PROGRAM-SPECIFIC REQUIREMENTS FOR ADULT EDUCATION AND FAMILY LITERACY ACT PROGRAMS

The Unified or Combined State Plan must include a description of the following as it pertains to Adult Education and Literacy programs under title II, the Adult Education and Family Literacy Act (AEFLA).

ALIGNING OF CONTENT STANDARDS

Describe how the eligible agency will, by July 1, 2016, align its content standards for adult education with State-adopted challenging academic content standards, as adopted under section 1111(b)(1) of the Elementary and Secondary Education Act of 1965, as amended (20 U.S.C. 6311(b)(1)).

Tennessee is a College and Career Readiness Standards in Action State. Tennessee has adopted the College and Career Readiness Standards developed by OCTAE and has provided training to all adult educators across the state in the standards. All AE content has been aligned to these standards as of July 1, 2016. To accomplish this goal, a Curriculum Advisory Team (CAT) has been formed composed of Supervisors and Instructors from the field as well as state staff. The CAT is currently undergoing rigorous training on the College and Career Readiness Standards as part of Tennessee Adult Education’s participation in the United States Department of Education sponsored College and Career Readiness Standards in Action Project. Since the development of the CAT team, instructor training has been designed to focus on the incorporation and application of the standards. As well as keeping instructors trained, Tennessee Adult Education purchases curriculum designed to meet College and Career Readiness standards and requirements, and only uses verified literature that aligns with the standards.

For the next two years, Tennessee will focus efforts on training for College and Career Readiness standards, and work to adapt the delivery of the instruction for the greatest benefit to participants. Because of the difference in nature of adult education students and the traditional K-12 student, Tennessee is working towards providing workforce preparation instruction in addition to the College and Career Readiness standards. The life circumstances of Adult Education participants requires an immediate need to be prepared for jobs, which does not always entail an all-inclusive career pathway, but instead, training and education of what employers expect and how best to improve chances of success on the job. Working towards this goal is based on the realization that not all individuals seeking adult education services desire to go to postsecondary, but may only need instruction for workforce purposes.

Tennessee provides professional development to its programmatic staff as well as technical assistance when needed and includes talking points concerning the provision of providing services to those with barriers. Subrecipients are required, when applying for the grant, to provide a description and plan to ensure that the program is made available for any participant despite the individual’s gender, race, national origin, color, disability, or age. Subrecipients are required to provide classes and services within counties where the need is greatest despite the six elements mentioned above. Classes are made available to all, and are advertised as such through literature and media, so as to reach the population in need of Adult Education services. Equitable access is further insured through the monitoring process (EEO signs are posted in locations where Adult Educaiton services are provided and are a requirement). All services provided are provided with the intent to reach those with barriers and make services available to all who wish to partake.
