FELON POPULATION UPDATE USER'S GUIDE

Incarcerated Population

TDOC Backup: Felons sentenced to TDOC custody and held in local jails while awaiting transfer to a TDOC institution.

Locally Sentenced: Convicted felons sentenced to serve their time in a local jail. As felony offenders, these persons are under TDOC jurisdiction.

Other Convicted Felons: Convicted felons awaiting sentencing or not yet ready for transfer to TDOC because of other pending charges. Includes technical violators awaiting probable cause/revocation/recission hearing or adjudication of pending charges.

Convicted Misdemeanants: Inmates serving time because of a misdemeanor conviction.

Total Pre-Trial Detainees: Includes inmates charged with either a felony or a misdemeanor but not yet convicted.

Others: Inmates held in local facilities for federal crimes, city ordinances, etc.

Community Corrections: A grant program created in 1985 as an alternative to incarceration. Programs are developed based on the individual needs of the area served.

Admissions

New Commits: Refers to any person convicted of a felony sentenced to TDOC, but who is not on probation or parole. This may include persons who had prior incarcerations.

Violators Returned: Refers to commitment of felons on technical violations of the conditions of their parole or probation, or community correction terms.

Releases

Parole: Felons originally sentenced to an incarceration period and released to serve the remainder of their sentence under supervision.

Probation-Community Correction: Usually non-violent felons sentenced to serve a split sentence; a short jail or prison term and the remainder under state supervision.

General Notes

Backup: All offenders sentenced to TDOC custody are counted as admissions. Some offenders are held in backup at a local jail while awaiting transfer to a TDOC facility. This is due to lack of room for all offenders in TDOC facilities. Offenders in backup can be released for a number of reasons before they are transferred to TDOC. Inmates released from Backup to a TDOC facility are not counted as releases.

Primary Offense: As of July 2000, offenses are categorized according to the Tennessee Incident Based Reporting System (TIBRS) which is based on the FBI's National Incident Based Reporting System (NIBRS). This system of reporting is an attempt to standardize categorical offense reporting across criminal justice agencies. For more detail on how TCA code is categorized according to the TIBRS system, see the TBI website at http://www.tbi.tn.gov/tn_crime_stats/tibrs_reported.shtml or the TDOC Research Brief, "Assessing the Impact of the TIBRS on TDOC Criminal Offense Reporting."

Admission statistics are incomplete because all data are not received by TDOC immediately after sentencing. In some cases information is not received until several months after sentencing. Therefore, the numbers for any given month may be different from the previous month's report.

**The "TDOC" category of admissions is a combination of convicted felons housed in DOC facilities and jail backup.*

Parole statistics are incomplete because all data are not received by TDOC immediately after inmates are paroled. Therefore, the numbers for any given month may be different from the previous month's report.

FELON POPULATION UPDATE USER'S GUIDE

Incarcerated Population

TDOC Backup: Felons sentenced to TDOC custody and held in local jails while awaiting transfer to a TDOC institution.

Locally Sentenced: Convicted felons sentenced to serve their time in a local jail. As felony offenders, these persons are under TDOC jurisdiction.

Other Convicted Felons: Convicted felons awaiting sentencing or not yet ready for transfer to TDOC because of other pending charges. Includes technical violators awaiting probable cause/revocation/recission hearing or adjudication of pending charges.

Convicted Misdemeanants: Inmates serving time because of a misdemeanor conviction.

Total Pre-Trial Detainees: Includes inmates charged with either a felony or a misdemeanor but not yet convicted.

Others: Inmates held in local facilities for federal crimes, city ordinances, etc.

Community Corrections: A grant program created in 1985 as an alternative to incarceration. Programs are developed based on the individual needs of the area served.

Admissions

New Commits: Refers to any person convicted of a felony sentenced to TDOC, but who is not on probation or parole. This may include persons who had prior incarcerations.

Violators Returned: Refers to commitment of felons on technical violations of the conditions of their parole or probation, or community correction terms.

Releases

Parole: Felons originally sentenced to an incarceration period and released to serve the remainder of their sentence under supervision.

Probation-Community Correction: Usually non-violent felons sentenced to serve a split sentence; a short jail or prison term and the remainder under state supervision.

General Notes

Backup: All offenders sentenced to TDOC custody are counted as admissions. Some offenders are held in backup at a local jail while awaiting transfer to a TDOC facility. This is due to lack of room for all offenders in TDOC facilities. Offenders in backup can be released for a number of reasons before they are transferred to TDOC. Inmates released from Backup to a TDOC facility are not counted as releases.

