Due to institutional closings and consolidations, population averages have been combined as follows:

- MLCC transitioned from a male to a female facility in FY 1999-00.
- DSNF transitioned from a coed facility to a male facility in FY 2001/2002
- WCFA opened October 28, 2002.
- BMCX and MCCX were separated on June 25, 2006

NOTE: This report reflects an average of the daily counts at each institution which are reported via the *TDOC Population Overview Report* produced by the TDOC Classification section

DEFINITIONS

TOTAL BEDS AVAILABLE

Institutional capacity designed and constructed for housing inmates sentenced by courts. This category includes general prisoner population, segregation, classification, and special programs, e.g., mental health and health.

TDOC OPERATING CAPACITY (DESIGNATED CAPACITY)

Reference: TCA 41-1-503

Operating capacity is based upon the number of total beds available and the designated use of certain beds. The OPERATING CAPACITY indicates the population which should be assigned to the institution on a regular basis. The underlying logic is to exclude from capacity beds for special purposes such as medical or mental health reasons, disciplinary segregation, protective custody, and maximum security. The Department's operating capacity is currently set at 98% of total beds available.

POPULATION

The POPULATION reported is the assigned count on the last day of the month. It includes inmates on furlough, out to court for appearances, in the hospital, or on escape status. All of these are expected to return to in-house custody.
