Procurement Guidelines
Grant funds can be used to purchase supplies or equipment to assist in providing program services and training in a virtual setting. The definition of equipment is found at 2 CFR 200.33. The definition of supplies is found at 2 CFR 200.94. Laptops and tablets usually fall within the definition of supplies, which do not need grant officer approval. The Uniform Guidance at 2 CFR 200.302 and § 200.303 requires that all funds, property, and other assets be safeguarded against loss from unauthorized use or disposition. The grant recipient and its service providers must have sufficient internal controls and policies in place to account for all assets.
To meet the above criteria regarding the purchase of laptops or tablets, if employment and training services are funded via an Individual Training Account (ITA), the participant provides documentation from service provider to the case manager indicating the need for a laptop or tablet to successfully complete training. Case manager records the need in the case notes uploading the document with the ITA packet and subsequently creates the voucher in case management system. Where the participant is unable to obtain supportive services through other programs, grantee supportive services funds may be provided to assist with books, fees, school supplies, and other necessary items for students enrolled in post-secondary education classes 20 CFR §681.570(k). These purchases are not subject to prior State approval.

The Grantee shall comply with 2 C.F.R. §§ 200.318—300.326 and all other requisite regulations when procuring property and services.
