesting TAA services?

Yes

Identifying Data: Record the EKamir's Name, ID Number, Test Date, E saminer's or Tacher's Name, School or Program, and Test orm in the appropriate spaces.

Part 1. Survey of Score Band Percentile Rank Profile
1) In the profile section below, enter the number of correct responses for each test in the spaces labeled "Number-Correct" Scores.
2) Refer to the table in the Norms Box if the number-correct score is less than the scale scores in the two riddles. A difference of 1.5 is obtained by averaging the scores of Reading, Total Mathematics, Language, and Language.
3) Refer to the appropriate percentile rank in the Norms Box to obtain Other Scores such as 90 percentile rank and grades or scores. Enter these scores in the appropriate spaces. The corresponding stanine for percentile rank can be determined by referring to the top right-hand column of the graph. The Number of Objectives for each can be determined from the information in Pan 2.
4) Percentile ranks are provided for two reference groups: ABE and ABE-Juvenile. ABE is inclusive of all ages, institutions, types, and accommodations for all students in the TABE norming sample. ABE-Juvenile is a subgroup of ABE and includes only those students age 14 through 20. If percentile rank is being M.C. or odd, pull a clock mark in the box and refer to the appropriate reference group. On the line, make one or more accommodations from the vertical bar at the point that corresponds to the percentile rank for each test and total. The position of these lines on the profile graph gives a graphic representation of the examinee's relative achievement in the 3842 Coefficient areas.

**Taxpayer Identification Number (TIN)**

Enter only one TIN; the box must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your Social Security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, fill in their employer identification number (EIN). If you do not have a number, see How to get a TIN on page 3.

Note: If the account is in more than one name, see the instructions for line 1 and the chart on page 4 for related information on whose number to enter.

**Part II: Certification**

Under penalties of perjury, I certify that:

1. The number shown on this Form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certified: The instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payees other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions on page 3.

Other Activities Needed

After completing the Initial Assessment Activity (102) you will create the following activities as you do them:

- Individual Employment Plan (IEP - 205) – *End date needs to be 6 month past estimated completion date.*
- Labor Market Information (LMI - 107)
- Rapid Response (110)
- Job Search (125)
- Referral to LWDA/WIOA for Assessment (211)

You will create these by selecting the “Create Activity” button under the expanded trade application section, as shown below.

After you select this, the steps will be the same for all the above listed activities.

*Note: All of these activities will have closure date with the exception of the IEP (205) it should have an anticipated closure date of 6 months past the anticipated completion date of training.*
**Requesting Training**

At this point the participant should have been assessed by the LWDA/WIOA and had training recommended (Activity 211) and no suitable employment was found. Therefore, he/she may request TAA Funded Training. For a participant to be considered as eligible for a training service, a training activity will be required. To be able to complete the activity in Jobs4TN (VOS) the participant will be required to assist in obtaining the necessary documentation from the provider to establish the cost of training, as well as, meeting the other criteria. The TAA Training Check List LB-0948, located at https://www.tn.gov/workforce/topic/forms can be a tool used to obtain the needed information. The following documentation will be required to be scanned and uploaded into Jobs4TN (VOS) as supporting documentation for eligibility determination:

**Total Training Cost**

- Cost sheet showing the total cost of training, broken down by term for each of the following: tuition/fees, total book cost, total tool cost (if applicable), and total miscellaneous cost (if applicable).
- Breakdown of books, tools, and supplies with cost of each item per term

**Training Information**

- Academic plan/course outline per term
- Signature of authority for the attendance forms and billing
- School Calendar showing breaks in training

**Miscellaneous Information**

- Mileage information (1 source)
- Demand Documentation
- Worker Training Agreement & Responsibilities LB-1092
- TAA Training Financial Support Statement LB-1090
- Willing to Commute LB-1089 (if traveling outside area for employment)
- TABE/CASAS Scores
- WIOA Referral to Training Form LB-0738

**Documents**

- Signed and Dated TAA application, by Participant and Career Center TAA Staff
- Signed and Dated IEP, by Participant and Career Center TAA Staff
- Completed, signed and dated IRS Form W-9

**Remember:**

- All of the above items (those on the check list) will need to be collected and saved to be uploaded as one packet to VOS when you are ready to request review and determination from your TAA Area Specialist.
- Maintain a file with the original signed TAA Application and the documents you have uploaded.
- Case notes must be completed every time you interact with the participant, so that there is a record of the services and activities you have provided the participant.
TAA Training Activity will be completed in the same manner as any other activity. This is a funded activity so there will be 7 tabs to complete by both you and the TAA Specialist; instead of 3 (none funded training).