Primary Offense: As of July 2000, offenses are categorized according to the Tennessee Incident Based Reporting System (TIBRS) which is based on the FBI's National Incident Based Reporting System (NIBRS). This system of reporting is an attempt to standardize categorical offense reporting across criminal justice agencies. For more detail on how TCA code is categorized according to the TIBRS system, see the TBI website at http://www.tbi.tn.gov/tn_crime_stats/tibrs_reported.shtml or the TDOC Research Brief, "Assessing the Impact of the TIBRS on TDOC Criminal Offense Reporting."

TDOC BED SPACE AND OPERATING CAPACITIES

TOTAL ACTIVE BEDS AVAILABLE

Institutional capacity designed and constructed for housing inmates sentenced by courts. Speciality beds, where an offender is held for a limited time, are not included in the total active bed count.

TDOC OPERATING CAPACITY (DESIGNATED CAPACITY)

Operating capacity is based upon the number of total active beds available and the designated use of certain beds. The OPERATING CAPACITY indicates the population which should be assigned to the institution on a regular basis. The underlying logic is to exclude from capacity beds for special purposes such as medical or mental health reasons, disciplinary segregation, protective custody, and maximum security. The Department's operating capacity is currently set at 98% of total beds available.

POPULATION

The POPULATION reported is the **assigned count** on the last day of the month. It includes inmates on furlough, out to court for appearances, in the hospital, or on escape status. All of these are expected to return to in-house custody.

The data used for this report was extracted by Strategic Technology Solutions (STS), a division within the Tennessee Department of Finance & Administration, from the Tennessee Offender Management Information System (TOMIS) and summarized by Decision Support: Research & Planning of the Tennessee Department of Correction.

FREQUENTLY ASKED QUESTIONS (FAQ)

Q: How is the felon recidivism calculated?

A: The felon recidivism rate is based upon the # of unique felons released from incarceration and the # of those unique felons who subsequently return to incarceration within three years of release.

Reincarceration is considered recidivism and is tracked in the Tennessee Offender Management Information System (TOMIS). Please note that reincarceration counts both offenders who are arrested and placed in jail who have not been found guilty of a crime, as well as offenders who are convicted of committing a new crime.

For instance, 16,558 unique offenders were released statewide from incarceration during calendar year 2014. A total of 7827 of those unique offenders released from incarceration in calendar year 2014 returned to incarceration by the end of calendar year 2017. Therefore, the recidivism rate for unique offenders released from incarceration in 2014 is 47.27%.

Q: What does unique offender mean?

A: Unique offender refers to a single person and measures recidivism for the three-year period following the unique offender's release from incarceration. A unique offender is considered a recidivist upon their first reincarceration after release.

So, multiple reincarcerations during the three-year period following release would not create a "new" unique offender or create a different recidivism outcome.

Q: How is the prison recidivism rate different from the jail recidivism rate?

A: The prison recidivism rate is based upon felons released from incarceration at one of the 14 state prisons. The jail recidivism rate is based upon felons released from county jails in Tennessee.

Q: When a felon is released from prison or jail after completing their sentence (and therefore they are not released to any type of probation or parole), then is that person tracked for recidivism purposes through TOMIS upon their release?

A: Yes. Offenders are tracked for re-incarceration whether they were released to community supervision or expired their sentence.

COMMUNITY CORRECTIONS RECIDIVISM RATE

The recidivism rate measures the proportion of incarcerated offenders that were released to Community Corrections and are subsequently re-incarcerated within three years. The 2010 study suggested that changes in the structure of program delivery within Community Corrections as well as review of selection criteria for those released to Community Corrections might offer more desirable outcomes in the future. Ten years later, Community Corrections continues to maintain high recidivism rates.

*Currently 3 out of 4
incarcerated offenders
released to Community
Corrections are returned
to incarceration within
three years.*

INCIDENT REPORT USER'S GUIDE

The monthly Incident Report provides a summary of TDOC incidents that have occurred at facilities operated by TDOC and those contracted for operation by CoreCivic. The CoreCivic operated facilities are HCCF, SCCF, TTCC, and WCFA.

“Incident” refers to an event that has been documented in the Tennessee Offender Management Information System (TOMIS).

Causes of Death may change after the death certificate is received.

Please note that most incidents reported in the monthly summary may include more than one participant or infraction while other incidents are by definition about a single participant (ex: death or suicide).

The Incident Summary does not include the following incidents:
