We support the development of the Binghampton Community School that will not only educate children but provide support services for the families whose children attend the school. The holistic vision of the Maslow Team and their efforts to involve the community in the development of this school are important ways of acknowledging both the strengths and needs of this neighborhood. In a city where so many children are falling through the cracks in education, this approach and the school being proposed are greatly needed and ought to be approved with charter status.

Please provide your written comments below	I believe there should be more options and opportunities for the Binghampton community. BCS has an interesting holistic approach to the school and community. Another option should be available and BCS will provide this.

I am a small business owner in Binghampton and have built relationships with families throughout the neighborhood. From my experience with the community, I have learned that there is definitely a great need for an additional K-5 quality school in Binghampton. I particularly like how the Binghampton Community School will be so integrated into the community, that is is focused on family involvement, literacy and physical/mental health. We look forward to partnering with BCS and hope they will be able to launch their school in Binghampton soon. Thank you!