NOTE: Prior to searching for Activity Code in Jobs4TN (VOS) for training activity, it is important that you check the Eligible Provider’s List to verify the training institution and the course the participant is requesting is indicated on the Eligible Provider’s List (ETPL), located on the Department’s website, www.tn.gov/workforce/article/eligible-training-providers

If it is not, you will need to contact your TAA Specialist. He/She will gather the needed information from you about the provider to get the provider setup in the Jobs4TN (VOS) system. You will be notified once the provider has been set up in the system.

Once the provider and course of study have been added, you will be notified to continue with the training activity. You will select “Activity Code” 328, Occupational Skills Training- Non Approved Provider’s List (ITA) for this activity.

If the provider and course of study are on the Eligible Provider’s List, select “Activity Code” 300.

Once you have saved the training activity, you will notify your TAA Specialist in the Central Office by email to let them know that the activity is in the system and is waiting for review.

NOTE: All documents that the Specialist will need to make an eligibility determination should have been scanned and uploaded to the Jobs4TN (VOS) System (see page 77 for instructions on how to upload scanned documents into the Jobs4TN (VOS) system)

NOTE: Case notes should be complete and up to date. (See page 45 for instructions on how to complete case notes)

NOTE: There should be several activities indicated in the system prior to the training activity. Activities expected on each TAA participant are:

- Orientation
- Rapid Response
- IEP/EDP
- LMI
- Job Search
- Referral to WIA for Assessment
- Training

NOTE: An IEP/EDP should be developed and remain open (for six (6) months after anticipated completion date) for viewing and continued updating. (See page 78 for instructions on how to complete the IEP/EDP)

NOTE: Vouchers will be issued at the beginning of each term. These vouchers will be prepared by TAA Specialists in the Central Office.

- The first voucher will be issued after the approval of the training.
- The TAA Specialist will email the Approval (for signature), the enrollment, the voucher with agreement, the term book/supply list, and the TA-2 to the career center TAA Representative, the training facility, participant, and the TRA Unit. It will be extremely important to insure the needed contact information is available.
- Career Staff will provide the Approval information to their LWDA partners and will contact the participant to schedule an appointment to report to the office to sign and date the Approval Document.
- Subsequent voucher(s) will be distributed after the participant has reported for his/her benchmark reviews when providing grades, registration for the next term, and an itemized cost sheet for that term.
- Grades, registrations, and updated cost sheets are required to be scanned and uploaded into Jobs4TN (VOS) at the end of each term and the TAA Specialist notified.
- The Specialist will review all documents, request any needed information, and issue the next voucher if everything is accurate.

NOTE: The providers will bill TAA each term just as they have all along. However, a new voucher will not be issued for the next term if TAA Central Office has not received and processed an invoice for the previous term.
Activity 205 (create an activity on page 47) documents the development of an Individual Employment Plan (IEP). This activity is required on all participants. Example of activity below.

General Q & A's

1. What is required if the participant does not pass his/her TABE' test?
   TABE scores should be scanned into Jobs4TN (VOS) to document whether the participant has passed the assessment portion. Case notes should be updated to show whether the participant needs to retake the assessment. It should also indicate when and where the test will be given.

2. Who, what, and how will the training decision be distributed?
   All decisions will be emailed to the following with the Determination, Voucher (if approved) and a copy of the enrollment.
   - The career center TAA Representative
   - The training provider
   - The vendor (if any)
   - The TRA Unit
   - The LWIA Representative

3. What does the Career Center TAA Representative do upon receipt of the information
   CC Rep must contact the participant and request he/she return to the office to sign the determination and receive the voucher along with the cost list for the current term.

4. How is the information on the Jobs4TN site saved?
   Once you click on “Next”, “Save”, or “Finished” at the bottom of the screen the information you keyed on that screen will be saved.

