**Amusement Device Notice March 10, 2021**

**Qualified Inspector Directory (QID) Addition to Website**

The Amusement Device Unit has added a **Qualified Inspector Directory** to the “Find an Inspector” page of our website to provide our customers with a more localized directory of available qualified inspectors.

Click the link below to access this new directory.

[Find an Inspector](#)

***Approved certifying agencies and/or qualified inspectors who wish to be added to the new directory should contact any member of the Tennessee Amusement Device Unit and provide the necessary credentials. The directory will be reviewed and updated as necessary on or around the first of each month.***

The “Find an Inspector” page of our website will continue to provide the comprehensive directories of qualified inspectors from each of the three state-approved certifying agencies’ (ACCT, AIMS, and NAARSO) websites.

The department’s goal is to verify that all amusement devices can be safely operated.

Thank you for your cooperation.
