Coverage Lookup and Notification of Early Cancellation of Policy

Tennessee Bureau of Workers’ Compensation is proud to offer the public the ability to register and receive notification of policies that have been canceled prior to the termination date of the policy based on a search of the National Council on Compensation Insurance (NCCI) database via the Verification of Coverage link on the http://www.tn.gov/workforce website. This service was developed with assistance provided by the South Carolina Workers’ Compensation Commission.

A contractor may employ the services of many subcontractors. Tenn. Code Ann. § 50-6-914 holds a contractor (i.e. general contractor, intermediate contractor or subcontractor) responsible for work-related injuries and deaths sustained by uninsured contractors and their employees while performing work on behalf of the contractor. Many contractors require their subcontractors to procure a policy of Workers’ Compensation coverage to protect the contractor, the subcontractor and the subcontractor’s employees. This imposes a significant burden upon the contractor to ensure that each Certificate of Insurance provided is current, correct and valid. This notification service provided by the Bureau, which will electronically generate a notification of cancellation of a subcontractor’s coverage and transmit that data to all parties registered with this service, will greatly reduce that burden, improve the likelihood that all parties comply with the workers’ compensation laws, provide a safety net of benefits to construction employees, and reduce incidents of fraud.

Parties likely to be interested in this service include residential and commercial general contractors, intermediate contractors, subcontractors, and their employees; Workers’ Compensation insurance providers their agents and adjusters; property & casualty insurance agents; landscapers, other industries that use subcontractors; the Tennessee Uninsured Employer’s Fund and the Tennessee Employee Misclassification Education and Enforcement Fund; other government agencies responsible for enforcement of insurance fraud laws; and the citizens of Tennessee whose tax dollars support law enforcement efforts and who pay higher premiums when costs of fraud are passed through to consumers.
Registration for Notification of Early Cancellation of Policy

To register an email address to receive notification of early cancellations of workers’ compensation insurance policies, please follow the steps provided below.

2. Acknowledge and affirm notification of disclaimers by clicking “Accept.” Next enter the security code for access to NCCI’s search and click “Submit.”
3. Enter the search criteria for the Employer (contractor, intermediate contractor, or subcontractor) in question. You can enter a specific coverage date you want to verify or you can leave the date blank to default to the current date. Click “Search”. Search results will display below.

If coverage information is available, the following screen will be presented. If more than one name is shown, click on the name of the employer you are researching and the hyperlink will take you to the policy information that corresponds with the date you entered in the previous step.
4. The next screen will list information for the policy in place for the date selected. If you would like to request any early cancellations that might occur for the policy selected, click on the link provided.

5. Enter and confirm your email address.

Upon successful submission you will receive a notification that the request was received.