5. What activities should be shown for TAA?
   Orientation (TRA Staff) / Initial Assessment (TAA Staff) (closed)
   Rapid Response (closed)
   IEP (open)
   LMI (closed)
   Job Search (closed)
   Referral to WIA for Assessment (open for up to 2 weeks, depending on your WIA)
   Training (open)
   Mileage – TAA Specialist (if Applicable) (Open)
   Job Search Allowance (Open for 30 days)
   Relocation Allowance

6. Once an IEP (our EDP) is keyed into Jobs4TN (VOS), when should it be closed?
   The IEP will be a common one used by all partners. Therefore it should stay open until the last service has been completed. If TAA is developing the IEP, the projected end date should be at least the last date of training. The projected end date can be edited if needed.

7. What do I do if the IEP has already been established by another partner?
You may update the IEP with TAA information. A goal can be added, objectives can be added. This is a living document so information can be added when necessary.

8. How do I know if the training provider and course of study is an eligible provider?
Prior to selecting the training service code “300” look at the eligible provider’s list located on TDLWD’s website to see if the name of the training provider and course are showing on the list. If so you can proceed with using service code “300.” If not you must call your TAA Specialist.

9. How should the documents be scanned in the system, individually or as a group?
Prior to submitting the training request information for determination, please scan all documents as a group and upload it into Jobs4TN (VOS) and name it “worker’lastname, first name Training Request for Review – Date (xx-xx-xxxx) uploaded.”

10. What documents do I need to include in the scan?
   - Signed Training application
   - Signed EDP
   - Total Cost sheet broken down by term
   - Books & Supplies, including tools, broken down with cost of each per term
   - Academic plan/course outline per term
   - Signature of authority for the attendance forms and billing
   - School Calendar showing breaks in training
   - Mileage information (1 source if less than 45 miles one way, 3 sources if the participant is traveling more than 45 miles one way.)
   - Demand Documentation
   - Worker Training Agreement & Responsibilities LB-1092
   - TAA Training Financial Support Statement LB-1090
   - Willing to Commute LB-1089 (if traveling outside area for employment)

11. What happens to the originals once they are scanned into Jobs4TN (VOS)?
   All original signed documents must be maintained in a file at the Career Center

12. What needs to be included in the cost and cost breakdowns, and how do they need to be documented?
   All items including tuition/fees and all required books/supplies/tools, etc. must be broken down by term on both the total cost sheet and the item lists. No percentage mark up will be needed.

13. How is the voucher affected if the student registers for a class and the class is cancelled?
   Nothing, the school should only bill for the items purchase. However, if the participant is under Revision 2014, and the student can’t get full-time for the term, it could affect his TRA eligibility and eligibility for training. Each case must be evaluated individually before a decision can be made.
14. When a participant is approved for training, since there is not contract will the participant be approved for the entire training or just approved each term?
   The participant should be approved for the full training, however, the participant’s progress will be evaluated. The participant’s eligibility could be affected if he/she is not maintaining satisfactory status at the training facility.

15. What happens to the previously approved training contracts once we go live in Jobs4TN (VOS)?
   Contracts already in place at the time of Go-Live will remain intact through the end of the participant’s schedule training date. However, we will convert to vouchers for payment. This will be handled primarily by the TAA Unit.

16. Are all participant’s required to submit grades and registrations for next term at the end of each term?
   Yes, in fact the participant cannot obtain a voucher for the next term without presenting these things at the completion of each term. These items must be uploaded into VOS and named “worker’s lastname, firstname Grades for term (summer 2015) – DATE (xx-xx-xxxx) uploaded”

17. Jobs4TN (VOS) allows the participant to not input his/her social security number when they are registering? For TAA purposes, how will the program work without SSN’s?
   To receive assistance under TAA, the participant must provide documented proof of his/her social security when staff completes the TAA application. The system requires verification of social security number.

18. Can the information keyed by the participant incorrectly when registering in the system be corrected when staff assists the individual with TAA services?
   Yes

19. Is there a waiver form that must be signed by the participant?
   Yes, when you completed the waiver in the system, you should be able to print a copy.

20. When closing an activity do you wait until all invoices have been received and processed?
   Yes

21. How often should case notes be completed on a TAA participant?
   A case note should be completed in the Jobs4TN (VOS) system, every time you interact with the participant, whether it is in Wagner Peyser, TAA, or WIA.

22. Is the Application Date the date of Request?
   No, the date of request is still the date the participant provides sufficient information to indicate his/her desire to enroll in training. The definition of the Request Date will still have to be met. Definition can be found in the 2014 TAA Manual.

23. With Jobs4TN (VOS) system will forms on TNUI.net still be required.
   Yes
IEP Questions

1. Goal Types: What is the difference between Schooling and Training?
   A schooling goal should be used if a person needs to go back for their GED, while training should be used if the client needs to pursue a new career.

2. Is the default for review dates always six weeks?
   Yes

3. If an IEP is left open, will it keep the system from exiting the participant?
   No, the participant will still exit.

4. Can the IEP remain open indefinitely?
   Yes.

5. Can you change an existing goal, or add a new goal if a person’s goals change?
   You can add a new goal if a person’s situation changes.

6. Are there any reports associated with the IEP?
   Unfortunately no, there are currently no reports that document IEP information.

7. Can a list of objectives be printed?
   Yes, either use a Print icon available on the main Plan Tab, or click the ride side of your mouse and print that way.

8. If you set alerts for the IEP and the client doesn’t complete the goal, do you keep getting alerts until the task is completed?
   No, it will only alert you based on the estimated completion date of the goal.

9. If the client is enrolled in WIA will the IEP services create an activity into WIA?
   Yes.

10. Is there a requirement to complete an objective assessment prior to creating a plan?
    No, unless local policy dictates.

11. What is the difference between a goal and an objective?
    A goal is the primary reason why a person needs your help (get re-employed, go back to school). Objectives are the “baby steps” taken to achieve that goal.

12. How do you determine whether a goal is short term or long term?
    There is no set time frame for short, intermediate, or long. This may be something local policy will define.

13. Only an assigned case manager will get the alerts?
    Yes.
14. Do staff privileges calculate into the selection of the WIA or WP goals?
   No.

15. Are there different objectives for both WP and WIA?
   There can be different predefined objectives based on the goal type. While WP may always deal with re-employment, WIA may be training or schooling related objectives.

16. If staff was to use an IEP in WP, and a core service has been provided in WIA, will the WP intensive service populate over to WIA?
   Only if the IEP is set up with the WIA and WP boxes both checked.

17. If you accidentally click the Delete button, will the system ask for confirmation before deleting?
   Yes.

18. If the plan requires closure prior to exiting a participant, is it possible to have a post exit IEP goal or objective for 12 month follow-up purposes?
   Yes. The plan can also stay open and you can still prepare the client for exit.

19. When selecting a predefined objective, is there an option to add comments?
   Yes.

20. Can we create our own predefined goal and objective templates?
   From a template perspective, not at this time.

21. When checking the program affiliation, do you have to check the WP option if you’re a WIA case manager?
   No, you can check only WIA if you wish.

22. Does the activity code 205 connect to the WIA participation and, if so, is there activity codes for youth tied to the IEP?
   For youth, the code is 413.

23. Can the system be set up to automatically close out the goals and/or plan when a case closure is created?
   Not at this time.

24. Why can’t other staff close out goals who are not assigned to manage the record?
   The administrative side of the system can be set up so that other staff members have the privileges to close out IEP goals.

25. Do you have to close the objectives in order to close the goal?
   Yes.

26. After you have closed a goal or objective, can you re-open it?
   You would have to edit more than that in many situations, such as Completion and Review dates. But you could re-open it.
27. Is there a time when you can no longer delete a goal or objective?
   This is only limited through the administrative side of the system.

28. If a WIA client does not complete a goal or objective successfully, is that considered a
    negative with our WIA measures?
    For reporting purposes, the outcome of activities in a client’s service plan is more
    important. What appears in the Plan Tab is limited in regard to where the
    information will appear.

29. Will the 205 activity in the enrollment table of the program tab shown as staff created or system
    created?
    It is staff created. However, the comments text box can display “system created from
    creation of an IEP Plan.”
